Review by the Standing Committee of the Administration Report of the Municipal Commissioner for the year 1897-98.

1. During the year under review the office of President of the Corporation was held by Sir George Cotton, Kt., that of Chairman of the Standing Committee by the Hon'ble Mr. Bhalchandra Krishna Bhatwadekar, L.M., and that of Municipal Commissioner by Mr. P. C. H. Snow, I.C.S., C.I.E. Mr. J. H. DuBoulay, I.C.S., was Deputy Municipal Commissioner up to the 2nd March 1898. The Corporation had to deplore the death of four of its members, *viz.*, the Hon'ble Mr. Abdalla M. Dharamsi, Mr. Bomonjee Pestonjee Master, the Hon'ble Mr. Javerilal Umiashankar Yajnik, and Rai Bahadur Luchmon Singh; and it lost the valuable services of two very meritorious officers by the death of Mr. Sorabjee Nowrosjee Cooper, Chief Accountant, and Mr. Howard Newton, Acting Deputy Executive Engineer, Water Works.

2. 48 meetings of the Corporation were held during the year. There were also 3 meetings of the Committee of the whole Corporation. The Standing Committee met 61 times, and other Committees of the Corporation held 32 meetings. Of Sub-Committees of the Standing Committee there were 8 meetings.

Financial.

3. The effect of the Plague on the finances of the year was even more disastrous than in the preceding year. The opening balance, including recoverable advances, reserve stock, &c., and, excluding deposits, unexpended loan balances and minor adjustments, was Rs. 29,76,552-15-10. Deducting from this amount Rs. 9,01,840-12-6 advanced for reserve stock, and Rs. 6,71,162-7-11 on account of lapsed grants for previous years renewed during the year of report, and also the minimum cash balance of Rs. 1,00,000 required by law (total Rs. 16,73,003-4-5), the unappropriated surplus cash balance at the beginning of the year was Rs. 13,03,549-11-5. Adding to the gross opening balance of Rs. 29,76,552-15-10 the revenue realized during the year, Rs. 71,45,560-[illegible]

the total amount available for expenditure was Rs. 1,01,22,113-8-3. Out of this the amount spent during the year was Rs. 74,96,969-2-10, so that the operations of the year resulted in an apparent surplus of Rs. 26,25,144-5-5. This sum, however, does not represent the amount actually available at the end of the year for further requirements since it includes—

Rs.	5,83,509	8	1,	being the amount of lapsed grants for the year of report and previous years to be renewed in 1898-99 ;
Rs.	9,03,586	11	9,	being the value of reserve stock ;
Rs.	8,12,546	4	8,	being the net advance made up to 1897-98 for purchase of land on the Agripada Estate, &c., which was expected to be recouped by the sale of frontage lands but cannot now be so recouped as the lands have been made over by Act IV of 1898 to the City of Bombay Improvement Trust ; and
Rs.	1,00,000	0	0,	being the minimum cash balance required by law.
Total Rs.	23,99,642	8	6	

The actual unappropriated surplus cash balance was thus reduced from Rs. 13,03,549-11-5 at the opening of the year to Rs. 2,25,501-12-11 at its close, showing a loss during the year of over 10¾ lakhs.

4. *Income.*—The budget estimate of Income for 1897-98 was Rs. 67,90,100. The actuals for 1896-97 were Rs. 62,08,977-11-2. The revenue realized during 1897–98 amounted to Rs. 71,45,560-8-5, or more than the estimate by Rs. 3,55,460-8-5 and more than the previous year's revenue by Rs. 9,36,582-13-3. But the figure of revenue realized is swelled by the inclusion in it of a book entry of Rs. 4,37,055-0-1, which sum having been expended in 1896-97 from current revenue on plague accounts, a rebate was allowed to current revenue in 1897-98 in view of a loan of 20 lakhs which was sanctioned to be raised for plague purposes. Reduced by this amount the revenue of the year falls below the budget estimate by Rs. 81,594-7-8. Still it was better than the revenue of 1896-97 by Rs. 4,99,527-13-2 the increase being mainly due to the recovery of large outstandings and to a substantial increase in the receipts

from Town Duties, some of which may, however, be lost by refunds.

5. *Expenditure.*—The amount allotted for the expenditure of the year (inclusive of additional grants under Section 131 of the Municipal Act, renewed lapsed grants under Section 132, and transfers under Section 133) aggregated Rs. 84,41,310-11-8. Against this the actual disbursements amounted to only Rs. 74,96,969-2-10, which was short of the estimate by Rs. 9,44,341-8-10. Compared with the expenditure of 1896-97 the expenditure of the year of report shows an increase of Rs. 4,92,226-8-11. Out of the unexpended balance of Rs. 9,44,341-8-10 a sum of Rs. 5,83,509-8-1 is shown as "Amount renewed during 1898-99," leaving a net saving of Rs. 3,60,832-0-9 only over the estimate. The amount shown above as "Renewed during 1898-99" is explained by the Chief Accountant to be for liabilities incurred but not paid during the past year; for defraying the cost of works not completed; and for providing for works sanctioned but not taken in hand. The remarks made by the Chief Accountant in paras. 10 and 13 of his report and the figures quoted by him in support of his remarks indicate a faulty system of framing the estimates, which will no doubt receive the Commissioner's attention. The Standing Committee concur with Mr. Waite that at a time when the maximum limit of taxation fixed by law is being approached, it is more than ever necessary that estimates of expenditure should be framed with stricter attention to actual requirements than appears hitherto to have been the case, so as to admit of the financial position being gauged with accuracy.

6. Statements A and B printed at pages 11 and 12 of the Commissioner's report exhibit the main heads of revenue and expenditure as compared with the budget estimate for 1897-98 and the actuals for 1896-97.

The *General Tax* shows an increase of Rs. 2,01,319-12-11 over the previous year. About $\frac{3}{5}$ths of this increase is due to an expansion of revenue, the remaining $\frac{2}{5}$ths being ascribable to the collection during the year of a substantial portion of the outstandings left at the end of 1896-97.

Under *Water Tax and other Miscellaneous Water Works Revenue*, there is a decrease of Rs. 68,558-0-7. Some portion

of this is due to a decreased consumption of water by mills owing to the effect of plague on the mill industry of Bombay; but the greater portion of the decrease is nominal, being due to the fact that, under the terms of the Standing Committee's Resolution No. 1644, dated the 12th May 1897, bills for water supplied by meter were not prepared for the quarter ending 31st December 1897, but for the half-year ending 31st March 1898, thus deferring till 1898-99 the collections (aggregating about Rs. 1,75,000) for the third quarter of the official year. There was during the year a very satisfactory reduction of outstandings from Rs. 1,06,938-7-9 to Rs. 42,192-15-5.

The *Halalkhor Tax* brought in Rs. 46,999-8-8 more than in the previous year, the result being solely due to collection of outstandings, but for which the item would have shown a decrease since there was a large falling off in the receipts for the special halalkhor tax on mills, due to absence of work-people on account of plague.

From *Wheel Tax and Toll Fees* the receipts, though less by Rs. 27,662-0-9 than the estimate, were in excess of the previous year's receipts by Rs. 1,00,156-9-9—a result brought about partly by an increase in the number of labour carts, recklas and victorias licensed in 1897-98, but mainly to a restoration to the former rates of the wheel tax on these public conveyances which was specially reduced in 1896-97 in consideration of diminished earnings due to plague. The reason why the increase was not fully up to the estimate was a smaller revenue from the tax on private vehicles and animals in consequence of the plague.

The revenue from *Town Duties* shows the large excess of Rs. 3,06,280-4-9 over the year 1896-97 and is also in excess of the budget estimate by Rs. 38,424-1-1. But it must be remembered that Town Duty collections become net revenue only after all refunds of Duty on goods exported have been paid and that goods which have paid duty in one year may not claim refund till the year following, and as the importation of sugar into Bombay in the year of report appears to have been abnormally large and more so in the last three months of the year, it must be understood that a good portion of the excess will ultimately prove to have been only nominal.

Market Receipts were less than in 1896-97 by Rs. 29,265-10-1 and less also than the budget estimate by Rs. 40,462-4-3, the falling off being undoubtedly an effect of plague.

Under *Returns from other Property and Miscellaneous* there is a decrease of Rs. 63,860-14-9 as compared with the previous year, and of Rs. 40,591-0-7 as compared with the budget estimate. The decrease is due to loss of interest owing to a large reduction in the invested balances caused by the necessity of financing for plague expenditure and to the non-realization of the net premia which was expected on the 5¾ lakhs of the 15¾ Lakhs Loan which was to be raised in 1897-98, but was not raised in the unsatisfactory state of the money market.

7. Turning to the statement of expenditure, page 12, it is a significant fact bearing testimony to the defective manner, above alluded to, of framing the estimates that the expenditure has not come up to the budget estimate under thirteen out of the fourteen heads given in the statement and is in many cases very largely below the estimate, and on the whole falls short of it by the large sum of Rs. 9,44,341-8-10. Most of the heads, however, show an increase over the actuals of 1896-97.

Under *General Superintendence* an increase of Rs. 15,150-14-7 was due to the appointment of a Deputy Municipal Commissioner.

On *Public Works Ordinary*, the expenditure (Rs. 14,70,809-7-5) was more than two lakhs below the estimate, but in excess of the actuals of 1896-97 by Rs. 62,164-0-5, most of which is accounted for by the necessity of effecting heavy repairs to the Kasheli embankment, reconstructing a portion of the Tansa duct and maintaining new roads constructed by the Municipality and the Port Trust.

The expense of maintaining the *Public Health Department* amounted to Rs. 15,86,632-15-1, which is about 1¾ lakhs more than in the previous year. This large increase is mainly due to the more extensive arrangements which had to be made for the health and conservancy of the city. Deputy Health Officers and an extra Assistant Health Officer had to be employed and heavy expenditure was incurred on the Arthur Road Infectious Diseases Hospital in consequence of the relapsing fever epidemic.

Under *Municipal Debt* the expenditure amounted to Rs. 22,60,571-4-6, its excess over the figure for 1896-97 being above 2 lakhs. The increase is due partly to the payment of outstanding interest on different loans, partly to the paying off of a large amount of the Drainage Loan of 1878 and partly to payment of interest on, and the investment of Sinking Fund for, the first instalment of Rs. 10 lakhs of the 15¾ Lakhs Loan raised in December 1896.

Under *Police* the expenditure fell from Rs. 5,51,589 in 1896-97 to Rs. 5,00,000 in the year of report, it being more by Rs. 51,589 in the former year on account of the payment of arrear charges to Government in that year.

The payment of increased contribution towards Primary Education raised the expenditure under *Education* from Rs. 88,888-8-7 in 1896-97 to Rs. 1,02,623-10-8 in the year of report, an increase of Rs. 13,735-2-1.

The *Plague Expenses* incurred by the Municipality from revenue during the year amounted to Rs. 5,00,000. This was more than in 1896-97 by Rs. 62,944-15-11 and was of course exclusive of the large expenditure from loan funds and other balances to be referred to below, incurred by the Plague Committee and the Municipality. The amount will be hereafter adjusted by transfer to loan charges.

8. *Loan Works.*—The table given in para. 34 of the Commissioner's report shows that the expenditure incurred in the last five years on the principal loan works in progress aggregated Rs. 71,73,455-7-2. The amount of this expenditure in 1897-98 was Rs. 29,13,192-8-10, which is nearly three times the average of the previous four years. The bulk of it was plague expenditure amounting to Rs. 17,62,838-11-7, exclusive of the Rs. 5,00,000, referred to in para. 7 above, met from current revenue and Rs. 2,13,777-7-2 advanced to the Chairman, Plague Committee, and to certain Municipal officers and others. Rs. 4,87,335-1-0 were spent on sewerage works, and Rs. 1,20,639-12-8 on roads; while minor and other sanitary, &c., works absorbed Rs. 4,27,220-0-8, and the remainder was spent on markets and water works.

9. *Plague Expenditure.*—Up to the end of the year of report a total sum of Rs. 24,76,616-2-9 had been spent on plague operations, Rs. 13,26,116-2-9 having been spent directly by the Municipality in the 18 months ending 31st March 1898, and Rs. 11,50,500 in 12 months by the Plague

Committee. The details of this expenditure will be found in statements A and B given as Appendix 9 (pp. 234—239) of the Chief Accountant's Report. For financing plague charges a loan of 20 lakhs was arranged for from the Bank of Bombay, of which 12 lakhs were taken up in the year of report. Rs. 5,00,000 of the plague charges were paid from revenue and the remaining Rs. 19,76,616-2-9 from surplus, loan and other balances.

10. *Liabilities and Assets.*—The total Municipal debt on 31st March 1898 amounted to Rs. 4,11,20,497-12-9 against Rs. 3,84,91,027-15-5 at the close of 1896-97, being an increase of Rs. 26,29,469-13-4. The amount borrowed during the year was Rs. 27,00,000 taken as a temporary loan from the Bank of Bombay. The amount repaid during the year was Rs. 70,530-2-8 made up of Rs. 12,530-2-8 on account of the Vehar debt and Rs. 58,000 on account of the Drainage Loan of 1878. Adding to this other liabilities, the aggregate liabilities of the Municipality on 31st March 1898 were Rs. 4,16,54,268-11-4 against a total figure of assets made out at Rs. 5,66,61,883-12-10 showing an excess of assets over liabilities of Rs. 1,50,07,615-1-6, not an unsatisfactory condition of affairs if the accuracy of the figures was beyond question. But the Chief Accountant, while certain of the liabilities, doubts if the assets are all genuine and points out that booked values of some recently acquired properties have not been fixed, that the valuation of other properties is as old as 1883-84, that depreciation has not been charged off, and that in the stores account useless, obsolete and depreciated stores are entered at original values. The Commissioner will no doubt see to the remedying of such defects.

11. *Stores.*—The remarks of the Chief Accountant in paras. 57-59 of his report disclose a very unsatisfactory system of purchasing and accounting for stores, and the Standing Committee trust that the matter will be carefully enquired into by the Commissioner and the result placed before them at an early date with any proposals he may think suitable for ensuring the proper working and supervision of this department.

Assessment and Collection of Revenue.

12. *Registration of Properties.*—53,165 properties stood registered on the Assessment Book at the end of the year

under report against 52,959 at the end of the year before, being an increase of 206 properties. 40,685 of these properties, of the total value of Rs. 2,67,21,128, were assessed for the general tax, the remaining 12,480, valued at Rs. 27,61,677, were either exempt or compounded for on special terms or unproductive and untaxed. The total value of all these properties is recorded at Rs. 2,94,82,805, which is an increase of Rs. 5,55,187 over the previous year. 755 buildings were demolished, 351 new buildings erected, and 153 existing properties enlarged during the year.

13. *Property Taxes.*—The *General Tax* levied at 8½ per cent. on rateable values amounted to Rs. 17,94,227-6-5 against Rs. 17,55,849-8-1 in the previous year (increase Rs. 38,377-14-4). The compounded sums paid by Government and the Port Trustees were the same as in the year before, *viz.*, Rs. 98,374 and Rs. 1,52,482 respectively. The *Water Tax* demands fell from Rs. 14,54,547-12-11 in 1896-97 to Rs. 12,42,199-14-10 in the year of report, the decrease of Rs. 2,12,347 being due to the cause mentioned in para. 6 above. The *Halalkhore Tax* levied for special service was Rs. 14,467-14-6 less than in the previous year, owing to mills working short-handed by reason of plague, but the deficiency was more than made up for by increased levies of the tax on value, and, on the whole, there was a net increase of Rs. 1,048-3-5, the total demand for the year being Rs. 6,98,561-5-11.

14. *Tax on Vehicles and Animals.*—The diminished revenue from private conveyances has been referred to in para. 6 above. With reference to this the Assessor and Collector notes as follows :—

"I attribute the decrease to the fact of a large number of wheel-tax-paying inhabitants having left the City on account of plague; they took their vehicles and animals with them, and though many of the people returned themselves, left their carriages and horses behind, pending decision for final return. We will have to wait a year or so before this tax shows an increase."

15. *Appeals.*—There were only 9 appeals to the Chief Judge of the Court of Small Causes, Bombay, all against valuation of property. Two of these were withdrawn by the appellants, five settled by consent, and two dismissed.

Revenue Audit.

16. In the report of this department it is sufficient to notice the subject of Town Duties. These were, as usual, collected for the Municipality by the B. B. & C. I. and the G. I. P. Railway Companies and the Bombay Port Trustees. The rates being the same as in the previous year, the figures given below indicate a considerable increase in the collections, coupled with a small fall-off in the refunds, resulting in an additional revenue of Rs. 2,48,316-9-6.

	1896-97.	1897-98.
	Rs. a. p.	Rs. a. p.
Gross Revenue...	15,30,411 2 1	17,39,760 15 7
Refunds	7,86,771 1 0	7,37,804 5 0
Net Revenue ... ... Rs.	7,43,640 1 1	9,91,956 10 7

The increase was from every article which pays Town Duty, but by far the most considerable increase was from sugar, the very large imports of which can hardly all be to meet increased local demands, so that it may well be expected that some portion of the year's revenue may still disappear in the shape of refunds on exports in 1898.

Special Drainage.

17. *Unfinished Works.*—The progress of these is described below, the names of the works being printed in italics. The *Colaba Sewerage Works* were completed at a total cost of Rs 8,21,010-9-5, only Rs. 3,848-10-2 being spent in the year of report. On the *Umarkhadi Sewerage Works*, which were also completed, Rs. 61,871-9-11 were expended in the year, bringing up the total expenditure to Rs. 3,52,239-3-9. The *Parel Sewerage Works* (*gravitation portion*) were completed at a total cost of Rs. 62,081-1-5. The *Mazagon Sewerage Works* (*gravitation portion*) were very near completion, the total amount expended on them being Rs. 2,55,568-14-11 out of the sanctioned grant of Rs. 3,32,661. The *Malabar Hill and Khamballa Hill Sewerage Works* (*gravitation portion*) were completed by the Contractor, Mr. Sayaji Naguji, by the end of February 1897, which was three months within the contract period and the final

accounts were certified and passed in September 1897 at Rs. 1,08,552 for the total cost. The amount spent on *House Drainage Connections (street portions) in the Colaba District* was Rs. 6,866-8-9 on making 189 connections. The *Fergusson Road and Chinchpoogly Sewerage Works* were completed at a cost of Rs. 85,361-6-3, and the work of *Draining Storm-water from roads around Mahaluxmi Dhobiwada* at a cost of Rs. 1,156-0-3. The laying of a *9" Pipe drain for the carriage of storm-water to the sea from the southern part of Wodehouse Road* cost Rs. 1,992-1-3. A *12" Stoneware Pipe Sewer from the Emergency Reservoir at the Wellington Fountain to the Manhole in Apollo Street opposite the Dockyard* was laid at a cost of Rs. 3,189. It is satisfactory that the sanctioned grant was not exceeded in the case of any of the works completed. On the contrary, in most cases there were substantial savings.

18. *New Works.*—Among the principal new works completed were:—the Old Race Course sewerage works (gravitation portion); the improvement of road-side drains and provision of water gullies in the Khetwadi District; ovoiding side drains in Girgam Road and Pathan Street; storm-water drains in Rampart Row, Wodehouse Road, Lower Colaba Road, Thomas Street and the eastern foot of Wodehouse Bridge; and an arched mansonry drain between Gilder Lane and the B. B. & C. I. Railway. The actual cost of these works is not stated, as in most cases the final bills had not been passed before the end of the year, but it is not expected that in any case it will go beyond the sanctioned grants. The principal new works which were still in progress at the end of the year are:—a masonry drain from Girgam to Back Bay; a storm-water drain from the Wellington Fountain to the sea; and the improvement of road-side drains and water-courses in and about Dadar Road.

19. *Other Drainage Works.*—Arrangements were made during the year for starting the following important works sanctioned by the Corporation, the first of which is expected to be completed by the 31st March 1900:—

Machinery for the sewerage of the Parel, the Old Race Course, the Malabar Hill and Khambala Hill, the Elphinstone Reclamation and the Fergusson Road and Chinchpoogli Sectional Districts (on Shone system)	Rs. 8,77,625.
Mazagon District (Sectional)	„ 3,30,072
Total ...	Rs. 12,07,697

20. *The Colaba Air Compressor Station.*—This station and the ejector stations working in connection therewith worked satisfactorily during the year without any serious stoppage or breakdown. A population of only 15,000 is at present served by the Shone system, the cost being Rs. 1-4-0 per head, which would without doubt be diminished as the system extends.

ORDINARY DRAINAGE.

21. *The Love Grove Pumping Station* was maintained in a state of efficiency throughout the year at a total cost of Rs. 88,026-5-9, the Worthington engines continuing to give satisfaction. The Executive Engineer notes as remarkable the utter immunity from plague enjoyed by the men working at the station, in spite of some of them frequently coming into contact with the sewage which might be supposed to contain active bacilli.

22. *House Drainage Connections.*—The Executive Engineer reports that the existing house-connections of 98 premises in Mandvi District were put into proper working order at the expense of the house-owners. The drainage fittings of 107 houses in Mandvi and 259 other houses in other localities in which plague cases had occurred were treated at a cost to the owners of Rs. 50,059-0-6. The house drainage connections of 27 houses in Kalachowki Road were made, for which the owners had to pay Rs. 19,867-5-7. In 43 other houses in various parts of the City the sanitary arrangements were remodelled at a cost to the owners of Rs. 43,286-4-6. Besides the street portions of house drainage connections in Colaba executed by the Special Drainage Department, 614 connections were made in various parts of the City at a total cost of Rs. 44,390.

23. *Electrolized Sea-water.*—The plant for providing electrolized sea-water put up in 1896-97 at Carnac Bunder Night-soil Depôt at a cost of Rs. 23,800 was worked during some portion of the year of report, but without any decisive results, the Executive Engineer not being yet in a position to state conclusively how the fluid produced compares in efficiency and cost with other disinfectants. The cost of working and maintaining the plant up to the end of the year was Rs. 1,135-2-8.

24. *Wind Mill and Pump to lift Sub-soil Water.*—These were erected as an experiment at Kamathipura at a cost of Rs. 973-9-10, but so far have had no appreciable effect on the sub-soil water.

25. *Night-soil Depôts.*—The conversion of the Night-soil Depôt at Bhangi Mohola into a Receiving Depôt was completed on the 30th July 1897 at a cost of Rs. 2,953-3-0, and the conversion of the Haines Road Depôt is proceeding.

WATER WORKS.

26. *Tansa Lake.*—The rainfall in 1897 was 104·82 inches. In the two previous years it was 120·13 and 92·37 inches, respectively. After 35·38 inches of rain had been registered, the lake overflowed on 18th July and continued to overflow till the 24th of September. Between 1st October 1897 and 31st of March 1898 the storage of water in the lake above the lowest outlet was diminished from 18,559 millions of gallons to 12,396 millions, showing that 6,163 millions of gallons of water had been drawn off during the six months by supply, evaporation, absorption and leakage. This gives an average of 34·05 millions of gallons per diem. The average daily draw-off for eight months from October 1896 to May 1897 was 39·07 millions of gallons. The quantity of water which passed over the waste weir is estimated at 26,403 millions of gallons. The highest flood was 406·30 T.H.D. on the 8th August 1898. A sum of Rs. 62,115 was sanctioned by the Corporation for repairing the damage caused to the Kasheli Embankment by heavy rain in 1896, and the greater part of the work was finished before the end of the official year. This year also the annual inspection of, and repairs to, the duct could not be effected on account of the heavy demand for water for flushing purposes during the prevalence of plague. Neither was the supply interrupted any day on account of bursts in the 48-inch main, there having been not a single burst in that main during the year.

27. *Vehar Lake.*—The rainfall of 1897 was 97·56 inches. In 1896 and 1895 it was 109·81 and 82·81 inches, respectively. After 68·94 inches of rain and after receiving the Tulsi overflow the Vehar Lake overflowed on 8th August. The overflow ceased on October 7th. There were, on 1st October

1897, 11,425 millions of gallons of water in the lake, which was reduced by 31st March 1898 to 8,906 millions of gallons, the fall of 2,519 millions giving an average daily draw-off of 13·9 millions of gallons, without taking into account the 213 millions of gallons of water given to this lake in the year by the Tansa Lake. 4,287 millions of gallons of water are estimated to have passed over the waste weir.

28. *Tulsi Lake.*—Here the rainfall was 118·66 inches against 139·52 inches in 1896 and 100·40 inches in 1895.

The lake overflowed from 7th August to 9th October. The storage was 2,305·6 millions of gallons on 1st October : on 31st March it was 1,304 millions, that is 1,001 millions less, showing a reduction at the rate of 5·5 millions of gallons per diem. Between the 7th of August and 8th of October, 1,098 millions of gallons of water overflowed the Tulsi waste weir into Vehar. Since April 1896 an arrangement has been made with Government for the supervision of the Tulsi Gathering Ground Forest by their Forest Department.

29. *Pawai Lake.*—The lake is still not available owing to the cost of pumping. The water of this lake is highly charged with vegetable matter, and in the absence of ample filtering arrangements it is considered unsafe to mix it with Vehar and Tansa water.

30. *Reservoirs.*—Rs. 1,23,084-7-4 were spent during the year on covering the storage basin of the Bhandarwada Reservoir and constructing filters over it, but the work is still incomplete. The work of pointing the walls and plastering the floor of the storage reservoir with Indian patent stone was completed at a cost of Rs. 23,086-0-9. Rs. 29,626-0-5 were spent on certain improvements in the Malabar Hill Reservoir.

31. *Distribution and Maintenance.*—Owing to the prevalence of plague a large quantity of water was used for flushing the drains and gutters, and a large number (327) of house-connections were cut off with the object of rendering houses drier and less unhealthy, stand-pipes to the number of 246 being erected instead. 365 other services were disconnected on account of demolition of buildings, non-payment of rates, and other causes. 447 new connections were made,

bringing the total up to 19,815, being an increase for the year of ·5 per cent. 2,209 meters were in use at the end of the year or 162 more than in the previous year, and they registered a total consumption of 1,253,345,113 gallons. The executive are convinced that a large quantity of unmetered water is wantonly wasted by the people, and a Committee of the Corporation is now sitting to investigate the matter and to devise a remedy should the complaint prove to be well founded.

Streets and Buildings.

32. 1,129 applications for buildings were received, which were 132 fewer than in the previous year, a retardation no doubt due to the prevalence of plague. 4,635 notices were issued for compliance with various requisitions under the Municipal Act. These had to be followed up by summonses in 332 cases, of which 223 were withdrawn as the requirements were complied with. In 17 cases parties were convicted and fined in a total sum Rs. 225. 27 buildings or parts of buildings fell. Except in two cases where 5 persons were injured and one killed, there was no injury to life. Set-backs to the extent of 4,086·91 square yards were effected at a total cost of Rs. 1,27,215-1-9.

Roads and Footpaths.

33. A grant of Rs. 3,40,000 was provided in the Budget for repair and maintenance of roads. This was afterwards supplemented by a further grant of Rs. 16,500. Nearly the whole of this amount was spent, but owing to the increasing number of roads it was not practicable to keep the roads in satisfactory condition, and the Executive Engineer is of opinion that larger grants must be made if the roads are to be maintained as they should be. 19 new roads were made over by the Port Trust to the Municipality and 6 more constructed by the Municipality itself. Other roads were under construction. Rs. 1,20,180-10-11 were spent on road-watering, for which now hydrants are employed instead of bullock carts with more economy and with less inconvenience to traffic. In the latter part of the year, in deference to medical opinion that dampness was congenial to plague, road-watering was more or less suspended. 26,740 square yards of footpaths were paved at a cost of Rs. 13,550-6-3. No new tram lines were laid.

Municipal Estates.

34. Under Act IV of 1898 (the City of Bombay Improvement Act), the Agripada Estate admeasuring about 412,815 square yards, the Connaught Road Estate admeasuring about 59,550 square yards, and the Matunga Estate admeasuring about 298,376 square yards will pass from the Municipality to the City Improvement Trust. An account of these estates will be found at pages 318 and 319 of the Executive Engineer's Report.

Town Sweepings.

35. The question of the future disposal of town sweepings was practically settled during the year by sanction to a scheme for transporting them to the village of Devnur. An interesting account of the scheme and of the progress made by it will be found at pages 321 to 324 of Mr. Murzban's Report.

Public Lighting.

36. All the ordinary gas lamps of the City were converted into incandescent ones (numbering in all 3,828) at an expenditure of Rs. 2,08,476-5-8. In addition to these 1,777 kerosene oil lamps were used at a net cost of Rs. 27,634-14-5. The Electric Light Installation for the Municipal Office and the Crawford Markets worked fairly well during the year at a cost of Rs. 10,549-7-3.

Municipal Workshops.

37. The total value of the work done in the year by the Municipal Workshops was Rs. 1,30,562-0-8 inclusive of Rs. 32,890 for supervision charges at 35 per cent. The cost to the Workshops was Rs. 29,852-14-10, so that the net profit realized was only Rs. 1,141-3-4. The question in dispute with Government as to the ownership of the land occupied by the Workshops is still unsettled and delays many needed improvements.

Inspection of Insanitary Houses.

38. For this work, for which authority was received in Government Notification No. P.-228, dated the 10th February 1897, an additional establishment, costing Rs. 2,580 per mensem, was given to the Executive Engineer. 4,886

blocks of buildings, comprising 13,669 flats and containing 67,316 rooms were inspected, with the result that 441 blocks were selected for destruction and 4,370 for improvement. Notices for effecting the necessary improvements were issued in 741 cases, 55 houses were closed during the year, not having been improved as required; and 90 other houses incapable of improvement were caused to be vacated. 8 houses were destroyed and compensation paid for them, amounting to Rs. 10,290.

Public Gardens and Museum.

39. The nine Municipal Gardens were maintained during the year at a total cost of Rs. 55,898-8-6. Several improvements were made in the Victoria Gardens, and the other gardens were also kept up in a satisfactory condition, except the Northbrook and the Mahim Gardens which were given up for Plague Hospitals and Camps. The plague again affected the number of visitors to the gardens, which was less by about 300,000 persons than in the previous year. It is curious, however, that on the other hand about half a lakh more people visited the Victoria and Albert Museum than in the previous year.

Fire Brigade.

40. The establishment and appliances of this department were maintained during the year in a state of efficiency. The engine and men had to turn out to a total number of 102 calls to fires, of which 7 were false alarms, 74 were extinguished by Brigade appliances, and 42 were put out before the arrival of the Brigade. The water-supply at fires was satisfactory, and the attendance of the Water Works staff prompt and helpful.

Education.

41. The attendance in the Municipal Schools was reduced to about 25 per cent. of the normal average on account of the prevalence of Plague, and schools had to be temporarily closed from time to time when there was much plague in the neighbourhood. Owing to the reduced numbers the cost of teaching went up from Rs. 17 per head in 1896-97 to Rs. 33 per head in the year of report, although the total expenditure was only Rs. 1,22,542-13-1 in the year of report against Rs. 1,27,731-11-3 in the previous year. The number of

children under instruction in the Municipal and Aided Schools combined was 5,774 boys and 3,213 girls in the year of report against 9,152 boys and 3,998 girls in the previous year. Considering the adverse circumstances of the year, the teaching, though not up to the average of normal years, was on the whole not unsatisfactory, and a few schools were able to maintain their usual efficiency in spite of all drawbacks. 7 new schools were opened. 4 schools were registered under the grant-in-aid code and 14 removed from the register, most of them having ceased to exist by reason of plague. The Committee have made every endeavour for the proper housing of the schools and have started a building scheme which has, however, not yet proceeded beyond the initial stage.

Auditors' Report.

42. The reports presented by the Auditors, Messrs. N. R. Ranina and A. Thomson on the accounts of the Municipality and the Joint Schools Committee do not present any points for special notice.

License Department.

43. The department worked more successfully than in 1896-97, when, owing to the closing of many licensable shops, there was a falling-off of revenue. 5,750 licenses were issued, the previous year's figures being 5,130. The income, including Rs. 4,642 of outstandings for 1896-97, was Rs. 63,741-8-0, being more than the income of 1896-97 by Rs. 7,279 but less by Rs. 1,307 than that of 1895-96, when the licenses issued reached the high figure of 5,880.

Markets.

44. The total revenue for Markets and Slaughter-Houses was Rs. 3,74,002-2-0 against Rs. 3,95,440-13-6 in the preceding year, being a decrease of Rs. 21,438-11-6, due to a falling-off in the fair ground rent and feeding fees at Bandora and in market fees, and also to an abatement of one month's rent in the first quarter of the year, amounting to Rs. 9,192, allowed to stall-holders in consideration of the depressed condition of trade due to plague. The loss was, to some extent, counterbalanced by high bids for the pens at the DeLisle Road Sheet Market and the stalls in the new Bhuleshwar Market (completed and occupied from 1st May 1897).

45. The fruit and vegetable supply was plentiful and cheap, and the beef and mutton supply fairly good. The period was a trying one for the market establishment, but the results obtained were nevertheless satisfactory.

Public Health.

46. The Report of the Health Officer derives more than ordinary importance from the fact that it deals with a year of unusual unhealthiness and unprecedented mortality. Plague prevailed with greater intensity and carried off the population in larger numbers than in the previous year, and for a portion of the year an epidemic of cholera also caused serious anxiety. The Health Officer divides the course of the plague epidemic into five periods or five separate epidemics, the last two of which fell in the year of report. The first of these is described as "commencing in the second week of July 1897 and reaching its maximum in the second week of August and declining till it reached its minimum in the middle of November." The second is stated to have commenced in the second week of December, "gradually developing into the great epidemic with slighter repressions than in the previous years till on the 9th of February 1898 a mortality of 347 was reached, followed by a series of repressions and fluctuations till on the 16th March the mortality rose to 358, and again on the 18th to the same number, from which period the mortality commenced to decline in irregular curves." Whatever the scientific value of this division, it serves to indicate the progress of the pestilence from month to month, showing how it rose, how it abated, and how it declined. Various matters of great importance to public health are discussed in Dr. Weir's report, the circumstances combining to produce conditions favourable to disease are carefully investigated, a deal of useful information in connection with plague is collected together, valuable statistics are tabled, and weighty suggestions made.

47. As a consequence of famine and plague, much destitution prevailed among the local inhabitants. There was also a considerable influx of sickly, famine-stricken people from the Mofussil. A large mass of the population was therefore in a state very susceptible to disease. Added to this the rainfall of the year and of the year before was, in the Health Officer's opinion, most unfavourable to health condi-

tions. It was distributed over a shorter period than usual, and as it fell continuously the ground remained saturated and sodden for a long time after. From the middle of July cholera contributed to raise the general mortality. The low-lying and undrained districts of Kamathipura, Byculla, Parel and Mahim suffered most. The deaths from this disease were 1,265, being 775 more than in 1896 and giving a death-rate of 1·54 per mille. There were 11,003 deaths registered as from plague against 1,936 in 1896, giving a death-rate of 13·39 per mille. Small-pox and measles had between them. death-rate of ·5. To fevers 6,951 deaths were ascribed against 8,776 in 1896. Against diseases of the respiratory system are put down 7,857 deaths, the previous year's number being 5,334. 5,927 persons died of phthisis against 4,809 in 1896. The total mortality of the year was 47,896, giving a death-rate of 58·28 per mille against 33,451 in 1896, which produced a death-rate of 40·71 per mille. In 1895 before the appearance of plague, when Bombay enjoyed the reputation of being more healthy than any large city in India and when the chances of life in it were considered better than in many European towns, the mortality was only 25,081 and the death-rate 30·52 per mille.

48. 9,336 living and 1,368 still-born births were registered, being 6,554 less than in 1896 and 6,548 less than in 1895. Of the living births, 4,903 were males and 4,433 females. The birth-rate per thousand of population was 11·36.

49. The work of the department, of the cost and proportions of which the figures given below furnish an idea, proceeded with regularity throughout the year, heavily though its resources were taxed. The total ordinary expenditure in 1897-98 was Rs. 14,16,347-3-4 against Rs. 12,53,290-12-6 in 1896. Its income amounted to Rs. 8,29,721-0-0 against Rs. 7,84,830-6-0 in the previous year. The extraordinary expenditure of the department on account of special sanitary measures in connection with the epidemic of plague was Rs. 5,97,002-2-8 in 1897-98 against Rs. 2,18,239-7-8 in the preceding year. On an average 4,505 men and women and 1,016 scavengering and drain carts and 208 night-soil cesspool carts were at work. 404,285 tons of garbage giving an average of 1,108 tons a day were collected, removed and disposed of against 326,552 tons in 1896. 156,057 tons of night-soil cesspool matter, equal to 428

tons a day, were collected and removed against 160,670 tons in the year before. 174 miles of covered drains were opened and cleaned against 192 miles in 1896. 37,057 cart-loads of cutchra were burnt at the Garlick Incinerator in 298 working days.

MR. SNOW.

50. In conclusion, the Standing Committee desire to place on record their appreciation of the smooth and satisfactory manner in which the very onerous duties of Municipal Commissioner were discharged by Mr. P. C. H. Snow, I.C.S., C.I.E., during the three years he held that post, two of which were years of extraordinary trouble and anxiety.

In accordance with the terms of Section 124 (3) of the Bombay Municipal Act 3 of 1888, the Standing Committee direct that all the printed appendices attached to the reports of the several heads of departments, as received from the Commissioner, be circulated with his report for the information of the Corporation.

The foregoing Review and the Compilation referred to therein are circulated to Municipal Councillors as directed by Section 124 (3) *of the Act as above.*

IBRAHIM RAHIMTOOLA,
Chairman of the Standing Committee.

26*th October* 1898.

Annual Administration Report of the Municipal Commissioner for the City of Bombay for the Year 1897-98.

Introductory.

Mr. P. C. H. Snow was Municipal Commissioner throughout the year.

2. The services of Mr. J. H. DuBoulay, which were placed at the disposal of the Corporation by Government for six months from the 3rd March 1897, were made available for a further period of six months.

3. Below are summarized some of the principal features of the year.

The Colaba and Umarkhari Sewerage Works and Fergusson Road and Chinchpogly Sewerage Works (gravitation portion) have all been completed.

The Shone system of drainage worked uniformly well at Colaba. The Corporation have sanctioned the sewerage of Mazagon on the Shone system and the work is in progress.

The Worthington Engines at Love Grove which have now been working for nearly five years continued to work satisfactorily.

House connections and sanitary improvements at some houses in Mandvi, Kala Chowkey Road, Modi Street, Lalwadi and in other parts of the city were carried out at the owners' expense.

The plant for providing electrolized sea-water was started and experiments are being made.

There was no burst on the 48" Tansa Main and the supply of water into the city was therefore not interrupted.

The Bhuleshwar market and schools were completed, as also the Sankli Tank Fire Brigade Station.

The Tramway Company doubled the track along Girgaum Road from the Portuguese Church to the Money School admeasuring 524 feet. The doubled tram lines along Frere Road and from Pydhownee to Grant Road terminus were renewed.

The conversion of all the ordinary gas lamps into incandescent ones was completed.

4. The health of the city was bad during the year. The plague, which broke out in 1896, continued in epidemic form till the end of April 1897, and was virulent in the latter part of the year. The mortality was heavy, and a large proportion of the population fled from the city as in the previous year, with the result that business was for a time paralysed.

5. The behaviour of the establishment was excellent during these trying periods. All Heads of Departments

deserve special credit for the way they kept their men together and uninterruptedly disposed of their heavy routine and special duties during these anxious times.

I. Corporation and Standing Committee.

THE CORPORATION.

6. Mr. George Cotton (afterwards Sir George Cotton, Kt.) was elected President of the Corporation at the meeting of the 5th April 1897, and held that appointment until the 31st March 1898.

7. Forty-eight meetings of the Corporation, three meetings of the Committee of the whole Corporation, and thirty-two meetings of Committees of the Corporation were held.

8. The changes in the *personnel* of the Corporation were as follows :—

Sir George Cotton left for England on 9th July 1897 without vacating his seat and returned on 4th December 1897.

The Hon'ble Mr. Abdalla M. Dharamsi died on the 10th September 1897, and in his place Mr. Mahomedbhoy Currimbhoy Ibrahim was elected by Ratepayers on 8th October 1897.

Mr. Bomanji P. Master died on the 10th June 1897, and in his place Mr. Dinsha B. Master was elected by the Justices on 18th July 1897.

The Hon'ble Mr. Daji Abaji Khare was elected by the Justices on 23rd April 1897, in place of Mr. W. R. Hamilton resigned on 15th March preceding. Mr. Khare left for Europe on 2nd October without vacating his seat and returned on 26th December 1897.

Mr. Dinsha E. Wacha left for England on the 20th February 1897 without vacating his seat and returned on 30th July 1897.

Mr. H. I. B. Hargrave left for Europe on 20th August without vacating his seat and returned on 21st November 1897.

Mr. Jamsetji Cursetji Jamsetji left for England on 15th May 1897 without vacating his seat and returned on 17th July 1897.

Sir Jamsetjee Jejeebhoy left for England on 1st May 1897 without vacating his seat and returned on 18th October 1897.

The Hon'ble Mr. Javerilal U. Yajnik died on 8th May 1897, and in his place Mr. Cowasjee Pestonjee was elected by the Justices on 11th June 1897. Mr. Cowasjee Pestonjee was granted six months' leave of absence (as per Corporation's Resolution No. 4282, dated the 5th August 1897) on account of his proceeding to Paris.

Rai Bahadur Luchmon Singh died on 9th June 1897, and in his place Mr. Vassonji Khimji was appointed by Government on 5th July 1897.

Mr. G. Lund left for England on 1st May 1897 without vacating his seat and returned on 2nd October 1897.

Mr. Mir Aun Ali was elected by Ratepayers on 5th June 1897 in place of Mr. Harkisondas, retired.

Mr. Nowrosji N. Wadia, C.I.E., left for England on 23rd July 1897 without vacating his seat and returned on 28th January 1898.

The Hon'ble Mr. P. M. Mehta left for England on 15th May 1897 without vacating his seat and returned on 12th February 1898.

Mr. B. Phillips left for Europe on 20th August 1897 without vacating his seat and had not returned before the end of the year.

Mr. P. B. Savile resigned on 26th April 1897, and in his place Mr. H. O. Campbell was elected by the Chamber of Commerce on 28th June 1897.

Mr. R. H. Vincent, C.I.E., resigned on 5th August 1897, and Mr. Kalabhai Lalubhai was elected by the Justices on 3rd September 1897. Mr. Vincent was re-appointed by Government on the 9th March 1898 in place of Mr. Gell, resigned.

Commander Wilson resigned on 24th September 1897, and in his place Commander Finny was appointed by Government on 7th October 1897.

THE STANDING COMMITTEE.

9. Mr. (afterwards the Hon'ble Mr.) Bhalchandra Krishna Bhatwadekar was appointed Chairman of the Standing Committee at the meeting held on the 7th April 1897, and held that appointment throughout the year.

10. There were sixty-one meetings of the Standing Committee and eight meetings of Sub-Committees thereof.

11. There were one hundred and fourteen attendances for cheque signing and forty-seven for the audit of the weekly statements of accounts ; two other attendances for audit were fixed but not held.

12. The changes in the *personnel* of the Committee were as follows :—

The Hon'ble Mr. Abdalla M. Dharamsi died on 10th September 1897, and in his place Dr. K. N. Bahadurji was elected by the Corporation on 7th October 1897.

Mr. H. G. Gell was appointed by Government on 10th August 1897 in place of Mr. R. H. Vincent, resigned. Mr. Gell resigned on 28th February 1898, and Mr. Vincent was re-appointed by Government in his place.

13. The following is a list of the Municipal Councillors who held office on 31st March 1898 :—

SIR GEORGE COTTON, K.T., J. P., *C.C., President.*

ARDASIR FRAMJI UNWALLA, Esq., B.A., J. P. *R* (G Ward)
BADRUDIN BIN ABDULA KUR, Esq., J. P. *R* (C Ward)
BHAGWANDAS NARROTAMDAS, Esq., J. P. *R* (F Ward)
BHALCHANDRA KRISHNA BHATAWADEKAR, THE HON'BLE MR., L.M., J. P. *R* (D Ward) Chairman, Standing Committee.
BYRAMJEE NUSSERWANJEE SERVAI, Esq., J. P. *J.*
CAMPBELL, H. O., Esq., *C. C.*
COWASJEE HORMUSJEE, Esq., G.G.M.C., J.P. *R* (C Ward)
COWASJI PESTONJI, Esq., G. G. M. C., J. P. *J.*
CUFFE, T. W., Esq., J. P. *G.*
DAJI ABAJI KHARE, THE HON'BLE MR., B.A., LL.B., J. P. *J.*
DARASHAH RATANJI CHICHGAR, Esq., J. P. *J.*
D'MONTE, DOMINICK A., Esq., M.D., L.R.C.P. (London), L.M. & S., J. P. *R* (G Ward)
DHAKJI KASHINATHJI, RAO BAHADUR, J. P. *R* (C Ward)
DINSHA B. MASTER, Esq., J. P. *J.*
DINSHA EDULJI WACHA, Esq., J. P. *R* (A Ward)
EDGELOW, F., Esq., J. P. *G.*
ELAPPA BALARAM, RAO SAHEB, J. P. *G*
FARDUNJI NASARWANJI BISNI, Esq., L.M. & S., *R* (E Ward)
FAZALBHAI JUMABHAI LALJI, Esq., *R* (B Ward)
FAZULBHOY VISRAM, THE HON'BLE MR., C.I.E., J. P. *G.*
FINNY, T. G. R., COMMANDER, *G.*
GOOLAM HOOSEIN ALLANA, Esq. *R* (B Ward)
HARGRAVE, H. I. B., Esq., M. A., M. INST. C.E., J. P. *G*
HARI SITARAM DIKSHIT, Esq., *R* (D Ward)
HASAMBHAI VISRAM, Esq., J P. *J.*
HEWETT, CHARLES STONE, Esq., *R* (E Ward)
HORMUSJI CURSETJI COORLAWALLA, Esq., J. P. *J.*
HUGHES, W. C., THE HON'BLE MR., M.I.C.E., J. P. *G.*
IBRAHIM RAHIMTOOLA, Esq., J. P. *R* (B Ward)
ISMAIL JAN MAHOMED, Esq., L.M. & S., J. P. *R* (B Ward)
JAGMOHANDAS VANDRAWANDAS BHAISETT, Esq., J. P. *R* (C Ward)
JAMSETJI C. JAMSETJI, Esq., J. P. *J.*
SIR JAMSETJEE JEJEEBHOY, BART., C.S.I., J. P. *G.*
JAMSEDJI KHARSEDJI KAMA, Esq., J. P. *J.*
JAYA KARADI LINGU, Esq. *R* (E Ward)
JIJIBHOY FRAMJI PETIT, Esq. *R* (D Ward)
KAIKHOSRU NASARWANJI BAHADURJI, Esq., M.D., B.A., M.R.C.S. *R* (C Ward)
KAIKHOSRO NOWROJI KABRAJI, Esq., J. P. *J.*
KALABHAI LALUBHAI, Esq., J. P. *J.*
KALIANDAS KESHAVDAS, Esq., B.A., *R* (A Ward)
KAVASJI EDALJI DADACHANJI, Esq., L.M. & S. *R* (D Ward)
K. M. SHROFF, Esq., *J.* P. *R* (A Ward)
KHARSEDJI NASARWANJI WADYA, Esq. *R* (F Ward)
LUND, *G.*, Esq., *G*
MAHOMEDBHOY CURRIMBHOY, Esq., *R* (B Ward)
MANEKSHAH J. TALYARKHAN, Esq., B.A., LL.B., J. P. *U*
MILLS, J., VET.-MAJOR. *G*
MIR AUN ALI, Esq., BAR.-AT-LAW, *R* (A Ward)
MIRZA HUSSEIN KHAN, Esq., J. P. *G.*
MULJI BHOVANIDASS BARBHAYA, Esq., J. P. *G*
MULLER, O. V., PROF., M.A. *U*
NANABHAI NAVROJI KATRAK, Esq., L.M. & S., J. P. *R* (A Ward)
NOWROSJEE JEHANGIR GAMADIA, Esq., J. P. *R* (A Ward)
NOWROJI NUSSERWANJEE WADIA, Esq., C.I.E., J. P. *G*
PESTONJI NASSARWANJI WADIA, Esq., J. P. *J*
PHEROZESHAH M. MEHTA, THE HON'BLE MR., C.I.E., J. P. *J*
PHILLIPS, B., Esq. F.C.S. *G*
RAHIMTULLA KHAIRAZ, Esq., J. P. *R* (B Ward)
RAHIMTULLA MOHAMED SAYANI, THE HON'BLE MR., M.A., LL. B., J. P. *J*
ROUGHTON, G. W., Esq., A.D.C., J. P. *J*
SORABJI KHARSETJI DHONDI, Esq. *R* (E Ward)
SUNDERNATH D. KHOTE, Esq. *R* (D Ward)
TRIBHOWANDAS MUNGULDAS NATHOOBHOY, Esq., J. P. *R* (C Ward)
TRIBHOWANDAS VARJIWANDAS, Esq., J. P. (C. Ward).
UNDERWOOD, C.H. F., Esq., M.D., B.C.S.E., *R* (C Ward)
UNDERWOOD, EDWARD, F., Esq., M.A., M.D., F. R. M. S., F.M.S., J. P. *J.*
VASANJI KHIMJI, Esq., *G.*
VIEGAS, ACCACIO GABRIEL, Esq., L.M. & S. *R* (B Ward).
VINCENT, R. H., Esq., C.I.E., J. P. *G.*
VITHALRAO KRISHNAJI VANDEKAR, RAO SAHEB, J. P. *R* (B Ward)
HAJEE YOOSOF HAJEE ESMAIL, Esq., *R* (E Ward)

NOTE.—The letters against the names signify—*R*, that the member was elected by the Ratepayers; *J*, by the Bench of Justices; *C C*, by the Chamber of Commerce; *U*, by the University; and *G*, appointed by Government.

II. Heads of Departments.

14. Mr. H. W. Barrow, the Municipal Secretary, was on privilege leave for one month from 29th November 1897 to 28th December 1897, and Mr. L. W. Michael, the Third Assistant Assessor, acted for him during the period.

15. Surgn.-Lieut.-Colonel T. S. Weir, whose services were temporarily placed at the disposal of the Plague Committee on 8th March 1897,. reverted to his appointment on 1st June 1897. He was on privilege leave from 17th October 1897 to 14th January 1898. During the above period Mr. J. Leask, Assistant Health Officer, acted for him.

16. Mr. H. Newton, the Acting Deputy Excutive Engineer, Water Works, died on the 27th July 1897, and Mr. N. D. Bhada, Assistant Engineer, Water Works, was provisionally appointed Acting Deputy Executive Engineer, Water Works, and held the appointment from 28th July 1897 to 16th December 1897. Mr. A. F. Bruce was appointed Acting Deputy Executive Engineer, Water Works, on 20th November 1897, and took charge of his duties on 17th December 1897.

17. Mr. Sorabji Navroji Cooper, the Chief Accountant, died on 8th July 1897. Mr. Manekshah Cawashah, Deputy Accountant, was provisionally appointed Acting Chief Accountant on 9th July 1897 and continued to act in the appointment up to 15th September 1897. Mr. W. E. Waite was appointed Chief Accountant on the 16th September 1897.

18. The services of Mr. C. C. James, the Acting Deputy Executive Engineer, Drainage, transferred to the Plague Committee on 2nd March 1897 were continued on the

Committee, and Mr. J. W. Smith, the Special Drainage Engineer, continued in charge of the Drainage Branch in addition to his own duties.

19. The regrettable death of Messrs. Sorabji Navroji Cooper and Howard Newton deprived the Municipality of the services of two deserving and valued officers.

III. Financial.

20. The income and expenditure and the opening and closing balance of the year were as under :—

	Rs.	a.	p.
Opening balance, including recoverable advances, reserve stock, &c., and excluding deposits, unexpended loan balances and minor adjustment items (*vide* pages 10 and 97 of the Report for 1896-97)...	29,76,552	15	10
Revenue (*vide* pages 11 and 74)	71,45,560	8	5
Total available for expense ...	1,01,22,113	8	3
Spent during the year (*vide* pages 12 and 93)	74,96,969	2	10
Balance.....	26,25,144	5	

21. The opening balance included Rs. 9,01,840-12-0 advanced for reserve stock and Rs. 6,71,162-7-11 on account of lapsed grants for 1896-97 and previous years renewed during the year. Excluding these items, the net opening balance amounted to Rs. 14,03,549-11-5 or Rs. 6,21,450-4-7 less than the Budget estimate. This deficit was duly provided for while estimating the opening balance for 1898-99 (*vide* Introductory Remarks on page i. of the Budget Estimate for that year).

22. Against the Budget Estimate of Rs. 67,90,100 the total income for the year amounted to Rs. 67,08,505-8-4 excluding a rebate of Rs. 4,37,055-0-1 to current revenue on account of plague expenses met from revenue in 1896-97. There was thus a net decrease of Rs. 81,594-7-8 on the estimate.

23. Including the above rebate the total income amounted to Rs. 71,45,560-1-5, showing an increase of Rs. 3,55,460-8-5 over the estimate. Of this increase a sum of Rs. 2,98,055-0-1 has been taken credit for while preparing the Budget Estimate for 1898-99. The unanticipated excess income for the year thus amounts to Rs. 57,405-8-4.

24. As compared with the year 1896-97, the income (excluding the rebate of Rs. 4,37,055-0-1 on account of plague expenses) for the year 1897-98 shows an improvement of Rs. 4,99,527-13-2.

25. This increase was due partly to the recovery of large outstandings for 1896-97 and partly to a large increase in the receipts from Town Duties.

26. The total grants sanctioned for expenditure during the year aggregated Rs. 84,41,310-11-8, as under :—

	Rs.	a.	p.
Originally sanctioned in the Budget	69,19,495	0	0
Lapsed grants for 1896-97 renewed in 1897-98 ...	5,68,803	10	8
Do. for 1895-96 and previous years re-sanctioned by the Corporation in 1897-98	1,02,358	13	3
Additional grants sanctioned (Rs. 8,48,354-15-1 + Rs. 2,298-4-8)	8,50,653	3	9
Total sanctioned (*vide* page 12) ...	84,41,310	11	8
Deduct—Spent (*vide* pages 12 and 93)	74,96,969	2	10
Balance (expenditure less than sanctioned, *vide* page 12)	9,44,341	8	10

27. Of the above unexpended balance, a sum of Rs. 5,83,509-8-1 is, according to the usual practice, required to be renewed in 1898-99 to defray the cost of works not completed in 1897-98 and to provide for works sanctioned but not yet taken in hand. The net savings therefore amounted to Rs. 3,60,832 0-9, of which Rs. 1,84,000 have been taken credit for while preparing the Budget Estimate for 1898-99. This leaves a net unappropriated saving of Rs. 1,76,832-0-9.

28. Out of the closing balance of Rs. 26,25,144-5-5 shown in para. 20 *ante*, the amount actually available at the end of the year for further requirements was Rs. 2,25,501-12-11 as shown below :—

	Rs.	a.	p.
Closing balance as shown in para 20	26,25,144	5	5
Less—Lapsed grants for 1897-98 and previous years to be renewed in 1898-99. Rs. 5,83,509 8 1			
Value of reserve stock „ 9,03,586 11 9	14,87,096		
	11,38,048		
Less—Net advance made up to 1897-98 for purchase of frontage land on the Agripada Estate, &c., which cannot now be treated as a recoverable asset for the reasons stated by the Chief Accountant...	8,12,546	4	
	3,25,501	12	
Less—Minimum cash balance required by the Act...	1,00,000	0	
Net balance as shown at page 105 of the Chief Accountant's report	Rs. 2,25,501	12	

29. The expenditure for 1897-98 as compared with that for the preceding year shows an increase of Rs. 4,92,226-8-11 principally under Municipal Debt and Public Health Department.

30. The following tables A and B exhibit the main heads of Revenue and Expenditure as compared with the Budget Estimates for 1897-98 and the Actuals for the preceding year :—

12

31. The Chief Accountant has fully shown in his report the causes of the variations between the original budget and revised estimates and the actuals of the income and expenditure for the year.

32. It now remains to be shown to what causes can be attributed the variations between the actuals of the year under report and those of the preceding year. The reasons of the increases and decreases are briefly explained below :—

INCOME STATEMENT **A.**

General Tax.—The increase of Rs. 2,01,319-12-11 during the year was due partly to the recovery of a larger amount of outstandings at the close of 1896-97 and partly to an expansion in revenue.

Water Tax and other Miscelleneous Water Works Revenue.—The change in the system of charging for water supplied by meter measurement sanctioned in Standing Committee's Resolution No. 1644 dated 12th May 1897, accounts for the decrease of Rs. 68,558-0-7. The decrease would have been considerably greater, had it not been for the recovery during the year of the very large oustandings the close of 1896-97.

Halalkhore Tax.—The increase of Rs. 46,999-8-8 was solely due to a reduction in the amount of the outstandings of this tax.

Wheel Tax and Tolls.—The increase of Rs.1,00,156-9-9 was made up as under :—

	Rs.	a.	p.	Rs.	a.	p.
Public Conveyances				1,09,538	14	0
Less—Decreases—						
Private Conveyances ...	8,008	14	3			
Tolls	1,373	6	0			
				9,382	4	3
Net Increase ... ...Rs.				1,00,156	9	9

The increase under public conveyances was due to a restoration of the former rates of wheel tax on victorias, reclas, and labour carts, which were specially reduced in 1896-97 in consequence of the slackness of trade caused by the plague. There was also an increase in the number of labour carts, reclas and victorias licensed in 1897-98.

Town Duties.—The increase of Rs. 3,06,280-4-9 was due partly to larger imports of sugar during 1897-98, partly to heavier refunds in 1896-97, and partly to the serious exodus that took place from Bombay in 1896-97 in consequence of the plague.

Market Receipts.—The decrease of Rs. 29,265-10-1 was entirely under stall rents, squatters' fees through contractors, and fair ground and feeding fees.

Returns from other Property and Miscellaneous.—The decrease of Rs. 63,860-14-9 was entirely under interest and profit on investments of surplus loan and other balances, due to a large reduction in our invested balances.

Expenditure Statement B.

General Superintendence.—The increase of Rs. 15,150-14-7 is due to the payment of the salary of the Deputy Commissioner who was appointed on 3rd March 1897.

Assessment and Collection Department.—The employment of additional staff in the Property and Wheel Tax and Licensing Departments, as sanctioned in the Budget, and the payment of sanctioned increments to certain members those departments, account for the increase of Rs. 2,328-7-

Fire Brigade.—The increase of Rs. 10,853-15-0 was unde repairs to fire stations and engines, telephone connec tions, feed of horses, contingencies, clothing and interes payable on debentures of the 4½ Lakhs Fire Brigade Loan.

Public Gardens.—Owing to the construction of animal keeper's quarters, storm-water drain, clerks' office room, &c. in the Victoria Gardens, there was an increased expenditure of Rs. 11,134-9-4.

Public Works, Ordinary.—The increase of Rs. 62,164-0-5 was under Water Works and Road Repairs. The increase under the former head is principally due to heavy repairs to the Kasheli embankment and to the reconstruction of a portion of the Tansa Duct; under the latter, to some portion of the road repairs work, which had to be suspended in 1896-97 for want of coolies and artisans during the plague scare, having been carried out during the year under report and to the maintenance of new roads constructed by the Municipality and the Port Trustees.

Public Works, New.—The decrease of Rs. 7,426-1-2 is due to heavy expenditure in 1896-97 on the conversion of gas lamps into incandescent lights.

Public Health Department.—The large increase of Rs. 1,76,765-14-11 is due to the heavy rates paid for food stuffs, to the employment of Deputy Health Officers and the extra Assistant Health Officer and generally to more efficient arrangements made for the conservancy of the city. Heavy expenditure was also incurred on the Arthur Road Infectious Diseases Hospital in consequence of the relapsing fever epidemic.

Municipal Debt.—The increase of Rs. 2,04,449-6-6 is due partly to the payment of a large amount of outstanding interest on our different loans, partly to the payment of the interest and the investment of the sinking fund instalment on the first instalment of Rs. 10 lakhs of the 15¾ lakhs loan raised in December 1896, and partly to a larger amount of debentures of the Drainage Loan of 1878 having been paid off in 1897-98.

Police.—The payment of arrears of Police charges to Government in 1896-97 explains the decrease of Rs. 51,589.

Education.—The increase of Rs. 13,735-2-1 was almost entirely due to the payment of increased contribution towards Primary Education.

Hospitals and Dispensaries.—The unexpended balance of the Municipal contribution towards the Goculdas Tejpal Hospital, refunded by Government in 1897-98, being less than that refunded in 1896-97 caused an increased expenditure of Rs. 1,132-7-7.

Pensions, Gratuities and Compassionate Allowances.—The increase of Rs. 11,495-4-7 is due to the payment of a larger amount of compassionate allowances to the widows and children of Municipal Officers and servants who died during the year under report.

Plague Expenses.—The increase of Rs. 62,944-15-11 does not require any explanation.

Miscellaneous.—The decrease of Rs. 20,913-7-11 was entirely under investments, due to the premia received on the first instalment of Rs. 15¾ lakhs raised on 1st December 1896 having been invested in 1896-97.

33. The following statement shows the net Revenue and net Expenditure for 1897-98 and the preceding year as required in the Standing Committee's Resolution No. 1221 dated 2nd February 1892 :—

a Includes Rs. 4,58,699 on account of net premia received on different Municipal Loans rai between 1888-89 and 1892-94, which was credited to current revenue as per Corporat Resolution No. 9222, dated 11th December 1893.

b Includes Rs. 2,93,849 on account of adjustment of expenses on different Loan Works sancti to be met out of premia which was shown as a charge against current revenue, and the of Rs. 1,64,850 on account of the investment of the net balance of the premia.

c & d Excluding the sum of Rs. 2,03,991 on account of the value of Reserve Stock on han 31st March 1894, the net closing balances amounted to Rs. 26,46,245 and Rs. 22,85 respectively.

e & f Excluding Rs. 2,14,284 on account of the value of Reserve Stock on hand on 31st March 1 the net closing balances amounted to Rs. 27,98,840 and Rs. 23,79,622 respectively.

g & h Excluding Rs. 3,76,660 on account of the value of Reserve Stock on hand on 31st March 1 the net closing balances amounted to Rs. 28,95,658 and Rs. 24,65,610.

i & j Excluding Rs. 2,01,841 on account of the value of Reserve Stock on hand on 31st March the net closing balances amounted to Rs. 20,74,712 and Rs. 16,70,550.

k Includes over Rs. 2¾ lakhs on account of recoveries of outstandings and Rs. 4,37,055-0- account of rebate to current revenue of plague expenses met from revenue in 1896-97.

l Includes Rs. 5 lakhs on account of plague expenses met from revenue in 1897-98.

m & n Excluding Rs. 2,03,587 on account of the value of Reserve Stock on hand on 31st March 1898 Rs. 8,12,546 on account of net advance made for the purchase of frontage land on the Agri Estate, the net closing balances amounted to Rs. 2,00,011 and Rs. 4,08,501.

IV. Assessment and Collection of Revenue.

Registration of Properties.

39. The number of properties on the Assessment Book at the close of 1897-98 was 53,165 against 52,959 in the previous year, or an increase of 206. The details are contrasted in the following table :—

Year.	Classification of properties according to description.				Classification of properties according to liability to pay General Tax.			
	Buildings.	Salt-pans.	Vacant lands, including tanks, &c.	Total.	Number assessed to General Tax.	Number exempted or compounded for on special terms.	Small plots of unproductive land for which no bills are issued.	Total.
1	2	3	4	5	6	7	8	9
96-97.....	35,495	146	17,318	52,959	40,653	4,561	7,745	52,959
97-98.....	35,091	146	17,928	53,165	40,685	4,578	7,903	53,165

40. In the year under report 755 buildings were demolished, while 351 new buildings were erected, and 153 existing properties were enlarged.

Valuation.

41. The recorded gross value of these properties for the year under report is shown in the following table in contrast with that of the preceding year :—

	Opening valuation for 1897-98.	Valuation after complaints.		Subsequent amendments.		Closing valuation of 1897-98.				Increase.
		Number of complaints.	Amount after disposal of complaints.	Reductions.	Enhancements.	Valuation chargeable with General Tax.	Valuation exempted from General Tax.	Valuation for which no General Tax bills issued.	Total.	
	2	3	4	5	6	7	8	9	10	11
2,63,27,[illegible]	Rs. 2,95,66,255	2,649	Rs. 2,33,48,448	Rs. 2,48,671	Rs. 3,83,098	Rs. 2,67,21,128	Rs. 27,43,526	Rs. 18,151	Rs. 2,94,82,805	Rs. 5,55,187

42. The increase is in the valuation of [illegible] properties and is made up as under :—

	Rs.
Erection of new buildings	[illegible]
Enlargements	[illegible]
Rise in rents and correction of under-assessment	[illegible]
Total...Rs.	[illegible]

Property Taxes.

43. The following comparative tables show the increase in property taxes :—

(1) GENERAL TAX.

1896-97.				1897-98.				
8½ per cent. on rateable value.	Compounded sum payable by Government.	Compounded sum payable by the Port Trust.	Total.	8½ per cent. on rateable value.	Compounded sum payable by Government.	Compounded sum payable by the Port Trust.	Total.	Increase.

45. The total demand on account of property taxes for 1897-98 amounted to Rs. 39,85,844-11-2, to which must be added Rs. 38,801-3-4, demands on account of previous years, making a total of Rs. 40,24,645-14-6.

Collection.

46. From the total demand for the year, a sum of Rs. 60,872-13-1 was allowed as drawback under Section 158 of the Act, and the sum of Rs. 2,50,856 was the amount payable by Government and the Port Trust. For the recovery of the remainder, bills were issued as under :—

Year.	Bills issued.	
	No.	Amount.
		Rs. a. p.
1893-94	52	261 4 3
1894-95	56	309 6 10
1895-96	103	3,483 1 5
1896-97	447	34,747 6 10
Total ...	658	38,801 3 4
1897-98	72,771	36,74,115 14 1
Total ...	73,429	37,12,917 1 5

47. The outstanding balance on account of property taxes at the end of 1896-97 was Rs. 2,94,889-5-7, and the total amount for collection in 1897-98 was Rs. 40,07,806-7-0 exclusive of Rs. 2,50,856—which is the amount payable by Government and Port Trust, which is paid by them direct into the Municipal Treasury without bills being issued for the same. At the end of the year the total amount outstanding was Rs. 1,00,550-2-11. This amount was, by the 15th of August 1898, reduced to Rs. 31,210-14-3, Rs. 69,335-4-8 having been collected from 1st April to 15th August 1898.

48. The following table gives the details of the amounts which had to be collected during the year:—

Taxes.	To be collected,			Collected,			Uncollected.	Deduct.		Balance outstanding at the end of 1897-98.		
								On account of former years.		On account of former years.	On account of 1897-98.	Total.

Tax on Vehicles and Animals.

49. The opening outstanding balance on account of this tax was Rs. 16,282-13-3, the demand for the year ending 31st December 1897 was Rs. 1,55,282-7-0 as against Rs. 1,85,321-12-4 for the previous year, and bills to the extent of Rs. 1,337-14-0 were issued on account of tax due for former years, so that the total demand was Rs. 1,72,903-2-3. The amount actually collected during the year was Rs. 1,64,378, against a collection of Rs. 1,72,377-5-6 in the previous year.

The amount recovered on account of licensed public conveyances, including license fees and fees for badges, and the amount realized from tolls at Mahim and Sion Causeways, contrasted with the previous year, is as follows :—

Years.	Tax on Public Licensed Conveyances.			License Fees.			Fees for Badges.			Tolls Fees at Mahim and Sion Causeways.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

REVENUE AUDIT.

54. The books and balances of the Ward clerks in all seven ward offices of the City were duly examined at the end of each quarter and the bills checked in detail and comparison with the Head Office accounts. The Ass

ment books in the Head Office were also examined with a view to ascertain that no property had evaded taxation. The books relating to the collection of taxes on animals and vehicles were also examined and the entries checked. 13,664 ms for ½ drawback under Section 158 (2) of the Munici- Act were received and scrutinized as against 12,978 in preceding year. In forms 11, 11A and 11B, referring increase and decrease of valuations, 6,201 entries were cked as against 6,676 in the preceding year and traced rough all the Assessment and Collection accounts. The mber of complaints against valuations heard by the venue and Refund Audit Officer rose from 943 to 966 in year under report, and decisions on 248 cases of com- nts against amendments under Section 167 were tinized.

5. The revenue receipts or vouchers of the following rtments were also examined and checked :—

	No. of receipts.	Amount. Rs.	a.	p.
Engineer's Department	6,310	30,685	7	2
Health Department	19,796	69,812	15	1
Markets and Slaughter-Houses ...	14,767	370,574	2	0
Victoria Gardens	3,162	4,878	9	3

6. In the Licensing Department 5,415 licenses were ted as against 5,488 in 1896-97: each of these was tinized with special reference to the amount of fee able.

7. The number of claims for refund sanctioned after mination on account of vacancy or over-collection 1,018, amounting to Rs. 20,666-5-5.

TOWN DUTIES.

3. The following table shows in detail the increases decreases in collections, refunds and net revenues for year. The total collections for the year under report unted to Rs. 17,29,760-15-7 against Rs. 15,30,411-2-1 he preceding year, the increase of Rs. 1,99,349-13-6 r d under all heads except grain and ghee. There was tion of Rs. 48,966-12-0 in the amount of refunds The net result was an increase of Rs. 2,48,316-9-6 in ne from Town Duties, the figures being 991,956-10-7 98 as against Rs. 7,43,640-1-1 in 1896-97.

V. Public Works.

SPECIAL DRAINAGE.

59. For the purpose of carrying out the various large schemes of drainage required in the City, Mr. James W. Smith, M.I.C.E., the Drainage Engineer of the Municipality of Bombay, was appointed to be in charge of these works, under the designation of Special Drainage Engineer, with effect from the 1st March 1893. He continued to hold that office during the year under report, and in addition thereto carried on the duties of the Acting Deputy Executive Engineer, Drainage (C. C. James), from the 9th March 1897 up to the close of the year, Mr. James having been appointed a member of the Plague Committee. In the Special Drainage Department the unfinished works in progress and the new works sanctioned or commenced during the year were as follows :—

UNFINISHED WORKS.

- Colaba Sewerage Works.
- Umarkhadi Sewerage Works.
- Parel Sewerage Works.
- Mazagon Sewerage Works.
- Malabar Hill and Kumbala Hill Sewerage Works.
- Colaba House Drainage Connections (street portions).
- Fergusson Road and Chinchpokli Sewerage Works.
- Storm-water drainage of the roads around Mahalakshmi Dhobiwada.
- Laying 9" pipe drains for the carriage of storm-water to the sea from the Southern part of Wodehouse Road.
- Stoneware pipe sewer from the emergent reservoir at the Wellington Fountain to the manhole opposite the Dockyard Gate in Apollo Street.

NEW WORKS COMMENCED.

- Old Race Course Sewerage Works (gravitation portion).
- Improvement of roadside drains in the Khetwadi District.
- Ovoiding side drains in Girgam Road.

N.—Masonry drain from Girgam Road through the Night-Soil Depôt Lane and Mathew Road across the B. B. & C. I. Railway to Back Bay.

O.—Opening water course at the West of Messrs. Kama's property, Parel Road, and constructing covered drain thereat.

P.—Culvert with penstock in the Eastern bank of the Mahalakshmi Reservoir.

Q.—Storm-water drain from near the Wellington Fount[illegible]in *via* Band Circle to the sea.

R.—Storm-water drain with water gullies in Rampart R[illegible] &c.

S.—Storm-water drain in Lower Colaba Road and Th[illegible] Street.

T.—Storm-water drain at East foot of Wodehouse Brid[illegible]

U.—Ovoiding side drains in Pathan 1st Street.

V.—Constructing arched masonry drain between [illegible] Lane and B. B. & C. I. Railway.

W.—Improvement of roadside drains and water c[illegible] about Dadar Road.

X.—Diversion of pipe sewer from the site for th[illegible] Station Hospital at Colaba.

WORKS SANCTIONED BY THE CORPORATION BUT [illegible] COMMENCED.

Y.—Machinery for Parel, &c., sectional districts.

Z.—Mazagon Sewerage Works (sectional).

A.—Colaba Sewerage Works.

60. These works, which were divided into three part[illegible] let separately to three contractors, have been all complete[illegible]

61. The suit filed against the Municipality by M[illegible] Bulkley & Co., who had contracted to do some of the wor[illegible] not yet been finally disposed of.

62. The expenditure under this head during the [illegible] amounted to Rs. 3,848, which, with the expenditure [illegible] previous years, aggregates to Rs. 8,21,010 against th[illegible] grant of Rs. 8,34,856.

B.—Umarkhadi Sewerage Works.

63. These works, under the contract of Mr. Sitaram Lakshman, were completed four months after the contract time and the final bill passed in August 1897.

64. The contract time was extended from the 6th September 1896 to the 9th January 1897, the maintenance period of twelve months being reckoned from the latter date. The total expenditure during the year amounted to Rs. 61,871, which, with the expenditure in previous years, makes up the sum of Rs. 3,52,239. The total grant was Rs. 3,86,993.

C.—Parel Sewerage Works.

65. Final payment for these works was made to the contractors in July 1897. The grant sanctioned for the work was Rs. 81,620, and the expenditure as detailed below :—

	Rs.	a.	p.
Establishment	6,695	2	0
Contingencies	2,667	7	9
Work	49,659	1	3
Road Repairs	3,059	1	5
Total ... Rs.	62,081	12	5

D.—Mazagon Sewerage Works (gravitation portion).

66. These works were not finished at the close of the year. The contract time expired on the 24th November 1897. There is not much work left undone, but it is difficult on account of the depth and rocky nature of the excavations. The total grant for the works is Rs. 3,32,661-0-0. The total expenditure up to the close of the year was as follows :—

	Rs.	a.	p.
Establishment	28,363	3	5
Contingencies	4,057	12	9
Work	2,02,231	12	7
Road Repairs	20,916	2	2
Total ... Rs.	2,55,568	14	11

E.—Malabar Hill and Khambala Hill Sewerage Works (gravitation portion).

67. These works were practically completed in January 1897, but the contractor not having furnished his account until September, the passing of the final bill was delayed. The total grant sanctioned for the work was Rs. 1,57,026. The total expenditure incurred was as follows :—

	Rs.	a.	p.
Establishment	12,571	12	0
Contingencies	1,149	15	0
Works	1,08,551	14	1
Road Repairs	7,112	10	2
Total ...	Rs. 1,29,386	3	3

F.—House Drainage Connections (street portions) in Co District.

68. The total number of street-connections made dur the year was 189. The contractors' bill certified and pas for payment amounted to Rs. 6,866-8-9.

G.—Fergusson Road and Chinchpokli Sewerage Wor (gravitation portion).

69. The contract period for these works was twe months, from the 25th March 1897 to 25th March 1898. T works were commenced on the 25th March 1897, and pr tically completed within the contracted time.

70. The expenditure passed during the year w Rs. 61,347-15-9. The total expenditure is shown under t following heads :—

	Rs.	a.	p.
Establishment	7,088	0	10
Contingencies	1,605	6	3
Work	73,768	15	7
Road Repairs	2,898	15	7
Total ... Rs.	85,361	6	3

H.—Draining Storm-water from roads around Mahalakshmi Dhobiwada.

71. The work was completed in February 1897, but the bill was not passed until June 1897. The sanctioned grant was Rs. 1,415.

The total expenditure was Rs. 1,156-0-3.

I.—Laying 9" Pipe Drain for carriage of Storm-water to the Sea from the Southern part of Wodehouse Road.

72. This work was completed in February and the bill passed in April 1897. The grant for the work was Rs. 2,008, and the total certified expenditure amounted to Rs. 1,992-1-3.

—Stoneware Pipe Sewer from emergent Reservoir at the Wellington Fountain to the Manhole in Apollo Street.

73. The heavy rainfall in June 1896 indicated the desirability of this work being completed as soon as possible. It was therefore, placed in the hands of Messrs. Sulemanji Jaffer Abdulali & Co., at the same contract rates as charged for other work. The work was completed about the end of October 1896, the cost, which amounted to Rs. 3,189, was met from savings in the grant for Colaba sewerage. The bill was passed in August 1897.

NEW WORKS COMMENCED.

Old Race Course Sewerage Works (gravitation portion).

The contract for this work was executed on the 19th January 1897, the contract period for completion being eight months. The contractors completed it as far as they were able, but as a piece of piping 65 feet long had to be laid under property belonging to the B. B. & C. I. Railway Company, considerable delay occurred ere matters could be adjusted. Some portions of the work remain unfinished owing to local difficulties. The total grant for the work was Rs. 46,270, and the total expenditure incurred and certified up to the close of the year is detailed as under :—

	Rs.	a.	p.
Establishment	3,618	10	8
Contingencies	134	12	3
Work	32,122	4	1
Road Repairs...	1,616	14	11
Total ... Rs.	37,492	9	11

L.—Improvement of Roadside Drains and the Provision of Water-gullies in the Khetwadi District.

75. The progress of these works was very satisfactory, and they were completed within the contract period. The sanctioned grant was Rs. 54,486, and the expenditure at the close of the year was as follows:—

	Rs.	a.	p.
Establishment	3,419	3	7
Contingencies	256	4	1
Work	40,509	7	2
Road Repairs...	1,356	14	6
Total ... Rs.	45,541	13	4

M.—Ovoiding Side Drains in Girgam Road.

76. These works were commenced on the 25th M 1897 and completed within the contract period. The sanctioned for these works was Rs. 15,588 payable savings from sundry loan works. The expenditure inc was as follows:—

	Rs.	a.	p.
Establishment	1,123	11	4
Contingencies	814	6	7
Work	9,251	11	11
Road repairs	263	1	11
Total ... Rs.	11,452	15	9

N.—Masonry drain from Girgam Road passing t the Night-soil Depôt Lane and Mathew Road and ac the B. B. & C. I. Railway to Back Bay.

77. Tenders were invited on the 31st July 189 resulted in the contract being given to Messrs. Sule Mulla Abdulali & Co.

78. The contract was executed and the orde commence work was given on the 30th October 1897 contract period being six months.

79. The work could not be completed on accou delay caused by the Railway Company. The grant fo work is Rs. 23,678 and is debitable to savings from di

loan works. The expenditure incurred up to the close of the year was as follows :—

	Rs.	a.	p.
Establishment	601	9	2
Contingencies	83	4	0
Work	8,334	9	4
Road repairs	555	11	5
Total ... Rs.	9,575	1	11

[redacted]—*Opening out Water Course to the west of Messrs. Kama's property, Parel Road, and constructing a Covered Drain thereat.*

80. The first part of these works has been postponed under advice of the Municipal Solicitors, Messrs. Kama having raised some objections. The second part of the work was completed in July 1897 and final bill passed for Rs. 3,332-6-8 as against Rs. 3,408-1-7, the contract amount. The grant for the whole of the work is Rs. 7,629.

[redacted]P.—*Culvert with Penstock in the Eastern bank of the Mahalakshmi Storm-water Reservoir.*

A grant of Rs. 2,112 was sanctioned from Surplus Balance for this work. Quotations for the penstock invited, and the lowest tender being that of Messrs. Gahagan & Co., it was obtained from them for Rs. 752.

The execution of the work was entrusted to Mr. Naguji, he having submitted the lowest tender. The was completed within the contract time and the final assed for Rs. 921-4-4 as against the contract amount 1,006.

[redacted]—*Storm-water Drain from near Wellington Fountain via Band Circle to the Sea.*

Only one tender was received, namely, from Messrs. anji Mulla Abdulali & Co., for Rs. 1,337 lower than fice estimate. It was therefore accepted. The Contractors d out the work vigorously. The work was not complet- the close of the year owing to some technical difficul- aving arisen.

84. The expenditure up to the end of the year was as follows :—

	Rs.	a.	p.
Establishment	3,039	3	2
Contingencies	1,528	1	1
Work	28,250	12	11
Road repairs	581	6	4
Total...	Rs. 33,399	7	6

R.—Storm-water Drain with Water Gullies in Rampart Row and Storm-water Drain in Wodehouse Road.

85. These works were given to the same Contractors a the work under reference letter Q and were satisfactoril completed. The final bill was under preparation at the clos of the year. The total grant sanctioned was Rs. 11,527 and the expenditure incurred at the close of the year was Rs. 5,717-2-11.

S.—Storm-water Drain in Lower Colaba Road and Thomas Street.

86. The cost of these works is to be met out of s from different loan works. Tenders were invited and Mr. Sayaji Naguji being the lowest was accepted. agreed that the work should be completed in 2½ r from date of order to commence and this was satisfa carried out. The total expenditure at the end of th is represented as follows :—

	Rs.	a.	p.
Establishment	922	7	10
Contingencies	163	13	4
Work	5,787	2	5
Road repairs	685	14	10
Total...	Rs. 7,559	6	5

T.—Storm-water Drain at the Eastern foot of Wodehouse Bridge.

87. This work was entrusted to Mr. Sayaji Naguji in extension of his contract for the Colaba storm-water drain. It was completed satisfactorily, the bill amounting to Rs. 1,123-11-6. The certified expenditure at the end of the year was Rs. 207-12-2.

U.—Ovoiding Side Drains in Pathan 1st Street.

. The grant for this work, *viz.*, Rs. 6,201, is to be ered by savings from different loan works. No tenders nvited, the work being entrusted to Messrs. Vithal a & Co., in extension of their contract for the Khetwadi The work was completed within the contract time expired on the 21st February 1898.

The final bill was not certified and passed at the of the year. The expenditure is made up of the ing items :—

	Rs.	a.	p.
Establishment	1,483	4	9
Work	4,292	1	7
Road repairs	106	10	8
Total... Rs.	5,882	1	0

-Constructing Arched Masonry Drain between Gilder Lane and B. B. & C. I. Railway.

This work was sanctioned at a cost of Rs. 4,221 to be d to savings in different loan works. The contract given to Messrs. Sulemanji Mulla Abdulali & Co., as tension of another contract, the rates being favorable.

The work was completed, but the bill not prepared end of the year.

-Improvement of Road-side Drains and Water-course about Dadar Road.

Tenders were invited for this work, the lowest being f Messrs. Sulemanji Mulla Abdulali & Co., namely, 2,695.

93. The contract was executed on the 28th February 1898, and the order to commence the work was given that day. The contract period for completion is six months and up to the close of the year the progress made was very satisfactory.

X.—Diversion of Pipe Sewer from the site for the New Station Hospital at Colaba.

94. This work was caused by the Military Author having proposed to build a hospital and the site having b subsequently changed brought about an addition to the w An estimate amounting to Rs. 2,089 was prepared b Speical Drainage Engineer, and the Executive Eng Military Works, paid the amount in advance on the 8t 1897, and the work was taken in hand.

95. The increase due to the change of site was R and this was paid also in advance of the work on the August 1897. The whole work was completed Rs. 2,598-14-6.

Y.—Machinery for the Parel, &c., Sectional Sewer System.

96. A committee having reported favourably o adoption of the Shone system of sewerage for those p Bombay which cannot be drained by direct gravitati Love Grove, the Corporation, without committing them entirely to the scheme, sanctioned the preparation o and estimates for the sewerage of the Mazgaon Distri tentative measure, it being deemed that the Pneu Shone system had not had sufficiently extended trial to it safe to extend it beyond restricted limits. The co tions afterwards made in the Colaba District where the system is in use were 20 houses, the Tramway stabl Night-Soil Depôt, the large Municipal latrines ne Night-Soil Depôt and the Colaba Railway Terminus ; a results having been satisfactory, the sanction of th poration was obtained for the sewerage of Mazgaon d Shone system and the provision of machinery fo Sectional Districts generally.

97. The lessees of the Shone Patents, Messrs. Hughes & Lancaster, were communicated with and they finally submitted an amended tender amounting to £21,280 sterling *plus* Rs. 3,72,980.

98. This was accepted by the Standing Committee, part of the cost to be charged to the grant for general machinery for the sectional districts, part to the grant for the Mazgaon Sectional District and part to be recovered from the Port Trustees as prearranged with them.

99. The date fixed for the completion of the work is the st March 1900 and progress up to the close of the year s satisfactory. The certified expenditure to the end of the r was Rs. 20,695-7-5.

Z.—Mazgaon Sewerage Works (Sectional).

. This work was sanctioned by the Corporation at a f Rs. 3,30,072. Some materials, such as pipes, manhole s and covers, fittings, &c., have already been obtained tocked. Tenders will be invited for other parts, and portions of the work have been let to Messrs. Hughes caster. Operations will commence after the rains. rtified expenditure up to the close of the year was 03-2-0.

10 A scheme has been laid before the Corporation for ainage of the surface and subsoil waters of Bombay Committee has been appointed to report thereon, but rt was not presented up to the close of the year.

The supply of Stoneware Pipes and Fittings, Iron Articles, Cement, &c.

102. Tenders for stoneware pipes were invited and two received, one from Messrs. Garlick & Co., and the other from Messrs. Richardson and Cruddas, but although the former was the lower, it was not in accordance with the specification. The contract was accordingly given to Messrs. Richardson and Cruddas. The cost, *viz.*, Rs. 37,671-6-7, is to be debited partly to the grant for machinery, &c., for the various

districts and partly to the grant for the Mazgaon Sewerage District. The contract was executed on the 29th September 1897.

103. The 26" cast-iron pipes and junctions required for the Fergusson Road and Chinchpokli Sewerage Works were supplied by Messrs. Richardson & Cruddas.

104. The cast-iron manhole frames, covers and steps for the Mazgaon Sectional Sewerage Works were supplied by Mr. Ardeshir K. Patel, Proprietor of the Napier Foundry. The manhole frames and covers required for several min works were obtained from time to time from the standi contractors for the supply of castings, Messrs. Soral Shapurji & Co.

105. The penstock for the culvert in the eastern bank the Mahalakshmi storm-water reservoir was supplied Messrs. George Gahagan & Co. and the tidal flap fo Band Circle storm-water drain by Mr. Ardeshir K. Pat

Cement.

106. Indents for cement were made on the De Executive Engineer, Drainage, as heretofore.

Colaba Air Compressor Station.

107. The working of the machinery in this statio as satisfactory. Considerable progress has been made wit the house connections, but the volume of sewage treated is yet much below the maximum.

108. The electric light installation was completed in May 1897 and was put into operation on the 17th of the same month. The total cost of the plant was Rs. 3,677-10-1. The electric tell-tales for giving warning at the compressor station of a stoppage at any of the ejectors have worked without failure. They cost Rs. 311-2-6. A small Worthington donkey pump for feeding the boilers was obtained from Messrs. Richardson & Cruddas at a cost of Rs. 200 met from a transfer from the coal grant. Six sets of indicator gear were purchased from Messrs. Hughes & Lancaster at a cost of Rs. 501-14-6 met from the special provision of Rs. 630 under the grant for stores.

109. The following statement shows the grants under the several Budget heads for the maintenance of the station and the actual expenditure incurred under each head :—

Sections.	Particulars.			Budget grants including transfers and renewed grants	Expenditure.
				Rs. a. p.	Rs. a. p.
1	Establishment			6,876 0 0	6,589 14 10

DRAINAGE.

110. *Pumping Station, Love Grove, Worli.*—The Worthington engines which have now been working for nearly five years continued to work satisfactorily. The efficiency of the pumps showed an average of 91·90 per cent., one per cent. more than the average efficiency of the previous year. The bushes of No. 2 engine, which are now much worn, owing to the passage of silt through the pumps, are to be renewed, and when that is done it is expected that the efficiency will show a further improvement.

111. On the 19th August 1897 the left hand pump rod of No. 3 engine broke, but was at once replaced with a spare one.

112. The consumption of coal was kept within the Budget grant. This is principally due to the greater efficiency of the new engines and to the exclusive use of Indian coal.

113. On the 15th July 1897, when the rain was heavy, the outlet of one of the barrels of the outfall sewers became partially obstructed during the flood tide. The obstruction was cleared away by the ebb tide and there was no further trouble.

114. The work of converting the old engine-house into a shred-lifter chamber, office and godown is now in progress.

115. There have been no attacks or deaths from plague at the station.

HOUSE CONNECTIONS.

116. The existing house connections of 98 premises in the Mandvi district were put into proper working condition at the expense of the house-owners.

117. The following statement gives the number of houses in Mandvi and other localities where drainage fittings were treated, on account of the cases of plague having occurred there, at the cost of the house-owners :—

No.	Districts.	No. of houses treated.	Amount charged to private owners.	Amount charged to the plague grant.
			Rs. a. p.	Rs. a. p.
1	Mandvi	107	20,249 2 8	2,57[illegible] 9 10
2	Various parts of the city ..	259	29,809 13 10	6,05[illegible] 12 8

118. House drainage connections of 27 houses in Kala Chowki Road were executed at the house-owners' expense.

119. The sanitary arrangements of 10 houses in Modi Street, 8 houses in Lalwadi and 25 houses in various parts of the city were also thoroughly remodelled.

120. The street portions of house drainage connections except in Colaba were 614, costing Rs. 44,390.

DRAINS AND SEWERS, CATCH-PITS, WATER GULLIES, MANHOLES, VENT SHAFTS, &c.

121. *Ovoiding side drains in Northbrook Street and erecting four flush tanks for the same.*—This work, which was done departmentally, was completed at a cost of Rs. 3,385-7-3. The work of constructing a storm-water drain in the ground added to the Victoria Gardens, which was entrusted to Messrs. Dewram Keshowjee & Co., was completed at a cost of Rs. 5,350-10-6.

122. The work of repairing and renewing a portion of the double barrel storm-water drain running through the Mint compound from near the north entrance to the Town Hall was completed at a cost of Rs. 4,928-3-2.

123. The work of constructing a catch-pit on the Mint Road sewer was in progress at the close of the year. A sum of Rs. 5,022 was provided in the Budget for constructing a catch-pit on the Hornby Road sewer near the Arthur Crawford Markets. This work had, however, to be deferred on account of financial difficulties.

124. A sum of Rs. 7,149 was provided for the construction of water gullies in various places and the particulars of the works executed are given in the Executive Engineer's Report at page 343.

125. Tidal flaps at the mouth of the double-barrel masonry drain passing through the Mint compound was completed departmentally at a total cost of Rs. 980-3-2. The construction of permanent manholes on drains in A, B, C, D, and E wards in positions selected by the Executive Health Officer was carried on departmentally and was in progress at the close of the year, the certified expenditure for the work being Rs. 771-5-0 out of the grant of Rs. 2,000 on the 31st March 1898. A sum of Rs. 4,047 was sanctioned for laying pipe sewers in certain narrow streets in the Mandvi District. A portion of the work was executed departmentally, and then it was deferred until the owners made the drainage connections of their houses with the existing storm-water drains on the improved system, so that the connections could be immediately transferred to the pipe sewers. The expenditure on this account at the close of the year was Rs. 3,797-9-6.

126. Storm-water drainage arrangements on Marine Lines Road near the B. B. & C. I. Railway Administrative Offices were completed departmentally at a cost of Rs. 2,420-3-1.

127. The sullage stagnating in pools in the side drains in Dockyard Road, Gunpowder Road, Gungabudi Road and part of DeLima Street was causing a serious nuisance, and as the plague was raging in the localities a sum of Rs. 7,385 was sanctioned from the plague grant for ovoiding these drains. The work was executed departmentally and completed at a cost of Rs. 3,701-6-2. The ovoiding of the side drain alongside the St. Peter's Girls School having been executed as part of the abovementioned works, the sum of Rs. 1,045 provided for the work in the Budget was transferred to the grant for Repairs and Alterations in Drains.

128. The plant for providing electrolized sea-water was first started in regular work on the 14th May 1897, and it continued working until the 20th June 1897, when it was stopped owing to the commencement of the rains. It could not be started before the close of the year on account of the objection raised by the Telegraph Department regarding the overhead line which was proposed for conveying the electric current from the Depôt to Carnac Bunder. The Telegraph authorities have, however, allowed the overhead line for the greater portion of the distance on condition that the G. I. P. Railway telegraph line running parallel to Carnac Road was removed further south. The Railway Company was paid Rs. 60 for the removal of their line, but the work was only completed by the middle of March. Several experiments were conducted with the fluid produced, but it is premature at present to express any conclusive opinion in regard to its efficacy or cost compared with other disinfectants, as further trials are being made. The total cost of working and maintaining the plants up to the end of the year amounted to Rs. 1,135-2-8.

129. The work of converting the Bhangi Moholla night-soil depôt into a receiving depôt was completed at a cost of Rs. 2,953-3-0. As regards the work of converting the Haines Road Night-soil Depôt into a receiving depôt, orders were issued to the contractors, Messrs Dewram Keshowjee and Company, to start the work on the 25th March 1898. The

contractors are bound under their contract to complete the work within four months from the date of order.

130. A wind-mill and pump to lift subsoil water at Kamatipura were fixed by Messrs. Macbeth Brothers and Company. The mill and the pump have been working satisfactorily, but the power being small there has been no appreciable effect on the subsoil water. It is therefore proposed to sink a small well close by to determine the effect of the pumping. The total cost of the work amounted to Rs. 873-9-10.

131. The work of removing, raising and refixing the service pipes of flush tanks in the gullies at Kamatipura, Foras Road and Ripon Road was completed departmentally at a total cost of Rs. 1,118-7-1, and among other miscellaneous works carried out during the year may be noted the construction and improvement of a number of latrines and urinals.

132. The sluices and penstocks under the supervision of the staff continued to work satisfactorily and the miscellaneous duties of repairs, alterations, construction, flushing and cleansing were efficiently performed. Works in connection with the sanitary and water service arrangements at the Plague Hospitals at Modikhana, Grant Road, Northbrook Gardens, Charni Road, and near the Grant Road Bridge, the Segregation Camps at Wari Bunder, Narielwady, Modikhana, Foras Road, Moreland Road, Connaught Road and Colaba, and the Contact Camp at Elphinstone Bridge were executed at the request of the Plague Committee.

133. Of 2,044 notices issued for compliance with the requirements of the Municipal Act, 978 were complied with. 1,007 summonses were issued, of which 312 were withdrawn and 695 complied with; the amount of fines inflicted upon convictions totalled Rs. 1,580.

134. The value of drainage stock, such as stoneware pipes, cast iron fittings, cement, &c., at the commencement of the year was Rs. 3,83,182-10-9. Receipts and issues amounted to Rs. 1,45,522-15-0 and Rs. 1,32,428-5-11 respectively, and the total value of the stock in hand at the end of the year was Rs. 3,96,277-3-10.

WATER WORKS.

135. *Tansa Lake.*—The rainfall for the year was 104·82 inches, against 120·13 and 92·37 inches in 1896 and 1895 respectively. The heaviest fall was on the 7th August when 7·95 inches were registered. The lowest water level was 393·19 T. H. D. on the 17th June 1897. The lake overflowed on the 18th July 1897 after 35·38 inches of rain had been registered, and ceased to overflow on the 24th September 1897. The storage above lowest outlet on the 1st October 1897 was 18,559 millions of gallons and on the 31st March 1898 it was 12,396 millions of gallons, showing a consumption of 6,163 millions of gallons in six months, or 34·05 millions of gallons per day including evaporation, absorption and leakage. The quantity of water passed over the waste weir is estimated at 26,403 millions of gallons.

136. The approximate quantity of water passed from the duct at the Ghatkoper syphon head for the year amounted to 7,275 millions of gallons. About 213 millions of gallons of water passed into the Vehar Lake against 165 and 88 millions of gallons during 1896-97 and 1895-96 respectively. The daily average of the quantity supplied to the City and delivered into Vehar was consequently about 20$\frac{1}{2}$ millions of gallons a day leaving about 13$\frac{1}{2}$ millions a day for leakage, absorption and evaporation in the lake and the duct.

137. The work of constructing quarters for the Sub-Inspectors and watchmen at Tansa was nearly completed at the close of the year. A sum of Rs. 62,115 was sanctioned for repairs to the portion of the embankment from Godowli to the north of the Bassein creek No. 3. The work was entrusted to Mr. Bhaskar Shivram at Rs. 53,737-8-0 and a greater part of it was completed by the end of the official year, and it is hoped that the remaining work will be completed shortly.

138. Owing to the heavy demand of water supply for flushing purposes during the prevalence of plague in Bombay, the inspection of and repairs to the duct during the year were not carried out. There was not a single burst on the 48″ Tansa main, and the supply of water into Bombay was therefore not interrupted.

139. The work of repairs to Tansa Duct on the 45th mile at Ghatkoper was carried out departmentally and nearly completed at the close of the year.

140. *Vehar Lake.*—The rainfall for 1897 was 97·56 inches against 109·81 and 82·81 inches for 1896 and 1895 respectively. The lake overflowed on the 8th August 1897 and ceased to do so on the 7th October 1897. The heaviest fall was 7·56 inches on the 16th July. The lowest water level was 251·71 T. H. D. on the 16th June 1897. The storage on the 1st October 1897 was 11,425 million gallons ; on the 31st March 1898, 8,906 million gallons ; the total consumption of water from the lake during the dry months from 1st October 1897 to 31st March 1898 was 2,519 million gallons, equivalent to 13·9 million gallons per day in addition to 213 million gallons drawn from Tansa. Between the 7th August and 8th October 1897, 1,098 million gallons of water were received from Tulsi Lake by overflow. The quantity that passed over the Vehar waste weir between the 8th August and 7th October was 4,287 millions of gallons.

141. During the year only one claim for reward for capture of a crocodile in the Vehar Lake was made.

142. *Tulsi Lake.*—The rainfall of 1897 was 118·66 inches as compared with the previous two years, 1896 and 1895, when it was 139·52 and 100·40 inches respectively. The heaviest fall was on the 8th August 1897, being 7·76 inches. The lowest water level was 435·00 T. H. D. on the 17th June 1897. The lake overflowed on the 7th August 1897 and ceased to overflow on the 9th October 1897. The storage on 1st October 1897 was 2,305·6 million gallons ; on the 31st March 1898 it was 1,304 millions. The total volume of water drawn from the lake during the six dry months from the 1st October 1897 to 31st March 1898 was 1,001 million gallons, or 5·5 million gallons per day, allowing 4½ millions for supply and leaving about 1 million for leakage and evaporation.

143. The Tulsi gathering ground forest is now supervised by the Government Forest Department—since April 1896.

144. *Pawai Lake.*—The water supply from this lake was not required. The pumping plant remained in charge of the Assistant Engineer, Mechanical Branch.

145. *Bhandarwada Reservoir.*—The expenditure for the work of covering storage basin and construction of filters over it during the year was Rs. 1,23,084-7-4. The contract for supplying and laying filtering materials was entrusted to Mr. Sitaram Laxmon at Rs.19,448, but though the contract time has already expired, only about half the sand has been placed in filter No. 9 and a small quantity in No. 7. The metal and nearly all the shingle have been put in. The work of pointing the four walls and paving the floor of the storage reservoir with Indian patent stone was completed by Messrs. Garlic & Co. at a cost of Rs. 23,086-0-9.

146. *Malabar Hill Reservoir.*—Filters Nos. 2, 3 and 4 have had some alterations made in their outlet arrangements and are now in process of being recharged with filtering materials.

147. *Miscellaneous Works.*—The case in connection with the laying of the pipes within the G. I. P. Railway limits was not disposed of before the close of the year by the High Court, consequently the work of connections at Chinchpokly has been delayed. The work of supplying and laying 4″ cast iron mains in various parts of the City was entrusted to Mr. Pallonji Edulji at a cost of Rs. 24,373-2-0 and was nearly completed. The work of laying 9″ main in Worli Road in place of the existing 3″ one was entrusted to the same contractor at a cost of Rs. 48,611-6-0 and was in progress.

148. Revised proposals for the laying of the mains in Kalachowky, Reay, Sewri and Dockyard Roads are under consideration.

149. *Distribution and Maintenance.*—A large quantity of water was used during the year under report, also for flushing the drains and gutters on account of the prevalence of plague, and 327 house-connections were cut off and replaced by 246 stand-pipes in convenient positions.

150. The Corporation under their Resolution No. 7220 of 19th October 1896 having accepted the offer of Mr. Shaisha R. Naidoo to erect at his expense a drinking fountain at the junction of Elphinstone and Dadar Roads, the work was entrusted to the petty works contractors and was nearly completed at the close of the year.

151. The number of bursts during the year was 109 against 180 last year and 255 in 1895-96. Exclusive of the connections cut off on account of the plague, 365 services were disconnected on account of demolition of buildings, non-payment of rates, &c. There were 2,209 meters in use on the 31st March 1898, being an increase of 162. The consumption registered by meter aggregated a little over 1,253 million gallons.

STOCK.

152. The value of reserve stock was Rs. 4,43,965-5-4 at the beginning of the year, the purchases and issues amounted to Rs. 59,637-1-8 and Rs. 91,652-9-6 ; the value of the balance at the close of the year was Rs. 4,22,005-10-3.

153. The sale of produce, trees, grass and the like at the lakes and along the pipe lines fetched Rs. 1,788 against Rs. 2,029 realized in the previous year. The number of notices issued during the year for faulty taps, &c., was 10,010 against 9,747 in 1896-97. Sanction was accorded by the Standing Committee under Section 279 of the Act to sever the connection of service pipes in 1,994 cases ; the sanction was acted on in 226 cases.

MUNICIPAL BUILDINGS.

154. The most important buildings completed during the year are given below :—

Bhuleshwar Market and Schools.

Two additional sheds for sheep and goats at the Bandora Slaughter-Houses.

Quarters for the Chief Inspector and sluicemen of the Water Works Department at Babula Tank.

Quarters for the animal-keepers in the Victoria Gardens and office for the staff of the Victoria Gardens.

155. The construction of the Sankli Tank Fire Brigade Station was completed on the 30th November 1896 ; since then the Corporation have sanctioned some additional works which were in progress at the close of the year when the total expenditure passed was Rs. 1,68,829-3-7.

156. The work of constructing the Gamdevi Fire Brigade Station made a satisfactory progress at the close of the year, the expenditure being Rs. 4,252-4-10.

157. The work of constructing a temporary market at Fergusson Road was commenced just before the close of the year. The work of filling in quarry holes near the Railway Station at Bandora was not completed at the close of the year, the expenditure passed being Rs. 2,832-5-8.

158. The work of constructing quarters for Malis in the Victoria Gardens has been entrusted to Messrs. Deoram Keshavji and Company. The total expenditure passed up to the close of the year was Rs. 105-4-0. The same contractors have been given the work of constructing quarters for the head animal-keeper in the Victoria Gardens. The work had however to be stopped until the finances of the Municipality improved; it will probably be taken in hand after the rains. Additions and alterations to the chawl at Dadar will be taken in hand after the rains when the halalkhores of the Health Department who occupied it will vacate the building. The work of constructing a Ward Office for the Streets and Buildings Branch of the Executive Engineer's Department at Gamdevi is in progress. The arrangements for building the Nasserwanji Maneckji Petit Public Hall were not completed at the close of the year. A statement of Municipal properties will be found as an appendix to the Executive Engineer's Report.

159. Applications for permission to build or rebuild during the year numbered 1,129 as against 1,261 during the preceding year. Of these 1,123 were passed wholly or partially, the remainder being unconditionally disapproved on sanitary or other grounds.

160. The number of notices issued to householders under the various sections of the Act was 4,635, or 516 more than in 1896-97. 332 summonses were issued for non-compliance; in 223 of these cases the parties complied before the service of summons, in 17 cases the parties were convicted and fined in various sums aggregating Rs. 255, in 19 cases second summonses and in 2 third summonses were issued, and 71 cases were postponed.

161. During the year 27 buildings or portions of buildings collapsed, and in 2 of these cases 5 persons were injured and one killed. Under sundry sections of the Act 3,796 orders were issued for the summary removal of ruinous houses

and objectionable erections. With the exception of 473 cases in which action was still pending at the close of the year, these orders were carried out. Set-backs to the extent of 4,086·91 square yards were effected during the year at a cost of Rs. 1,27,215-1-9.

ROADS.

162. In connection with the construction of Reay Road negotiations for the purchase of several properties have been completed. The construction of the northern approach to the overbridge and the roadway in continuation thereof up to De Lima Street cannot, however, be taken in hand until the alignment of the overbridge and its southern approach has been finally settled by the Port Trustees and the G. I. P. Railway Company. The remainder of Reay Road from Dock-yard Road to the junction of Coppersmith Street and Gunpowder Road is now in progress. Some of the properties required for this road were acquired under the Land Acquisition Act, The Collector's awards were accepted by the owners except in the case of property belonging to Bai Meherbai Edulji Tavernwalla. In this case an appeal was made to the High Court by the claimant. The appeal was heard during the year under review and was dismissed with costs in favour of the Municipality. The excavation of Narielwady having approached completion the construction of Victoria Road was started and the work is now in progress.

163. As regards the proposed road from Dongri Street, across Navroji Hill to Elphinstone Bridge properties admeasuring 784·37 square yards have been purchased at the aggregate cost of Rs. 63,860, including the value of the buildings ; the acquisition of the remaining properties is in progress. A flight of steps to the south of the Falkland Road Bridge was constructed at a cost of Rs. 5,466-3-1. These steps were opened to the public on the 1st February 1898 and have proved to be a great convenience. It is proposed to hand over to the New Improvement Trust the Municipal properties designated as follows :—

(*a*) The Agripada Estate.
(*b*) Connaught Road Estate.
(*c*) The Matunga Estate.

164. The Agripada estate consists of large plots of land situated in the Agripada district bounded by Arthur Road on the west, Clerk Road on the north, DeLisle Road, Haines Road and Clare Road on the east, and Bellasis Road on the south. Some small plots of the frontage land of this estate have been sold, and the remainder, including the area of the land occupied by the newly constructed roads, admeasuring in all about 412,815 square yards, is to be handed over to the Trust. The scheme for the improvement of this estate consisted of the construction of several large and small roads of which only four principal ones have been taken in hand, *viz.*, Morland Road, Club Street, Gilder Street, and Souter Road. The whole of Morland Road, Gilder Street except a small portion near the Hindustan Mill, and the portion of Club Street extending from Morland Road to Gilder Street have been completed. Souter Road is yet incomplete on account of the firm of contractors who undertook to carry out the work having stopped the work owing to some disputes among the partners.

165. Connaught Road estate consists of a large plot of land immediately to the north of the Victoria Gardens. Portions of it have been added to the Victoria Road and to the existing public streets, *viz.*, Parel Road and Ghorupdeo Road. A portion of the land has also been utilized for the construction of Connaught and Sussex Roads. Some of the plots abutting on these roads and Parel Road have been sold and the remainder will be handed over to the City Improvement Trust. The area to be so handed over is about 59,550 square yards, including the area occupied by the said Connaught and Sussex Roads.

166. The Matunga estate consists of several plots of land acquired in the Matunga District. These plots of land including the area occupied by Vincent Road, which is completed, and admeasuring 298,376 square yards, are proposed to be handed over to the new Improvement Trust.

167. *Miscelleaneous.*—The work of removing and recovering the chunam covering of the terrace roofing of the Victoria and Albert Museum was entrusted to the annual repairs and petty works contractors about the close of the year. Some additional works, such as providing wooden gates for entrance,

raising and repairing old walls, &c., for the Sunni Mahomedan Burial Ground at Tank Bunder, have been entrusted to Messrs. Teju Kaya & Co.

168. The work of enclosing by a masonry wall the ground at Mount Road allotted to the Beni-Israel community for burial purposes is now in progress. The construction of a compound wall at the Tank Bunder Hindu Burial and Burning Ground could not be proceeded with as the question of the boundaries of the burial ground on its north and east sides has not yet been settled. The Executive Engineer has made satisfactory progress in regard to the arrangements for the future disposal of town sweepings of the City, the details of which will be found in his report.

169. During the year 10,076,008 square feet of roads were repaired at a cost of Rs. 3,53,578-12-6, giving an average of about 6¾ pies per square foot as against 6 pies in the preceding year. The City roads were watered during the year under report some once; some twice and some thrice a day according to the importance of the traffic, except during the latter part of the year, when it was entirely discontinued on sanitary grounds, in connection with plague in the case of minor roads, and partially in the case of principal thoroughfares, the total expenditure being Rs. 1,20,180-10-11 against the grant of Rs. 1,30,400. 876 new pattern hydrants for watering the roads have been fixed up to the end of the year. The system of watering direct from the mains by means of hydrants has proved very successful. Under the provisions of the Municipal Act it is difficult to have any control over the condition of private streets; as defined therein such streets cannot be repaired at Municipal expense, and the house-owners cannot be compelled to keep them in order, owing to the difficulty of proving that the streets or particular portions of them have been in the undisturbed use of the public.

170. Footpaths measuring 26,740 square yards were paved with blue stone at a total cost of Rs. 13,550-6-3. During the year no new tram lines were laid, but the single track along Girgaum Road from the Portuguese Church to the Money School admeasuring 524 feet was doubled. The doubled tram lines along Frere Road and from Pydhowni to Grant Road tram terminus were renewed.

LIGHTING.

171. The conversion of all the ordinary gas lamps into incandescent ones was completed during the year at a total cost of Rs. 2,08,476-5-8 against the sanctioned grant of Rs. 2,17,842. The total number of incandescent gas lamps in the City during the year was 3,828.

172. The minimum pressure of $\frac{8}{10}$ of an inch was maintained at all Municipal pressure registers. The gas supplied was pure and its illuminating power was generally up to the contract standard. The illuminating power of an incandescent gas light averaged 30 candle power as against the minimum contract illuminating power of 25 candles. During the year 4 additional automatic pressure registers were fixed at Charni Road, Prince's Dock, Dongri Street and Pedder Market.

173. The total number of kerosine oil lamps in the City at the end of the year was 1,777 and their lighting continued to be departmentally managed, the oil used being 150° proof test. Rs. 39,130-1-4 were spent on this, but deducting Rs. 2,632-12-9, the value of empty cases and tins, and Rs. 8,862-6-2, the value of kerosine oil cases on hand, the net cost of kerosine oil lighting amounted to Rs. 27,634-14-5. The average annual net charge per lamp worked out to Rs. 15-11-4.

174. The electric light installation for lighting the Arthur Crawford Markets and the Municipal office worked satisfactorily. There were five stoppages of the Markets' lights, due to the breakage of the Armature wires of the dynamo and one due to a short circuit in one of the lamps. The stoppages were only of short duration. The total cost of working the electric light plant was Rs. 10,549-7-3.

WORKSHOPS.

175. The balance in favour of the Workshops at the close of the year worked out to Rs. 1,141-3-4. Rs. 5,508-12-10 were paid to Government under protest on account of rent for the Workshops and Stores premises and the land occupied by Grant House for the year under review. The question as to the ownership of the land occupied by the Workshops

premises was not settled at the close of the year. Charges amounting to Rs. 1,371 for remetalling the Workshops compound, as also the purchase of a new platform weigh-bridge at a cost of Rs. 500, were met out of Workshops profits. Water charges for the 1st quarter of 1897 amounting to Rs. 386-12-0 were met from the Workshops grant for stores and water supply, and the charges for water supplied from April remained unadjusted at the close of the year. The grant for stores had to be supplemented by a transfer of Rs. 5,660-8-5 from savings in the grant for Establishment and Labour, and also by an advance of Rs. 7,489-7-7 from Surplus Cash Balance on account of several unforeseen works. A large number of carts, hose reels, hand ambulance carriages, &c., were manufactured for various departments, and electric light installation was provided at the Colaba Pumping Station and the electrolizing plant was erected at the Carnac Bunder Night-Soil Depôt. A flight of steps for the Falkland Road overbridge was constructed, and an equifex disinfecting apparatus and a corrugated iron shed for the same, were erected at Modikhana. The total cost of works undertaken on account of the Plague Committee and completed during the year amounted to Rs. 11,518-0-9.

176. The Workshops have continued to keep in repairs the rolling stock of the Health and Road Departments as well as the numerous articles of plant and machinery used by the various Deparments. Owing to the absence of workmen during the height of the plague epidemic, the repairs to the Health Department dust-bin carts could not receive the usual amount of attention. Rs. 7,000 were provided in the Budget for the purchase of a new engine and boiler for driving the Workshops machinery. Messrs. John Fleming & Co. supplied a Marshall's double cylinder high-pressure under-type engine with loco type boiler, for Rs. 6,900, on the 30th September 1897. It was erected on a new foundation by the Workshop staff and was started on the 27th of October and has been working very satisfactorily. The average consumption of coal per month in the old engine and boiler from July to October 1897 was 41 tons 12 cwts. 2 qrs. against the average monthly consumption in the new engine and boiler from November 1897 to February 1898 of 22 tons 5 cwts., thus the saving effected in coal by the use of the new engine and boiler in four months amounted to

Rs. 1,085. Nine of the Workshops employés succumbed to the plague. The number of deaths from this disease last year was also the same.

177. The Hydraulic Lift in the Municipal Office worked satisfactorily throughout the year.

INSPECTION OF INSANITARY HOUSES.

178. A large number of houses which are insanitary and unfit for human habitation have been examined under the authority of Government Notification No. $\frac{P}{228}$, dated 10 February 1897, issued under the Epidemic Diseases Act. The districts under examination are Lower Colaba, Fort, Dhobi Talao, Chukla, Mandvi, Umarcarry, Dongri, Bhuleshwar, Kamathipura, 1st Nagpada, 2nd Nagpada and portions of Byculla known as Agripada and Gujri Bazar. In addition to the systematic inspection of houses in the above districts the examination of some of the more urgent cases in other parts of the City has also been made. In the case of a house requiring improvement notice is served on the owner calling upon him to carry out the required improvements within a time fixed and informing him that in case of default the house will be closed. Only a few houses have been vacated owing to the approach of the monsoon and the difficulty experienced by the people in finding house accommodation. 741 notices were issued during the year under the different sections of the Government Notification and the City of Bombay Municipal Act. Rs. 10,290 have been awarded as compensation for demolishing houses under sections 6 and 9 of the Government Notification and Rs. 2,299-4-2 were paid as compensation for the demolition of huts and sheds under section 426 of the Municipal Act.

FIRE BRIGADE.

179. The efficiency of the Brigade continues to be maintained. No fatalities occurred, but several members of the force were slightly injured in the discharge of their duties. Some were hurt during the rioting of the 9th March, but all recovered, and the general health of the establishment has been fairly good.

180. The water supply at fires has been on the whole satisfactory. The new station at Gowalia Tank Road is in course of erection.

181. Six additional men have been employed to complete the staff at each manual engine station.

182. The Corporation sanctioned an allowance equal to one-sixth of their salaries to 120 men of the Brigade for performing extra duty at Segregation Camps from the 12th October 1897 to the 27th January 1898, and again from the 28th January to 152 men to the extent of one-fifth of their salaries for extra duty in flushing gullies in connection with the measures for suppressing the plague. Two horses have been purchased during the year to replace two sent to Pinjrapole.

183. The order for hose, consisting of 7,860 feet, was satisfactorily executed by Messrs. J. Fleming & Co., through whom it was obtained.

184. The strength and equipment of the Brigade is as follows :—

Strength.

1	Chief Officer.	12	First Class Tindals.
1	Surgeon.	6	Second Class Tindals.
1	Clerk.	108	Firemen of grades.
1	Head Foreman.	7	Drivers.
5	Foremen	7	Grooms.
6	Engineers.		

Total 155, including all ranks.

Equipment.

8	Steam Fire Engines.	6	Telescopic Fire Escapes.
9	Manual do.	1	Brake.
16	Hose reels.	15	Horses.
7	Tender carts.		

291 lengths of delivery hose, comprising 17,460 feet, and other necessary appliances.

185. The estimated damage to property by fire and water during the year was Rs. 19,98,464.

186. The accompanying table gives the number of fires and estimated loss during the year under report as compared with the preceding year :—

	Serious Fires.	Slight Fires.	Total	Estimated loss.
1897-98...	23	113	136	Rs. 19,98,464
1896-97...	16	106	122	„ 18,75,662

187. The most destructive fire during the year occurred on the 3rd March at the Mazagon Spinning and Weaving Mill, Reay Road. Property to the estimated extent of Rs. 10,00,000 was destroyed. The whole strength of the Brigade and its appliances was utilized in its suppression supplemented by the Mill appliances. On April 12th, at Baroda Street, a large godown and contents were severely damaged by fire, the estimated loss being Rs. 37,500. On May 17th an alarming fire occurred at Lohar Chawl Street where two dwelling houses, owned by Mr. Wassanji Khimji, were severely damaged by fire, the estimated amount being Rs. 15,120. On September 20th the Framji Petit Spinning and Weaving Mill, Mazagon Road, sustained loss by fire to the extent of Rs. 5,00,000.

188. On the 19th February the Modikhana Segregation Camp was damaged by fire to the extent of Rs. 11,150.

189. A comparative list of fires during the past five years is given below :—

Year.	Number of Fires.	Value of property destroyed.
1893-94...	120	Rs. 6,77,128
1894-95...	97	„ 2,25,445
1895-96...	130	„ 20,41,571
1896-97...	122	„ 18,75,662
1897-98...	136	„ 19,98,464

PUBLIC GARDENS.

190. The following public gardens continued to be maintained :—

(*a*) Victoria Gardens.
(*b*) Elphinstone Circle Gardens.
(*c*) Northbrook Gardens.
(*d*) Malabar Hill Garden.
(*e*) Bazar Gate Garden.
(*f*) Falkland Road Garden.
(*g*) Dicks Tank Garden.
(*h*) Garden on the Flats.
(*i*) Municipal Office Garden.
(*j*) Sir Cowasji Jehangir Garden at Mahim.

191. The plague caused some further delay in the carrying out of irrigation and drainage works and considerably affected the number of visitors, the total number for the year under report being 7,62,811 against 10,71,929 the previous year, thus showing a diminution of over 3 lakhs.

192. The Clock Tower was struck by lightning during a storm, but the damage has since been repaired and a lightning conductor added.

193. The Refreshment Room remained unoccupied during the greater part of the year. It may be found advisable to reduce the rent.

194. Owing to the continued difficulty of procuring good gardeners the work of maintaining the garden was more difficult than it would otherwise have been.

195. Numerous specimens have been added to the Horticultural Section by purchase and the Zoological collection has also been increased by gift and purchase.

196. The other gardens have been maintained in good order as usual, and road-side trees duly attended to.

VICTORIA AND ALBERT MUSEUM.

197. Some additions were made to various sections of the Museum, especially in the Entomological and Ornithological Departments and specimens prepared for exhibition.

198. The Museum was open to the public for 314 days during the year and the number of visitors was 641,500 as against 584,865 during the previous year, showing a daily average of 2,042.

199. The number of visitors for the past five years is shown below :—

Year.	No. of Visitors.	Daily average.
1893-94	553,489	1,779
1894-95	685,047	2,188
1895-96	749,299	2,378
1896-97	584,865	1,874
1897-98	641,500	2,042

VI. Public Health.

200. The state of the public health during the year under review was very unsatisfactory. The mortality was 14,445 more than in the preceding year.

201. The total number of deaths from all causes amounted to 47,896 equal to a death-rate of 58·28 per 1,000 of population, calculated on a population of 821,764 (census of 1891). The average number of deaths for the previous five years amounted to 28,609, or a death-rate of 34·81 per 1,000 of population.

202. The number and causes of deaths in the city during the last five years are shown in the following table:—

RETURN showing the Number of Deaths and the Death-rate per 1,000 of Population from Different Causes during the last Five Years.

YEARS.	Total number of deaths.	Per 1,000 of population.	Cholera.	Per 1,000 of population.	Small-pox.	Per 1,000 of population.	Measles.	Per 1,000 of population.	Fever.	Per 1,000 of population.	Phthisis.	Per 1,000 of population.	Diseases of the Nervous System.	Per 1,000 of population.	Diseases of the Respiratory System.	Per 1,000 of population.	Diarrhœa.	Per 1,000 of population.	Dysentery.	Per 1,000 of population.	Accidents.	Per 1,000 of population.	Other causes.	Per 1,000 of population.	Plague.	Per 1,000 of population.
1893	33,142	28·16	147	·78	201	·24	289	·35	5,844	7·11	3,227	4·05	2,084	2·54	4,551	5·54	1,173	1·43	525	·64	458	·55	4,548	5·53	..	..

* For two years only.

203. The number of deaths according to place of birth was as follows:—

Born in Bombay	16,191
Born elsewhere and unknown	31,705

204. The sections of highest mortality were 2nd Nagpada 105·01, Kamathipura 97·86, Mahim 87·86, Parel 85·28, Byculla 80·71 and Tardeo 79·71, and the sections of lowest mortality were Water Division 3·25, Fort Southern 8·85, Esplanade 16·79 per 1,000 of population. The death-rate was highest amongst Negro-Africans, Lingaets, Hindu low-castes, Mussalmans and Budhists, being respectively 113·69, 109·69, 103·65, 72·77, 68·42 per 1,000 of population, and lowest amongst Europeans, Parsees, Brahmins, Eurasians, Jews, Bhatias, Jains and Native Christians, being respectively 18·77, 32·61, 38·72, 42·49, 44·01, 46·38, 51·57, 51·69 per 1,000 of population.

205. *Cholera.*—The numbers of deaths from cholera was 1,265, being 775 more than in the preceding year. The sections of the greatest mortality were Byculla, Tarwady, Parel, Mahim, Worlee, 1st Nagpada, Middle and Lower Colaba, being 3·50, 3·33, 3·13, 2·97, 2·74, 2·60 and 2·42 per 1,000 of population. The highest death-rate by caste was amongst Hindu low-castes, Native Christians, Lingacts, Brahmins, Jains, Mussalmans and Jews.

206. *Small-pox.*—The deaths from small-pox were 57, being 644 less than in the preceding year. The rate of mortality was highest amongst Hindu low-castes and Mussalmans. The mortality was highest in 1st Nagpada, Kamathipura, 2nd Nagpada and Byculla.

207. *Measles.*—There were 359 deaths from measles, being 118 more than in the last year. Of these, 274 occurred in the first four years of life. The highest mortality was amongst Hindu low-castes and Mussalmans. The death-rate was highest in 2nd Nagpada, Byculla, Tardeo, Kumbharwada, Khara Talao and Kamathipura.

208. *Fevers.*—There were 6,951 deaths from fevers, being 1,825 less than in the last year. The death-rate was highest in the districts of Parel, Sewree, Kamathipura,

2nd Nagpada, Byculla, Tardeo and Mahim. The greatest mortality was amongst Negro-Africans, Hindu low-castes, Budhists, Mussalmans, Lingaets and Hindus of other castes.

209. *Leprosy.*—There were 63 deaths from leprosy, being 9 more than in the preceding year.

210. *Plague.*—There were 11,003 deaths from Plague. Detailed particulars of this disease have been given by the Executive Health Officer in his report.

211. Of the dead, 22,818 were burnt, 24,812 were buried, and 1,634 were conveyed to the Towers of Silence. This is inclusive of 1,368 still-born.

212. The number of births registered, exclusive of still-born was 9,336, or 6,554 less than in the last year. Of these, 4,903 were males and 4,433 females. The diminution in the number of births was probably due to the exodus of people on account of the prevalence of the plague. Excluding Negro-Africans, the birth-rate was highest amongst Hindu low-castes, Jews, Parsees and Eurasians. The sections giving the highest birth-rate were Mahim, Byculla, Upper Colaba, 2nd Nagpada, Khetwady, Fort Northern, Tardeo, 1st Nagpada, Mazagon and Worlee.

213. On an average 4,505·9 men and women, 1,016 scavengering and drain carts, and 208·66 night-soil and cesspool carts were at work each day. 404,284·88 tons of garbage, equal to 1,107·63 tons a day, were collected, removed and disposed of against 326,552·20 tons in 1896. The Health Department had to remove an enormous amount of grain refuse and other materials condemned during the plague operations. 156,057·09 tons of night-soil, equal to 427·55 tons a day, were collected and removed against 160,670·30 in 1896. 173·6 miles of covered drains were opened and cleaned against 191·6 in 1896. There were 13 horses and 2,290 bullocks in the charge of the department, and of these 135 bullocks died and 202 were cast and sent to Pinjrapole. There were no casualties amongst the horses. 5,077 notices and 2,489 summonses were issued against 5,507 notices and 2,650 summonses in 1896.

LICENSES.

214. The total revenue collected on account of license fees during the year amounted to Rs. 63,741-8-0 as against Rs. 56,462-8-0 the preceding year, thus showing considerable improvement.

215. The following statement shows the amounts collected and the number of licenses granted during the past five years :—

Year.	No. of Licenses issued.	Amounts collected.
		Rs. a. p.
1893-94	5,407	60,507 8 0
1894-95	5,701	63,914 8 0
1895-96	5,880	65,048 8 0
1896-97	5,130	56,462 8 0
1897-98	5,750	63,741 8 0

216. The department continues to work satisfactorily.

MARKETS.

217. The total revenue from Markets and Slaughter-houses was Rs. 3,74,002-2-0 against Rs. 3,95,440-13-6 in the preceding year, giving a net decrease of Rs. 21,438-11-6.

218. The principal cause of this decline was the falling off of Rs. 11,300 in the fair ground rent and feeding fees at Bandora. There was also a net decrease of Rs. 4,700-8-0 in the amount of market fees. This decrease would have been greater on account of the abatement of Rs. 9,192 granted to the stall-holders in consideration of the loss sustained by them owing to the depressed condition of the trade due to the prevalence of the plague, but for the high bids for the pens at the DeLisle Road Sheep Market and the stalls in the new Bhuleshwar Market.

219. The following table shows for the last five years the number of animals slaughtered at the Bandora Slaughter-Houses and in Bombay for Public and Commissariat consumption exclusive of the local supply to Bandora :—

Year.	Horned Cattle.	Sheep & Goats.	Pigs.
1893-94	35,456	487,515	95
1894-95	35,614	514,753	871
1895-96	38,296	521,731	821
1896-97	39,659	474,469	61
1897-98	33,661	533,860	614

220. The appended statement shows the number of animals taken from the Municipal Slaughter-Houses for private slaughter since 1893-94 :—

Year.	Horned Cattle.	Sheep and Goats.
1893-94	328	33,167
1894-95	250	32,643
1895-96	323	30,731
1896-97	358	5,406
1897-98	128	6,381

221. Nearly fifty-four tons of unwholesome food were destroyed during the year under report as in the year 1896-97, the major part of it consisted of mutton and beef.

222. The supply of fruit and vegetables was plentiful and cheap, and the supply of mutton and beef was also fairly good.

223. There were 150 prosecutions instituted under the several sections of the Municipal Act and the Market By-laws, in 138 of which the parties were fined and in 12 cases they were warned and discharged.

224. The new Bhuleshwar Market was completed and occupied on 1st May 1897.

225. Owing to the plague epidemic the Superintendent of Markets had great difficulty as in the previous year in keeping the stall-holders in hand, and the Commissioner considers that officer deserving of warm commendation as well as the superior staff.

STREET ACCIDENTS.

226. The number of persons injured and killed in the streets was as follows :—

Injured	370
Killed	17

227. The greater part of these accidents occurred in the thoroughfares mentioned below :—

Esplanade Road ...	6	Shaik Memon Street ...	7
Queen's Road	9	Girgam Road	12
Frere Road	7	Duncan Road	10
Musjid Bunder Road ...	10	Falkland Road	9
Nagdevi Street	8	Grant Road	10
Abdool Rehman Street...	13	Parel Road	11
Bhendi Bazaar Road ...	17	Bellasis Road	12
Kalbadevi Road ...	10	DeLisle Road	9
Erskine Road	7		

228. The number of street accidents for the past five years is as follows :—

Year.	No. injured.	No. killed.	Total.
1893-94	620	19	639
1894-95	569	22	591
1895-96	523	28	551
1896-97	463	25	488
1897-98	370	17	387

VII.—Education.

229. The actual receipts and expenditure on Municipal Primary Schools for the year 1897-98, were as follows :—

No.	Receipts.	Amount. Rs. a. p.	No.	Expenditure.	Amount. Rs. a. p.
				A.—Schools.	
1	Balance on the 1st April 1897	48,499 7 1	1	Head Masters and Teachers ...	54,329 4 6
2	Government Grants to Primary Education and Inspection	42,666 0 0	2	Servants	1,400 8 7
			3	Rent	27,389 13 7
3	Fees from Municipal Schools	11,497 14 0	4	Cost of Class Books...	459 4 6
4	Contribution from the General Municipal Fund	72,478 0 0	5	School Furniture	4,704 5 6
			6	Prizes	946 14 6
5	Government Grant-in-aid towards Buildings...	.....	7	Contingencies and Miscellaneous ...	2,935 12 3
			8	Scholarships in Schools	234 4 2
6	Interest on Endowments or Investments..	523 11 0	9	Stipends of Students under training as Vernacular Teachers	1,171 11 1
7	Miscellaneous	.....	10	Inspectors' Establishment...	7,850 0 7
			11	Grants-in-aid to Primary Schools ...	20,991 0 3
				B.—Buildings.	
			1	Municipal Original Works...	.....
			2	Repairs to Municipal School Houses ...	129 13 7
				Balance on 31st March 1898 ...	53,122 3 0
	Total Rupees ...	1,75,665 0 1		Total Rupees ...	1,75,665 0 1

230. The Government contribution was the same as the previous year, namely, Rs. 42,666 ; the Municipal grant being Rs. 72,478 as against Rs. 59,135 the previous year. A decrease in the income from fees occurred, the amount for the year under report being Rs. 11,497 as against Rs. 17,111 the preceding year. This was due to the diminished attendance, an inevitable consequence of the recrudescence of plague. A fair average attendance was, however, maintained in the Urdu schools.

231. The working balance at the beginning of the year was Rs. 48,499. The total receipts for the year amounted to Rs. 1,27,165 as against Rs. 1,19,435 for the previous year, while the total expenditure was Rs. 1,22,542 as against Rs. 1,27,731 for the year before. The expenditure was considerably less than the estimate, as school and other charges were greatly diminished owing to the prevalence of plague. A statement will be found attached to the Committee's report, showing the number of scholars on the rolls of the several schools. There was even a greater falling off in the number than in the previous year, which was doubtless due to the epidemic, and very little information can be gathered from a comparison of the numbers.

232. The following new schools were opened during the year :—

Marathi.

1. Sion School.
2. Crawford Market Nerashrit School (for low-castes).
3. Dadar Girls' School.
4. Mahim Girls' School.

Urdu.

1. Kassab Moholla School.
2. Khara Talao School.
3. Nacoda Moholla School.

233. The number of aided schools has declined from 95 in 1896-97 to 85 in the year under report, most of them having dropped out of existence in consequence of the plague.

234. Much difficulty continues to be experienced in providing suitable housing for the schools, especially in crowded localities; it is hoped, however, that before long some satisfactory solution of the difficulty may be discovered.

235. Death played sad havoc again amongst the teachers, seventeen of whom, including four head-masters and one head-mistress, died during the year. Four of this number are reported to have succumbed to plague.

236. The Commissioner regrets the delay in the submission of this report. It has been due to the heavy str[illegible] upon several of the departments in consequence of the plag[illegible]

W. L. HARVEY,

Acting Municipal Commissioner
for the City of Bombay.

CHIEF ACCOUNTANT'S REPORT

FOR 1897-98.

FINANCIAL.

REPORT OF MR. W. E. WAITE, Chief Accountant, for the financial year 1897-98, as forwarded with his No. 4724 of 7th October 1898.

I have the honour to submit my annual report on the income and expenditure of this Municipality for the financial year 1897-98.

2. The year opened brightly with an unappropriated surplus cash balance of Rs. 13,03,549-11-5, with an estimated expenditure on revenue account only slightly in excess of the income to be applied to revenue purposes, with no misgivings as to the raising of our loans, and with a hope that the expenditure on plague operations would not hamper our resources materially. It closed with a surplus cash balance reduced to Rs. 2,25,501-12-11, with a failure to raise the required loans except by temporary expedients, and with the plague expenditure swelled to the enormous figure of Rs. 24,76,616-2-9.

3. The general results of the year are shown in the subjoined table, which contrasts the actual opening balance, the income and the expenditure with the Budget Estimates under these heads :—

Particulars.	Estimate.	Actuals.	More than Estimate.	Less than Estimate.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Opening Balance	20,25,000 0 0	20,74,712 8 4	49,712 8 4	.....
Income.....	67,90,100 0 0	71,45,560 8 5	3,55,460 8 5	.....
Expenditure—				
Original Estimate...	69,19,495 0 0	.....	.....	.....
Amended estimate per Statement B.	84,41,310 11 8	74,96,969 2 10	.....	9,44,341 8 10

The opening balance of Rs. 20,74,712-3-4 excludes sums advanced to the extent of Rs. 9,01,840-12-6 for Reserve Stock, but includes a sum of Rs. 6,71,162-7-11 already hypothecated for works but which remained unspent at the close of 1896-97. Allowing for this hypothecation the net opening balance is reduced to Rs. 14,03,549-11-5 or Rs. 6,21,450-4-7 less than the Estimate. This deficit was allowed for in arriving at the estimated opening balance for 1898-99, as will be seen on a reference to the Introductory remarks on page i of the Budget for that year.

As an indication of the fluctuating character of the Revenue it might be mentioned that the gross Income realized, amounting to Rs. 71,45,560-8-5, exceeded the Budget Estimate only by reason of recoveries of outstandings for previous years aggregating 2¾ lakhs and owing to a rebate of Rs. 4,37,055-0-1 to current revenue in respect of plague expenses met from revenue in 1896-97. But for these additions to our income the revenue would have shown a large falling off. Out of the excess realization of Rs. 3,55,460-8-5 over the Budget Estimate, Rs. 2,98,055-0-1 have been taken credit for while preparing the Budget Estimate for 1898-99.

Of the total lapse in expenditure of Rs. 9,44,341-8-10, Rs. 5,83,509-8-1 represent allotments made for outlay which are to be renewed in 1898-99. Of the balance of the lapse amounting to Rs. 3,60,832-0-9 a saving of Rs. 1,84,000 was anticipated before the close of the year and taken credit for in arriving at the opening balance for the year 1898-99 when preparing the Budget Estimate for that year.

The variations between actuals and the budget estimate of income and expenditure are dealt with in detail in the following paragraphs.

INCOME.

A. *Comparison between Actuals and the Budget Estimate.*

4. The anticipated income for the year, as budgetted for, was Rs. 67,90,100. Excluding the rebate on account of plague expenses, the amount actually realised and credited to the Municipal revenues was Rs. 67,08,505-8-4, thus showing a falling off of Rs. 81,594-7-8.

The factors which compose this net decrease are to be found in the annexed statement A-1.

A-1.

STATEMENT showing the Net Receipts during the Financial Year 1897-98 from all Sources contrasted with the Budget Estimate.

* Includes Rs. 5,869-4-3 received on W[illegible]rks portion of the Net Premia, &c., Fund [illegible].

5. The causes contributing to the more important variations are subjoined.

(1) *General Tax.*—Of the increase of Rs. 1,14,286-1-11 under this head, Rs. 79,090-5-11 is due to the outstanding of Rs. 1,14,895-12-11 at the end of 1896-97 having been reduced at the close of 1897-98 to Rs. 35,805-7-0. The balance of Rs. 35,195-12-0 is attributable partly to a decrease of nearly Rs. 14,000 in the estimated amount of refunds and partly to an unanticipated expansion in revenue of nearly Rs. 21,000.

(2) *Wheel Tax and Tolls.*—As in 1896-97, so in the official year under review, there has been a decrease, the estimated revenue having fallen short by Rs. 27,662-0-9. A reduction in the outstanding balance from Rs. 16,282-13-3 at close of 1896-97 to Rs. 6,550-2-3 on 31st March 1898 contributed to the extent of Rs. 9,732-11-0 towards counterbalancing the deficiency. The actual decrease for the year thus amounted to Rs. 37,394-11-9, which is accounted for by a considerable falling off in the revenue derived from the tax on private vehicles and animals, consequent on the plague.

(3) *Town Duties.*—The realisations under this head were Rs. 38,424-1-1 more than the Budget Estimate. Heavy imports of sugar are mainly responsible for the increase.

(4) *Receipt from Government for Tobacco Duty.*—I can attribute the decrease of Rs. 17,926-9-3 in this source of revenue to no other cause than the general stagnation in trade consequent on the combined effects of plague and famine.

(5) *Halalkhor Tax.*—A reduction in the outstanding balance from Rs. 73,055-0-11 at the close of 1896-97 to Rs. 22,551-12-6 at the close of 1897-98 augmented the receipts under this head by Rs. 50,503-4-5. This increase was, however, counterbalanced by a decrease in the special Halalkor Tax on Mills, consequent on a smaller number of hands having been employed in the different mills during the year, and the net result was an increase of only Rs. 29,485-4-7.

(6) *Water Tax and other Miscellaneous Water Works Revenue*—The decrease of Rs. 1,37,148-0-5 under this head is for the major part a nominal one. It would have been much heavier but for the reduction during the year from Rs. 1,06,938-7-9 to Rs. 42,192-15-5, of outstanding claims. This swelled the revenues to the extent of Rs. 64,745-8-4 and reduced the actual deficiency in the revenue of the year to Rs. 1,37,148-0-5.

Though the effect of plague on the mill industry diminished the consumption of water by mills by about Rs. 30,000, it is to the effect of the resolution of the Standing Committee, No. 1644 of the 12th May 1897, that we are to look for the reason of the *nominal* reduction in our water revenue of about Rs. 1,75,000.

Under the terms of this resolution bills for water supplied by meter were not prepared for the *quarter* ending *31st December 1898*, but for the *half year* ending *31st March 1898*, thus deferring till the year 1898-99 the collections for the third quarter of the official year, which aggregate about Rs. 1,75,000.

(7) *Market Receipts.*—The effects of plague are visible in this source of revenue also, showing as it does a falling off on the Budget estimate

of Rs. 40,462-4-3. Decreases in " Stall rents," " Squatters' fees," " Fair ground " and " Slaughter fees " are entirely responsible for the large diminution in the anticipated income.

(8) *Miscellaneous Receipts.*—The increase of Rs. 14,971-3-0 under this head is due principally to sales of land at Mint Road and Fergusson Road, which were not expected when preparing the Budget Estimate.

(9) *Miscellaneous Fees.*—I have no doubt that this source of revenue was seriously affected by the plague, the receipt being Rs. 18,716-4-10 lower on an estimate of Rs. 50,000 only.

The income receivable through the Executive Engineer for fees for projecting verandahs, balconies &c., for scaffoldings, and for occupying public roads fell off by Rs. 12,018-6-4.

The contract for skinning dead animals realised only Rs. 3,0[illegible] against an estimate of Rs. 9,000, consequent on the stagnation in the hide trade.

(10) *Miscellaneous Savings.*—Increases or decreases under this head are variable items of revenue depending upon the extent to which wages are appropriated owing to their being time-barred. Plague, no doubt, increased the sum of such unclaimed wages owing either to the death or the continued absence of employés.

(11) *Interest and Profit on Surplus Loan and other Balances.*—The decrease of Rs. 20,356-5-0 is due to the heavy drain on our resources for the purposes of financing plague expenditure which did not allow of investments to the extent anticipated when framing the Budget estimate.

(12) *Actual Profit on Sale of Stores to Contractors.*—There is an increase of Rs. 2,168-9-10. This is a variable item of income depending on the demands made for stores by contractors.

(13) *Sale Proceeds of Unserviceable Stores.*—The absence of any receipts on this account and the consequent decrease of Rs. 5,000 is due to the auction sale receipts having come to hand on the 2nd April or after the close of the official year.

(14) *Net Premia on Loans.*—The growing favor shown to Municipal Loans no doubt prompted the insertion of a probable receipt of Rs. 20,000 on account of premium on the 5¾ lakhs of the 15¾ lakhs loan to be raised in 1897-98.

This expectation was not realised owing to the unsatisfactory state of the money market, in consequence of which it was not thought advisable to approach the public, and hence the deficiency of Rs. 20,000.

(15) *Rebate to Current Revenue on account of Plague Expenses incurred in* 1896-97.—The sum of Rs. 4,37,055-0-1, by which the revenues of the Municipality were increased as compared with the Budget estimate is of the nature of a book-entry. It was anticipated that a loan of 20 lakhs of rupees would suffice to finance all plague operations, and a temporary loan to this extent was accordingly arranged for. Rs. 4,37,055-0-1 having been expended in 1896-97 from current revenue on " plague " account, a rebate was allowed to current revenue in 1897-98 in view of the loan of 20 lakhs which was sanctioned to be raised. The rebate could not be provided for in the Budget estimate, as at that time our ideas as to the probable outlay on plague operations were nebulous in the extreme.

A-2.

* Includes Rs. 3,869-4-3 received on the Water Works portion of the Net Premia, &c., Fund Investment.

B.—Comparison between Actuals and the Revised Estimate.

6. From the foregoing statement A-2, which I have thought it advisable to introduce into the report of this department for the first time, it will be seen that, as compared with the revised estimate of income of Rs. 70,98,911-0-1, the actual realizations aggregated Rs. 71,45,560-8-5, thus showing an increase of Rs. 46,649-8-4 or ·66 per cent. on the revised estimate.

This result is mainly due to the combined effects of an unexpected rise in the receipts from Town Duties, and a falling-off in the income derivable from "Taxation Proper" and the taxes for "Service rendered."

The more important variations are dealt with below:—

(1) *General Tax.*—The decrease of Rs. 22,571-14-1 in this source of income is noticed only for the reason that it is one of our most reliable items of revenue. The falling-off is such as might occur at any time, but more particularly during the present times of depression.

(2) *Town Duties.*—The increase of Rs. 1,46,424-1-1 under this head is an accession to our revenues as welcome as it was unexpected. But I am doubtful if it can be looked upon as revenue which it would be justifiable to appropriate as a surplus. Generally speaking, variations in this source of revenue are "referable exclusively to corresponding expansion or diminution in each case in the volume of imports or exports." But when coupled with an expansion in the imports in one official year, the refunds for exports in the succeeding official year are heavier than the imports for such year warrant, there seems to me to be every justification for the assumption that the revenues have been but temporarily increased, and that it would not be sound, without further enquiry, to appropriate such a temporary increase for purposes other than the payment of refunds on the re-exportation of the articles.

The heavy increase in this source of revenue is attributable entirely to the duties levied, more specially in the last three months of the official year, on imports of "Sugar." The gross imports of this article alone realized the unprecedented figure of Rs. 9,55,112-8-0, whereas the refunds of the year aggregated only Rs. 6,01,627-8-0. With no change in the rate of the tax, the figures for the years 1894-95 and 1895-96 for Sugar were as follows :—

Year.	Imports.				Refunds.			
	Rs.	a.	p.		Rs.	a.	p.	
1894-95	... 8,11,000	4	6		5,85,103	2	0	
1895-96	... 8,15,934	11	3		6,06,007	0	0	

It will be seen that, compared with a net revenue of Rs. 3,53,485 during the official year 1897-98, the figures for the years 1894-95 and 1895-96 amount to Rs. 2,25,897-2-6 and Rs. 2,09,927-11-3 only respectively.

Viewing the abnormal increase during 1897-98 in conjunction with heavy refunds in the first four months of the official year 1898-99, amounting to Rs. 2,16,289-2-0, against realizations from imports of not even Rs. 1,75,000 in round numbers, it seems to me that the increased revenue during the year under review is to a great extent nominal, and that the revised estimate of Rs. 8,05,000 as much underestimates our actual revenue as the actuals of Rs. 9,51,424-1-1 overestimates it.

(3) *Halalkhor Tax.*—The decrease of Rs. 45,872-11-5 in this source of income is due partly to a falling-off in revenue from Mills consequent on a decrease in the numbers of mill-hands caused by the plague, and partly to reductions made in bills issued but subsequently recalled for modification.

(4) *Water Tax.*—To slackness in the mill industry and to depression in trade in general is attributable the rather heavy decrease of Rs. 43,450-0-5 under this head.

(5) *Interest and Profit on Investments of Surplus Loan and other Balances.*—The increase of Rs. 13,063-11-0 in this source of Revenue is the result of the high rates of interest prevailing from December 1897 to March 1898, which afforded an unexpected opportunity of lodging our surplus moneys at very remunerative rates.

(6) *General.*—The decreases of Rs. 11,176-9-3 in the revenue from Tobacco Duty, of Rs. 7,162-4-3 from Market Receipts, of Rs. 11,640-4-10 from Miscellaneous Fees, and the increases of Rs. 14,171-3-0 in Miscellaneous Receipts and Rs. 8,920-7-8 in Miscellaneous Savings, are deviations from the revised estimate, the causes for which are identical with those given for variations between the actuals and the budget estimates in para. 5 (4), 5 (7), 5 (8), 5 (9), and 5 (10) *ante* respectively.

EXPENDITURE.

7. From statement B* it will be seen that the Budget Estimate of expenditure as originally sanctioned by the Corporation under section 129 of the Municipal Act amounted to Rs. 69,19,495.

This figure was increased during the year by Rs. 15,21,815-11-8 as follows :—

		Rs.	a.	p.
(*a*)	Additional grants sanctioned by the Corporation under section 131 (1) of the Municipal Act ...	8,50,653	3	9
(*b*)	Additional grants sanctioned in respect of unexpended balances of grants for 1895-96 and previous years under section 131 (1) of the Municipal Act	1,02,358	13	3
(*c*)	Lapsed grants for 1896-97 renewed under section 132 of the Municipal Act	5,68,803	10	[illegible]
	Total Rs. ...	15,21,815	11	[illegible]

The amount allotted for expenditure during 1897-98 thus aggregated Rs. 84,41,310-11-8.

* *Vide* pages 64 to 89 of this Report.

Transfers aggregating Rs. 45,061-15-5 from one head to another were sanctioned by the Standing Committee under Section 133 of the Municipal Act to meet expenditure unprovided for in the budget estimate. This, however, did not in any way affect the amount of the total provision made for the year.

8. The principal items contributing towards the additional sanctioned grants of Rs. 8,50,653-3-9, alluded to above, are as follows :—

	Rs.	a.	p.
Interest for six months on the 1st Instalment of Rs. 9,00,000 of the 25 lakhs Loan	15,750	0	0
Grain compensation to Municipal employés ...	83,940	0	0
Purchase of additional bullocks for the Health Department	18,600	0	0
Purchase by the Drainage Department of the boiler house, portable engine house, shred lifter room, 10-inch centrifugal pumps and portable engine at Love Grove	15,600	0	0
Expenditure on the Infectious Diseases Hospital, Arthur Road	50,000	0	0
Congratulatory address to Her Imperial Majesty the Queen Empress on the occasion of the celebration of the Diamond Jubilee	5,000	0	0
Cost of producing electrolyzed sea-water	9,691	0	0
Salary of the Deputy Municipal Commissioner from 3rd March 1897 to 2nd March 1898	18,000	0	0
Grant for wood supplied free of charge for cremation purposes	14,675	0	0
Work in connection with the improvement of the Bandora Slaughter Houses	27,525	0	0
Compassionate allowance payable to the heirs of the late Chief Accountant, Mr. Sorabji Nowroji Cooper	14,400	0	0
Rent of land occupied by the Municipal Workshops.	5,500	0	0
Purchase of property at Duncan Road required for the line of the New Street in extension of Khara Street from Duncan Road to Khoja Street ...	8,000	0	0
Compassionate allowance to the children of the late Mr. Pherozshah Rustamji, First Assistant Assessor	5,646	8	7
Extra grant for stores and disinfectants for the Health Department	5,000	0	0
Grants for the suppression of the Plague	5,00,000	0	0
Rent of chawls belonging to Mr. Keshowji Kallianji	3,577	2	10
Salary of a teacher of sanitary engineering and plumbing in the Victoria Jubilee Technical Institute	3,000	0	0
Re-covering terrace of the Victoria and Albert Museum with patent stone	3,992	0	0
Grant to cover 11 months' salary of Khan Bahadur N. H. Choksey	3,905	0	0
Cost of connecting the Valpakady latrines with the new sewer laid there and of building two hopper night-soil depôts	3,494	0	0
Cost of measures adopted to deal with foot and mouth disease and rinderpest in cattle	3,053	12	0
Minor items below Rs. 3,000 each	32,303	12	4
Rs.	8,50,653	3	9

Dealing only with the main grants specified above it may be noted that plague, combined with famine, followed as it was by relapsing fever, necessitated grants aggregating nearly seven lakhs of rupees.

Sanitary improvements accounted for over Rs. 30,000, while compassionate allowances to the heirs of deceased employés amounted to over Rs. 20,000.

9. The sources from which the increased expenditure of Rs. 15,21,815-11-8 during 1897-98 over and above the Budget Estimate was proposed to be met are as follows :—

	Rs.		
Amount reserved from surplus cash balance per page 97 of the Chief Accountant's Administration Report for 1896-97 for payment of charges for and prior to 1896-97	6,71,162		
Amount reserved from surplus cash balance per page ii of the Introductory Remarks to the Budget for 1898-99	8,56,209	11	6
Total... Rs.	15,27,372	3	5

It may be noted that between the amount estimated as likely to be required for expenditure from the surplus cash balance and that actually set aside there is a difference of only Rs. 5,556-7-9.

10. The treatment above of renewed and additional grants voted from Revenue sources affords me an opportunity of bringing to notice what I consider to be a defect in the hitherto accepted methods of financing the expenditure of the Municipality.

Year after year in the past large sums have been set aside for purposes of expenditure from Revenue and as regularly year after year such grants have been renewed to a very considerable extent, owing presumably to its being impossible to spend during the year in which the grants are sanctioned the sums voted for expenditure. From the year 1892-93 to the year 1896-97 the following are the sums which remained unexpended at the close of each year and which had to be renewed for expenditure during subsequent years:—

Unexpended balance for	1892-93	renewed in	1893-94	Rs.	3,55,296
Do. do.	1893-94	do.	1894-95	„	5,12,460
Do. do.	1894-95	do.	1895-96	„	4,84,217
Do. do.	1895-96	do.	1896-97	„	4,80,048
Do. do.	1896 97	do.	1897-98	„	6,71,162

Under the present system money once voted is taken as spent. The result is that at no time can it be stated with even an approximation to accuracy what the expenditure during any year is likely to be, nor whether in view of large savings in the grants it would not be possible to so arrange the budget programme as to alleviate the burden of taxation or undertake from anticipated savings works of an emergent character.

It appears to me that under the present system, the task of ascertaining the financial position of the Municipality is rendered unnecessarily difficult, owing both to executive officers overestimating their requirements, and to a grant for a work or project voted from "surplus cash balance" or "savings" not being coupled with an intimation as to the extent to which expenditure is to be incurred during the year in which the grant is made.

Apart from the consideration that the present system causes wide variations between grants sanctioned and expenditure actually incurred, I do not think that it can for a moment be contended that if during the years 1892-93 to 1896-97 it could have been conjectured that these in grants would have occurred to the large extent noted above, the budget programme for the ensuing year would not have undergone some modification. The remedy, it seems to me, lies in requiring that executive officers shall state, at the time a grant is applied for a work not provided in the Budget Estimate, to what extent that grant will be utilized during the year. While then setting aside the full grant, credit could be taken in the budget and in our financial considerations generally for any sums not required during that year. In so far as "budget grants" are concerned, it should be possible for executive officers, by keeping in closer touch with expenditure, to estimate with greater accuracy than is done at present, what their revenue expenditure for the year is likely to be.

B.

Grand Total..Rs.	70,04,742 9 11	64,41,310 11 8	74,96,969 2 10	....	9,44,341 8 10	5,83,509 8 1	3,60,832 0 9	

11. From the foregoing Statement C it will be observed that against a total sum allotted for expenditure during 1897-98 aggregating Rs. 84,41,310-11-8, alluded to in para. 7, the actual disbursements made during the past year amounted to only Rs. 74,96,969-2-10, thus leaving an unexpended balance of Rs. 9,44,341-8-10 at the close of the financial year.

In accordance with the usual practice—a practice which might be amended, in my opinion, with advantage to the Municipality—a sum of Rs. 5,83,509-8-1 has been incorporated in the accounts as renewable in 1898-99 in order to meet liabilities incurred but not paid during the past year, to defray the cost of works not completed, and to provide for works sanctioned but not yet taken in hand. What particular portion of this sum of Rs. 5,83,509-8-1 will be actually required for expenditure during the year 1898-99 and subsequent years, is a question for investigation and discussion with Executive Officers. Should there be a possibility of effecting a saving during the present and coming official years on the above sum of Rs. 5,83,509-8-1, such action will, with the Commissioner's approval, be taken as will ensure a greater degree of accuracy in estimating the probable financial requirements of the Municipality in the current financial year, and will establish a more effective system of allotting funds.

From the last column of Statement C it will be seen that a sum of Rs. 3,60,832-0-9, though appropriated, was not required for expenditure during 1897-98, and consequently lapsed to surplus cash balance at the close of that year.

12. The subjoined statement while denoting the departments and heads of accounts in which lapses of grants occurred, also shows that when framing the revised estimate of expenditure savings to the extent of Rs. 2,41,087-3-5 were provided for, thus reducing the actual unanticipated savings to Rs. 1,19,744-13-4 :—

	Actual Savings.	Amount of savings anticipated while framing the revised estimates for 1897-98.	Net Savings.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
General Superintendence ...	12,934 4 3	8,958 8 6	3,975 11 9
Assessment and Collection ...	10,853 11 1	9,569 2 2	1,284 8 11
Fire Brigade	7,421 11 9	4,793 10 9	2,628 1 0
Public Gardens...	10,775 11 4	9,097 0 8	1,678 10 8
Engineer's Department ...	84,449 1 7	46,004 14 4	38,444 3 3
New Works	21,900 1 5	1,676 7 10	20,223 9 7
Health Department	1,25,606 10 1	82,580 9 6	43,026 0 7
Police	129 11 3	.....	129 11 3
Education	4,533 14 2	946 8 1	3,587 6 1
Hospitals, &c	2,766 7 10	2,554 13 0	211 10 10
Miscellaneous	7,589 8 4	3,648 0 3	3,941 8 1
Debts	26,415 0 7	26,257 8 4	157 8 3
Investments	45,456 3 1	45,000 0 0	456 3 1
Total Rs...	3,60,832 0 9	2,41,087 3 5	1,19,744 13 4

13. It may prove interesting, as throwing a side light on our financing, to note the extent to which lapses in grants have occurred year after year since 1892-93, *after allowing for the renewal of all grants supposed to be required in the following year and for all unpaid debt charges* :—

Year.	Lapse.
	Rs. a. p.
1892-93...	4,06,021 10 2
1893-94...	2,81,156 15 2
1894-95	1,55,928 1 8
1895-96...	1,87,966 10 2
1896-97...	2,60,404 15 2
1897-98...	3,60,832 0 9

Adding to these figures the grants which lapsed and had to be renewed as given in para. 10 above, the variation of expenditure from grants allotted assumes very grave proportions, as will be seen from the subjoined statement :—

Lapse in	1892-93	Rs.	7,61,317
Do.	1893-94	„	7,93,617
Do.	1894-95	„	8,40,145
Do.	1895-96	„	6,68,015
Do.	1896-97	„	9,31,567
Do. per Statement C	1897-98	„	9,44,342

I consider it not only desirable but imperative, more especially at the present juncture, when we are approaching the maximum of taxation, that means should be devised to approximate our estimates of expenditure for each year more closely to our actual wants. The details of the methods to be adopted to secure these ends do not seem to me to require discussion in a report dealing rather with actual results than with improvements which appear to be desirable in our system of finance; but holding as I do that improvements are necessary, I shall take the earliest opportunity of submitting proposals for consideration.

Renewal of grants and savings in expenditure per Statement C.

14. I now proceed to give below the purposes for which the more important portions of the unexpended balances, amounting to Rs. 5,83,509-8-1 under the different major heads, are required to be

renewed during 1898-99, and the causes contributing in the main to the principal savings making up the aggregate saving of Rs. 3,60,832-0-9.

General Superintendence.—The unexpended balance amounted to Rs. 30,239-7-3, of which Rs. 17,305-3-0 are required to be renewed for the payment of legal expenses for the past and previous years which were undischarged at the close of the year, and to provide for undischarged liabilities for Establishments, &c., of the Corporation and Standing Committee, of the Commissioner's Personal and General Offices, and the Accounts and Expenditure Audit Department. The balance of Rs. 12,934-4-3 was saved principally under the grants (1) for the Corporation and Standing Committee's Office Establishment, owing to the post of Office Manager having remained vacant during the year, (2) for fees of Councillors, (3) for the Accounts and Expenditure Audit Establishment, consequent on the post of the Chief Accountant having remained vacant for over two months by the death of the late Mr. Sorabji Navaroji Cooper, and owing to the new Chief Accountant drawing the minimum schedule salary of the appointment, *viz.*, Rs. 800 per month, against a provision (including personal allowance) of Rs. 1,450, (4) for Contingencies, Stationery, Printing, &c., of the Corporation and Standing Committee's, Commissioner's Personal Office, and Accounts and Expenditure Audit Establishments, and (5) for repairs and maintenance of the Municipal Office buildings.

Assessment and Collection Department.—The unexpended balance was Rs. 13,836-13-4, of which Rs. 2,983-2-3 are required in 1898-99 for payment of unpaid Establishment, Contingent, Printing and Stationery charges of the Property and Wheel Tax, Licensing (including Music, Poison, &c., Licenses and Land Conveyance Licenses) and Revenue and Refund Audit Office Establishments. The balance of Rs. 10,853-11-1 was saved chiefly in the Head-quarters Office and Ward Inspection Offices Establishment of the Property and Wheel Tax Department, in the Revenue and Refund Audit Office establishment, and in the provision for Contingencies, Stationery, Printing, Summons Fees, &c., of the Property and Wheel Tax and Licensing Establishments.

Fire Brigade.—Rs. 2,856-7-4 out of the unexpended balance of Rs. 10,278-3-1 are required to be renewed in 1898-99 for Repairs, Food-supply and Contingent charges and for outstanding interest on debentures of the 4½ Lakhs Loan for Fire Brigade Quarters and Stations. The net saving of Rs. 7,421-11-9 was effected in the Establishment, Repairs, Feed, Contingent and Clothing grants and the provision for purchase of horses and hose.

Maintenance of Public Gardens.—The unexpended balance (excluding that under New Works) amounted to Rs. 12,066-5-1, of which only Rs. 1,290-9-9 are required to be renewed in 1898-99 for Establishment, Seeds and Plants, Repairs, Stores, &c., charges of the Victoria Gardens

and for Stores charges of the Garden on the Flats. The net saving amounted to Rs. 10,775-11-4, of which Rs. 8,723-13-10 accrued under the Victoria Gardens alone in the Establishment, Repairs, Water-supply and Zoological Collections grants, and the balance of Rs. 2,051-13-6 under all the other gardens.

The whole of the unexpended balance of Rs. 36,072-11-8 under Victoria Garden New Works is, in accordance with the usual practice, required to be renewed in 1898-99 for the construction of the head animal-keeper's and malis' quarters, &c.; but whether a portion of this sum cannot be saved for the present is a question requiring consideration.

Public Works (Engineer's) Department.—There are four different branches. Against an allotment of funds aggregating Rs. 16,73,272-13-3 the expenditure was only Rs. 14,70,809-7-5, thus giving a saving of Rs. 2,02,463-5-10, of which the large sum of Rs. 84,449-1-7 was an actual saving and Rs. 1,18,014-4-3 will, if it is deemed advisable, be renewed in 1898-99.

The major and minor heads are dealt with below.

II.—Drainage.—The aggregate unexpended balances under this head amounted to Rs. 46,201-5-8, of which Rs. 13,690-1-4 are required to be renewed in 1898-99 and the balance of Rs. 32,511-4-4 has lapsed as an actual saving. The sub-heads contributing principally to the lapses, with the explanation of the lapses, are subjoined.

A.—Miscellaneous Drainage.—The unexpended balance was Rs. 22,478-15-1 from which Rs. 12,769-3-4 are required to be renewed in 1898-99 for unpaid Establishment, Stores, Contingent and Telephone Connection charges and for the completion of several drain repairs, &c., works sanctioned during the year under report. The balance of Rs. 9,709-11-9 was saved principally on the grants for Establishment, for inspecting manholes and sewers and cleaning miscellaneous drains and gutters.

B.—Maintenance of Love Grove Pumping Station.—Out of the unexpended balance of Rs. 8,638-11-1 only Rs. 623 are required to be renewed in 1898-99 for Contingent, Water-supply and Telephone connection charges, leaving a net saving of Rs. 8,015-11-1 effected chiefly on the Repairs, Contingencies, Stores and Water-supply grants.

D.—Maintenance of Pumping Station, Colaba (Shone System).—Out of the large unexpended balance of Rs. 14,492-2-2, a small sum of Rs. 297-14-0 is required to be renewed in 1898-99 for Telephone Connection and Contingent Charges. Out of the net saving of Rs. 14,194-4-2, Rs. 10,250-13-5 accrued under the Coal Grant, and the balance of Rs. 3,943-6-9 under Stores and Water-supply grants and the provision for temporary labour and for fitting up electric light and tell-tales.

III.—Water Works Maintenance.—There was an unexpended balance of Rs. 89,542-0-2, of which Rs. 68,996-5-1 will, as far as can be seen at present, require to be renewed in 1898-99 as under :—

		Rs.	a.	p.
(1).	For payment of establishment, materials, contingent, stationery, printing, advertisements, annual repairs, &c., charges	7,748	10	8
(2).	For charges in connection with the repairs to the Kasheli Embankment, Tansa Duct	22,806	13	1
(3).	For sundry works, such as rewashing sand and other materials in filters at the Bhandarwada Reservoir, putting in filtering materials in the Malabar Hill Reservoir filters, widening and repairing embankment on Vehar and Tulsi lines, repairs to Tulsi main embankment between Santa Cruz and Vehar, &c. ...	38,440	13	4
		Rs. 68,996	5	1

There was thus a net saving of Rs. 20,545-11-1, of which a sum of Rs. 11,809-9-0 was saved on the Establishment and Labour grant owing to the full schedule salaries and the increments provided in the Budget not having been drawn in some cases, to the full schedule strength of labourers, artisans, &c., not being employed throughout the year, to absentees amongst the labour, &c., staff in consequence of sickness and other causes, and to the provision for overtime and temporary labour not being wholly required during the year. The balance of Rs. 8,736-2-1 was saved on the Materials, Contingent and Repairs grants.

Adding to the above unexpended balance of Rs. 89,542-0-2, Rs. 18,336-2-1 and Rs. 67,074-6-9 on account of the balances of the Water Works New Works and Debt Grants respectively, the total unexpended balance of the Water Works items aggregated Rs. 1,74,952-9-0, of which Rs. 68,996-5-1, Rs. 16,446-6-8 and Rs. 66,062-8-0, aggregating Rs. 1,51,505-3-9, will, if past practice is adhered to, be renewed during 1898-99, as shown at pages 99 and 103. Allowing for these renewals the saving on all the Water Works grants amounted to Rs. 23,447-5-3.

IV.—Streets and Buildings.—The total unexpended balance under this major head at the close of the year amounted to Rs. 66,169-8-7. Of this sum the actual saving aggregated Rs. 31,104-2-11, and Rs. 35,065-5-8 represent lapsed grants which are to be renewed in 1898-99. The minor heads and the variations therein from the budget estimates are dealt with below.

A. Inspection and Supervision.—From the unexpended balance of Rs. 3,516-3-3, a sum of Rs. 337-6-9 only is required to be renewed for unpaid Establishment, Printing, Stationery, and Drawing Materials charges ; the balance of Rs. 3,178-12-6 was saved on the Establishment and Contingent grants.

B. Public Lighting.—The unexpended balance amounted to Rs. 21,405-4-5, of which Rs. 2,630-5-4 are required to be renewed for putting up 25 incandescent gas lamps in the City and for sundry repairs, &c., charges. The actual saving amounted to Rs. 18,774-15-1, *i.e.*, Rs. 6,125-9-0 under Gas Lighting and Rs. 12,649-6-1 under Kerosine Oil Lighting.

C. Road Watering.—The whole of the unexpended balance of Rs. 1,598-9-5 under this head was a saving.

D. Roads, Footpaths, &c.—Out of the unexpended balance of Rs. 35,801-3-11 under the grants for Road Repairs and Maintenance, Paving Footpaths, Ground Rent, Water and Halalkhor Taxes, Annual Repairs and Construction of 20 Muck Carts, Rs. 249-6-0 are required to be renewed in 1898-99 for certain Advertisement, Rent and Water charges, and Rs. 28,000 for Repairs to Footpaths and Construction of Muck carts. The latter two works had to be postponed last year owing to want of funds, and will, it seems to me, have to be abandoned in 1898-99 as well.

E. Street Improvements.—The whole of the unexpended balance of Rs. 3,848-3-7 under this head is required to be renewed to meet cost of street boards and house number plates required for the Assessment Department.

New Works.—The following table shows the unexpended balance of the grants for New Works, the amount required to be renewed therefrom in 1898-99 (on the assumption that the whole allotment is to be expended in that year) and the actual savings :—

	Rs. a. p.	Rs. a. p.
Amount required for payment of charges for completed works and for the completion of works in progress—		
Water Works	* 2,440 10 8	
Other Municipal Works	65,113 1 8	
		67,553 12 4
Amount required for works not taken in hand in 1897-98—		
Water Works	* 14,005 12 0	
* Other Municipal Works	42,986 0 0	
		56,991 12 0
(Municipal Rs. 1,08,099-1-8 + Water Works Rs.	* 16,446-6-8)=	1,24,545 8 4
Savings on Completed Works—		
Water Works	* 1,889 11 5	
Other Municipal Works	19,810 6 0	
	21,700 1 5	
Provision not required for works now considered unnecessary—		
Municipal Works...	200 0 0	
(Municipal Rs. 20,010-6-0 + Water Works Rs.	* 1,889-11-5)=	21,900 1 5
(„ „ 1,28,109-7-8 + „ Rs.	* 18,336-2-1)=	Rs. 1,46,445 9 9

Public Health Department.—I. General Supervision.—The unexpended balance amounted to Rs. 13,068-0-6 from which Rs. 779-6-6 require to be renewed in 1898-99 for unpaid Establishment, Contingent and Telephone charges and for the cost of fixing Wallace's Pail depôts at the Girgaum and Kamatipura Night-soil Depôts. The net saving amounted to Rs. 12,288-10-0, of which Rs. 11,182-9-1 accrued under the grant for the salary of Superior Staff owing to the Health Officer having been transferred to the Plague Committee from 15th March to 31st May 1898, to some of the Deputy Health Officers not having been employed during the year, and to the full schedule salaries not being allowed to some of those who were employed. Rs. 1,106-0-11 in addition to the above accrued under the Office Establishment and Contingent Grants.

II.—Conservancy Branch.—The unexpended balance amounted to Rs. 85,896-10-3, of which Rs. 9,508-2-9 is required to be renewed for unpaid Stores, Earth Supply, Repairs, Rent, Printing, Telephone, &c., charges and for the construction of dustbin and drain carts. The net saving of Rs. 76,388-7-6 accrued under the following heads :—

	Unexpended Balance.	To be renewed in 1898-99.	Actual Savings.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
I. Superintendence and Inspection	5,710 3 11	.. ...	5,710 3 11

Total Rs....	85,896 10 3	9,508 2 9	76,388 7 6

III.—Markets and Slaughter Houses.—The unexpended balance amounted to Rs. 38,929-1-4, from which Rs. 5,818-2-1 are required to be renewed for payment of Establishment, Stores, Repairs and Rent charges and for the purchase of bullocks. The net saving amounted to Rs. 33,110-15-3, of which Rs. 4,046-0-1 were saved on the Establishment, Lighting, Stores, and Contingent grants, Rs. 7,396-11-9 under the grant for meat Carriage (Feed of bullocks), Rs. 11,645-12-6 on the repairs, &c., grant owing chiefly to the painting of the Markets, &c., having been deferred in 1897-98 for want of Funds and Rs. 10,022-6-11 on the Water Supply grant owing to the non-submission of water bills in accordance with Resolution No. 1644 dated 12th May 1897 of the Standing Committee.

IV.—Registration of Births and Deaths.—Only Rs. 52-0-11 out of the total unexpended balance of Rs. 1,622-14-5 are to be renewed for Establishment and Stationery charges. The balance of Rs. 1,570-13-6 was saved on the grants for Office Establishment and Registrars and Contingencies.

V.—Cemeteries.—From the unexpended balance of Rs. 2,146-4-6, Rs. 487-13-0 are required in 1898-99 for payment of charges for Telephone connection and shoeing horses. The balance was saved on the grants for Feed of Horses, Contingencies and Stores, and on the purchase of live stock, no new horses having been purchased in 1897-98.

VII.—Mahaluxmi Dhobivada.—Rs. 16,034-11-10 were left unexpended, from which Rs. 1,558-14-5 are required to be renewed in 1898-99 for Stationery, Repairs and Halalkhor Tax charges. Almost the whole of the net saving of Rs. 14,475-13-5 accrued on the Water Supply grant, owing to debit not having been raised.

VI.—Laboratory, VIII.—Infectious Diseases, IX.—Milch Cattle Stables, X.—Tank Conservancy, and XI.—Rustomji Jamshedji Dharamshalla.—The unexpended balances under these heads aggregated Rs. 9,791-11-1, from which Rs. 3,877-6-7 are required to be renewed in 1898-99 for Stores and Repairs charges in connection with Milch Cattle Stables, Rustomji Jamshedji Dharamshalla and the Infectious Diseases Hospitals at Grant and Arthur Roads, and for food, &c., supplies made at the Arthur Road Hospital. The net saving of Rs. 5,914-4-6 was effected chiefly on the Milch Cattle Stables Repairs and Water Supply grants and on the provision for purchase of horses, &c., in connection with the Infectious Diseases Hospitals. The whole of the unexpended balances of Rs. 2,550-1-10 and Rs. 570 under erection of Temporary Stables for the Segregation of Cattle Suffering from Foot and Mouth Disease and Inspection of Milch Cattle Stables in the city during the prevalence of disease and rinderpest is required to be renewed in1898-99.

133752

The total unexpended balances of the different branches of the Health Department aggregated Rs. 1,70,808-10-2. Deducting from this sum the saving of Rs. 20,000 already taken credit for in the Budget for 1897-98 and Rs. 25,202-0-1 required for renewal in 1898-99, the net saving on the Health Department grant, amounted to Rs. 1,25,606-10-1.

Education.—The unexpended balance amounted to Rs. 8,801-11-4, of which Rs. 4,267-13-2 are required to be renewed in 1898-99 for covering the terrace roofing of the Victoria and Albert Museum with a layer of cement and sand and for sundry petty works at the Museum. The balance of Rs. 4,533-14-2 included Rs. 1,533-14-2 saved on the Museum Establishment, Contingencies and Artware grants and on the Joint Schools Committee's Establishment and Contingent grants and Rs. 3,000 on account of the grant voted in Corporation's Resolution No. 4469 of 9th August 1897, to provide for the salary for 6 months of 1897-98 of a teacher of sanitary engineering and plumbing in the Victoria Jubilee Technical Institute, which does not appear to have been utilized during the past year. It would be advisable to decide whether this grant is to continue or not.

Hospitals, &c.—The saving of Rs. 2,573-6-2, under Goculdas Tejpal Hospital, was due to Government having refunded on 7th September 1897 Rs. 3,554-13-0 the unexpended balance of the Municipal contribution for 1896-97, out of which Rs. 981-6-10 were defrayed for the pay of 4 nurses and the cost of their uniforms.

Miscellaneous.—The unexpended balances under these heads amounted to Rs. 25,705-0-11, of which Rs. 18,115-8-7 are required to be renewed as under :—

(1) Rs. 5,399-11-6 under pensions, gratuities, &c., for payment of pensions not drawn by different pensioners up to the close of 1897-98 and for payment of compassionate allowance to the widows of certain employés who died last year.

(2) „ 2,406-0-3 under discretional contingencies for payment of certain charges sanctioned from this grant in 1897-98.

(3) „ 227-8-4 under election expenses for stationery, printing, &c., charges.

(4) „ 17-12-6 under grain compensation to peons, &c., to meet certain charges remaining unpaid at the end of last year.

(5) „ 5,837-8-0 for cost of printing and binding 550 copies of a calendar of Municipal Records.

(6) „ 2,000-0-0 for honorarium to be paid to Mr. Barrow for his literary labours in preparing the calendar.

(7) „ 2,227-0-0 for analysis of articles of food, &c.

Rs. 18,115-8-7.

The balance of Rs. 7,589-8-4 was saved on the grants for pensions, &c., discretional contingencies, election expenses, grain compensation to peons, &c., and cost of procuring air analysis.

Municipal Debt.—Rs. 2,58,816-15-6 remained unexpended under the grants for Interest on Loans, Bank's Commission, &c., Charges, Sinking Fund and Repayment of Debt. Of this sum Rs. 2,24,400-14-11 being the outstanding interest as shown in detail in Appendices 1 (B, D to H, J, M and N), Rs. 8,000 being the amount of 16 debentures of the Drainage Loan of 1878, which became repayable on or before 1st January 1898, but which were not surrendered by the holders for repayment up to 31st March 1898 and Re. 1 for certain advertisement charges are required to be renewed in 1898-99. Thus the net saving amounted to Rs. 26,415-0-7 as under:—

	Rs.	a.	p.	Rs.	a.	p.
Savings on the grants for Commission payable to the Bank of Bombay (Rs. 281-3-0) and for Miscellaneous Loan charges (Rs. 321-5-4)				602	8	4
Savings on interest on Loans—						
3½ per cent. 15¾ lakhs Sewerage, Wari Bunder, &c., Roads, Burial Ground and certain Water Works Loan, due to the raising of the second instalment of Rs. 5¼ lakhs of this Loan having been deferred until 1898-99, one half-year's interest provided for the same not being consequently required	10,062	8	0			
Amount of interest short paid by the Bank on Debentures of the 1st instalment of Rs. 10 lakhs	0	0	3			
				10,062	8	3
3½ per cent. 25 Lakhs Loan for Sewerage, Water and other Sanitary Works—due to the raising of the 1st instalment of Rs. 9 lakhs of this Loan having been deferred until 1898-99 and consequently the half-year's interest provided for the same not being required—						
(Municipal Rs. 14,738-1-3 + Water Works Rs. 1,011-14-9*) =				15,750	0	0
(Municipal Rs. 25,408-1-10 + Water Works Rs. 1,011-14-9*) = Rs.				26,415	0	7

Unpaid Interest (to be renewed)—

		Rs.	a.	p.
5 per cent. Rs. 26,94,000 Drainage Loan of 1878 (as per Appendix 1-B)		23,412	8	0
5 „ 44 Lakhs Sanitary Works Loan of 1885-86 (do. 1-D)		27,862	8	0
5 „ 7 Do. do. of 1888 (do. 1-F)		14,162	8	0
5 „ 12 Lakhs Drainage and Water Works Loan (do. 1-E)		13,075	0	0
5 „ Rs. 10,08,500 Miscellaneous Works Loan (do. 1-H)		8,962	8	0
5 „ 35 Lakhs Various Sanitary Works Loan (do. 1-J)		39,850	0	0
4 „ 42 Lakhs Loan for repayment of balance of Government Consolidated Loan (as per Appendix 1-M)...		21,580	0	0
4 „ 23¼ Lakhs Loan for Drainage, Water Works, Roads and other works (as per Appendix 1-N)		14,433	6	11
„	Rs.	1,58,338	6	11
5 „ Tansa Water Works Loan (as per Appendix 1-G) ...		66,062	8	0
(Municipal Rs. 1,58,338-6-11 + Water Works Rs. 66,062-8-0*) = Rs.		2,24,400	14	11

Unpaid Capital (to be renewed)—

One Debenture of the Drainage Loan of 1878, repayable on 1st January 1890, one repayable on 1st January 1893, and 14 repayable on 1st January 1898, not presented for repayment up to the end of March 1898 (as per Appendix 1-A).....	8,000	0	0	
	Rs. 2,32,400	14	11	
Charges on Loans—Advertisement charges regarding payment of the Vehar Water Works Debt Instalment.....Rs.	1	0	0	
				2,32,401 14 11
(Municipal Rs. 1,91,742-8-9 + Water Works Rs. 67,074-6-9) = Rs.				2,58,816 15 6

Investments.—The saving of Rs. 25,000 on account of worn-out water mains renewal fund investment is due to its being considered inadvisable owing to our financial difficulties last year, to invest the annual instalment provided in the budget.

The saving of Rs. 20,000 under investment of the net premia expected to be received on the second instalment of Rs. 5¾ lakhs of the 15¼ lakhs loan does not require any explanation as it will be observed from the remarks made at page 76 that the above instalment could not be raised during the year, and hence there was no premium to invest.

SURPLUS CASH BALANCE.

15. The annexed statement shows the state of the surplus cash balance at the close of the financial year 1897-98.

With a view to presenting the condition of this account in a less complicated state, I have entered the assets and liabilites in a condensed form and have transferred to the annexed statement E the details showing the expenditure on loan works and the extent to which withdrawals from loan funds on their account were made. These details were hitherto incorporated in the body of the statement.

To sums payable—	Rs. a. p.	Rs. a. p.	By—	Rs. a. p.	Rs. a. p.

16. It will be seen from statement D that the year closed with a surplus cash balance, excluding the one lakh required by law, of Rs. 2,25,501-12-11. This result, it might be mentioned, is arrived at after allowing for two disturbing factors which were not anticipated either when the Budget Estimate for the year was framed or at the beginning of the financial year.

The first of these is the loss, for the time being, of an asset in the shape of the Agripada, &c., Estate, for which a net sum of Rs. 8,12,546-4-8 was advanced to the close of the financial year. It was expected when the advances were made that this sum would be more than recouped to surplus cash balance by the sale of frontage lands. But the constitution of the City Improvement Trust has deprived the Municipality of these expectations by the transfer to that body of the lands acquired by the Corporation.

The second disturbing element in this account, as in all financial considerations for the year, is the influence of plague.

It will be seen from para. 8 of my report that a grant of Rs. 5,00,000 was made from current revenue during the year on account of plague operations. Of this sum Rs. 3,50,000 has been taken as a rebate to current revenue during 1898-99, and Rs. 1,50,000 has been allowed to stand for the present as a charge against the surplus cash balance (*vide* Introductory Remarks to the Budget Estimate for 1898-99).

With the uncertainty surrounding an estimate of our plague expenditure, coupled with a doubt as to the extent to which loan funds can or will be raised for plague purposes, it is premature to forecast the recoupment that is likely to be made to current revenue (surplus cash balance) for expenditure on plague met from that source.

17. I do not consider it out of place to here bring to notice that, when preparing the Budget Estimate for 1898-99, the surplus cash balance at the close of 1897-98 was estimated at Rs. 9,00,000.

I have already pointed out that our surplus must for the present at least be reduced by Rs. 8,12,546-4-8 owing to the transfer of the Agripada, &c., Estate to the City Improvement Trust. Without this asset the opening balance as estimated would stand at Rs. 87,453-11-4. It actually stands at Rs. 3,25,501-12-11 (including the one lakh required by law).

The increase of Rs. 2,38,048-1-7 is made up thus :—

Income realized in 1897-98 in excess of the amount estimated while preparing the Budget Estimate for 1898-99	Rs.	57,405	8	4
Savings in expenditure in 1897-98 in addition to those estimated while preparing the Budget Estimate for 1898-99	„	1,76,832	0	9
Unappropriated balance of the amount reserved in the Budget Estimate for 1898-99 for additional grants to be sanctioned up to 31st March 1898 ...	„	5,556	7	9
	Rs.	2,39,794	0	10
Less—				
Increase in balance of Reserve Stock in 1897-98 ...	„	1,745	15	3
	Rs.	2,38,048	1	7

18. Passing on from Estimates to Actuals, it will be seen from page 97 of the Administration Report of this department for 1896-97 that the unhypothecated surplus cash balance at the close of that year amounted actually to Rs. 13,03,549-11-5 excluding the one lakh required by law. By the close of 1897-98 it will be seen that this sum had dwindled

down to Rs. 2,25,501-12-11, *i.e.*, the year 1897-98 was answerable for appropriations for expenditure unprovided in the Budget Estimates to the extent of Rs. 10,78,047-14-6, thus :—

Surplus in the beginning of 1897-98		Rs.	13,03,549 11 5
Add—			
Lapsed grants for 1896-97 and previous years renewed	„		6,71,162 7 11
		Rs.	19,74,712 3 4
Income in 1897-98	„		71,45,560 8 5
		Rs.	91,20,272 11 9
Less—			
Expenditure in 1897-98 ... Rs. 74,96,969 2 10			
Lapsed grants to be renewed in 1898-99 ... ... „ 5,83,509 8 1			
	„		80,80,478 10 11
		Rs.	10,39,794 0 10
Less—			
Advanced for frontage lands in Agripada Estate, &c.	„		8,12,546 4 8
		Rs.	2,27,247 12 2
Less—			
Advances for Reserve Stock in 1897-98	„		1,745 15 3
Net Surplus ...		Rs.	2,25,501 12 11

APPENDICES.

19. *Nos. 1-A and B.*—From the first statement it will be seen that owing to sixteen debentures, one redeemable on 1st January 1890, one on 1st January 1893 and fourteen on 1st January 1898, not having been surrendered by the holders thereof for repayment up to the close of 1897-98 a sum of Rs. 8,000 remained unpaid on account of the Drainage Loan of 1878, and has been renewed in 1898-99 to meet the liability when presented. The outstanding interest on the loan as per the second statement amounted to Rs. 5,125 less than in the preceding year.

Nos. 1-C and D.—The former statement exhibits the amount of interest paid from the raising of the 44 Lakhs Sanitary Works Loan to the end of 1897-98, the amount of the principal already paid off, and the sum invested as Sinking Fund on account of the loan. From the latter statement it will be seen that the outstanding interest on this loan on 31st March 1898 was reduced from Rs. 33,850 in 1896-97 to Rs. 27,862-8-0.

Nos. 1-E to O show the outstanding interest on the different loans in the beginning of 1897-98, the amounts due in that year, the amounts paid in that year, and the outstanding balances at the close of the year. They also show the amounts of Sinking Fund invested on account of the different loans.

20. *No. 2.—Town Duty Statement.*—As usual this statement gives the various articles on which duty was levied at the time of import under the provisions of Section 192 (1) of the Municipal Act, and the refunds allowed thereon under Section 192 (2) on their export.

In the subjoined table the Balances, Revenue, and Refunds during the year are contrasted with those of the preceding year :—

	1896-97.		1897-98.	
	Rs.	Rs.	Rs.	Rs.
Opening Balance	7,023		3,695	
Revenue	15,30,411	15,37,439	17,29,761	17,33,456
Deduct—				
Refunds	8,88,600		7,58,532	
Closing Balance	3,695	8,92,295	23,500	7,82,032
Net Revenue		6,45,144		9,51,424
Less—Cost of Collection, &c.		65,406		62,808
Net Revenue after payment of Collection Charges	Rs.	5,79,738	Rs.	8,88,616

The gross collections for the year were estimated in the Budget Estimate at Rs. 17,01,000, and the refunds at Rs. 7,88,000; thus a net revenue of Rs. 9,13,000 was estimated from this source. From the figures given above it will be seen that the actual realizations were Rs. 28,761 more, and the refunds Rs. 29,468 less, than the estimates. Thus there was an increase in revenue of Rs. 58,229. But as the closing balance at the end of the year was Rs. 19,805 more than in the preceding year, the net increase in revenue over the estimate was reduced to Rs. 38,424. The increase of Rs. 28,761 was principally under Sugar, while the decrease of Rs. 29,468 in refunds was chiefly under Grain. In the marginal figures I have contrasted the gross income from the duties levied during the year with those of the preceding year. Except small decreases amounting to Rs. 18,656 under Grain and Ghee, there were increases aggregating Rs. 2,18,006 under all the other items, more especially under Sugar. This feature of our income has already been treated of in para. 6 of my report.

Articles.	Actuals for 1896-97.	Actuals for 1897-98.	More.	Less.
	Rs.	Rs.	Rs.	Rs.
Grain	2,07,799	1,92,873	...	14,926
Flour	24	94	70	...
Wines & Spirits	2,15,751	2,31,963	16,212	...
Beer	26,681	27,569	888	...
Sugar	7,68,920	9,55,112	1,86,192	...
Ghee	1,79,565	1,75,835	...	3,730
Timber ...	1,05,053	1,11,645	6,592	...
Firewood	26,618	34,670	8,052	...
Total Rs...	15,30,411	17,29,761	2,18,006	18,656
			18,656	
			Increase.	1,99,350

In the report for the current year I hope to be able to deal also with the actual realizations from town duties as contrasted with the revised estimates.

21. *No. 3* is the usual Cash Account statement comprising all the cash transactions of the year, including adjustments and showing the total receipts and disbursements of the year, together with advances, deposits, investments, &c.

LOAN WORKS.

22. Rs. 3,561-4-3 spent on laying pipe sewers in certain narrow lanes in the Mandvi District, which were originally omitted from the work done in the First Drainage Section, raised the total expenditure on

drainage works sanctioned out of the Drainage Loan of Rs. 16,94,000 of 1878 to Rs. 16,32,532-1-3 as detailed below:—

	Estimate of 17th January 1879.	Contract sanctioned on 24th January 1880.	Sanctioned contract plus additional works subsequently sanctioned in 1881.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.	Amount payable for work to be done.	Grand Total.
	Rs.	Rs.	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

			Rs.	16,28,970 13 0	3,561 4 3	16,32,532 1 3	30,258 14 9	16,62,791 0 0
Balance transferred to Bhandarwada Loan as per Commissioner's No. 7617, dated 14th September 1886, adopted by the Town Council and the Corporation.								31,209 0 0
							Total Rs....	16,94,000 0 0

23. On house connection works carried out in Mandvi, Malabar Hill, Colaba, Parel and other places, a sum of Rs. 76,219-2-3 was expended in 1897-98. This brought the total expenditure on Drainage Works sanctioned out of the 15 Lakhs Loan (one of the three Sanitary Works Loans aggregating Rs. 44 lakhs) to Rs. 8,11,479-13-7 as under :—

	Rs. a. p.	Sanctioned Grant. Rs. a. p.	Amount expended up to 31st March 1897. Rs. a. p.	Amount expended during 1897-98. Rs. a. p.	Total. Rs. a. p.

Net expenditure ... Rs.	1,47,00,000 0 0	1,46,89,141 1 5	781 15 2	1,46,89,923 0 7

* Including Rs. 11,000 paid to Messrs. Walsh, Lovett, Mitchell & Co. in full settlement of all their claims against the Municipality for extra works and Rs. 10,200, being the proportionate amount debitable to the Tansa Works out of the sum of Rs. 15,000 paid to Mr. Sittaram Luxumon in final settlement of all his claims against the Municipality for bonus, &c.

32. The expenditure incurred up to 1897-98 on the improvement of the outlet towers at Vehar and Tulsi against the grant of Rs. 30,000, provided for the same in the 15¾ lakhs loan amounted to Rs. 283-14-4 including Rs. 4-14-0 spent in 1897-98.

33. On improvements and alterations at the Malabar Hill Reservoir and on covering the storage basin at the Bhandarwada Reservoir and constructing filters over it—works which were sanctioned out of Rs. 23¼ lakhs loan—a sum of Rs. 13,176-12-2 was spent during the year. Thus the total expenditure on Water Works sanctioned out of the 23¼ lakhs loan amounted to Rs. 1,36,600-4-7 as shown below :—

Works.	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs.	Rs.	Rs.	Rs.
Works at the Bhandawada Reservoir...	1,15,000	73,109 6 0	5,367 4 8	78,476 10 8

34. With the expenditure of Rs. 59,121-4-8 incurred during the year on laying new mains in various places, renewing the 3" water main in Worli Road with 9" pipes, and the construction of a residence for the Water Works Chief Inspector and rooms for 6 sluicemen at Babula Tank, the total expenditure on water works sanctioned out of savings on different loans aggregated Rs. 1,75,660-8-6 as per following details :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total..Rs.	1,78,453 0 10	1,16,539 8 10	59,121 4 8	1,75,660 8 6

35. A sum of Rs. 157-10-11 was spent during the year on survey charges in connection with the laying of water mains in Reay, Kalachowki, and other roads, for which a sum of Rs. 2,31,297 has been provided in the 25 Lakhs Loan.

36. A sum of Rs. 22,729-3-9 was spent in 1897-98 out of the Worn-out Water Mains Renewal Fund to cover the cost (chargeable to revenue) of renewing 3″ pipes in Worli Road with 9″ pipes.

37. Rs. 9,891-10-0 were paid during the year for the purchase of land from different parties for a road through Nowroji Hill. This brought the total expenditure on roads sanctioned out of the Rs. 10,08,500 Miscellaneous Works Loan to Rs. 84,393-1-8 as under :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total..Rs.	2,86,500	74,501 7 8	9,891 10 0	84,393 1 8

38. A sum of Rs. 4,376-3-9 was paid in 1897-98 on account of the construction of Matunga Road and establishment and other charges. During the year Rs. 28,810-12-9 were realized by sale of surplus land in Connaught and Morland Roads and Gilder Street. There was thus a net credit of Rs. 24,434-9-0, which went to reduce the net expenditure on roads and streets in Agripada and elsewhere (sanctioned out of the 15 Lakhs provision made in the 35 Lakhs Various Sanitary Works Loan, and the advance of Rs. 9½ lakhs sanctioned for the purchase of frontage lands) from Rs. 23,36,980-13-8 at the close of 1896-97 to Rs. 23,12,546-4-8 at the close of 1897-98, as under :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.

Total..Rs.	15,00,000	23,36,980 13 8	*Cr.24,434 9 0*	23,12,546 4 8

It will be seen from the above that the net advance made for the purchase of frontage lands in excess of the loan allotment of Rs. 15 lakhs was Rs. 8,12,546-4-8, a sum which has been temporarily lost to our surplus cash balance, as explained in para. 16 of my report.

39. The sum of Rs. 5,743-13-7 paid during the year in connection with the Falkland Road and Wari Bunder Bridges raised the total expenditure incurred on the works up to 31st March 1898 to Rs. 1,47,096-15-1, as shown below :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Total.. Rs.	1,54,652	1,41,353 1 6	5,743 13 7	1,47,096 15 1

40. The total expenditure up to 31st March 1898 on the Wari Bunder Road and Victoria Road extension sanctioned out of the 15¾ Lakhs Loan aggregated Rs. 2,03,005-7-7, and deducting from this sum the contribution of Rs. 1,56,500 received from the Port Trust, the net expenditure amounted to Rs. 46,505-7-7, as under :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.

Less—Contribution received from the Port Trust	1,56,500	1,56,500 0 0	.....	1,56,500 0 0
Total..Rs.	4,77,048	*Cr.47,693 14 0*	94,199 5 7	46,505 7 7

41. The total expenditure on the purchase and fixing of new pattern hydrants, for which a sum of Rs. 50,000 was sanctioned out of savings on different loans, amounted to Rs. 47,379-4-4, including Rs. 27,764-12-8 spent during the year.

42. A sum of Rs. 86-8-0 was spent during the year on the diversion of Arthur Road over the masonry bridge constructed across the old main drain against a grant of Rs. 22,991 sanctioned by the Corporation in their Resolution No. 9203 dated 3rd December 1896. A reference to this resolution will show that the expenditure was to be met as an advance from Surplus Cash Balance, and subsequently by adjustment against any surplus that may be realized by the sale of frontage lands in Agripada and elsewhere. As under the circumstances repeatedly alluded to in this report the surplus land above referred to no longer forms an asset for practical purposes of hypothecation of funds, it will now be necessary to consider from what source the expenditure on this work should be met.

43. As sanctioned in Corporation's Resolution No. 8347, dated 13th December 1897, a sum of Rs. 7,388-3-10 was advanced from Surplus Cash Balance on account of the payment made to Mr. Sittaram Luximon for his land at Currey Road purchased by the Municipality for part of the site of the eastern approach to the overbridge to be constructed at that place.

44. There was a further expenditure of Rs. 38,439-14-11 incurred during the year on the Burial Ground for Mahomedans and Beni-Israels, the total expenditure on which up to 31st March 1898 aggregated Rs. 2,02,659-8-1 against the allotment of Rs. 2,41,952 provided in the 15¾ Lakhs Loan.

45. On the scheme for the disposal of town sweepings at Chimbur, and purchase of land from Mr. Ashburner and Mr. Nariel walla for the Mahomedan Burial Ground, works which were provided for in the 25 Lakhs Loan, an outlay of Rs. 3,66,066-13-6 was incurred in 1897-98, as under :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended in 1897-98.	Total.
	Rs.	Rs.	Rs. a. p.	Rs. a. p.

(a) Made up thus :—
Rs. 6,40,000 provided in the Loan of Rs. 25 Lakhs.
" 60,000 do. do. of Rs 19¼ do.
" 1,44,000 transferred from the provision of Rs. 1,50,000 made in the 23¼ Lakhs Loan for the purchase of land on the Flats for the deposit of town sweepings.
Rs. 8,44,000

46. An expenditure of Rs. 1,732-10-8 was incurred during the year on account of the purchase of land for latrines at Colaba, for which work a sum of Rs. 24,598 was sanctioned out of savings on different loans.

47. The small outlay of Rs. 83-13-11 incurred during the year on the Bigaries' chawl at Bori Bunder raised the total advances made from surplus balances on account of that work, and the Health Department stables in F and G Wards, to Rs. 1,18,178-8-9, as shown below :—

	Sanctioned Grant.	Amount expended up to 31st March 1897.	Amount expended during 1897-98.	Total.
	Rs.	Rs. a. p.	Rs. a. p.	Rs. a. p.

						Rs.	25,00,000

Throughout the year it was impossible to ascertain with even an approximation to accuracy the extent to which the Municipality would be called upon to furnish funds for plague purposes. This uncertainty is borne out by a comparison of the actual with the estimated plague expenditure. In the Introductory Remarks to the Budget for 1898-99, which were written in October 1897, it will be seen that it was thought that to the close of the year 1897-98 a sum of Rs. 21,50,000 would suffice for all requirements. The actuals have brought out an excess over the estimate of Rs. 3,26,616-2-9, after allowing for a payment by Government of Rs. 50,000 towards their share of the expenditure. This result was the natural outcome of a rise in the plague mortality, accompanied as it was by heavy additions to the staff, additional payments for structures of various kinds, and increases in hospital and observation camp charges.

In connection with the financing of plague expenditure a loan of 20 lakhs was arranged with the Bank of Bombay, of which 12 lakhs were taken up during the year as follows :—

6 lakhs on the 22nd December 1897.

6 „ „ 30th March 1898.

Rs. 5,00,000 of the expenditure were met from the surplus cash balance reserve and the balance amounting to Rs. 19,76,616-2-9 (including advances not finally booked) was defrayed from surplus loan and other balances at the disposal of the Municipality.

LIABILITIES.

52. *Statement No.* 4.—The payment of Rs. 12,530-2-8 made towards the reduction of the Vehar Debt diminished the balance of the debt due to Government from Rs. 25,41,527-15-5 at the close of 1896-97 to Rs. 25,28,997-12-9 on 31st March 1898.

Debentures of the value of Rs. 58,000 were paid off during the year on account of the Drainage Loan of Rs. 26,94,000 of 1878. Owing to the debenture-holders not having surrendered for repayment up to the close of the year 16 debentures for Rs. 500 each or Rs. 8,000 in all (one repayable on 1st January 1890, one on 1st January 1893, and 14 on 1st January 1898), the outstanding balance of the said loan on 31st March 1898 amounted to Rs. 20,21,000 instead of Rs. 20,13,000 as per the terms of the loan. The difference of Rs. 8,000 has been renewed during 1898-99 for the repayment of the debentures when presented by the holders.

The total municipal debt on 31st March 1898 amounted to Rs. 4,11,20,497-12-9 against Rs. 3,84,91,027-15-5 at the close of 1896-97.

Owing to the refund of large deposits paid by contractors for various sewerage and other works and to a large credit to miscellaneous savings on account of wages forfeited by bigaris, &c., of the Health and Engineering Departments in consequence of their not having claimed payment within the limitation period, the balance of contractors, &c., cash deposits was reduced from Rs. 3,04,062-4-7 at the close of 1896-97 to Rs. 2,58,795-12-2 on 31st March 1898.

The balance of Rs. 205-2-9 due to Government on account of income tax recovered by the Municipality was paid into Her Majesty's Treasury at the Bank of Bombay on 25th April and 11th May 1898.

Including Rs. 2,40,55,516-2-0 on account of Water Works as per appendix No. 7, the aggregate liabilities of the Municipality on 31st March 1898 amounted to Rs. 4,16,54,268-11-4 against Rs. 3,89,81,231-9-4 on 31st March 1897.

ASSETS.

53. *Statement No.* 5.—The balance of recoverable advances was increased from Rs. 1,95,890-9-5 on 31st March 1897 to Rs. 3,53,482-1-6, owing principally to advances made to the Chairman, Plague Committee, and to heavier outstandings on account of private works undertaken by the Drainage Department in Mandvi and other districts in connection with the plague.

The large advances made to the Plague Committee account for the increase in the amount of advances to Municipal Officers, &c., from Rs. 1,28,814-3-8 at the close of 1896-97 to Rs. 2,27,227-4-3 on 31st March 1898. A major portion of the latter amount will be adjusted in the accounts for 1898-99.

The private and departmental works outstandings on 31st March 1898 amounted to Rs. 1,24,047-1-3 against Rs. 64,516-9-9 for the corresponding period of 1896-97. The increase of Rs. 59,530-7-6 was, as stated above, solely due to a large amount of works executed on private account. The outstandings for this purpose alone amounted to Rs. 1,10,276-4-2 at the close of the year. The bills are under recovery, but as most of them are disputed by the house-owners concerned, steps are being taken to institute legal proceedings for their recovery.

The following table shows that the invested balances amounted to Rs. 48,27,431-2-7, at 31st March 1898 against Rs. 55,96,636-4-7 at the close of 1896-97, thus giving a net reduction of Rs. 7,69,205-2-0 :—

There was a reduction of Rs. 11,95,891-4-4 in the balance of the investments of Surplus Cash and Loan Fund Balances due to the following causes :—

(1) Sale of 3½ per cent. Government Paper for Rs. 5,14,000 and 4 per cent. Port Trust Bonds for Rs. 5 lakhs between 14th April and 16th July 1897 to meet our current expenses and debt charges.

(2) Transfer of 5 per cent. Municipal Debentures for Rs. 2,11,500 and 3½ per cent. Government Paper for Rs. 1,000 for the investment of the 5 per cent. Municipal Loans Sinking Fund and the School Building, &c., Funds.

The investment during the year of the Sinking Fund instalments of our different loans on the due dates and of the interest realized on the investments made from time to time raised the balance of the different loans Sinking Fund investments by Rs. 3,40,888-10-2.

By the investment of the Municipal Buildings Fire Insurance Fund instalment for the year and of the interest realized on that fund and the Worn-out Water Mains Renewal, Net Premia, &c., and School Building Funds, there would have been an increase of Rs. 36,478-7-5 in the balance of those funds at 31st March 1898. In consequence, however, of a withdrawal of Rs. 22,729-3-9 from the Worn-out Mains Renewal Fund to meet the cost (chargeable to Revenue) of renewing the 3" main in Worli Road and of the transfer of Rs. 15,251-11-6 from the Net Premia, &c., Fund to meet the premia payable on investments of 4 per cent. Loans Sinking Fund and the stamp and printing charges on the debentures for Rs. 12 lakhs (part of the 20 lakhs) temporary loan taken up from the Bank of Bombay for plague expenses, the balance of the four funds on 31st March 1898 shows a small decrease of Rs. 1,502-7-10.

The receipt of large deposits from contractors for the supply of hay, grain, road-metal, carts and bullocks, &c., and for works in air-compressing machinery, &c., accounts for the increase of Rs. 87,300 in the contractors' Government, &c., Paper Deposit Account.

The details of the 5 per cent., 4 per cent., and 3½ per cent. Municipal Loans Sinking Fund Investments aggregating

Rs. 19,06,597-10-10 on 31st March 1898, as shown in the preceding table, are exhibited in the subjoined statement :—

* These formed part of investments made on 20th March 1890, 2nd and 13th July 1894 and 14th January 1896 on account of Surplus Cash, &c., Deposit Accounts, and were transferred to this account on 31st March 1897 and 3rd June 1897.

COMPARISON OF ASSETS AND LIABILITIES.

54. Comparing the assets and liabilities of the Municipality as brought out in statements Nos. 4 and 5, it will be seen from the subjoined figures that the assets are brought out to exceed the liabilities by over one crore and a half, thus :—

Assets per statement No. 5.

	Rs.	a.	p.
Cash balance—Advances and investments ...	58,12,271	1	11
Reserve stock	9,03,586	11	9
Buildings and other properties	63,32,241	4	0
Overbridges, Roads, Drainage and other works executed out of Loan, &c., Funds	4,36,13,784	11	2
Total Assets ...	5,66,61,883	12	10
Liabilities per statement No. 4.	4,16,54,268	11	4
Excess of Assets over Liabilities ...	1,50,07,615	1	6

Of the extent of our liabilities there is no question ; but in reference to our assets I am led from the available data to the conclusion that they do not correctly represent our position.

In the value of "buildings and other properties," for which an asset of Rs. 63,32,241-4-0 is claimed, over Rs. 45,00,000 represent properties which were valued so long ago as 1883-84 ; but no booked value has so far been fixed in the asset statement for properties acquired from revenue sources during recent years, nor has any depreciation been charged off. Whether depreciation should be taken into consideration is a question for decision.

In the portion of my report dealing with stores I bring to notice that the asset of Rs. 9,03,586-11-9 is to a certain extent fictitious, inasmuch as some of the stores are useless, others obsolete, and others again depreciated in value.

It seems to me desirable that there should be a complete list framed of all our properties, depreciation allowed for, and the assets of the Municipality made to conform generally more closely with their actual value.

WATER WORKS ACCOUNT.

55. *Appendices* 6 *and* 7 exhibit the income and expenditure, the assets and liabilities respectively of the Water Works Department, as required by Resolution No. 10625 of the 22nd December 1891 of the Standing Committee.

From *appendix No.* 6 it will be observed that a deficit of Rs. 3,34,580-2-2 is brought out on the year's working. The deficit is somewhat exaggerated, as it will be found on reference to para. 5 (6) of my report that a quarter's revenue amounting to about Rs. 1,75,000 was not realized owing to a change in the method of submitting bills sanctioned by the Standing Committee. The actual deficit for the year may therefore be placed at about Rs. 1,60,000 in round numbers.

A charge of Rs. 66,628-1-4 has been preferred against the water works account during the year for general superintendence and services rendered by the Engineering and Assessment Departments. The ratios in which such expenditure of the Municipality as a whole should be debited to the Water Works Department was determined, I understand, about 25 years ago. Whether these ratios still hold good and whether in consequence the proportional debit to the Water Works Department is correct is a question for investigation.

Appendix 7, which gives the assets and liabilities, brings out a sum of Rs. 40,00,883-1-6 in favour of the assets, thus :—

	Rs.	a.	p.
Assets	2,80,56,399	3	6
Liabilities	2,40,55,516	2	0
Excess of Assets over Liabilities...Rs.	40,00,883	1	6

This excess of assets has been secured by a surplus revenue up to date of Rs. 12,21,149-6-3 and a contribution from the municipal general Revenues towards reduction of debt, creation of a worn-out mains renewal fund, &c., of Rs. 27,79,733-11-3.

STORES.

56. The reserve stock at 28th February 1898 stood at Rs. 9,03,586-11-9 as compared with Rs. 9,01,840-12-6 at 28th February 1897, thus showing a small increase of Rs. 1,745-15-3.

The distribution of these stocks between the various departments of the Municipality at the close of 1896-97 and 1897-98 was as follows :—

Departments.	1896-97.			1897-98.		
	Rs.	a.	p.	Rs.	a.	p.
General Stores	67,560	3	3	66,503	9	4
Water Works	4,43,965	5	4	4,22,005	10	3
Drainage	3,81,452	13	9	3,92,659	4	11
Executive Engineer	8,862	6	2	22,418	3	3
	9,01,840	12	6	9,03,586	11	9

The decrease of nearly Rs. 22,000 in the Water Works stock is due to issues of cast iron hydrants, pipes, sluice flanges, meters, and teakwood planks.

The increase of over Rs. 11,000 in the Drainage Department is the result of purchases towards the close of the financial year of stores for the Mazagon Sectional Sewerage Works.

The proportionally heavy increase in the stocks held by the Executive Engineer is merely temporary, as it represents the cost of kerosine oil purchased for street lighting in somewhat large quantities in order to secure an advantageous rate.

In subjoining the usual statement of the principal articles held in stock at the Paltan Road Stores, I might mention that the total purchases received at this depôt aggregated Rs. 1,58,395-4 0, and the total issues Rs. 1,59,451-13-11.

57. From personal inspection and investigation I have no hesitation in stating that the balance at this depôt could be reduced to an almost nominal figure and confined at the close of the year almost entirely to the cost of disinfectants.

Seeing how often attention has been drawn to the large stock of mostly useless and broken earthenware pipes, which at the close of the year were represented by a book-value of Rs. 40,824-2-4, comment would be superfluous, were it not for the fact that there is at last every prospect that with the attention now being given to the subject this large and fictitious asset will during the year 1898-99 disappear from the reserve stock balances of the Municipality.

I think it necessary, however, to bring to notice that these stores are not the only stores to which attention might profitably be directed. Some of the screws, nuts, rivets and steel and iron stock have been held in our reserve for years without being utilized.

I am not satisfied that the book balances are represented by actual stock or that the values assigned to the stores in hand are fair market values, as I cannot find that there has in recent years been any systematic and efficient stock-taking or that any depreciation has been allowed on articles which have remained in stock unutilised for any considerable time.

The recognised system of stores accounting is further lax in my opinion, inasmuch as the receipt and issue of stores are not entered in the ledgers till some considerable time after the transactions have been effected, proper issue notes are not in use, and no check can be exercised on any articles returned to the depôt either as serviceable or unserviceable for want of documentary evidence.

These points are engaging my attention. Improvements have already been made in certain directions, but until the stores are thoroughly overhauled, a strict verification made, proposals advanced for a revised system of accounts, useless articles disposed of, and deterioration allowed for, I cannot consider the working of this depôt to be on a satisfactory footing.

58. To some extent my remarks in reference to the depôt at Paltan Road, which works under my orders, can be extended to the depôts maintained for the Drainage and Water Works Departments.

Without the controlling effect of audit, without a minute examination of stocks, without a continuous watch over all purchases, both in relation to stocks already held and to the average consumption of past years, I have found by experience that the general tendency is towards purchasing stores in larger quantities than are actually required, and thus gradually creating a large reserve which it takes years to wipe off and then only at a sacrifice to the revenues.

59. The remedy it seems to me lies (1) in bringing the control over the purchases of all stores more directly under the supervision of the Audit Department, and (2) in having a responsible officer to give his undivided attention to the working and management of all the stores transactions of the Municipality.

WORKSHOPS.

60. The subjoined table contrasts the opening and closing balances and the receipts and disbursements of the Municipal Workshops for the year with those of the preceding year :—

	1896-97.			1897-98.		
	Rs. a. p.	Rs. a. p.		Rs. a. p.	Rs. a. p.

Total...Rs.		1,27,339 13 8			1,37,296 2 0	

* Excluding adjustments aggregating Rs. 9,134-0-5, on account of the following items:—

Rs. 10-0-0 Excess boiler inspection fee refunded by the Senior Inspector of boilers.

Rs. 8,646-11-4 Workshops ground-rent for 1895-96 and 1896-97 and rent of telephone connections for the 2nd half of 1896-97 sanctioned to be paid out of Surplus Cash Balance inadvertently debited to the Workshops.

Rs. 415-0-0 Cost of erecting mandaos for Elections inadvertently debited to the Workshops stores grant instead of to the labour grant.

Rs. 62-5-1 inadvertently credited to Workshops recoveries instead of to reserve stock.

Rs. 9,134-0-5

The increase of Rs. 16,866-14-3 in the total expenditure on labour and stores during the year was due to a large number of plague works having been undertaken in the Workshops.

By charging as usual 35 per cent. on the actual cost of establishment and stores on all the jobs executed in the shops, and by charging an additional 15 per cent. on private works, the Workshops realized a sum of Rs. 30,989-2-2 during the year including the hire of the pumping engine and other petty charges as detailed in the margin. Nearly $\frac{2}{7}$ths of the above sum of Rs 30,989-2-2 was obtained on repairs to Health Department carts and $\frac{1}{9}$th on repairs to watering carts, Engineering Department, as will be seen from the following details :—

	Rs.	a.	p.
35 per cent. Charges	30,649	6	1
15 " "	11	4	4
Hire of Pumping engine	268	7	9
Allowance to Workshops on account of Stationery, &c., for working Garlick Incinerator	60	0	0
Total Rs.	30,989	2	2

Nature of work done.	Actuals.	Amount charged, including 35 per cent. & 15 per cent.	Amount of percentage charged over the actuals.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
Private works	55 11 9	86 8 1	30 13 4
Departmental works	85,949 2 6	1,16,907 8 4	30,958 5 10
Total Rs..	86,004 14 3	1,16,994 0 5	30,989 2 2
Repairs to scavengering, drain and hand carts	18,611 13 0	25,125 15 4	6,514 2 4
Do. night-soil carts	6,637 13 0	8,961 1 0	2,323 4 0
Total repairs to Health Department carts..	25,249 10 0	34,087 0 4	8,837 6 4
Repairs to watering carts	4,536 12 4	6,124 10 7	1,587 14 3
Total..Rs.	29,786 6 4	40,211 10 11	10,425 4 7

Adding to the above sum of Rs. 30,989-2-2 derived by the percentage charged to cover shop, supervision, repairs, &c., Rs. 5 obtained by the sale of saw-dust, the gross earnings of the Shops during the year amounted to Rs. 30,994-2-2, from which the following establishment, shop, supervision, repairs, &c., charges, amounting to Rs. 29,842-14-10, were defrayed, thus leaving a net profit of Rs. 1,151-3-4, as shown in statement A, page 78.

	Rs.	a.	p.
Supervising Establishment	7,888	10	4
Stores Establishment	1,029	0	0
Shop Charges	18,757	2	2
Repairs Charges	2,177	2	4
Rs.	29,842	14	10

The Workshops outstandings on account of completed works for the past year amounted to Rs. 731-10-9 against Rs. 493-3-0, in the preceding year, and those on account of incomplete works amounted to Rs. 6,235-14-4 against Rs. 13,568-0-3 at the close of 1896-97. The total outstandings thus amounted to Rs. 6,967-9-1 or Rs. 7,093-10-2, less than in the preceding year. The incomplete jobs comprised the following:—

	Rs.	a.	p.
(1) Making and fixing iron and wood-work of the cutchra siding platform at Mahaluxmi	2,794	8	0
(2) Fixing electrical transmission plant for pumping sea-water for electrolizer and making wooden chowkey	1,248	13	4
(3) Providing and fixing new shred-lifters at Love Grove ...	803	3	2
(4) Making corrugated iron shed at Sankli Tank Fire Brigade	802	7	3
(5) Making 12 wooden hand carts for the Plague Committee...	316	13	1
(6) Making 30 iron cleaning rods for the Drainage Department	116	0	11
(7) Seven minor jobs	154	0	7
Total... Rs.	6,235	14	4

RAISING OF LOANS.

61. Inability to raise the permanent loans necessary for the prosecution of works was but another feature added to the unusual embarrassments of the year.

It was the intention of this Municipality to raise funds for capital purposes during the year to the extent of 14¾ lakhs, thus :—

5¾ lakhs of the 15¾ lakhs loan.
9 „ „ 25 „

The unfavourable condition of the money market rendered the raising of these permanent loans impossible, and with the sanction of the Government of India a temporary loan of 15 lakhs was arranged with the Bank of Bombay against the existing sanction accorded by Government to the raising of a loan of 25 lakhs in three instalments.

Six lakhs were taken up on the 1st November 1897, and Rs. 50,000 per week commencing with Monday the 15th November 1897.

Towards the close of the year it was seen that our resources would not admit of the expenditure on plague being financed without recourse to a loan. With the sanction of the Government of India arrangements were made with the Bank of Bombay to advance this Municipality a sum of 20 lakhs of rupees to be taken up in three instalments, as follows :—

6 lakhs on the 22nd December 1897.
6 „ „ 30th March 1898.
8 „ not later than the 1st July 1898.

The aggregate loans arranged with the Bank of Bombay thus amounted to 35 lakhs of rupees.

The conditions under which the Bank advanced these large sums were : (1) that the rate of interest should be one per cent. below bank rate with a minimum rate of 4 per cent. per annum, and (2) that no portion of the monies should be repaid to the Bank before the 31st August 1898.

Owing to the stringency in the money market, the bank rates reached unprecedented figures, and the Municipality had accordingly to pay dearly for the accommodation afforded.

From the 1st November, when the first instalment of the 15 Lakhs Loan was taken up, to the close of the year, the bank's rates were as follows :—

Between	1st and 17th November 1897	6 per cent.
„	18th November and 15th December 1897 ...	5 „
„	16th and 20th December 1897	6 „
On	21st and 22nd December 1897...	7 „
Between	23rd and 27th December 1897	8 „
„	28th December 1897 and 5th January 1898 ...	9 „
„	6th and 10th January 1898	10 „
„	11th January and 23rd February 1898... ...	12 „
„	24th February and 31st March 1898	13 „

GENERAL.

62. The sums that passed annually through the hands of the Paymaster for payments to municipal employés since 1873, the unpaid wages credited in each year to Deposit Account since March 1890, and the

net unpaid time-barred wages credited to the Municipal Fund are shown in the following table :—

Year.	Sums handed over for payment to employés. Rs.	Net unpaid wages credited to Savings. Rs.	Deposit Account. Rs.
1872	In this year there was no Paymaster.	2,177	.....
1873	8,40,451	3,098	.....
1874	8,50,000	4,246	.....
1875	8,56,265	3,751	.....
1876	8,62,202	3,395	.....
1877	9,43,565	4,077	.....
1878	9,84,255	9,233—4,300	.....
1879	10,35,050	3,800	.....
1880	10,18,476	3,244	.....
1881	10,14,189	3,478	.....
1882	10,27,034	3,792	.....
1st Quarter of 1883	2,63,746		
1883-84	11,32,907	3,427	.....
1884-85	12,20,854	3,021	.....
1885-86	13,01,935	4,143	.....
1886-87	12,73,988	1,120	.....
1887-88	13,09,592	4,294	.....
1888-89	13,65,672	3,741	.....
1889-90	13,97,194	1,625	3,897
1890-91	14,89,034	50	5,621
1891-92	15,68,255	2,094	1,198
1892-93	15,70,247	3,506	549
1893-94	16,27,172	*4,362	3,950
1894-95	16,60,124	3,347	1,805
1895-96	18,41,892	3,392	974
1896-97	18,54,083	5,196	21,374
1897-98	19,93,311	12,420	14,575

It will be seen that the work devolving on the Paymaster has been heavier than in any year from 1873 onwards. This extra work was a natural outcome of the plague which necessitated extra staff being employed, more especially in the Drainage and Health Departments. The increase in the amount credited to the Municipal Fund as savings must be attributed to a large amount of unpaid wages having become time-barred under the Statute of Limitation, owing probably to a great number of the Engineering and Health Department labour, &c., staff having left the city during the plague scare and to their not having applied for payment of the wages within the limitation period.

Cash received	Rs.	1,37,82,198 7 7
„ paid	„	1,33,50,960 9 2
	Rs.	2,71,33,159 0 9
Adjustments	„	1,76,21,251 13 2
Total	Rs.	4,47,54,410 13 11

The gross transactions of the Municipality during the year including adjustments, transfers, &c., aggregated over Rs. 447½ lakhs as shown in the margin against—

Rs.	285½ lakhs in	1896-97

* Forfeited under the Statute of Limitation.

† Including 968 lakhs on account of Water Works Assets and Liabilities transferred to the Municipal Fund, as explained at page 120 of the Administration Report for 1891-92.

It seems almost superfluous to accentuate the fact, that during the year under review the strain put upon my department in consequence of the increased work was very severe. Apart from the consideration of the actual increase of work, it has been the sustained effort combined with the necessity of rapidity in dealing with novel and unusual features in the working of the department, which has made the year under report a most trying one.

I subjoin the usual comparison with previous years of the number of receipt and disbursement vouchers scrutinized by this office and adjusted during the year :—

Year.	No. of Receipt Vouchers.		No. of Disbursement Vouchers.		Total including Journal Vouchers.
1876	4,862	+	12,073	=	16,935
1877	5,013	+	14.410	=	19,423
1878	5,511	+	18,783	=	24,294
1879	5,626	+	26,163	=	31,789
1880	5,677	+	24,314	=	29.991
1831	5,917	+	27,030	=	32,947
Months. 1882 / 1st Qr. of 1883	7,839	+	34,085	=	41,924
		or 33,540 proportionately for 12 months.			
1883-84	6,352	+	25.819	=	32.171
1884-85	6,942	+	32,872	=	39,814
1885-86	6,855	+	31,008	=	37,863
1886-87	7,040	+	36,966	=	44,006
1887-88	7,197	+	42.283	=	49.483
1888-89	6,527	+	42,989	=	49,516
1889-90	6,358	+	36,463	=	42,826
1890-91	15.329	+	44.022	=	59,351
1891-92	20,093	+	43,918	=	64,011
1892-93	20,552	+	44,460	=	65,012
1893-94	21,957	+	45.653	=	67,610
1894-95	23,198	+	43,204	=	66.402
1895-96	24,407	+	46,243	=	70.650
1896-97	21,336	+	50,327	=	71.663
1897-98	22,217	+	53,907	=	76,124

As compared with 1896-97 the number of inward and outward letters was as follows :—

	1896-97.	1897-98.
Inward letters	20,579	20,362
Outward letters	5,665	6,117

I might mention incidentally that, apart from the increase in the audit work of this Department, the correspondence is increasing year by year. In 1893-94 the outward letters numbered only 4,919 whereas in 1897-98 they reached 6,117 or an increase of 24 per cent.

A considerable portion of my time was devoted from November 1897 to the close of the year in placing the stores accounts of the Plague

Committee on a satisfactory footing, in framing rules, devising forms of stores accounts, and keeping a watch on the prices paid for articles.

I regret the delay in the submission of this my first report on the accounts of the Municipality, but I trust that the extraordinary circumstances of the year will be accepted as sufficient justification for a delay which is unusual and which a more intimate acquaintance with the accounts will, I trust, make impossible next year.

PERSONAL.

63. I joined my appointment as Chief Accountant on the 16th September 1897, taking over charge from the acting incumbent, Mr. Maneckshah Cawasha Talyarkhan, an officer whom I have found absolutely trustworthy, one who never spares himself in the service of the Municipality, and who continues to merit the high opinion formed of him by my predecessor.

Mr. Bal Nilaji, the Head Audit Clerk, performed his duties in a creditable manner.

I cannot refrain from bringing to notice the exceptional ability and minute acquaintance with all the details of the working and accounts of the department, of Mr. Rattanji Fardoonji Khambatta, the first Senior Audit Clerk. His assistance to me in all matters has been invaluable, and in bringing his services specially before the Commissioner, I trust it will be found possible both to improve his status and to remunerate him more adequately.

Mr. Kaikhusroo Ranina, though a comparatively junior clerk, was selected by the late Chief Accountant for the post of Accountant to the Plague Committee—a post which he filled with credit to himself and satisfaction to the Chairman. He is one of the very few men in my office who takes an intelligent interest in his work and deserves promotion to a better position than he holds at present.

I cannot close my report without expressing my deep sense of obligation for the kind help and consideration extended to me and my department by the Municipal Commissioner at all times during a most trying and harassing period.

APPENDICES

TO THE

CHIEF ACCOUNTANT'S REPORT

FOR 1897-98.

No. 1 A.

BOMBAY 5% MUNICIPAL LOAN OF 1878 (Rs. 26,94,000).

Raised in two equal instalments on 1st November and 1st December 1878 as per Corporation's Resolution No. 1296, dated 10th September 1878, and Government Resolution No. 2951, dated 28th September 1878.

Wholly repayable on 1st January 1919.

* 71 Debentures of the value of Rs. 35,500 were paid off; only one debenture, No. 607, for Rs. 500 remained unpaid, as it was not presented for repayment between 1st January 1890, the date on which it became repayable and the close of the past year.

† 83 Debentures of the value of Rs. 41,500 were paid off; only one debenture, No. 810, for Rs. 500 remained unpaid, as it was not presented for repayment between 1st January 1893, the date on which it became repayable and the close of the past year.

‡ 94 Debentures of the value of Rs. 47,000 were paid off; fourteen Debentures, bearing Nos. 1334 to 1339, and 1341 to 1348, remained unpaid, as they were not presented for repayment between 1st January 1898, the date on which they became repayable and the close of the past year.

NOTE.—Rs. 5,000 have, therefore, been renewed to meet these claims during 1898-99 if presented by the holders.

W. E. WAITE,
Chief Accountant.

W. L. HARVEY,
Acting Municipal Commissioner.

REVENUE.

1. Report of the Assessment and Collection Department by Mr. R. P. Brunton, Assessor and Collector, as forwarded with his letter No. 14820, dated 15th August 1898.

2. Report of the Revenue and Refund Audit Department by Mr. R. N. Coyajee, Acting Revenue and Refund Audit Officer, as forwarded with his letter No. 1463, dated 5th August 1898.

1. The total amount collected under all heads, exclusive of miscellaneous receipts, was Rs. 44,71,371-12-10, against the estimated amount of Rs. 45,02,373, a difference of Rs. 31,001-3-2, due mainly to a falling off in water supplied to Mills.

2. As compared with the total collections for the previous year (1896-97), which amounted to Rs. 41,76,528-0-6, the increase for 1897-98 is Rs. 2,94,843-12-4.

3. The outstandings, including Wheel Tax, on the 31st March 1898 were Rs. 1,07,100-5-2, of which, up to date, Rs. 72,783-2-8 have been accounted for, leaving a balance of Rs. 34,317-2-6 for all previous years —a result which I respectfully submit for favourable consideration as proof of the excellent collection work done by the Department, in spite of the difficulties caused by absenteeism of property owners and alleged want of funds on the part of ratepayers on account of vacancies of houses, &c. This sum of Rs. 34,317-2-6 is made up as under :—

		Rs.	a.	p.	
Irrecoverable bills	... ...	727	8	1	
Disputed „	... ...	22,981	6	7	
Recoverable „	... ...	8,715	0	3	
Departmental „	... ...	1,893	3	7	for adjustment.
	Total ...	34,317	2	6	

4. The total collections for the past five years, exclusive of miscellaneous receipts, were :—

	Rs.	A.	P.
1893-94	40,95,990	15	4
1894-95	42,86,095	4	9
1895-96	43,51,271	11	4
1896-97	41,76,528	0	6
1897-98	44,71,371	12	10

Registration of Properties.

5. The following table gives the details of the number of properties in the Assessment Book during the past five years :—

Years.	Classification of properties according to description.				Classification of properties according to liability to General Tax.			
	Buildings.	Salt-pans.	Lands (including tanks, wells, &c.).	Total.	Number assessed for the General Tax.	Number exempt or compounded for on special terms.	Small plots of unproductive lands for which no bills are issued.	Total.
1	2	3	4	5	6	7	8	9
1893-94 ...	33,833	175	17,665	51,673	39,649	4,357	7,667	51,673
1894-95 ...	34,265	175	17,708	52,148	40,032	4,446	7,670	52,148
1895-96 ...	35,083	175	17,241	52,499	40,318	4,493	7,688	52,499
1896-97 ...	35,495	146	17,318	52,959	40,653	4,561	7,745	52,959
1897-98 ...	35,091	146	17,928	53,165	40,685	4,578	7,903	53,165

Valuation of Properties.

6. The recorded gross value of properties for the year under report, contrasted with those for the previous four years, is as under :—

Years.	Opening valuation.	Amount after disposal of complaints.		Amount of subsequent reductions during the year by demolitions and complaints.	Amount after deduction of subsequent reductions.	Subsequent enhancement. (New buildings, enlargements and underassessments.)	Total valuation.	Classification of valuation.				Final difference over preceding year's valuation.	
		No. of complaints.	Valuation.					Valuation chargeable with General Tax.	Valuation exempt from General Tax.	Valuation for which no General Tax bills issued.	Total.	Increase.	Decrease.
	Rs.		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1893-94	2,67,13,196	1,929	2,66,52,913	1,42,479	2,65,10,434	4,69,294	2,69,79,728	2,45,06,857	24,55,041	17,830	2,69,79,728	5,75,746	...
1894-95	2,72,98,360	2,215	2,72,68,925	1,46,595	2,71,22,330	4,91,411	2,76,13,741	2,50,94,448	25,01,487	17,806	2,76,13,741	6,34,013	...

7. The increases in valuation in private properties are as follows :—

Years.	Rise in rents and correction of under-assessments.	Erection of new buildings.	Enlargements.	Total Increase.
	Rs.	Rs.	Rs.	Rs.
1893-94	90,667	3,21,061	1,64,018	5,75,746
1894-95	1,81,547	2,74,222	1,78,244	6,34,013
1895-96	1,49,527	2,58,447	2,35,166	6,43,140
1896-97	1,94,399	2,64,476	2,11,862	6,70,737
1897-98	2,37,562	1,94,336	1,23,289	5,55,187

8. The following tables show the increases in property taxes as compared with the previous year :—

General Tax.

1896-97.				1897-98.				Increase—Difference between columns 4 and 8.
8½ per cent. on Value.	Compounded sum payable by Government under section 144 (3).	Compounded sum payable by the Port Trust under section 145(3).	Total of columns 1, 2 and 3.	8½ per cent. on Value.	Compounded sum payable by Government under section 144 (3).	Compounded sum payable by the Port Trust under section 145 (3).	Total of columns 5, 6 and 7.	
1	2	3	4	5	6	7	8	9
a. p. 8 1	a. p. 0 0	a. p. 0 0	a. p. 8 1	a. p. 6 5	a. p. 0 0	a. p. 0 0	a. p. 6 5	a. p. 14 4
Rs. 17,55,849	Rs. 98,374	Rs. 1,52,482	Rs. 20,06,705	Rs. 17,94,227	Rs. 98,374	Rs. 1,52,482	Rs. 20,45,083	Rs. 38,377

9. The amount of general tax on properties exempted from its payments under section 143 (*a*) and (*b*) of the Act does not appear in the above table. This amount, contrasted with that of the previous year, is as follows :—

	Rs.	A.	P.		Rs.	A.	P.
1896-97 ...	2,07,151	13	4	1897-98 ...	2,11,268	4	11

10. *Water Tax.*

1896-97.				1897-98.				Increase.			Decrease on Meter Measurement.	Net Decrease.
On Value.	Compounded.	On Meter Measurement.	Total.	On Value.	Compounded.	On Meter Measurement.	Total.	On Value.	Compounded.	Total.		
1	2	3	4	5	6	7	8	9	10	11	12	13
a. p. 11	a. p. 3	a. p. 9	a. p. 11	a. p. 1	a. p. 4	a. p. 6	a. p. 10	a. p. 2	a. p. 1	a. p. 3	a. p. 4	a. p. 1
Rs. 4,30,098 14	Rs. 33,573 9	Rs. 7,80,747 4	Rs. 14,54,847 12	Rs. 6,43,511 6	Rs. 36,583 4	Rs. 5,62,106 4	Rs. 12,42,199 14	Rs. 12,584 7	Rs. 2,709 11	Rs. 15,294 2	Rs. 2,27,842 0	Rs. 2,12,547 14

Note.—Under Resolution No. 1644, dated 12th May 1897, by the Standing Committee, charges for water-supply by meter are now made half-yearly instead of quarterly; thus, bills for the half-years ended 30th September 1897 and 31st March 1898 were issued in November 1897 and in May 1898, the amounts of the latter bills will appear in the revenue account for the current year.

11. *Halalkhor Tax.*

1896-97.			1897-98.			Increase of Halalkhor Tax on Value.	Decrease of Special Halalkhor Tax.	Net Increase.
On Value.	Special Service.	Total.	On Value.	Special Service.	Total.			
1	2	3	4	5	6	7	8	9
Rs. a. p. 5,46,284 0 6	Rs. a. p. 1,50,526 12 1	Rs. a. p. 6,97,813 2 6	Rs. a. p. 5,02,600 8 4	Rs. a. p. 1,36,060 13 7	Rs. a. p. 6,38,661 5 11	Rs. a. p. 15,516 1 11	Rs. a. p. 14,467 14 6	Rs. a. p. 1,048 3 5

Note.—Although there is a net increase of Rs. 1,048-3-5 in this tax, there is a decrease of Rs. 14,467-14-6 in the Special Tax, the chief item of which is in the Special Halalkhor Tax on Mills, in which fewer hands were employed during the year.

12. The total demand on account of Property Taxes for 1897-98 amounted to Rs. 39,85,844-11-2, to which must be added Rs. 38,801-3-4, demands on account of previous years, making a total of Rs. 40,24,645-14-6.

13. Of the above demand, a sum of Rs. 60,872-13-1 was allowed as drawback on the General Tax under section 158 (2) of the Act.

14. The following bills for Property Taxes were issued during the year 1897-98 :—

For which year.	Bills issued.		—
	No.	Amount.	
		Rs. a. p.	
1893-94	52	261 4 3	
1894-95	56	309 6 10	
1895-96	103	3,483 1 5	
1896-97	447	34,747 6 10	
Total ...	658	38,801 3 4	
1897-98	72,771	36,74,115 14 1	
Total ...	73,429	37,12,917 1 5	

15. The payments by Government and Port Trust, in lieu of the General Tax, are not made on bills; they are made direct into the Chief Accountant's Office.

16. The following table gives the amount which had to be collected during 1897-98 :—

Taxes.	To be collected.				Collected.			Uncollected.	Deduct.			Balance outstanding at the end of 1897-98.		
									On account of former years.			On account of former years.	On account of 1897-98.	Total.
	Opening Balance outstanding on 31st March 1897.	Total of Bills issued during 1897-98.	Amount payable by Government and Port Trust without Bills.	Total.	On account of former years.	On account of 1897-98.	Total.		Amount written off as per Standing Committee's Resolutions Nos. 1208 5-5-97, 3823 21-7-97, 6719 20-10-97 & 11679 2-3-98. Tax on Vehicles and Animals.

17. The demand on account of the tax on private vehicles and animals for the four quarters ended 31st December 1897 was Rs. 1,55,282-7-0, against Rs. 1,85,321-12-4 for 1896, to which are to be added Rs. 16,282-13-3 outstanding on 31st March 1897, and Rs. 1,337-14-0, amount of bills for former years issued in 1897-98, making a total of Rs. 1,72,903-2-3.

18. The total number of Wheel Tax bills issued was 11,862. The amount collected during the year was Rs. 1,64,378-7-3.

19. Out of the amount of Rs. 6,550-2-3 outstanding on the 31st March 1898, Rs. 3,443-14-0 have been accounted for up to date, leaving a balance of Rs. 3,106-4-3.

20. The details are shown in the subjoined table :—

Wheel Tax.

To be collected.			Collected.			Uncollected.	Deduct Bills cancelled on account of former years.			Balance outstanding at the end of 31st March 1898.		
Opening balance outstanding.	Total of bills issued in 1897-98.	Total.	On account of former years.	On account of 1897-98.	Total.		Amount written off as irrecoverable as per Standing Committee's Resolutions Nos. 1208 3893 / 6719 11679 21-7-97 / 20-10-97 / 2-3-98.	Bills cancelled (amended bills being issued in lieu of the same). Amount.	Rs. a. p. 1,85,321 12 4	Amount.		Amount.		Amount.	Rs. a. p. 80,029 5 4

Note.—I attribute the decrease to the fact of a large number of Wheel Tax paying inhabitants having left the city on account of Plague; they took their vehicles and animals with them, and though many of the people returned themselves, left their carriages and horses behind pending decision for final return. We will have to wait a year or so before this tax shows an increase.

22. The figures in the following table for 1897-98 are supplied by the Chief Accountant, the tax being collected in his Office :—

Years.	Tax on Licensed Public Land Conveyances.	License Fees.	Fees for Badges.	Toll Fees at Mahim and Sion Causeways.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1893-94	1,64,720 8 0	5,094 4 0	7,914 1 0	12,665 14 0
1894-95	1,68,889 0 0	5,376 2 0	7,963 1 0	15,371 10 0
1895-96	1,67,967 8 0	5,020 0 0	7,853 8 0	19,528 14 0

Appeals to the Chief Judge of the Small Causes Court.

27. There were nine appeals, *viz.* :—

Subject of Appeal.	Total No. of Appeals.	How disposed of.				Total.
		Dismissed.	Allowed.	Withdrawn by the Appellants.	Settled by consent.	
Valuation	9	2	.....	2	5	9

28. The attached Tables I to XVIII show the details of the working of the department during 1897-98.

29. In my letter No. 12788, dated 26th July 1898, I have brought to the notice of the Commissioner, for favourable consideration, the satisfactory way in which the staff has worked during the last two years, and I earnestly hope that my recommendation for a recognition by the Standing Committee and Corporation of the services performed may meet with approval.

I.—REVENUE AUDIT.

1.—Assessor and Collector's Department.

(a) *Ward Offices.*

1. The balances and books of the 60 Ward Clerks in the seven wards of the City were duly examined at the end of each quarter. The amount of audit work done on each of these occasions is shown in detail in Appendix A, the totals being transcribed below for ready reference :—

Ward Balances Examined.

On 1st April 1897.		On 1st July 1897.		On 1st Oct. 1897.		On 4th Jan. 1898.		Total.	
No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.	No. of Bills.	Amount.
	Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.		Rs. a. p.
7,760	3,11,172 2 10	29,136	10,33,814 1 11	3,584	1,44,756 0 1	12,036	5,84,458 14 7	45,456	20,74,200 3 5

2. The 45,456 bills for Rs. 20,74,200-3-5 were duly checked in detail with the Ward Office Bill Book, Form 16 (every entry in which was subjected to scrutiny), and in totals, which were themselves tested with the book, kept under para. 9 at page 155 of the Manual, which is practically the Ward Clerk's Ledger. They were also checked with the Head Office Accounts (Forms 8 and 9) both in detail and in totals respectively.

(b) *Head Office.*

3. The Assessment Book in both its parts—one for the General Tax, and the other for the Water and Halalkhor Taxes—was duly examined, and the exemptions from the payment of the General Tax, the Water Tax, and the Halalkhor Tax were duly checked with a view to ascertain that no property liable to pay any or all of these taxes had escaped

assessment. Appendix B shows the work done in detail, the following being an abstract of its totals :—

Total No. of Properties on the Assessment Book.	Of which number exempted from payment of						Remainder, which pay		
	The General Tax.				The Water Tax.	The Halalkhor Tax.	The General Tax.	The Water Tax.	The Halalkhor Tax.
	Religious and Charitable Institutions.	Properties vesting in or occupied by the Corporation.	Properties of small value, for which no Bills are issued.	Total.					
53,270	1,925	1,314	7,457	10,696	17,251	17,200	42,574	36,019	36,170

4. The Vehicle and Animal Tax Book, kept under Section 186 of the Act, was also examined, and all the entries therein checked with the quarterly returns of the Ward Superintendents, and, where necessary, also with the owners' returns, under Section 187, and with the charges made for the preceding quarter. The following table shows the total number of entries so checked for each quarter, Appendix C giving the details for each ward :—

1st Quarter.	2nd Quarter.	3rd Quarter.	4th Quarter.	Total.
3,499	3,971	4,393	4,782	16,645

5. As the year recognised by the Bombay Act VI of 1863 is the calendar year, the revenue from the tax on Public Land Conveyance, licensed by the Commissioner of Police under that Act, was also audited for the twelve months, from 1st January to 31st December 1897, the certificates of issue of licenses supplied by that officer under arrangements made with him having been duly checked with the register now kept by the Chief Accountant instead of by the Superintendent of the Byculla Ward as in former years. The following table shows the work done :—

Description of Public Land Conveyance.	No. of Certificates or Vouchers.	Amount of Revenue, including Fees for Badges, &c.
		Rs. a. p.
Victorias	1,298	34,863 3 0
Riding hackaries or recklas	363	3,893 10 0
Labour carts	4,694	67,482 8 0
Total ...	6,355	1,06,239 5 0

6. Appendix D shows the number of claims to one-fifth drawback under Section 158 (2) of the Act, which were scrutinized by this office during 1897-98, the totals being abstracted below :—

1st half of 1897-98.			2nd half of 1897-98.			Totals for the year.		
Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.	Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.	Number of claims received	Number of claims admitted.	Amount of drawback sanctioned.
		Rs. a. p.			Rs. a. p.			Rs. a. p.
6,232	4,872	28,402 14 11	7,432	5,614	32,469 14 2	13,664	10,486	60,872 13 1

7. The alteration in value and in demand made through the Increase and Decrease Forms 11, 11A, and 11B, were duly checked with the authority for such alterations, as contained in your orders in the Tabulated Ward Report (Form 13), and in separate sanctions recorded in the Audit Note Books kept in this office. Appendix E exhibits the details of the alterations, of which the following are the totals :—

Total number of Increase and Decrease entries in Forms 11, 11A and 11B.	Original Valuation.	Amended or Revised Valuation.	Difference, being net Increase.
1	2	3	4
	Rs.	Rs.	Rs.
6,201	59,40,000	63,64,335	4,24,335

8. The number of complaints against valuations under Section 163 heard by the Revenue and Refund Audit Officer were 546 in C or Bhuleshwar Ward and 420 in E or Byculla Ward, giving a total of 966. The total number of the decisions on complaints against amendments under Section 167 of the Municipal Act, which were scrutinized by this office, amounted to 248 from all the seven wards of the city.

9. Irrecoverable bills for Rs. 636-7-6, as per details given in the subjoined table, were scrutinized and submitted to you in the prescribed form for action under Section 216 of the Act :—

Wards.	No. of Bills.	Amount.					
		Tax on Vehicles and Animals.	Property Taxes.	Charges for Water by meter measurement.	Special Halalkhor Tax.	Notice Fee.	Total.
		Rs. a. p.	Rs. a. p	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

D ...	12	33 0 0	225 14 0	...	...	...	.....
E ...	...	...	...	...	...	...	.....
F ...	1	4 0 0	...	...	...	...	.....
G ...	2	...	164 2 9	...	...	...	.....
Total.	42	246 6 9	390 0 9	...	...	...	636 7 6

The Standing Committee sanctioned their being written off in their Resolutions Nos. 3823, 6719, 11679, and 1578, dated 21st July 1897, 20th October 1897, 2nd March 1898, and 18th May 1898, respectively.

10. The preliminary lists of voters under Section 19 for the final Election Roll under Section 21 were duly scrutinized.

11. The demands, collections, and balances of the Department at the close of the year, as duly audited in the manner contemplated by the Manual, are shown in Appendix F in detail, and summarized in the following table.

	The General Tax.	The Water Tax.	The Halalkhor Tax.	The Vehicle and Animal Tax.	The Tax on Public Land Conveyances, including Badges, &c.	Meter Hire.	Total.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
I—Total demands as represented by bills issued ...	21,82,915 1 3	18,97,720 0 4	8,32,262 0 0	1,75,803 8 2	1,06,239 5 0	19,528 2 0	47,14,468 0 9
II—Deduct bills recalled, which were either cancelled or for which amended bills were issued	85,006 12 0	49,111 12 6	66,970 11 10	4,623 7 11	.....	4,088 8 2	2,09,806 4 5
III—Net demand for collection	20,97,908 5 3	18,48,608 3 10	7,65,291 4 2	1,71,175 0 3	1,06,239 5 0	15,439 9 10	45,04,661 12 4
IV—(*a*) Collection paid into the Treasury, including Departmental adjustments	20,61,883 14 11	18,06,313 4 4	7,42,670 6 4	1,64,378 7 3	1,06,239 5 0	13,914 9 10	43,95,399 15 8
(*b*) Irrecoverable bills written off	218 15 4	102 0 1	69 1 4	246 6 9	.....	.....	636 7 6
Total of IV ...	20,62,102 14 3	18,06,415 4 5	7,42,739 7 8	1,64,624 14 0	1,06,239 5 0	13,914 9 10	43,96,036 7 2
V—Balance at the close of the year...	35,805 7 0	42,192 15 5	22,551 12 6	6,550 2 9	.....	1,523 0 0	1,08,625 5 2

The collections were checked with receipts passed by the Chief Accountant, as also with his totals under each head, and the balances by an examination of the bills actually on hand in the several Ward Offices on 1st April 1898. They were found to be correct.

2—Engineer's Department.

12. The Revenue Books kept in the Streets and Buildings, Water Works, Drainage, and Special Drainage Branches of the Engineer's Department were duly checked each month with the permits, receipts, vouchers, and other papers supporting the several entries therein, the object of the audit being to see that the charges were correctly calculated at rates duly sanctioned, and that the collections as shown by the books were all paid into the Municipal Treasury. The following table shows the work carried out in detail :—

	Items.	Number of Vouchers examined.	Amount.		
			Rs.	a.	p.
1	Projections—Verandahs, Balconies, Rewas, Weather Frames, &c.	28	4,325	11	1
2	The erection of Scaffolding, &c., on public land.	168	3,329	6	7
3	Opening Roads	1,758	2,907	0	0
4	Temporary occupation of public streets on marriages and other occasions	526	3,082	0	0
5	Licenses issued to Plumbers	84	840	0	0
6	Licenses issued to Surveyors	32	2,400	0	0
7	Supplying copies of office records and giving evidence, &c.	2,183	137	8	0
8	Sale of Tender forms		605	11	0
9	Sale of rights of catching fish, cutting grass, collecting fruits and drawing toddy, &c. ...		5,195	0	5
10	Hire of Steam-rollers, Carts, &c.		2,277	1	5
11	Ground rents		1,910	12	10
12	Sale of building forms under Section 337 ...		281	0	0
13	Sale of repair forms under Section 342 ...		300	8	0
14	Sale of applications for water connections ...	1,531	350	0	0
15	Sale of right of cutting grass		1,305	0	4
16	Sale of Tender forms		124	0	0
17	Fees for testing water pipes, meter fittings, &c.		732	14	4
18	Meter hire...		581	13	2
	Total...	6,310	30,685	7	2

13. A comparison of the Engineer's accounts, with the Audit Note Book in this office which records your sanction in each case as it passes through this office, showed that in 15 cases the fees, the levy of which had been sanctioned by you in the course of the year under report, had not been collected and paid into the Municipal Treasury up to the close of the year, and these 15 cases were duly brought to the notice of the Executive Engineer in this office No. 426, dated 10th May 1898, which was forwarded to him through you.

3—Health Department.

14. The Revenue books kept in the Health Office were duly checked each month with the receipts, vouchers, and other papers supporting the entries therein, the object of the audit being to ascertain that the amounts collected as shown by the books were at the rates fixed under due authority, and that they were all paid into the Municipal Treasury. The following table exhibits in detail the number of receipts or vouchers examined under each head of revenue and the amount of such revenue :—

	Head of Revenue.	Number of Receipts or Vouchers examined.	Amount.
			Rs. a. p.
1	Digging graves	6,663	2,284 6 0
2	Removal of carcasses of animals	5,926	5,855 0 0
3	Supplying copies of office records and giving evidence, &c.	394	471 0 0
4	Rent of Mahalakshmi Dhobiwada	5,400	16,779 0 0
5	Rent of reclamation grounds	596	25,012 6 0
6	Rearing and catching fish, &c.		115 0 0
7	Grazing cattle and cutting grass, &c.		255 0 0
8	Sale of bones, manures, waste papers, &c. ...		1,279 12 0
9	Cleansing drains		1,780 7 1
10	Sale of Tender forms		60 0 0
11	Rent of Mody Bay milch cattle stables ...		4,670 0 0
12	Rent of Kamatipura milch cattle stables ...	817	8,076 12 0
13	Rent of Agripada milch cattle stables ...		3,174 4 0
	Total ...	19,796	69,812 15 1

4—Licensing Department.

15. Appendix G shows the number of licenses for 1897-98, the issue of which was sanctioned by you under Sections 394 and 393 of the Act for the several purposes mentioned in Schedule M, with the amount of fees leviable therefor. Each of 5,415 cases for Rs. 59,578-8-0

therein referred to passed through this office, and was duly scrutinized by it, particularly with reference to the amount of fee leviable. The register of the Superintendent and the counterfoils of the several license books were also checked each month with the Audit Note Book kept in this office, in accordance with your No. 3176 of the 20th May 1890, and with the counterfoils of the receipts given by the Chief Accountant's Cashier, for the purpose of seeing that the full amount of fee leviable in each case was collected and paid into the Municipal Treasury. As in a large majority of cases you sanction the issue of a license after payment of the fee, the registers show no outstanding at the close of the year.

5—Markets and Slaughter-Houses.

16. The registers and accounts kept were duly checked with the counterfoils of receipts issued to stall-holders, &c., and with the other vouchers available. The following tables show the work done :—

Market Revenue.

	Markets.	Number of Receipts or Vouchers examined.	Amount.			Total No. of Receipts or Vouchers examined.	Total Amount.		
			Rs.	a.	p.		Rs.	a.	p.
1	Fort General Market ...	530	6,778	4	0	530	6,778	4	0
2	Arthur Crawford Beef Market	332	9,256	6	8				
	Arthur Crawford Old Fish and Mutton Market ...	476	6,692	9	4				
	Arthur Crawford New Mutton Market...	272	2,803	0	8

7	Foras Road Market	272	422	4	0	272	422	4	0
8	Sonapore Pork Market ...	2	100	0	0	2	100	0	0
9	DeLisle Road Sheep Market.	100	5,985	0	0	100	5,985	0	0
	Total ...	8,620	1,37,898	0	0	8,620	1,37,898	0	0

Other Revenue.

	Items.	Number of Receipts or Vouchers examined.	Amount.		
			Rs.	a.	p.
1	Squatters' Fees collected departmentally ...	.....	2,423	7	6
2	Squatters' Fees collected from contractors ...	72	22,745	0	0
3	Scale Fees at the Arthur Crawford Market ...	4	4,100	0	0
4	Fair ground rent and feeding fees at Bandora ...	12	54,200	0	0
5	Slaughter Fees	365	1,28,679	8	0
6	License Fees from Butchers, Private Market Owners, &c.	3,971	15,909	0	0
7	Verifying Weights and Measures	993	1,817	4	0
8	Ground Rent...		72	0	0
9	Chawl Rent		2,138	0	0
10	Revenue from Toddy Trees...		40	0	0
11	Prices current		156	10	6
12	Garden Produce	730	24	1	0
13	Sale Proceeds of Meat or Animals...		25	9	0
14	Contribution from Private Market Owners ...		258	0	0
15	Sale Proceeds of Manure		77	10	0
16	Fees for producing office records, &c.		10	0	0
	Total ..	6,147	2,32,676	2	0

The total number of vouchers was 14,767 for Rs. 3,70,574-2-0. The total revenue collected appears duly credited in the Chief Accountant's books.

6—Victoria Gardens.

17. The Revenue books kept in the Superintendent's office were duly checked with the counterfoils of receipts issued for the sale of Garden Produce. The following table shows the work done in detail :—

Sale Proceeds of Garden Produce.

	Items.	No. of Receipts or Vouchers.	Amount.		
			Rs.	a.	p.
1	Flowers	2,177	1,703	5	3
2	Plants	463	1,831	3	4
3	Leaves	352	136	2	0
4	Seeds	88	133	0	0
5	Fruits	14	7	11	6
6	Miscellaneous	68	1,067	3	2
	Total ...	3,162	4,878	9	3

The total revenue collected appears duly credited in the Chief Accountant's books.

7—General.

18. As the monthly or quarterly audit of the several departments proceeded, the errors, irregularities, or omissions, which were discovered in the course of it, were brought to the notice of the heads of departments concerned by means of official communications addressed to them through you.

II—REFUND AUDIT.

1—Assessment Department.

19. The subjoined table shows the number and amount of claims to refund for vacancy under Sections 174 to 179 of the Act, and on account of over-collections which were scrutinized and sanctioned by this office in the year under report :—

Wards.	Number of Claims.	Amount of Refund sanctioned.
		Rs. a. p.
A—Fort and Colaba	136	4,894 9 10
B—Mandvi	248	3,023 5 6
C—Bhuleshwar	264	3,030 2 9
D—Girgaum	108	2,149 15 8
E—Byculla	153	2,730 1 4
F—Parel	59	1,308 0 9
G—Mahim	50	3,530 1 7
Total ...	1,018	20,666 5 5

The sum of Rs. 20,666-5-5 shown in the above table was sanctioned under the following heads of Revenue :—

Items.	Amount. Rs. a. p.
General Tax	6,236 8 11
Water Tax	6,520 1 7
Halalkhor Tax	7,903 10 11
Vehicle and Animal Tax... ...	6 0 0
Toll Fees...	.....
Meter Hire	.....
Process Fees	.....
Total Rs. ...	20,666 5 5

2—Town Duty Refunds.

20. As the Port Trustees and the two Railway Companies send in no Administration reports of the Town Dues collected by them on behalf of the Municipality, it is usual for this office to submit the two statements (compiled in respect of collections from figures supplied by

the Chief Accountant) marked as Appendices H and I to this report. The following table compares the total results for the year under report with those for the preceding year :—

Year.	Gross Revenue.	Total Refunds.	Net Revenue.
	Rs. a. p.	Rs. a. p.	Rs. a. p.
1896-97	15,30,411 2 1	7,86,771 1 0	7,43,640 1 1
1897-98	17,29,760 15 7	7,37,804 5 0	9,91,956 10 7

21. From the detailed Statements H and I it will be seen that the gross collections show increases over the previous year under the heads of flour, sugar, wines and sprits, beer, timber and firewood, notably sugar, while the gross receipts from grain and ghee have fallen off somewhat. The refunds on the other hand have increased under the heads of wines and spirits and timber, and have fallen off under those of grain, flour, sugar, beer and ghee, while the net revenue shows an increase under every head, principally sugar. As the rates of duty leviable in the year under report were the same as those in the previous year, all the above variations are referable exclusively to corresponding expension or diminution in each case in the volume of imports or exports. Thus, with an increase of Rs. 1,99,349-13-6 in the gross collections, coupled with a decrease of Rs. 48,966-12-0 in the refunds, the year under report has witnessed the satisfactory result of the net revenue being better than that of the previous year by Rs. 2,48,316-9-6.

22. The total amount of refunds claimed during the year was Rs. 7,67,425-5-0, of which sum Rs. 29,621-0-0 were retrenched as follows :—

	Rs. a. p.
On account of claims legally inadmissible	4,904 12 0
Excess of amounts claimed over those actually due	24,716 4 0
Total Rs. ...	29,621 0 0

23. The number of claims disposed of during the year was 28,072 (against 27,701 in the previous year), which gives an average of nearly 102 claims per every working day in the year.

Conclusion.

24. In addition to the above, the office had to deal with correspondence of all departments affecting revenue which passes through this office and with questions of principles relating to revenue, the importance of which can scarcely be judged by the number of inward and outward references which were respectively 3,777 and 4,126 in the year under report.

No. 7628 of 1898-99.

Executive Engineer's Office,

Bombay, 20*th August* 1898.

To

The MUNICIPAL COMMISSIONER

for the City of Bombay.

Sir,

I have the honour to forward herewith the Administration Report of the Department under my control for the year 1897-98, as requested in your No. 300, dated 5th April 1898.

2. The report is divided under the following heads :—

	Paras.
A.—Introductory Remarks	3 to 7
B.—New Works, &c., General.....	8 to 112
C.—Drainage Works	113 to 261
D.—Water Works	262 to 346
E.—Regulation of Streets and Buildings	347 to 368
F.—Roads, Footpaths, &c.	369 to 383
G.—Public Lighting.....	384 to 399
H.—Workshops	400 to 433
I.—General—Contracts, Rights Sold, Bills, Notices and Correspondence, Summary of Clerical Work, Plague Operations, Municipal Properties and Municipal Servants Act	434 to 467

A.

INTRODUCTORY REMARKS.

ESTABLISHMENT.

3. I held the appointment of Executive Engineer, Municipality, throughout the year.

4. Mr. C. C. JAMES, A.M.I.C.E., Deputy Executive Engineer, Water Works, and Acting Deputy Executive Engineer, Drainage, having been placed on special duty as a member of the Plague Committee, from the 2nd March 1897, Mr. JAMES W. SMITH, M.I.C.E., took up the duties of Deputy Executive Engineer, Drainage, in addition to those of Special Drainage Engineer ; and Mr. E. W. FERN has been appointed temporarily as Superintendent of Drainage from 4th November 1897, to assist Mr. SMITH in the duties of Deputy Executive Engineer.

5. I have to record with deep regret the death, which took place on the 27th July 1897, of my Deputy, Mr. HOWARD NEWTON, M.I.C.E., who was in charge of the Water Branch of my Department.

6. Mr. N.D. BHADA, L.C.E., A.M.I.C.E., was thereafter appointed to act as Deputy Executive Engineer, Water Works, until the arrival of Mr. A. FAIRLIE BRUCE, M.I.C.E., who has been appointed to act as Deputy Executive Engineer, on the 17th December 1897.

7. There has not been any important changes in the other subordinate charges, during the year under review.

B.

NEW WORKS, &c., GENERAL.

MUNICIPAL BUILDINGS, NEW ROADS, &c.

Construction and Repairs.

NEW WORKS, GENERAL—	Paras.
Works completed during the previous years, but the accounts of which remained unadjusted till the commencement of the year	8
Works which were in progress at the beginning of the year and completed during the year	8
Works which were commenced and completed during the year	8
Works which were commenced but not completed during the year	8
Works which have been sanctioned but not proceeded with or postponed during the year	8
FIRE BRIGADE STATIONS—	
Stations completed up to the end of the year 1897-98	8, 10 to 12

9. The following are details of some of the principal buildings enumerated in the foregoing statement :—

FIRE BRIGADE STATIONS.

10. The descriptions of the ten Fire Brigade Stations in different parts of the Island, sanctioned by the Corporation under their resolution No. 5144, dated 14th August 1892, are given in previous reports. These have been completed, and particulars, as regards their cost, &c., are given in the subjoined statement.

11. The quarters for the Foreman, Engineer, and Laskars at the Gamdevi Station and a few additional works, at the Sankli Tank Station, particulars regarding which are given below, were taken in hand during the year under report, and will soon be completed.

Fire Brigade Stations completed up to end of 1897-98.

12. The following statement shows the dates of commencement and completion, cost and other particulars regarding the ten Fire Brigade Stations which have been completed :—

Locality.	Names of Contractors.	Date of Commencement of Work.	Date of Completion of Work.	Sanctioned Grant for the Work.	Total Cost of Work including Contingencies and Establishment.	Savings.	Remarks.
				Rs. a. p.	Rs. a. p.	Rs. a. p.	
Colaba	Messrs. Ratanji Bezanji & Co..	30th October 1893.	30th June 1894.	26,468 0 0	23,952 9 8	1,532 4 6	For construction of the principal building.
	Messrs. Devram Keshowji & Co.	17th June 1896.	12th October 1896.		983 1 10		For construction of extra works, *viz.*, a coal-shed and a store-room.
Fort	Messrs. Spencer & Co. ...	6th January 1893.	28th February 1894.	36,201 0 0	31,454 7 2	4,746 8 10

	Mr. Navroji Jamshedji Cabinet-maker.	.....	.....				For land acquired for the station.
			Total Rs. ...	4,41,897 0 0	3,77,864 8 8	64,032 7 4	

Gamdevi Station.

13. Tenders for the work were invited, and that of Messrs. Pallonji Shapurji and Co. was accepted by the Standing Committee under their Resolution No. 6621, dated the 9th October 1897. The order to commence the work was given on the 17th January 1898. It has made satisfactory progress, and the expenditure up to the end of the year has been Rs. 4,252-4-10.

Sankli Tank Station.

14. The construction of the buildings of this station was completed, on 30th November 1896, at a cost of Rs. 1,63,757-0-11.

15. Since then the Corporation have sanctioned the following additional works under their Resolution No. 4466, dated the 9th August 1897 :—

	Sanctioned Grant. Rs.
Constructing an apparatus for drying hose	173
Metalling and packing the compound	4,485
Constructing a corrugated iron shed to serve as a granary, a workshop and a store-room for coal ...	4,157
Constructing a passage between the Chief Officer's quarters and the cook-rooms	903
Putting up weather frames	994
Constructing a paved platform for washing hose, &c.	330
Constructing a one-seated Municipal pattern latrine...	330

16. The last four works were completed during the year under review and the others are in progress.

17. The total expenditure passed up to the end of the year under report has been Rs. 1,68,829-3-7.

MUNICIPAL MARKETS, &c.

Bhuleshwar Market and Schools.

18. This work, which has been fully described in the previous Administration Reports, was completed on the 31st May 1897, at a cost of Rs. 4,35,191-13-9, including the cost of the land.

Temporary Market at Fergusson Road.

19. The Corporation, under their resolution No. 2276, dated the 11th June 1896, sanctioned a grant of Rs. 40,539 for the construction of a market at Currey Road ; but, on reconsideration, it was resolved, under their No. 2279, dated the 11th June 1896, to construct at first only a small temporary market at the junction of Fergusson and DeLisle Roads, at an estimated cost of Rs. 10,000, to be met from the above-mentioned sanctioned grant of Rs. 40,539. If this temporary market proves a success, it will be converted into a permanent one, on a sufficiently large scale.

20. Tenders for the work of the temporary market were invited by means of advertisement in the local newspapers, but none having been received, offers were invited by circular from well-known contractors, and the result was that four tenders were received, and the one of Mr. Rastamji Ratanji, being the lowest, was accepted by the Standing Committee, under their Resolution No. 8388, dated the 15th December 1897.

21. The order to commence the work was given to the contractor on the 9th February 1898.

22. The total expenditure passed up to the end of the year has been Rs. 2,204-13-1, including Rs. 2,000 for the land.

Filling in quarry holes near the Railway Station at Bandora.

23. The Corporation, under their Resolution No. 5987, dated the 7th September 1896, requested the Municipal Commissioner to report on the condition of the Bandora Slaughter Houses during the rains, and whether it was practicable to improve it, to prevent its insanitary condition during the monsoon.

24. The Municipal Commissioner, in consultation with myself and the Superintendent of Markets, proposed several measures to remedy the defects. The Corporation thereupon, under their Resolution No. 11351 of the 25th January 1897, appointed a Committee to visit the Bandora Slaughter Houses and report what works, out of those proposed by the Commissioner, were, in their opinion, the most urgent.

25. This Committee came to the conclusion that all the proposed improvements were desirable and necessary, and suggested some of them, as requiring the most urgent attention. The work of filling in the quarry holes was one of them, which they considered should be completed before the setting in of the rains.

26. The work was sanctioned by the Corporation, under their Resolution No. 1826 of the 13th May 1897, at an estimated cost of Rs. 4177.

27. Tenders were invited, but only one, from Messrs. Sulemanji Mulla Abdulalli & Co., was received. The amount of this tender being higher than that of the estimate, it was not accepted. The tenderers subsequently agreed to carry out the work at 3 per cent. below the office estimate, and this offer was accepted by the Standing Committee, under their Resolution No.3661, dated the 14th July 1897.

28. The order to commence the work was given on 3rd November 1897.

29. According to the terms of the contract the work should have been completed on 2nd March 1898, but owing to the difficulty in obtaining labour carts and workmen during the prevalence of the plague, it could not be done. The contractors therefore asked for an extension of the contract period for the completion of the work, which was sanctioned by the Commissioner, under his No. 1872 of 27th April 1898.

30. The expenditure passed up to the 31st March 1898 has been Rs. 2,832-5-8.

Construction of two additional sheds for sheep and goats at the Bandora Slaughter Houses.

31. This work was sanctioned by the Corporation under their resolution No. 1826, dated the 13th May 1897, at an estimated cost of Rs. 7,000.

32. The tender of Messrs. Sulemanji Mulla Abdulalli & Co. was accepted. The order to commence was given on 3rd November 1897, and the work was completed on the 2nd January 1898.

33. The total expenditure on the completion of the work has been Rs. 5,199-3-4.

Putting the Cattle Inspection Sheds in Bandora Slaughter Houses in proper condition.

34. The work was sanctioned by the Corporation, under their Resolution No. 1826, dated 13th May 1897, at an estimated cost of Rs. 4,186.

35. The work being urgent, was carried out departmentally during the rains.

36. The expenditure on completion of the work has been Rs. 2,770-5-8.

Making improvements to the five Chawls occupied by butchers, peons, and bigaris of the Bandora Slaughter Houses.

37. This work was sanctioned by the Corporation, under their Resolution No. 1826 of the 13th May 1897, at an estimated cost of Rs. 10,161. It was commenced in April 1897 and was completed in July 1897, through the agency of the annual repair and petty works contractors.

38. The total expenditure on the completion of the work has been Rs. 9,080-10-4.

CHAWLS, QUARTERS AND OFFICES FOR MUNICIPAL EMPLOYES, &c.

Quarters for the Chief Inspector and Sluicemen of the Water Works Department.

39. As stated in the Administration Report of 1896-97, the order to commence the work was given to Messrs. Devram Keshavji & Co., on the 10th March 1897.

40. The work was not completed within the contract period, partly owing to the difficulty in obtaining skilled labour and materials on account of the plague, and partly on account of the dilatoriness on the part of the contractors. The work was however completed on the 28th February 1898.

41. The quarters were occupied by the Chief Inspector and Sluicemen on the 1st March 1898.

42. The total expenditure on the completion of the work, has been Rs. 32,133-1-3, including the filling in of the tank, on which the building is erected.

Quarters for the Animal-keepers in the Victoria Gardens and Office for the staff of the Victoria Gardens.

43. These works, which were reviewed in the last Administration Report, were completed on the 31st December 1897.

44. The total expenditure on the completion of the work has been Rs. 5,953-9-6.

Quarters for Malis in the Victoria Gardens.

45. This work was sanctioned by the Corporation under their Resolution No. 12245 of 8th February 1897, at an estimated cost of Rs. 13,600.

46. Tenders for the work were invited by advertisements as usual. Two tenders were received, and that of Messrs. Devram Keshavji & Co., which was the lower of the two, was accepted by the Standing Committee, under their Resolution No. 10448 of 2nd February 1898.

47. The total expenditure passed up to the 31st March 1898 was Rs. 105-4-0.

Quarters for the Head Animal-keeper in the Victoria Gardens.

48. This work was sanctioned by the Corporation under their Resolution No. 12245, of the 8th February 1897, at an estimated cost of Rs. 8,796.

49. Tenders were invited for the construction of the quarters, by the advertisement in the public newspapers, as well as by sending private notices to well-known contractors, but only one tender was received from Messrs. Devram Keshavji & Co.

50. As the amount of the tender was in excess of the office estimate, the contractors were requested to state, if they would undertake the work at the rates of this office estimate, which they agreed to do, and the Standing Committee accepted their tender accordingly, under their Resolution No. 12240 of 16th March 1898.

51. The work has, however, been suspended until the finances of the Municipality improve. It will probably be taken in hand after the rains.

52. The total expenditure passed up to the 31st March 1898 has been Rs. 117-12-0.

Additions and Alterations to the Chawl at Dadar.

53. This work was sanctioned by the Corporation, under their Resolution No. 11123 of 21st January 1897, at an estimated cost of Rs. 9,848.

54. The Standing Committee, under their Resolution No. 9637 of 12th January 1898, accepted the tender of Messrs. Devram Keshavji & Co., being lower of the two tenders received.

55. The work will be taken in hand after the rains, when the halalkhores of the Health Department, who occupy the chawl at present, vacate the building.

56. The total expenditure passed up to 31st March 1898 is Rs. 98.

Ward Office for the Streets and Buildings Branch of the Executive Engineer's Department at Gamdevi.

57. As stated in last year's report, tenders for the work were re-invited and the offer of Messrs. Pallonji Shapurji & Co. was accepted by the Standing Committee, under their Resolution No. 6621, dated the 9th October 1897.

58. The order to commence was given on the 17th January 1898 and the work is making satisfactory progress.

59. The expenditure passed up to the end of the year has been Rs. 1,282-15-6.

THE NASSARWANJI MANECKJI PETIT PUBLIC HALL.

60. Bai Dinbai Nassarwanji Petit having generously made an offer of a gift of Rupees five lakhs for constructing and furnishing a Public Hall in Bombay, capable of sitting 2,000 to 2,500 people, to be used for public and other meetings and gatherings, it was accepted by the Corporation, under their Resolution No. 4643 of 10th August 1896, under certain conditions arranged in consultation with the donor.

61. The site fixed upon for the construction of the Hall, is the piece of vacant land, on the north side of the Cruickshank Road, between the Municipal Offices and the Police Magistrates' Courts.

62. It having been resolved, that the design and construction of the building should be carried out under the supervision of the Executive Engineer, Municipality, the Corporation sanctioned, under their Resolution No. 1408 of 6th May 1897, a sum of Rs. 3,590, for the cost of preparing plans and estimates of the work. These were accordingly prepared and submitted for the approval and sanction of the Municipal Commissioner and the Corporation, under the Executive Engineer's letter No. 13388, dated 21st December 1897.

63. The building, as designed, will consist of (*a*) a large Public Hall 121½ feet long, 81 feet wide, and 54 feet in height up to the ceiling, with a platform at one end and a projecting gallery 12 feet wide on each of the long sides of the Hall and two galleries 20 feet wide on the third side facing the platform, (*b*) an entrance hall 46 feet square, where the statue of the late Mr. Nassarwanji Maneckji Petit will be placed and (*c*) a hall to be used for small meetings or dining and refreshment purposes, 60 feet by 30 feet with a gallery on all the four sides.

64. The plans and estimates, the latter amounting to Rs. 5,10,237, were referred for report to a Committee of the Corporation nominated for the purpose, under their Resolution No. 9430 of 6th January 1898, who after careful study of the plans reported that—

"(1) They agree with the Executive Engineer that the floor of both the main hall and of the smaller room should be of teak boards placed longitudinally and hung on iron rails."

"(2) They would also recommend that the open arches, at the end of the Hall, both on the ground and first floor levels, should be closed with glass doors, with a view to bettering the acoustic properties of the Hall."

"With the above suggestions, the Committee would urge the Corporation to accept the plans of the Hall, which, in their opinion, reflect great credit on the Municipal Executive Engineer."

65. The plans and estimates were accordingly approved by the Corporation, under their Resolution No. 12039, subject to such modifications in the design and estimates as to restrict the cost to Rs. 5,00,000, to be given by Bai Dinbai Nassarwanji Maneckji Petit.

66. The Standing Committee, in their Resolution No. 12424 of 23rd March 1898, decided that a deed of trust be prepared as soon as possible by the Solicitors of the Municipality and of Bai Dinbai jointly, and that it shall provide for the deposit of Rupee paper of the actual value of Rs. 5,00,000, in the joint names of Bai Dinbai and the Municipal Commissioner.

67. Bai Dinbai's assent to the above proposal has not yet been given and the sanction of the Government of India to the sale of the ground to the Municipality has also not yet been received.

68. On the above being settled, the work will be taken in hand.

NEW ROADS, &c.

Reay Road.

69. Since the last report, the terms for the purchase of the property consisting of a large area of vacant land and a number of buildings, from Mr. Anandrao Vinayek, Executor of the estate of the late Mr. Parmanandas Jivandas, have been finally settled and the purchase is being completed.

70. The buildings which come in the way of the road are now being pulled down by the vendor. On completion of the demolition, the land will be taken over. The purchase of Mr. Daver's property, mentioned in the last report, has also been settled by private negotiations, and the deed of conveyance is being prepared by the Municipal Solicitors.

71. The construction of the northern approach to the overbridge and the roadway in continuation thereof, up to DeLima Street, cannot, however, be taken in hand until the alignment of the overbridge and its southern approach is finally settled by the Port Trustees and the G. I. P. Railway Company, who are of opinion that it might be necessary to depart from the original line. As soon as this matter for which negotiations are going on is finally settled and the work of constructing the Railway bridge is started, the approaches of the bridge and the roadway up to DeLima Street will be taken in hand, the plans and estimates of which are ready.

72. Private negotiations for the purchase of a portion of land owned by the Trustees of the N. S. D'Rozario Church at DeLima Street, referred to in para. 350 of the last report, having failed, a reference has now been made to Government for taking it up under the Land Acquisition Act.

73. The remainder of Reay Road, from Dockyard Road to the junction of Coppersmith Street, and Gunpowder Road, is now in progress under a contract, and the earthwork of the same is approaching completion.

74. Some of the properties required for the Reay Road had been acquired under the Land Acquisition Act. The Collector's awards in all cases of properties purchased under the Land Acquisition Act have been accepted by the owners of the properties, except in only one instance, *viz.*, in the case of the property belonging to Bai Meherbai Edulji Tavernwalla, in which case the Collector's award was disputed and an appeal made to the High Court by the claimant. The appeal was heard during the year under review, and was dismissed with costs in favour of the Municipality.

Extension of Victoria Road.

75. The excavation of Narielwadi, entrusted last year to Mr. Bomanji Dhunjibhoy, under a contract having approached completion, the construction of the Victoria Road has been started, and the work is now in progress.

The proposed road from Dongri Street across Nowroji Hill to Elphinstone Bridge.

76. The hope hitherto entertained, that after the High Court had given decision in one particular case, the task of acquiring the properties will be facilitated, has not been realized. Although the High Court has given its decision in one of the cases in favour of Mr. Jalbhoy, it has not deterred other persons owning buildings, required for the proposed road, from disputing Mr. Jalbhoy's claim to receive full value of the land occupied by the buildings. In spite of these difficulties, properties admeasuring in all 784·37 square yards have been purchased, at the aggregate cost of Rs. 64,904-1-0, including the value of the buildings. The acquisition of the remaining properties is in progress.

Flight of Steps to Falkland Road Overbridge.

77. The construction of a flight of steps, on the South of the Falkland Road Bridge, was sanctioned, under Corporation Resolution No. 12032 of 4th February 1897, at an estimated cost of Rs. 5,470. These steps are intended for the convenience of pedestrians, to enable them to go direct from Sleater Road on to the Overbridge and *vice versa*, without having to travel over the long stretch of the low level road running along the bridge.

78. The work was carried out, in the Municipal Workshops, at a cost of Rs. 5,466-3-1.

79. The steps were opened to the public on 1st February 1898 and have proved to be a great convenience.

80. During the excavation for the foundation of the steps, it was found necessary to divert a 3″ gas pipe and also a storm-water drain which came in the way. The pipe was diverted by the Gas Company at a cost of Rs. 55-1-6, and the diversion of the drain was executed departmentally during the current year.

ROADS AND STREETS IN AGRIPADA AND ELSEWHERE.

The Municipal Estates proposed to be handed over to the New Improvement Trust.

81. It is proposed to hand over, to the proposed New Improvement Trust, the undermentioned properties, which are designated :—

(*a*)—The Agripada Estate,
(*b*)—The Connaught Road Estate, and
(*c*)—The Matunga Estate.

The Agripada Estate.

82. The Agripada Estate consists of large plots of land situated in the Agripada District, bounded by Arthur Road on the West, Clerk Road on the North, DeLisle Road, Haines Road and Clare Road on the East, and Bellasis Road on the South. Some small plots of frontage land in this estate, have been sold and the balance, including the area of the land occupied by the newly constructed roads, admeasuring in all about 412,815 square yards, is proposed to be handed over to the Trust.

83. The scheme for the improvement of the Agripada Estate, consisted of the construction of several large and small roads, but only four principal ones have been taken in hand, *viz.*, Morland Road, Club Street, Gilder Street, and Souter Road.

84. The whole of Morland Road, Gilder Street (except a small portion near the Hindustan Mill) and the portion of Club Street extending from Morland Road to Gilder Street, have been completed. Souter Road is yet incomplete, on account of the firm of contractors, who undertook to carry out the work, having suspended work, owing to some dispute among the partners and it will have to be completed, at the contractors' risk and expense, either by the New Improvement Trust or the Municipality.

85. The Corporation have also granted a sum of Rs. 2,50,000 for the construction of several minor roads, *viz.* :—Motlibai Street, Sankli Street extension, Jetha Street, Mill Street, Kama Street and two other streets not yet named and also for the provision of storm-water drains along them and for purchasing and reclaiming Dhobi's Tank, adjoining Ripon Road, for the extension of Souter Road. These works have, however, been deferred, as the Municipal land, on which the roads were to be made, is proposed to be handed over to the New Trust and who will probably carry out the works.

The Connaught Road Estate.

86. The Connaught Road Estate consists of a large plot of land, immediately to the north of the Victoria Gardens. Portions of it have been added to the Victoria Gardens and to the existing public streets, *viz.*,

Parel Road and Ghorupdeo Road. A portion of the land has also been utilized for the construction of the Connaught and Sussex Roads. Some of the plots abutting on these roads and also on the Parel Road have been sold and the remainder will be handed over to the City Improvement Trust. The area to be so handed over is about 59,550 square yards, including the area occupied by the said Connaught and Sussex Roads.

The Matunga Estate.

87. The Matunga Estate consists of several plots of land, acquired in the Matunga District. These plots of land, including the area occupied by Vincent Road, admeasuring about 298,376 square yards, are also proposed to be handed over to the New Improvement Trust.

88. There are several roads intended to be constructed on this estate, but only the one above named, *viz.*, Vincent Road, has been completed.

Gilder Street.

89. The land required for completing the road has been acquired from the owners of Hindustan Mill, but as this land, like all the Municipal plots of land in Agripada District, has been transferred to the New Improvement Trust, the latter body will, no doubt, arrange to complete the road.

Souter Road.

90. The negotiations referred to in the last Annual Report, with one of the partners of the firm, who originally contracted to do the work, have failed, as the other partner does not join him. The work actually done and that remaining to be done, by the contractors, have been measured, and the latter will be carried out, at the risk and expense of the contractors, either by the Municipality or by the Improvement Trust (to whom the land occupied by the unfinished portion of Souter Road has been transferred), as the Commissioner may decide.

Road over the Tansa Main from Dadur to Matunga, now called Vincent Road.

91. This work has been completed, since some time past, but the contractors have disputed the accounts. Under the advice of the Municipal Solicitors, their deposit and the amount which was considered due to them, by the Municipality have been paid to them. They have now filed a suit, against the Municipality, for a sum of Rs. 39,673-12-10, over and above the amount paid to them. The result of this suit will be reported when the matter is finally disposed of.

Arthur Road Diversion.

92. While widening the old main drain from Bellasis Bridge to Clerk Road, in connection with the surface drainage works, which were

taken in hand, about fifteen years ago, the culvert which carried Arthur Road over the old main drain had to be demolished and replaced by a temporary timber structure. To replace this, a masonry culvert has been built close to the temporary one. The work of diverting, the road over the masonry culvert was taken in hand during the year under review and the work is now in progress.

MISCELLANEOUS.

Removing and recovering the chunam covering of the terrace roofing of the Victoria and Albert Museum.

93. This work was sanctioned by the Corporation, under their Resolution No. 4470 of 9th August 1897, at an estimated cost of Rs. 3,992.

94. It was originally intended to recover the terrace with Indian patent stone, but as it was considered that it would not stand the varying temperature, to which it would be exposed, without cracking, the terrace was covered with cement plaster one inch thick, consisting of cement and sand in equal proportions and finished with a coat of cement, at the top. This alteration was sanctioned by the Standing Committee under their Resolution No. 10446 of 2nd February 1898, and the work was entrusted to the Annual Repair and Petty Works Contractors, Messrs. Devram Keshavji & Co., about the close of the year.

Burial-grounds for Mahomedans and Beni-Israels.

95. Some additional works for the Suni Mahomedan burial-ground at Tank Bunder, such as providing wooden gates for entrances, raising and repairing the old walls, and constructing a new wall on the west side, and filling in the depressions caused by the rains, having been found necessary, tenders were invited for their execution. The tender of Messrs. Teju Kaya & Co. having been accepted, the work will shortly be commenced.

96. The inquiry in the matter of the acquisition of a portion of Narialwadi, for the future extension of the Mahomedan burial-ground, is still pending under the Land Acquisition Act, before the Collector of Bombay.

97. A portion of the land situated at Mount Road, purchased from Mr. Ashburner, is proposed to be allotted to the Beni-Israels. The ground is to be enclosed by a masonry wall, for which the tender of Messrs. Teju Kaya & Co. has been accepted, and the work is now in progress.

Constructing a compound wall at the Tank Bunder Hindu Burial-ground.

98. This work could not be proceeded with during the year, as the question of the boundaries of the burial-ground, on its north and east sides, on which the boundary walls remain to be constructed, has not yet been settled.

FUTURE DISPOSAL OF TOWN SWEEPINGS OF THE CITY.

99. This important sanitary work had engaged the attention of previous Municipal Commissioners and Engineers of this Corporation. It is a matter of gratification that, after dragging its long career over a series of years, it was practically settled during the year under review.

100. Several years ago, before the formation of the Health Department, *i.e.*, before the year 1865, the town sweepings were carried by railway and deposited on a large area of swampy ground near the village of Coorla. This continued for a number of years when in March 1876 it was decided to utilize the sweepings for reclaiming the unhealthy and swampy triangular piece of ground, commonly known as the Mahaluxmi Flats, lying between the line of the B. B. & C. I. Railway on one side, the Clerk Road on the other and the private properties abutting on the Tardeo Road, on the third. This ground has now been reclaimed to the fullest extent, and the Health Officer, some years ago, drew special attention to the danger of further reclaiming the ground with this offensive material. Several proposals have, from time to time, been suggested by previous Engineers and the Health Officer, none of which were seriously considered. On my assuming charge of the office of Executive Engineer, my attention was drawn by Mr. H. A. Ackworth, C.I.E., the then Municipal Commissioner, to the urgent necessity of seriously considering the method of the future disposal of town sweepings, and I did myself the honour of submitting an elaborate report on the subject, which was laid before the Corporation in due course. On Mr. Snow taking up the office of Municipal Commissioner soon afterwards, he earnestly entered into the question and brought it to a final issue. In my report on the subject, the advantages and disadvantages of the various systems of disposal, principally those of incineration and transportation outside the limits of the City, were fully considered. A Committee of the Corporation, appointed for the purpose, resolved, after mature deliberation, that the transportation system commends itself for adoption, on the grounds of economy and sanitation. It was thought that, by this method, a large area of waste and unhealthy swamp could be converted into fruitful agricultural ground. The matter, having been laid in due course before the Corporation, my proposal to revert to the original system of reclaiming the ground at Coorla, was accepted, and sanction to the execution of the work at an expenditure of Rs. 6,40,000 was given, on the assumption that Government would sell the land to the Municipality, which was leased to them for a short period of time, outright. Government having, however, declined to accede to the proposal of the Corporation to sell the land outright to them, the

proposal to deposit the town sweepings on that ground was abandoned. In the meantime Mr. Ardeshir Cursetji Cama, the owner of a large area of swampy land, situated near the village of Devnur, adjoining Chimbbur, admeasuring about 823 acres, about 9¼ miles distant from the present place of deposit, namely, the Flats, having offered to sell it to the Municipality, it was inspected on the 19th March 1897 by yourself, the Acting Health Officer and myself, and found it suitable for the purpose. A proposal to acquire this ground for the deposit of town sweepings and to construct a line of railway from the Coorla Station to it, was then laid before the Corporation. They having approved of it, an offer of Rs. 50 per acre was made to Mr. Cama, but he declined to accept it. The Corporation thereupon expressed an opinion under their resolution No. 1823, dated 13th May 1897, that it was desirable to acquire the land under the Land Acquisition Act. The Standing Committee thereupon sanctioned the acquisition of Mr. Cama's land, under their resolution No. 1625 of 12th May 1897, and in due course the proposed acquisition was notified in the *Government Gazette* of 12th August 1897. The Collector of Thana was interviewed by me, some time in August 1897, with a view to consider the best method of expediting the acquisition of this plot, as well as the strip of ground for the line of railway from the Coorla Station to the land at Devnur. The Commissioner and myself also addressed that officer twice, to take the necessary action, for completing the purchase, but it seems that until the 17th of March 1898, nothing was done. On this date the Collector of Thana informed the Commissioner that no steps can be taken for the acquisition of the land, until the plot is surveyed, and that he had instructed his Huzur Surveyor to do so. Proceedings having been so far delayed, the sanction of the Standing Committee, to take over possession of Mr. Cama's land, in anticipation of the Collector's inquiry and award, and to the payment of interest on the sum that the Collector may fix as the value of the land, was solicited and granted under their Resolution No. 1148 of 4th May 1898. Similar sanction of the Standing Committee, for taking over the strip of land for laying the line of railway, from Coorla Railway Station to the land at Devnur, was asked and granted under their Resolution No. 5638, dated 16th September 1897. This strip of land has been taken over, and the construction of the railway on it, has been commenced.

101. I have stated above that the Corporation sanctioned a grant of Rs. 6,40,000, for carrying out the scheme of transportation of the sweepings to the original ground at Coorla, on the assumption that Government would sell it to the Municipality outright. But this having fallen through and the proposal to deposit the sweepings on Mr. Cama's ground, by means of a railway, from the Coorla Station to Devnur having been adopted, the estimates were revised, and it was found that the cost of construction of the railway and the acquisition of the land, would involve an additional expenditure of Rs. 2,04,000, which was granted by the Corporation under their Resolution No. 8103, dated 6th December 1897.

102. On receipt of this sanction, arrangements for letting out the work by contract were made, and the work was commenced in due course of time.

103. The scheme of transportation consists of the following works :—

(*a*) The construction of two Tipping Platforms and a railway siding on the Mahaluxmi Flats, including the erection of culverts over the open Agripada drain crossing the line of railway.

(*b*) The construction of Rolling Stock to convey the sweepings.

(*c*) The construction of approach roads to the Platforms, and

(*d*) The construction of a railway line from the Coorla Station of the G. I. P. Railway to Devnur, the future place of deposit of the sweepings, including the construction of certain culverts to span the water ways.

104. The works for the construction of platforms and the approach roads to them, are let out by contract, and are in progress. The work of the culverts has also made satisfactory progress. The iron and wood works for the platforms are being made in the Municipal Workshops and are also progressing favourably. The permanent way on the Flats is being done by the B. B. & C. I. Railway and will soon be completed.

105. The Rolling Stock consists of 90 waggons and 6 brakes which are being constructed in the Workshops of the B. B. & C. I. Railway. Almost all the waggons and brakes are ready and the remainder will soon be completed.

106. The ground required for the railway from Coorla to Devnur has been acquired as stated above and the work of making the embankments and culverts has been let to the firm of Messrs. Ward and Company. I regret to have to report that this work is progressing very unsatisfactorily, and unless the Contractors push on with much greater vigour than they have done, the working season will be over, and the progress of the work will be retarded, until the close of the rains.

107. The only other point to which I need refer is the question of the rates for the haulage of the sweepings from the Tardeo Flats to the place of deposit at Devnur. After considerable correspondence with the Railway Companies and frequent interviews with their officers, it has been decided—

(*a*) that a rate of Rs. 3-4-0 per waggon should be charged for a train consisting of waggons not less than 25 in number, each waggon carrying a load of 10 tons;

(*b*) that a charge of Re. 1-14-0 be made for each waggon in excess of the above number ;

(*c*) that the waggons which may be ready within half an hour of the arrival of a loaded train at Devnur, should be brought back free ; but if the engine be detained beyond that time for empty waggons, it should be paid for, at the rate of Rs. 5 an hour or part of an hour, for the full time detained ;

(*d*) that if an engine be sent to fetch empties, a charge of Rs. 25 be made, and if such engine be detained, at the place of deposit, beyond half an hour, the same charge as that named in para. (*c*) be paid ; and

(*e*) that if the railway be extended beyond the ground at Devnur and the lead thereby increased, the charge should be proportionately increased ; but if on the other hand the length of the line be decreased, the haulage charge should also be proportionately decreased.

108. The above arrangement was reported to the Corporation by the Standing Committee, under their Resolution No. 11553 of 19th February 1898, and was recorded by that body under their Resolution No. 194, dated 4th April 1898.

109. The work on the Flats was commenced on 1st June 1897, but its progress was suspended for a while, as it was apprehended that the closeness of the Tipping Station to the line of the B.B. & C. I. Railway might prove a source of nuisance to the passenger traffic, on that railway. This question was considered by the Standing Committee and it was finally resolved that the Tipping Station should be removed to a distance of about 200 yards from the railway. The work was recommenced in January 1898 and has made progress as above described.

110. On the 15th October 1897, The Health Officer having drawn my attention to the necessity of providing quarters, in the vicinity of the depositing place at Devnur, for the men who may be employed to unload the town sweepings and for the staff engaged to supervise their work, that officer and myself paid two visits to the spot, and after having inspected various sites decided upon a high plot of ground on the line of the railway not far from the village of Chimbhur for the purpose, and steps are being taken for the acquisition of that ground. The construction of the necessary buildings will be commenced soon after the rains of 1898.

111. The following statement gives the particulars of Petty Works executed during the year 1897-98 :—

Number.	Description of Work.	Amount of sanctioned Grant.	Work entrusted to	Date of Commencement.	Date of Completion.	Total Cost of Work.
		Rs.				Rs. a. p.
1	Paving ground for dust-bin carts	560	Messrs. Devram Keshowji & Co.	May 1897 ...	July 1897 ...	550 6 4

DRAINAGE WORKS.

	Paras.
PUMPING STATION AT LOVE GROVE, WARLI	8, & 113 to 139
Efficiency of Worthington pumping engines ...	113 & 114
Renewal of bushes of engine No. 2	115
Repairs to the left-hand pump rod of engine No. 3	116
Repairs to the valve frames of the pump ...	117 & 118
Rainfall registered at the Station	119
Total number of revolutions of the engines during each month of the year	120 to 123
Total yearly consumption and average daily consumption of coal and the average rates paid for different descriptions of coal used ...	124 & 125
Trial of Borrea A Seam anthracite coal ...	126
Purchase of the dermatine valve faces ...	127
Substitution of copper feed pipes with iron ones.	128
Purchase of six solid drawn brass tubes ...	129
Four additional safety valves for the boilers ...	130
Partial obstruction of the outlet of the outfall sewer	131
Cracks in the masonry outfall chamber on the line of the outfall sewer	132
Temporary repairs to the chamber	133
Preparation of designs for a cast-iron chamber.	134
Absence of plague from the station	135
Deaths amongst the establishment	136
Conversion of the old engine-house into a shred lifter chamber, office and godown ...	8 & 137
Continued occupancy by Lieut.-Col. J. Anderson of the bungalow owned by the sons of the late Mr. Varjivandas Madhavdas ...	138
Statement of the Budget Grants of the Pumping Station	139

	Paras.
HOUSE DRAINAGE CONNECTIONS, &c. ...	140 to 150
Putting the house drainage connections of 98 houses in the Mandvi District into proper working order	140
Treatment of the drainage fittings of plague affected houses in Mandvi and various parts of the City	141 & 142
House drainage connections of 27 houses in Kalachauki Road	143
Remodelling of the sanitary arrangements of 10 houses in Modi Street, 8 houses in Lalwadi and 25 houses in various parts of the City...	144
Street connections in Colaba District	145
Execution of the street portions of house drainage connections in Colaba, Parel, Mandvi, Khamballa Hill, Mugbhat and Carnac Road Districts and of houses in an insanitary condition	146
Contract with Messrs. Dewram Keshavji and Company for the execution of the street portions of house drainage connections ...	147 & 148
House drainage connection of the old Girgaum Police Court Buildings	149 & 150
DRAINS AND SEWERS, CATCH-PITS, WATER GULLIES, MANHOLES, VENT-SHAFTS, &c.	8, 151 to 181 & 409
Ovoiding the side drains in Northbrook Street..	8 & 151
Storm-water drain in the ground newly acquired and added to the Victoria gardens	8, 152 to 154
Repairing and renewing a portion of the double barrel storm-water drain running through the Mint compound from near the North Entrance of the Town Hall	8, 155 & 409
Catchpit on the Mint Road sewer	8, 156 to 158
Catchpit on the Hornby Road sewer near the Arthur Crawford Markets	159
Water gullies in different parts of Bombay ...	160 to 166
Tidal flaps at the mouth of the double barrel masonry drain passing through the Mint compound	167 to 169

DRAINS AND SEWERS, CATCH-PITS, WATER GULLIES, MANHOLES, VENT-SHAFTS, &c.—*contd.* Paras

Construction of permanent manholes in drains in Wards A, B, C, D and E ... ... 170 & 171

Laying pipe sewers in certain narrow streets in the Mandvi District ... ... 172 to 174

Storm-water drainage arrangements on Marine Lines Road near the B. B. & C. I. Railway Administrative Offices ... ... 175 to 178

Ovoiding the road side drains in Dockyard Road, Gunpowder Road, Gungabudi Road and part of DeLima Street and the one alongside the St. Peter's Girls school ... 179 to 181

INSTALLATION FOR PROVIDING ELECTROLIZED SEA-WATER ... ...182 to 201 & 409

Starting of the plant for producing electrolized sea-water 182

Leak in the existing 18″ iron pipe from the Night-soil Depôt to the Carnac Bunder ... 183 & 184

Fixing of the Workshop pumping plant and use of the 18″ pipe as a delivery main 185

Disposal of the fluid produced from the plant... 186

Closing of the plant at the commencement of the rains 187

Result of observations taken 188

Lines on which the experiments were decided to be carried out 189

Grant for the working expenses of the plant and for sundry additional works ... ... 190 to 193

Purchase of a dynamo motor and switch-board instruments for the work 194

Construction of an underground chamber for the motor and pump 195

INSTALLATION FOR PROVIDING ELECTRO-LIZED SEA-WATER—*contd.*	Paras.
Fitting up of the plant, providing overhead line, &c.	196 & 409
Impracticability of restarting of the plant until the close of the year	197
Result of the use of the fluid	198
Cost of maintaining the plant	199 & 201
Employment of two watchmen to take care of the plant during the rains...	200
Total cost of working and maintaining the plant during the year	201
MISCELLANEOUS WORKS	8, 202 to 215
Conversion of the Night-soil depôts at Bhungi Mohollа and Haines Road into receiving depôts	8, 202 to 210
Erection of a wind-mill and pump to lift sub-soil water at Kamathipura	211 to 213
Removing, raising and refixing the service pipes of flush tanks in the gullies at Kamathipura, Foras Road and Ripon Road.	214 & 215
LATRINES AND URINALS	8, 216 to 229
LATRINES	8, 216 to 224
Golanji Hill	8 & 216
Bhoiwada	217
Kalikat and Kochin Street	218 & 219
Imamwada	220 & 221
Colaba	222 & 223
Walkeshwar	224
URINALS	225 to 229
Frere Bridge	225
Mumbadevi Tank	226
Parel Road	227
Masjid Street	227
Barrack Street...	227
Apollo Bundar..	228
Apollo Street	229

	Paras.
DRAINAGE SLUICES	230 to 232
Sluices and penstocks in charge of the Drainage Branch	230
Expenditure for the maintenance	231
Proposed repairs to the Sluices at Dharavi, Warli and Love Grove	232
MISCELLANEOUS DRAINAGE	233 to 238
Repairs, alterations, construction and flushing of drains and sewers	233
Work done by scrapers	234
Execution of sanitary works at the Plague Hospitals and Segregation Camps	235
Service of notices	236 & 237
Issue of summonses	238
WORKS EXECUTED	239 & 240
Departmentally	239
By the Petty Work Contractors	240
STORES AT BELLASIS BRIDGE DEPOT ...	241 to 261
Stoneware pipes	241 to 245
Cast-iron and galvanized sheet-iron fittings, manhole frames and covers and other fittings...	246 to 250
Cement	251 to 259
Value of stores in hand and of stores received, issued, and balance	260 & 261

LOVE GROVE PUMPING STATION.

113. The Worthington Engines, which have now been working for nearly five years, continue to give satisfaction.

114. The efficiency of the pumps, as tested by fortnightly observations taken by the Drainage Staff, showed an average of 91·90 per cent. This is nearly one per cent. more than the average efficiency of the previous year, and is probably due to the renewal of the ram bushes of No. 1 Engine, at the commencement of the year.

115. The bushes of No. 2 Engine, which are now much worn owing to the passage of silt through the pumps, are about to be renewed, and when the work is completed it is expected that the efficiency will show a further improvement.

116. On the 19th August 1897, the left hand pump rod of No. 3 Engine broke, but was at once replaced with a spare one.

117. The valve frames originally supplied with the pumps, are gradually wearing out and break occasionally. They are replaced with others of a stronger pattern, made at the Municipal Workshops.

118. None of the new frames have yet broken. The wearing surfaces of these frames have been specially made easily removable, so that worn out parts can be replaced at a small cost and a large expenditure for the entire renewal of any of the frames, is thereby avoided.

119. The rainfall registered at the station during the year was 78·5 inches.

120. The following table gives the combined total number of revolutions of all the Engines for each month of the year:—

Month and Year.	Total Number of Revolutions.
March 1897	1,798,938
April „	1,681,774
May „	1,776,889
June „	1,783,306
July „	2,131,919
August „	2,175,046
September „	2,374,909
October „	2,123,261
November „	1,987,586
December „	1,991,946
January 1898	1,929,112
February „	1,575,718
Total for the year ...	23,330,404

121. The total number of revolutions is slightly in excess of last year, but it is satisfactory to note, that the coal consumption has been kept, within the Budget grant.

122. This is principally due to the greater efficiency of the new engines and to the exclusive use of Indian coal.

123. The great objection to the use of Indian coal alone, lies in the large quantity of dense smoke given off, and therefore, whenever the rates for Welsh coal are reasonable, it is desirable to use that coal mixed with Indian coal, in order to reduce the smoke to a minimum. The high rates prevailing for Welsh coal prohibited its use, during the year.

124. 1,899 tons 16 cwt. 2 qr. 14 lbs. of Sibpur-Bengal coal, 1,420 tons of Borrea A. Seam Anthracite coal, 250 tons of Deshaghar coal and 100 tons of Singareni Deccan coal, were consumed during the year.

125. The average rate per ton, paid for Sibpur coal, was, Rs. 13-14-6, for Borrea Rs. 14-8-0, for Deshaghar Rs. 14-8-0 and for Singareni Rs. 13-12-0. The average rate per ton for all these descriptions of coal was Rs. 14-2-7½ against Rs. 14-1-5, in the previous year, during which year a large quantity of English coal was used at higher rates. The average daily consumption was 10 tons 1 cwt. 10½lbs.

126. Borrea A. Seam Anthracite coal was tried, for the first time during the year. It is an excellent steamcoal, but although it is classed by the suppliers, as an anthracite, *i.e.*, smokeless coal, it nevertheless gives off a considerable quantity of smoke, when consumed by itself. At present it is being used, with an admixture of Cardiff coal in the proportion of half-and-half, and the results, both as regards consumption and absence of smoke, are very satisfactory.

127. 1,000lbs. of Dermatine valve faces were purchased, during the year, from Messrs. Richardson and Cruddass at the rate of Rs. 3-5-0 per lb., for the pumping machinery.

128. Copper feed-pipes were substituted for iron ones, on engines No. 2 and 3 (as was done during the last year to engines No. 1 and 4) by Messrs. H. I. Dixon and Company, at a cost of Rs. 277-8-0. This amount is the same as that paid to them in the previous year, for engines No. 1. and 4.

129. Six solid drawn brass tubes, for sheathing the pump rods, were purchased from Messrs. John Fleming and Company, at a cost of Rs. 537, being at the rate of twelve annas per lb. These tubes were specially made in England for the work and are intended to be used in place of the gun-metal sheathing, which had originally been cast on to the rods. The drawn metal is tougher than cast metal and as it has been found to be cheaper, some saving will result in future, in the cost of repairs to the pump rods.

130. The four additional safety valves for boilers mentioned in the last year's report, as being under construction, were completed during the year under report and fixed to the boilers, at a total cost of Rs. 455-2-8. The amount sanctioned for the work, was Rs. 634.

131. On the 15th July, when it was raining heavily, the outlet of one of the barrels of the out-fall sewers became partially obstructed during the flood tide. The ebb tide however cleared away the obstruction and there was no further trouble in this respect.

132. The masonry out-fall chamber, on the line of the out-fall sewer, has for sometime been developing cracks of a serious nature. The pressure in the chamber is considerable, during the rough weather of the south-west monsoon, owing to the large quantity of sewage, which

is discharged during that part of the year and also owing to the pulsations, caused by heavy waves rolling against the mouth of and into the out-fall pipes.

133. The chamber has been efficiently stayed to prevent a collapse; but as there is a considerable escape of gas from the cracks, which has given rise to complaints, from residents on Warli Hill, it is necessary that some improvement should be made.

134. Designs for a cast-iron chamber, which will be more reliable than one of brick-work, for withstanding internal pressure, are now in course of preparation.

135. There have been no attacks or deaths from plague, at the station during the year. Such immunity is remarkable, as the men frequently come in contact with the sewage (which might be supposed to contain active bacilli) while examining the pump-chambers and cleaning the shred-lifters.

136. Two deaths—one from consumption and one from paralysis—occurred amongst the establishment, during the year.

137. The work of converting the old engine house, into a shred-lifter chamber, office and godown, is now in hand. The progress of the work has not been very rapid, owing to the difficulty experienced in removing the very solidly constructed brick-work foundations of the old engines. The bricks built up in cement mortar, being almost as difficult to remove as solid rock.

138. Veterinary-Lieut.-Col. J. Anderson continued to occupy during the whole year the bungalow on the property owned by the sons of the late Mr. Varjivandas Madhavdas, at a monthly rental of Rs. 80.

139. The following statement shows the grants and actual expenditure under each head in the Budget, for the maintenance of the station.

Sections.	Particulars.	Budget grant with transfer and extra grants.	Expenditure.	More.	Less.
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.

HOUSE DRAINAGE CONNECTIONS.

140. The existing house connections of 98 premises, in the Mandvi District, were put into proper working condition, at the cost of the house owners, the expenditure being Rs.4,675-14-10 exclusive of Rs. 845-1-1, debited to the grant for the street portions of house drainage connections for work done in the Municipal roadways, and Rs. 86-6-5 debited to the Plague Grant, being the value of plant and utensils, which could not fairly be debited to the house owners.

141. The treatment of the drainage fittings of houses, in which cases of plague had occurred in Mandvi and other localities, was carried out at the cost of the house owners as follows :—

No.	Districts.	No. of houses treated.	Amount charged to Private Owners.	Amount charged to the Plague Grant.
			Rs. a. p.	Rs a. p.
1	Mandvi	107	20,249 2 8	2,578 9 10
2	Various parts of the City	259	29,809 13 10	6,930 12 8

142. The amounts debited to the Plague Grant, were for plant and utensils such as buckets, pickaxes, wooden shafts, baskets, &c.

143. The house drainage connections of twenty-seven houses in Kalachauki Road, were made at the owners' expenses, amounting to Rs. 19,867-5-7, exclusive of Rs. 623-8-11, and Rs. 165-0-2 debited respectively to the grant for the street portions of house drainage connections and to the plague grant.

144. The sanitary arrangements of ten houses in Modi Street, eight houses in Lalwadi and twenty-five houses in various parts of the City, were thoroughly remodelled at the following cost :—

No.	Districts.	No. of houses remodelled.	Amount charged to Private Owners.	Amount charged to the Street Connections Works.	Amount charged to the Plague Grant.
			Rs. a. p.	Rs. a. p.	Rs. a. p.
1	Modi Street	10	5,203 6 9	413 9 5	25 1 3
2	Lalwadi	8	11,980 1 11	1,193 15 9	65 12 0
3	Various parts of the City ...	25	26,102 11 10	844 10 1	9 6 0

145. The street portions of house drainage connections in Colaba, were attended to, by the special Drainage Department.

146. The street portions of house drainage connections elsewhere were executed, during the year, as follows :—

No.	Name of the District.	Number of premises dealt with.	Total cost.
			Rs. a. p.
1	Parel	124	8,629 0 0
2	Mandvi	183	10,812 0 0
3	Khamballa Hill	47	6,713 0 0
4	Mughbhat	72	5,272 0 0
5	Carnac Road	79	4,124 0 0
6	Houses in unsanitary condition...	109	8,540 0 0
	Total ...	614	44,390 0 0

147. Tenders, returnable on the 11th October, were invited for the execution of the street portions of house drainage connections in various parts of the City, and Messrs. Deoram Keshavji and Company's tender (being the lowest of the four received) was accepted, under the Standing Committee's Resolution No. 7748, dated 24th November 1897.

148. The contract for the work was executed on the 12th January 1898. The street portions of house drainage connections carried out by the contractors, up to the 28th February 1898, were as follows :—

Name of the District.	No. of connections.	Total cost.
		Rs. a. p.
Khamballa Hill	14	552 4 8
Mandvi	23	480 2 1
Houses in unsanitary condition	12	796 8 9
Mughbhat	14	392 6 11
Parel	7	302 13 7
Total ...	70	2,524 4 0

149. A sum of Rs. 1,605 was sanctioned in the budget for 1897-98 for providing house drainage connections to the south and east wings of the old Girgaum Police Court Buildings belonging to the Municipality, at present occupied by the Police.

150. The work was carried out departmentally and completed on the 27th January 1898 at the total cost of Rs. 1,456.

DRAINS AND SEWERS, CATCHPITS, WATER GULLIES, MANHOLES, VENT-SHAFTS, &c.

Ovoiding the side drains in Northbrook Street and erecting four flush tanks for the same.

151. This work was completed on the 10th July 1897, at a cost of Rs. 3,385-7-3, as stated in the last Administration Report. It was done departmentally.

Storm-water drain in the ground newly acquired and added to the Victoria Gardens.

152. The contract for this work was executed by Messrs. Deoram Keshavji and Company on the 10th May 1897.

153. They started the work on the 16th May 1897 and were bound, under the terms of their contract, to complete it by the 15th August 1897. They were, however, unable to do so, until the 31st October 1897. They explained that progress of the work was interrupted by the rains, but as they had done very little work in the first month, which was very nearly wholly dry, and as they had failed to employ a sufficient number of men, from the commencement of the work, the charges (Rs. 217-10-2) for establishment incurred by the Municipality for supervising the work from the 15th August to 31st October 1897 were recovered from them, and the contract time for the completion of the work was extended to the 31st October 1897, under the Standing Committee's Resolution No. 8389 of 15th December 1897.

154. The total cost of the work, including establishment charges, amounted to Rs. 5,347-6-4.

Repairing and Renewing a portion of the Double Barrel Storm Water Drain running through the Mint Compound, from near the North entrance to the Town Hall.

155. The work, to which allusion is made in the last year's Administration Report, was completed departmentally, on the 21st May 1897, at a total cost of Rs. 4,928-3-2.

Catch-pit on the Mint Road Sewer.

156. The cast-iron pipes and bends required for the catch-pit were indented for from the casting contractors on the 18th November 1897 and received on the 7th March 1898.

157. The execution of the work was taken in hand departmentally and was in progress at the end of the year.

158. The certified expenditure on account of the work, up to the 31st March 1898, was Rs. 20-7-0.

(*b*) Catch-pit on the Hornby Road Sewer near the Arthur Crawford Markets.

159. A grant of Rs. 5,022 was sanctioned in the Budget for 1897-98, but the execution of the work was deferred till the ensuing year, in consequence of financial difficulties.

Construction of Water Gullies in different parts of Bombay.

160. A sum of Rs. 7,149 was sanctioned in the Budget for 1897-98 for the construction of water gullies in various places.

161. The following statement shows the particulars of the sanctioned grants and expenditure on account of each work :—

No.	Particulars.	Amount sanctioned for the Work.	Expenditure up to 31st March 1898.	Expenditure on completion.
		Rs. a. p.	Rs. a. p.	Rs. a. p.
1	Two single water gullies, at the junction of Kumbhar Lane and Bhuleshwar Lane.	158 0 0	.....	142 9 9

11	Water gully near the Stand-pipe, at the Custom Pier Road, Mazagon	42 0 0	.....	.....

162. The first six works were entrusted to the petty work contractors and executed at the total cost mentioned against each.

163. The works referred to in items Nos. 7 and 8 were also entrusted to the petty work contractors, and were in progress at the end of the year.

164. The ninth work was carried out departmentally at the cost noted against it. The amount provided in the Budget for this work being exclusive of the cost of constructing the water gullies themselves, the expenditure incurred on that account was met from the grants for miscellaneous drainage new works, as per Municipal Commissioner's No. 8836, dated 13th July 1897.

165. The work in item No. 10 was not executed, as a water gully was found to exist at the site selected for the same.

166. The work described in item No. 11, though entrusted to the petty work contractors, could not be executed, as Mr. Pestonji Nasserwanji Godiwalla raised objections to the drain from the water gully being carried through his land or wall, and the matter was under consideration at the end of the year.

Tidal Flaps at the mouth of the Double Barrel Masonry Drain passing through the Mint Compound.

167. A grant of Rs. 1,000 was sanctioned for the work in the Budget for 1897-98.

168. The work was taken in hand departmentally, as sanctioned by the Municipal Commissioner, under his No. 3777, dated 17th May 1897.

169. It was completed on the 3rd March 1898 at a total cost of Rs. 980-3-2.

Construction of Permanent Man-holes on Drains in Wards A, B, C, D and E.

170. The sites for the man-holes were selected by the Health Officer in February 1898, and the execution of the work taken in hand departmentally was in progress at the close of the year.

171. The certified expenditure against the grant of Rs. 2,000 for this work amounted to Rs. 659-11-11 on the 31st March 1898.

Laying Pipe Sewers in certain narrow Streets in the Mandvi District.

172. A grant of Rs. 4,047 was sanctioned for the work, under the Municipal Commissioner's No. 18184, dated 18th October 1897, from the amount of Rs. 33,829-3-0 reserved for such works, from the grant sanctioned for the pipe sewer works, in the 1st Drainage Section.

173. A portion of the work was executed departmentally, and it was then deferred until the owners made the drainage connections of their houses, with the existing storm-water drains, on the improved system, so that the connections can be immediately transferred to the pipe sewers, when constructed in the place of the existing storm-water drains.

174. The certified expenditure against the grant, up to the 31st March 1898, was Rs. 3,561-14-3.

Storm Water Drainage Arrangements on Marine Lines Road, near the B. B. and C. I. Railway Administrative Offices.

175. A grant of Rs. 2,452 was sanctioned for the work in the Budget for 1897-98.

176. The work was taken in hand departmentally and completed on the 31st October 1897 at a total cost of Rs. 2,420-3-1.

177. The drain was connected to the Government storm water drain in the locality, with the permission of Government.

178. In according permission to the drain being so connected, Government have reserved to themselves the power to disconnect the Municipal drain at any time it might appear to them necessary to do so, in order to maintain the efficiency of the Government drain (*vide* Government Resolution, Public Works Department, No. C. W. 1145, dated 18th August 1897).

Ovoiding the Road-side Drains in Dockyard Road, Gunpowder Road, Gungabudi Road and part of DeLima Street.

179. The sullage stagnating in pools, in the abovementioned drains, caused a serious nuisance, and as plague was raging in the localities, the Municipal Commissioner, under his No. 21697, dated 18th January 1897, sanctioned an expenditure of Rs. 7,385 from the Plague Grant for the work of ovoiding the drains.

180. The work was executed departmentally and completed on the 31st March 1897 at a total cost of Rs. 3,701-6-2.

181. The ovoiding of the side drain alongside the St. Peter's Girls School having been executed as part of the above works, the sum of Rs. 1,045, sanctioned for that work in the Budget for 1897-98, was transferred to the grant for Repairs and Alterations to Drain Section III, Miscellaneous Drainage, under the Standing Committee's Resolution No. 6134, dated 4th November 1897.

INSTALLATION FOR PROVIDING ELECTROLIZED SEA WATER.

182. The plant for providing electrolized sea water, the purchase of which was noticed in the last Administration Report at pages 281-282, was first started in regular work on the 14th May 1897.

183. For the purpose of obtaining the necessary supply of sea-water, it was originally contemplated to utilise the old 18" iron pipe, from the Night Soil Depôt to the sea at Carnac Bundar, as a suction pipe connection for a centrifugal pump to be placed at the Depôt, and to drive the pump from the engine provided for working the electrolizer.

184. After a full trial, however, this scheme had to be abandoned, owing to the leaky state of the pipe, which admitted air at some unknown point and thus prevented the pump from working.

185. The small pumping plant belonging to the Workshops was then fixed at the Bundar, and by the use of the 18" inch pipe as a delivery main an ample supply of sea-water was obtained at the Depôt.

186. The whole of the fluid produced from the plant was at first run into the Night-soil Tanks with the flushing water and from thence into the sewer ; but on the arrival in Bombay of Mr. A. E. Cooper, who was sent out by the firm of Messrs. Paterson and Cooper, the Co-patentees, to watch their interests and to advice on the working of the plant, the fluid was run into the sewer direct at that gentleman's suggestion.

187. The plant worked without interruption until the 20th June 1897, when it was closed, owing to the commencement of the rains.

188. The use of the fluid in the Night Soil Tanks did not make any very appreciable difference in the nuisance, while the carts were being emptied, but the smell in and around the depôts disappeared much more quickly, with the use of the fluid than without it, after the carts had been discharged. The walls and floors of the tanks were rendered much cleaner than before and the very numerous maggots inside the tanks were probably all killed by the use of fluid. The men who went into the tanks to clean them reported the latter circumstances with needless alarm, they apprehending that the fluid was very poisonous and might do them some personal injury. After that the fluid was turned direct into the Main Sewer, as suggested by Mr. Cooper.

189. The Standing Committee, under their Resolution No. 4950 of 25th August 1897, approved of the experiments being carried out

with the electrolizing plant, from the 1st October 1897 to the 28th February 1898, on the following lines :—

1st. "To see whether with a liberal use of the fluid through "the Night Soil Tanks and its use for washing the carts, after they "have been emptied, any appreciable reduction is made in the "nuisance arising from the Depôt."

2nd. "Whether by carting away the fluid in flushing carts, "drums, &c., it could be profitably used by the Health Department, "in place of phenyle and carbolic powder, &c., and for flushing "gutters."

3rd. "Whether public institutions, such as hospitals, would make "regular purchase of the fluid, for washing floors, clothing, &c."

190. Under the Corporation Resolution No. 1396, dated 6th May 1897, a grant of Rs. 9,691 was sanctioned for the working expenses of the plant and sundry additional works, as follows :—

(*a*)	For initial cost of providing for the electrical transmission of power to Carnac Bunder ...	Rs.	4,200
(*b*)	For working the Electrolizer, with the temporary pumping plant at Carnac Bunder, during May and June 1897 at Rs. 1,033 per mensem... ...	„	2,066
(*c*)	For working with the permanent pumping plant, from October 1897 to February 1898, at Rs. 685 per mensem	„	3,425
	Total ...	Rs.	9,691

191. The expenditure sanctioned under item (*a*) was to provide for an improved means of obtaining a supply of sea-water at the Depôt, by fixing an auxiliary Dynamo at that place, to be driven from the main engine. The electric current produced by the Dynamo was to be conveyed by an overhead line to a Chamber at Carnac Bunder and there utilized for driving an electric motor, coupled to a centrifugal pump.

192. The 18″ pipe at the Depôt was to be used as a delivery main in the same manner as when the Workshop Pumping Engine was working at the Bunder.

193. The advantage of the electric system lay in the fact, that beyond the employment of an extra oilman on Rs. 15 a month, the cost of a driver and fireman, as well as a considerable portion of the coal consumption for the steam pump, could be saved.

194. The Dynamo motor and switch-board instruments for the above work were purchased from Messrs. John Fleming and Company at a cost of Rs. 1,998.

195. The construction of the underground chamber for the motor and pump was carried out by Messrs. Dewram Keshavji and Company, at their schedule rates, at a cost of Rs. 132-12-1.

196. The work of fitting up the plant, providing the overhead line, &c., was entrusted to the Municipal Workshops at an estimated cost of Rs. 1,622.

197. It was intended to re-start the plant on 1st October 1897 after the close of the south-west monsoon, but difficulties arose with the Government Telegraph Department, regarding the overhead line, which was proposed for conveying the electric current, from the Depôt to Carnac Bunder. The Telegraph Department objected to the proposed overhead line and suggested that the line should be laid underground. The latter procedure would have materially added to the cost and would have caused an excess on the estimate, and a long correspondence ensued on the subject. Finally, in December 1897, the Director-General of Telegraphs consented to the overhead line for the greater portion of the distance to be traversed on condition that a telegraph line belonging to the G. I. P. Railway Company running parallel to Carnac Road should be removed farther south. The Railway Company was paid Rs. 60 for the removal of the telegraph line in question, but they did not carry out the work until the middle of March. In consequence of these delays it was impossible to re-start the plant before the close of the year.

198. From the time the fluid has been prepared, several experiments have been conducted, but it is premature at present to express any conclusive opinion as regards the efficiency of the fluid or its cost compared with other disinfectants. A detailed report will be submitted after the experiments are concluded.

199. The total expenditure incurred in working the plant during May and June 1897 amounted to Rs. 1,039-6-1, and the cost of maintaining the plant from July to September amounted Rs. 5-12-7.

200. Two watchmen were engaged for taking care of the plant during the rains. The pay of these watchmen was debited to the Municipal Commissioner's discretional contingencies.

201. The total cost of working and maintaining the plant, up to the end of the year, amounted to Rs. 1,135-2-8.

MISCELLANEOUS WORKS.

Conversion of the Night Soil Depôts at the Bhangi Mohalla and Haines Road into Receiving Depôts.

Bhangi Mohalla Depôt.

202. As noticed in the last Administration Report, the contractors were unable to complete this work, by the time stipulated in the contract.

203. They explained that the completion of the work was delayed, owing to the following circumstances :—

(*a*) Their workmen deserted them in large numbers, in consequence of the prevalence of the plague;

(*b*) the proprietors of the several foundaries refused to execute work for them, owing to a want of workmen ; and

(*c*) some of the castings obtained by the contractors, were not properly made and had to be re-cast.

204. The work was completed on the 30th July 1897 and no loss or extra expense was incurred by the Municipality, by reason of the delay.

205. The Standing Committee, under their Resolution No. 10783 of 9th February 1898, sanctioned the extension of the contract time, from the 26th March to 30th July 1897.

206. The total cost of the work, including the contingent charges, amounted to Rs. 2,953-3-0.

Haines Road Depôt.

207. Tenders returnable on the 11th October 1897, were invited for the work at the Haines Road Depôt, but none having been received, several contractors were requested, under a circular letter dated the 21st October 1897, to furnish tenders for the work on the 1st November 1897.

208. Messrs. Devram Keshavji and Company's tender being the lowest of three tenders received, was accepted for Rs. 9,837-5-10, under the Standing Committee's Resolution No. 25325 of 12th January 1898.

209. Orders were given to the contractors to start the work on the 25th March 1898.

210. The contractors are bound under their contract to complete the work within four months from the date of order.

Erection of a Wind Mill and Pump, to lift Sub-soil Water, at Kamatipura.

211. The apparatus was supplied and fixed by Messrs. Macbeth Brothers and Company, within the time stipulated in their contract.

212. The Wind Mill has been erected with a view to see whether by pumping up water by its means, the level of the sub-soil water, could be lowered. The Wind Mill and Pump have been working satisfactorily, but the power is small and no appreciable effect on the sub-soil water has been found. It is now proposed to sink a small well close by to determine the effect of the pumping.

213. The total cost of the work amounted to Rs. 973-9-10.

Removing, raising and refixing the service pipes of Flush Tanks, in the Gullies at Kamatipura, Foras Road and Ripon Road.

214. Many of the service pipes, which were previously fixed to the walls of the houses adjoining gullies, at Kamatipura, Foras Road and Ripon Road, rested on the surface of the gullies and were consequently likely under certain conditions to take up the sullage which ran down the surface of the gullies. To obviate this a grant of Rs. 1,324 was sanctioned in the Budget for 1897-98.

215. The work was taken in hand departmentally, in accordance with the Municipal Commissioner's No. 4238 of 21st May 1897, and completed on the 19th November 1897, at a total cost of Rs. 1,118-7-1.

LATRINES AND URINALS.

Golangi Hill Latrines.

216. The work of laying a pipe drain, from the head manhole in Parel village, to the latrines at Golangi Hill was entrusted to Messrs. Devram Keshavji and Company, Petty Work Contractors, and carried out by them, at a cost of Rs. 1,850-10-1. The remodelling of the latrines was carried out departmentally, at a cost of Rs. 1,970-6-7.

Bhoiwada Latrines.

217. The construction of a twenty-chamber latrine at Bhoiwada, was entrusted to Messrs. Devram Keshavji and Company, Petty Work Contractors, and was in progress, at the end of the year.

Latrines between Kalikat and Kochin Streets.

218. A grant of Rs. 1,912 was sanctioned for paving the open ground and constructing a bund around the latrine, between Kalikat and Kochin Streets.

219. The work was entrusted to the Petty Work Contractors and was in progress, at the end of the year.

Imamwada Latrines.

220. A grant of Rs. 2,500 was sanctioned for removing the latrines, at Imamwada and re-erecting them on the site given to the Municipality, by Nawab Kamalkhan. In addition to the above grant, a sum of Rs. 2,349-13-0 was recovered from the Nawab, as his share of the cost of the work.

221. The work was taken in hand departmentally and was in progress, at the end of year. The certified expenditure on account of the work up to end of the year, amounted to Rs. 2,061-9-7.

Colaba Latrines.

222. The erection of three sets of latrines in different parts of Colaba, has been sanctioned. The sites for two of them, were acquired under the Land Acquisition Act, in the beginning of March 1898; one at Gun Carriage Street and the other at Koli Lane. Tenders for the construction of the latrines on these sites, will be invited in the ensuing year.

223. Instead of constructing the third set of latrines on one site, it is proposed to divide it into two sets, with half the number of seats in each, and to construct them on two different sites which have been selected for the purchase of which, negotiations are going on.

Walkeshwar Latrines.

224. A grant of Rs. 5,882 was sanctioned in the Budget for 1897-98, for the construction of latrines at Walkeshwar, but the ground required for the latrines had not been acquired, till the close of the year.

Urinals at the East Approach of Frere Bridge.

225. The conversion of a three-chamber urinal, at the east approach of Frere Bridge into a water-closet, was carried out departmentally, at a cost of Rs. 648-7-9.

Urinal at Mumbadevi Tank.

226. The construction of a six-chamber trough pattern urinal, against the wall of the Mumbadevi Tank, was entrusted to the Petty Work Contractors, Messrs. Devram Keshavji and Company, and carried out by them, at a cost of Rs. 980-13-4.

Urinals at Parel Road, Masjid Street, Barrack Street, Apollo Bundar and Apollo Street.

227. The construction of the undermentioned urinals was entrusted to Messrs. Devram Keshavji and Company, Petty Work Contractors, and the work was in progress, at the end of the year :—

(1) Two-chamber trough pattern urinal, near Messrs. Richardson and Cruddas' Workshops at Parel Road.

(2) Six-chamber trough pattern urinal at Masjid Street.

(3) Four-chamber trough pattern urinal at the end of Barrack Street.

228. The construction of a six-chamber urinal at Apollo Bundar was also entrusted to the Petty Work Contractors, but the work was stopped after the opening of trenches for the same, owing to objections raised by the Port Trust and Messrs. Green and Company, to the site selected by the Health Officer. This site has therefore been abandoned. The work will be resumed on another site, after the Health Officer has selected it.

229. The work of putting up a screen in front of the urinal in Apollo Street was carried out departmentally, at a cost of Rs. 27-2-4.

DRAINAGE SLUICES.

230. The sluices and penstocks, which are in charge of the Drainage Branch, at the following places, were worked satisfactorily during the year with the usual staff :—

(*a*) Dharavi.
(*b*) Warli.
(*c*) Love Grove.
(*d*) Flats.
(*e*) Bellasis Bridge.
(*f*) Queen's Road.
(*g*) Carnac Road.
(*h*) Mint Road.

231. The expenditure incurred, for the maintenance of the sluices did not exceed the Budget provision.

232. Proposals for repairs to the timber work of the sluices at Dharavi, Warli and Love Grove were under consideration at the close of the year.

MISCELLANEOUS DRAINAGE.

233. The works under this head, comprising repairs and alterations to, and constructing and cleaning of, sewers and drains generally, together with the cleaning and flushing of the main sewers, were carried out under the supervision of the Chief Inspector of Drains.

234. Daily reports in the prescribed form showing the number of sewer scrapers and the work done, were submitted by the Chief Inspector.

235. Works in connection with the sanitary and water service arrangements at the Plague Hospitals at Modikhana, Grant Road, Northbrook Gardens, Charni Road and near the Grant Road Bridge, the Segregation Camps at Wari Bandar, Narielwadi, Modikhana, Foras Road, Morland Road, Connaught Road, and Colaba and the Contact Camp at Elphinstone Bridge, were executed at the request of the Plague Committee.

236. The following statement shows that 2,044 notices were served on house-owners.

237. Proceedings were taken in the Police Courts against those house-owners, who failed to comply with the requirements of the various sections of the Municipal Act :—

Section of the Municipal Act.	Total number of notices issued.	Subsequently complied with	Not complied with	Remarks.
230	5	.....	5	
231	903	260	643	
231 & 260	20	1	19

WORKS EXECUTED.

Works executed Departmentally.

239. The following is a summary of Miscellaneous Drainage Works, executed during 1897-98, for Municipal departments and private parties by the Drainage Branch :—

Number of works.	Name of Department.	Aggregate Cost.
	Executive Engineer's Department :—	Rs. a. p.
366	Drainage Branch	70,609 4 11
19	Water Branch	414 12 0
56	Road Branch	9,473 10 0
156	Health Department	6,957 15 9
21	Market do.	1,890 12 8
2	Fire Brigade do.	5 12 0
4	Garden do.	80 15 2
13	Plague Committee's Department	40,488 0 0
35	Private Parties	4,734 0 6
672	Total ... Rs.	1,84,600 8 0

Works executed by the Petty Work Contractors.

240. The following drainage works were entrusted to, and executed, by the Petty Work Contractors, Messrs. Devram Keshavji and Company :—

Consecutive No.	Nature of Works.	Locality.	Cost of the Work.
			Rs. a. p.
1	Diverting 6" pipe drain near house No. 428 owned by Mr. Navroji Nasarwanji.	Girgam Road...	157 6 2
2	Constructing water-gully ...	Junction of Mint Road and Fort Street	163 3 6
3	Laying 6" stoneware pipe drain from the head manhole.	Parel Village Road	1,850 10 1
4	Diverting a drain...	2nd Charni Road	258 12 7
5	Constructing a six-chamber urinal.	Against the wall of the Mumbadevi Tank... ...	980 13 4
6	Repairing the drain around the Municipal well.	Opposite Angria's Wada ...	56 7 7
7	Constructing a three-chamber trough pattern urinal.	Musjid Street	586 9 1
8	Constructing two single water-gullies.	Junction of Kumbhar Lane and Bhuleshwar Lane ...	142 9 9
9	Constructing a water-gully with branch drain.	Esplanade Road	532 0 0
10	Constructing water-gullies with branch drains.	Paltan Road	579 8 1
11	Constructing water-gully with branch drain.	Junction of Parel Road and Victoria Road	917 13 1
12	Constructing 10 half-size water-gullies and connecting them with the storm-water drain.	Ripon Road	1,024 15 3
13	Constructing one water-gully and one catchpit.	Junction of Gamdevi and Gowalia Tank Road ...	
14	Ovoiding side drain	Walkeshwar Road, New Dhobi Ghat	
15	Indian Patent stone floor at Mr. Maneckji Edulji Contractor's premises.	Clare Road	
16	Diverting the open side drain in front of Mr. Jaffer Suleman's stable.	Girgam Road...	
17	Constructing a water-gully ...	Junction Victor	
18	Making fair weather connection, between open side drain and the pipe sewer.	Victoria	
19	Ovoiding drain	North-ea war R	

STORES AT BELLASIS BRIDGE DEPÔT.

Stoneware Pipes.

241. Tenders, returnable on the 23rd March 1897, were invited for the supply of stoneware pipes and fittings for house drainage connections.

242. Messrs. Richardson and Cruddas' tender, being the lower of the two tenders received, was accepted for Rs. 3,140, as per Standing Committee's Resolution No. 785, dated 21st April 1897.

243. The contractors were under the terms of their agreement bound to complete the delivery of the pipes and fittings, on the 4th November 1897, but they were unable to do so, until the 12th of that month. The reason assigned by them for the delay, was excessive breakages caused by the transit of the pipes, during the south-west monsoon.

244. As the Municipality had sustained no loss or damage, owing to the slight delay, the Standing Committee under their Resolution No. 8385, dated 15th December 1897, sanctioned an extension of the contract time, from the 4th to 12th November 1897.

245. The value of the pipes and specials (traps, junctions, bends, &c.), received during the year was Rs. 44,829-7-7 and of those issued to the different contractors and sold to plumbers and others, amounted to Rs. 45,057-12-7.

Cast-iron and galvanized sheet-iron fittings, &c.

246. Cast-iron manhole frames and covers for the Special Drainage Department were supplied by Mr. Ardeshar Kawasji Patel.

[redacted]st-iron manhole frames and covers and other castings for [redacted]inage and miscellaneous works were supplied by Messrs. [redacted]rji and Company, the casting contractors for the year.

[redacted]ers, returnable on the 25th May 1897, were invited for the [redacted] pipes and fittings for House Drainage Connections. [redacted]las' tender, being the lowest of the four [redacted]d for Rs. 16,490-12-3, as per Standing [redacted]148, dated 30th June 1897.

[redacted] bound under the terms of their agree- [redacted]y of the pipes and fittings, by the 26th [redacted] unable to do so up to the close of the

[redacted] cast-iron articles received and issued. [redacted] Rs. 62,183-12-1 and Rs. 49,417-9-4,

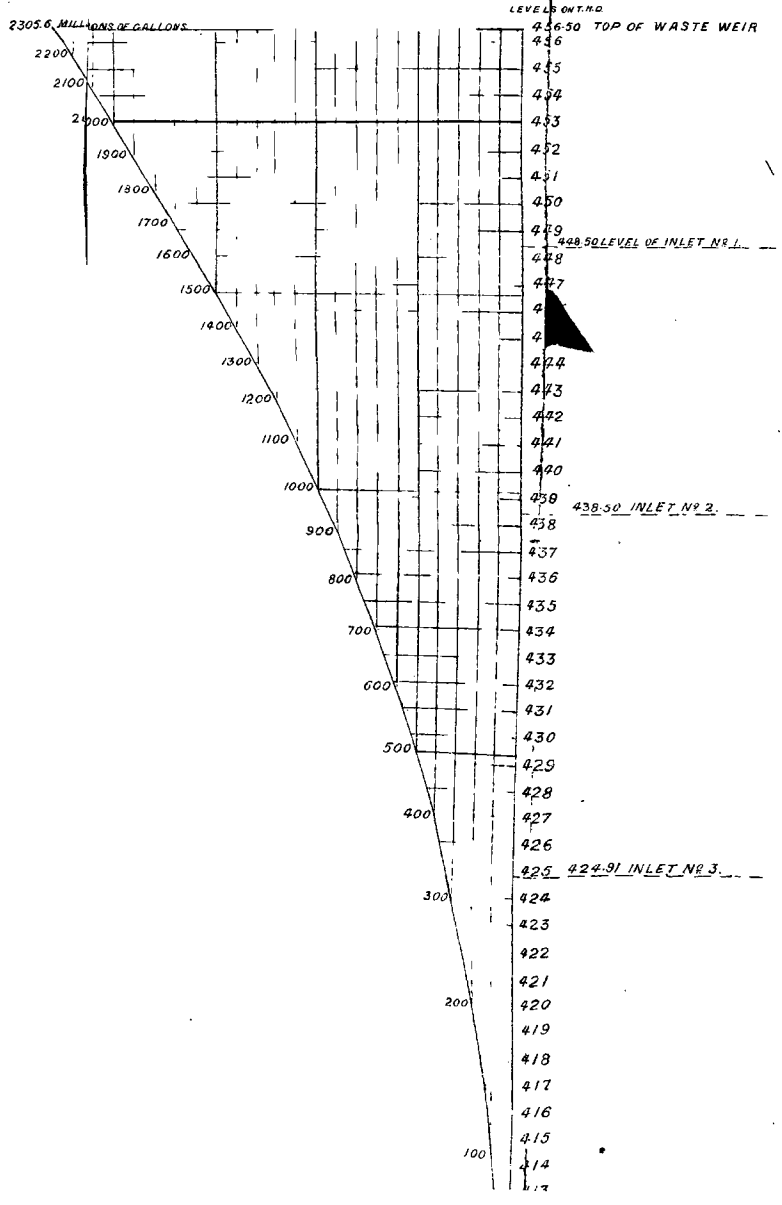
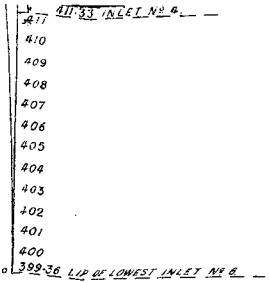
RAINFALL — VERTICAL SCALE 1/8" = 1'
WATER LEVEL — VERTICAL SCALE 1/8" = 1'
M.I.C.E.
AR DE EXECUTIVE ENGINEER
BOMBAY MUNICIPALITY W.W.

B. M. W. W.

DIAGRAM SHOWING CAPACITY OF WATER IN TULSI LAKE AT DIFFERENT HEIGHTS





HORIZONTAL SCALE 500 MILLIONS GALLONS TO AN INCH

VERTICAL SCALE 4 FEET TO AN INCH

A. Brickwood

M.I.C.E.

Ag. Dy. Executive Engineer
Bombay Municipality W. W.

Heights of Water in the Lake.

288. The accompanying diagram shews the comparative rainfalls and the heights of water in the lake during the different months of the last 7 years.

Days of Heavy Rainfalls.

289. The heaviest daily falls of 3 inches and above were :—

17th	June	1897	...	...	...	3·83	inches.
21st	„	„	...	...	...	7·06	„
16th	July	„	...	...	...	8·15	„
17th	„	„	...	...	...	3·85	„
22nd	„	„	...	...	...	3·10	„
24th	„	„	...	...	...	5·59	„
25th	„	„	...	...	...	5·48	„
8th	August	„	...	...	..	7·76	„
15th	„	„	...	...	...	3·38	„
25th	Sept.	„	...	...	...	3·32	„

Level of the Lake.

290. The lowest water level was 435·00 T.H.D. on the 17th June 1897.

291. The lake overflowed on the 7th August 1897, and the overflow ceased on the 9th October 1897.

Quantity of Water in the Lake.

292. The storage of water on the 1st October 1897 was 2305·6 millions of gallons, on the 31st March 1898 it was 1,304 millions of gallons.

Draw-off from the Lake.

293. The total volume of water drawn from the lake during the six dry months, from the 1st October 1897 to the 31st March 1898, was 1,001 millions of gallons, or 5·5 million gallons per day, allowing 4½ millions for supply ; this leaves about 1 million for leakage and evaporation. The total consumption for 8 months, from 1st October 1896 to 31st May 1897, was 1,322 millions of gallons, equal to 5·4 millions of gallons a day.

Table of Level and Leakage.

294. Table No. 3 gives the details of water level and gaugings of leakage at Tulsi Lake.

Tulsi Forest.

295. The Tulsi gathering ground forest is now supervised by the Government Forest Department since April 1896.

Repairs proposed.

296. The South-west catch-water channel having been breached by the last two monsoons and having generally fallen into a dilapidated condition, it is proposed to repair it during the next year.

297. The pitching of the earthen dam is in a bad state and requires to be generally overhauled.

PAWAI LAKE AND DEPENDENT WORKS.

The supply of Water and Pumping Plant.

298. This lake is not at present available owing to the cost of conveying coal to the pumping station ; it could never be regarded as an economical source of supply. Moreover, unless there were sufficient provision made for filtering all the water obtained from all the Lakes, it would not be safe to mix the Pawai water, which is highly charged with vegetable matter, with that from either Vehar or Tansa.

299. Mr. Bruce, the Acting Deputy Executive Engineer, states that an alternative method however suggests itself, by which part of the water from the Pawai Lake may at some future date be availed of by passing all the water amounting to about 4½ million gallons a day, the estimated yield from this gathering ground, through a turbine or Hydraulic Ram from 1 to 1¼ million gallons could be pumped to the Vehar filters whence it could be supplied through the Vehar 24″ pipe thus saving an equal quantity of Vehar water. The pumping plant has been in charge of the Assistant Executive Engineer, Mechanical Branch, since January 1896.

Water Level and Rainfall.

300. Table No. 4 gives the details of the water level and rainfall.

BHANDARWADA (JOHN HAY GRANT) SERVICE RESERVOIR.

Covering storage Basin and construction of Filters over it.

301. For reasons given in the last year's report, the contract for supplying and laying filtering materials was let to Mr. Sittaram Luxman at Rs. 19,448, but, though the contract time has already expired, only about half the sand has been placed in filter No. 9 and a small quantity in No. 7. The metal and nearly all the shingle have now been put in.

302. Filter No. 5 has no filtering materials in it at present. It is proposed to replace them gradually by means of the permanent staff, who will also be employed to wash and replace the sand in filters Nos. 1, 2, 3 and 4 which is becoming much choked.

303. The expenditure during the year for the work was Rs. 1,23,084-7-4.

Pointing the Walls and plastering the floor of Bhandarwada Storage Reservoir.

304. The work of pointing the four walls and paving the floor of the storage reservoir with Indian patent stone was completed by Messrs. Garlic & Co. at a cost of Rs. 23,086-0-9.

MALABAR HILL RESERVOIR.

Filters.

305. Filters Nos. 2, 3 and 4 have had some alterations made in their outlet arrangements and are now in process of being recharged with filtering materials.

306. Improvements such as the fixing of dormers over the roof of the filters, constructing clear water channels, fixing outlet regulating sluices, &c., were completed during the year at a cost of Rs. 29,626-0-5.

QUALITY OF WATER.

Crocodiles and Crocodile Eggs.

307. Only one claim for reward for the capture of a crocodile was made during the year and none for finding their eggs from the lakes.

Analyses of Water.

308. Analyses of water are given in Table No. 5.

Temperature of Water.

309. The details of the observations of the water in the lakes and service reservoirs, as regards their maximum temperatures at 6 a.m. in the different places, are given in the Table No. 6.

MISCELLANEOUS WORKS.

Connections at Chinchpokli.

310. The case in connection with the laying of the pipes within the G. I. P. Railway limits has been before the High Court and pending its decision the work is delayed.

Extensions of Water Mains.

Supplying and laying 4" cast-iron mains in various parts of the City.

311. This work was entrusted to Mr. Pallonji Edalji at a cost of Rs. 24,373-2-0 and is now nearly completed.

312. The mains were laid in the streets named below :—

	L. ft.
Chunam Kiln Road	610
Khetwadi 10th Lane	409
Kandewadi Lane...	309
Parsiwada 3rd Lane	570
Slater Road	636
Raghunath Dadaji Street	443
Waudby Road	88
Queen's Road	3,074
Khetwadi 12th Lane	1,012
Dhunji Street	1,947
Total ...	9,098

Laying 9" Main in Warli Road in place of the existing 3" one.

313. This work was entrusted to Mr. Pallonji Edalji at a cost of Rs. 48,611-6-0, but as the drainage works were also being carried out in that locality, it was considered unadvisable for both works to go on simultaneously. The laying of the water main has, however, been re-started and it is hoped will shortly be completed.

Mains in Kalachowki Road, Reay Road, Sivri Road and Dock-Yard Road.

314. A revised proposal on the laying of the mains in these roads is under the consideration of the Municipal Commissioner.

DISTRIBUTION AND MAINTENANCE.

315. As in last year, a large quantity of water was used for flushing the drains and gutters owing to the prevalence of the plague and for the same reason it was necessary to cut off a large number of house connections at the instance of the Health Officer to render the chals and other buildings drier and less unhealthy. Stand-pipes were erected and various types of self-closing taps were tried for them. The taps known as "Kenedy's wall fountain" have so far given the best results.

316. The number of connections cut off during the year on account of plague was 327 and the number of stand-pipes erected 246.

317. The consumption of water continue to be excessive amounting to an average of nearly 40 gallons a head for domestic purposes. As, however, there is constant complaint of deficient supply from people dwelling in all the higher districts (except Malabar Hill which has a special supply) and high houses as in the Apollo Reclamation and elsewhere, it must be assumed that those living in less elevated localities and lower houses use at least double the quantity. Until this is checked it seems hopeless to be able to give the former a supply for more than a few hours a day.

Public Supplies.

318. Table No. 7 gives the details of the free supplies numbering 194.

Dipping Wells.

319. The conversion of dipping wells into stand-pipes at the following places is under progress:—Sion Road, Bhoiwada Cross Road, Cowasji Patel Street, and Clerk Road.

Drinking Fountain and Cattle Trough at the Junction of Elphinstone and Dadar Roads.

320. The Corporation in their Resolution No. 7220 of 19th October 1896 having accepted the offer of Mr. Saisha R. Naidoo to erect at his expense a drinking fountain at the junction of Elphinstone and Dadar Roads, the work was entrusted to the Petty Work Contractors and it was nearly completed at the close of the year.

Bursts Repaired.

321. The repairs during the following three years have been as follows :—

Diameter of pipe.	1895-96.	1896-97.	1897-98.	Remarks.
3"	172	116	64	
4"	47	39	30	
5"	10	2	4	
6"	16	7	2	
7"	4	7	.....	
8"	2	2	4	
9"	1	1	2	
10"	.....	.....	.....	
12"	.....	.....	.....	
16"	.....	1	.....	
20"	.....	.....	1	
24"	.....	.....	.....	
27"	1	.....	.....	
32"	.....	2	2	
42"	.....	.....	.....	
48"	2	3	.....	
Total ...	255	180	109	

322. The following statement shows the localities where bursts in the large sized mains (including and over those of 12″) occurred in 1897-98 :—

Size of mains.	Date when burst.	Localities.	When repaired.
20″	17-12-97	Jail Road East ...	17-12-1897.
32″	12- 3-97	Matunga.	13-3-1897.
32″	9- 8-97	Do.	11-8-1897.

Connection Work.

Number of Water-connections in the City.

323. During the year new connections were made, of which the details are given in the table No. 10. 365 services, exclusive of those cut off on account of the plague, were disconnected either on account of the buildings being pulled down or with the Standing Committee's sanction for non-payment of rates or infringements of the provisions of the Municipal Act.

324. The net increase in the number of connections during the year, exclusive of those for the plague, was 103, bringing the total up to 19,815, being an increase for the year of 5 per cent.

325. The numbers and percentages have been :—

Years.	Number.	Percentage of total number in preceding years.
1895-96	279	1·4
1896-97	267	1·3
1897-98	103	·5

Meter Supplies.

326. The meters of different sizes in use on the 31st March 1898 numbered 2,209, being an increase of 162 on the number (2,047) for the preceding year.

327. The consumption registered through meters in the three years was—

	Gallons.
1895	1,290,519,465
1896	1,258,941,436
1897	1,253,345,113

328. Further details are given in tables Nos. 11 and 13.

FINANCIAL.

Stock.

329. The value of the reserve stock on the 1st March 1897 was Rs. 4,43,965-5-4. The purchases during the year aggregated to Rs. 59,637-1-8. The issues during the year aggregated to Rs. 91,652-9-6, and the value of the balance on the 1st March 1898 was Rs. 4,22,005-10-3. This leaves an amount on the credit side of Rs. 10,055-12-9.

Supply of Meters, Fittings, Pipes, &c.

330. During the year the contract for the supply of meters and fittings was entered into with Messrs. Garlick & Co. for the sum of Rs. 31,478-3-0.

Sale of Produce at Lakes and other Places.

331. The right of taking fruits from the trees on Municipal land about the lakes and on the pipe lines, and of taking grass, leaves, dead trees, brushwood, &c., on the Pawai Lake property, was sold in 1897-98 for Rs. 1,788 against Rs. 2,029 realized in 1896-97.

Works Executed for Municipal Departments and Private Parties.

332. The works executed by the Water Branch during the year 1897-98 for Municipal Departments and private parties amounted to Rs. 64,896-13-2 (Departmental Rs. 58,808-5-2, Private Rs. 6,088-8-0).

GENERAL.

Notices Issued.

333. Tables Nos. 8 and 9 give the number of notices issued during the year. The total was 10,010 against 9,747 in 1896-97 and 8,920 in 1895-96.

334. Applications were made to the Standing Committee and their sanction accorded, under Section 279 of the Municipal Act, to sever the connections of service pipes in 1,994 cases for different reasons; the sanction was carried out in 226 cases.

E.

REGULATION OF STREETS AND BUILDINGS.

	Paras.
APPLICATIONS FOR BUILDING OR REBUILDING HOUSES	347
NOTICES AND SUMMONSES ISSUED	348 to 353
BUILDINGS OR PARTS OF BUILDINGS WHICH FELL DOWN	354 and 355
REMOVAL OF RUINOUS HOUSES, HUTS, OBJECTIONABLE CONSTRUCTIONS, DOORS, PROJECTIONS AND ENCROACHMENTS ...	356
STREET IMPROVEMENT, SET-BACKS, &c. ...	357 to 367
MUNICIPAL GROUND SOLD OR EXCHANGED	368

BUILDING APPLICATIONS.

347. The number of applications for permission to either build or rebuild houses, &c., during the year under report amounted to 1,129 or 132 less than those received during the preceding year. Of these 1,123 were passed either wholly or partially and only 6 were unconditionally disapproved on sanitary and other grounds.

NOTICES AND SUMMONSES ISSUED.

348. During the year under review, 4,635 notices were issued on house-owners under various sections of the Municipal Act, or 516 more than those issued during the previous year.

349. The following statement shows the number of notices issued and the sections of the Municipal Act under which they were issued :—

Sections of Municipal Act.	Particulars.	Number of Notices.
231	To provide rain-water eaves, gutters, and downtake pipes...	603
247	To provide privy accommodation to new buildings ...	9
257	To remove encroachment on privy, drain, house-gully, &c.	18
299	Intimation of intention to take possession of land outside buildings for street improvement	32
305	To level, metal and drain private streets and to provide lights	46
308	To remove new projections	102
309	To remove old projections	34
311	To remove or alter doors or windows opening over streets	48
329	To fence or enclose tanks, wells and dangerous places ...	3
349	To remove inflammable materials in external walls and roof coverings	976
351	To remove structures erected without Municipal approval or submitting plans for the same	245
353	To remove buildings erected contrary to provisions of the Act and Building Bye-laws	318
354	To pull down ruinous houses	456
380	Removing or altering insanitary huts or sheds ...	7
383	To cut or trim trees hanging over streets	2
426	Demolishing insanitary structures to prevent the spread of infectious diseases	6
488	Intimation of intention to enter houses after 24 hours' notice	1,710
488	Intimation of intention to enter houses after 48 hours' notice	20
	Total ...	4,635

350. Three hundred and thirty-two summonses were issued under different Sections of the Municipal Act against the house-owners who failed to comply with the notices served upon them.

351. In 223 of these cases the parties complied with the terms of the notices served upon them before the services of the summonses; in 17 cases the parties were convicted and fined; 71 cases were postponed to the year 1898-99, and in 19 cases second summonses, and in 2 third summonses were issued.

352. The amount of fine realised was Rs. 255.

353. The following statement shows the different Sections of the Act under which offenders were prosecuted and other details of the prosecutions during the year 1897-98 :—

Superintendents.	Number of Sections of the Act.	Number of Summonses issued.	Cases withdrawn as requirements were complied with, &c.	Persons convicted and fined.	Cases postponed to next year 1898-99.	No. of 2nd Summonses.	No. of 3rd Summonses.	Amount of Fines.

362. The amount allowed for street improvement for the year 1897-98 was Rs. 1,00,000, which, together with the amount of the grant which lapsed at the close of the year 1896-97 and was renewed in 1897-98 (Rs. 5,132-13-8), made up a sum of Rs. 1,05,132-13-8 available during 1897-98 for street improvement.

363. The whole of this amount has actually been paid during the year.

364. In addition to this amount a sum of Rs. 10,500 was paid out of the surplus cash balance for the purchase, under the Land Acquisition Act, of house Nos. 245-247 in Duncan Road, owned by Mr. Kara Lalji, for the extension of Khara Tank Street from Khoja Street to Duncan Road.

365. The actual total amount paid during the year for street improvement thus amounted to Rs. 1,15,632-13-8.

366. The following statements give details of ground taken up and added to streets in each Ward during the year under report :—

GROUND ADDED TO STREETS IN WARD A.

ROADS, FOOT-PATHS, &c.

REPAIRS AND MAINTENANCE :—

	Paras.
Road repairs	369 to 373
Road Watering	374 to 377
Road Metal	378
Private Streets	379
Steam Rollers	380
Footpaths	381
TRAMWAYS	382 and 383

Road Repairs.

369. In my draft budget for the year 1897-98, a sum of Rs. 15,000 was inserted in excess of the usual grant, as it was thought that that additional sum would be required to carry out efficiently the repairs to the City roads. It was not possible, however, for the Municipal Commissioner, at the time of finally completing the budget, to grant the whole of the above sum, and only a sum of Rs. 2,589 was allowed, thus increasing the grant for road repairs and maintenance to Rs. 3,40,000.

370. Endeavours were made to keep the expenditure during the year within the sanctioned grant, but it was not found possible to do so, as during that year, the wages of workmen had considerably increased owing to the scarcity of labour in the City, on account of the plague. An increase had also to be made to the daily wages of the labourers, &c., on account of dearness of grain. An application was therefore made to the Corporation, and a supplementary grant of Rs. 16,500 was sanctioned by them under their Resolution No. 12655 of the 28th March 1898.

371. I deem it necessary to observe, however, that notwithstanding this extra grant, it has not been practicable to keep the roads in a satisfactory condition. A large number of extensive roads made by the

Port Trustees have been transferred to the Municipality for maintenance, under section 37 of the Port Trust Act, and several large roads have been added to the City roads by the Municipality itself. Unless, therefore, additional grants are made by the Corporation in future years, the unsatisfactory condition of the roads will continue. The following is a list of new roads which have been made over by the Port Trustees to the Municipality and constructed by the Municipality itself since the year 1893 :—

Consecutive Nos.	NAMES OF ROADS.
	Roads which have been made over by the Port Trustees to the Municipality.
1	Merewether Road.
2	Ormiston Road.
3	A cross road (from Middle Colaba Road to Sea-shore, South of Sassoon Dock).
4	Mandlik Road.
5	Nowroji Furdunji Road.
6	Tulloch Road.
7	A cross road (from Middle Colaba Road to Sea-shore, South of Sassoon Dock).
8	A cross road (running South from the middle of the above road.)
9	A cross road (from Colaba Causeway to Merewether Road).
10	Reay Road.
11	Tank Bunder Road.
12	Victoria Road Extension.
13	Connaught Road Extension.
14	Connaught Cross Road.
15	Main Road (near Jakaria Bunder and Ismail Habib Bunder, Sivri).
16	Cross Road No. 1 do. do. do.
17	Cross Road No. 2 do. do. do.
18	Cross Road No. 3 do. do. do.
19	Cross Road No. 4 do. do. do.
	Roads constructed by the Municipality.
1	Connaught Road.
2	Sussex Road.
3	Vincent Road.
4	Morland Road.
5	Club Road.
6	Gilder Street.

372. The following is a statement of the items of works executed from the budgetted amount of Rs. 3,56,500-0-0 (including the supplementary grant of Rs. 16,500-0-0) for road repairs and maintenance :—

Particulars.	Quantity of work done.	Expenditure.
		Rs. a. p.
Metalling roads	82,36,031 s. ft.	2,62,123 9 7
Sandstoning roads	18,39,977 „	10,733 7 11
Scraping Roads	.....	37,460 11 4
Repairs and maintenance of footpaths	.....	16,218 5 2
Do. do. to bridges, culverts, &c.	.....	2,616 11 9
Road-side trees, fencing and maintenance ...	.....	4,185 0 1
Repairs to and purchase and maintenance of tools and plant and other works incidental to the work of road repairs, repairing footpaths, &c.	.....	20,240 14 8
	1,00,76,008 s. ft.	3,53,578 12 6
Unexpended balance Rs. ...		2,921 3 6
Total sanctioned grant ...		3,56,500 0 0

373. The cost of the road repairs during the year has been 6¾ pies per square foot of area repaired, as against 6 pies which was the cost during the preceding year.

Road Watering.

374. The City roads were watered during the year under report, some once, some twice, and some three times a day, according to the importance and the amount of traffic, except during the latter part of the year, when in deference to the opinion of the medical advisers of health, it was discontinued entirely in the case of minor roads and partially in the case of the principal thoroughfares, as it was thought that dampness of the ground promoted the prevalence of the plague. The total expenditure under this head, including the cost and fixing of new pattern hydrants, has been Rs. 1,20,180-10-11 against the grant of Rs. 1,30,400. The saving under this head has been Rs. 10,219-5-1, from which a transfer of Rs. 6,000 has been made to the Road Repairs grant, to make up the sum of Rs. 16,500 sanctioned by the Corporation as an addition to the Road Repairs grant.

375. The Corporation sanctioned a grant of Rs. 50,000 for purchasing and fixing new pattern hydrants for watering the roads.

376. Watering by this method has proved very successful. It has displaced the old method of watering by means of bullock carts, which was not only inconvenient to the public, but also expensive.

377. The total number of hydrants fixed up to the end of the year has been 876, as shown below :—

Ward.	Name of road.	No. fixed.
A	Queen's Road	28
	Carnac Road	35
	Esplanade Road	46
	Hornby Road	31
	Frere Road	54

G	New Purbhadevi Road	21
	Warli Pakhadi	45
	Warli, Love Grove Pumping Station Road	17
	Total No. of hydrants fixed	876

Road Metal.

378. The total quantity of metal supplied by the contractors, during the year under report, was 1,116,576 cubic feet, and the cost thereof amounted to Rs. 63,156, at the rate of Rs. 5-10-6 per 100 cubic feet.

Private Streets.

379. The "Private Streets", as defined in the Municipal Act, have continued to give trouble. Such streets cannot be repaired at Municipal expense, and the house owners cannot be compelled to keep them in order owing to the difficulty experienced in proving that the streets, or particular portions of them, have been in the undisturbed use of the public, and it would be advisable to move the Corporation and Government, to make the necessary alterations in the Municipal Act, as soon as possible, as suggested in my report to you, on the amendment of that Act.

Steam Rollers.

380. The following statement shows the condition of the various Steam Rollers at the end of the year :—

Ward.	No. on Steam Roller.	Weight in Tons.	Date of Manufacture.	Condition.
A	1	20	1891	In good condition.
D	2	15	1891	In good condition.
A	3	15	1870	An old type of roller, expensive in up-keep. In fair order.
E	4	12½	1891	In good condition.
B	5	12½	1888	In good condition.
C	6	10	1891	In good condition.
E	7	10	1879	New boiler is being made.
A	8	10	1874	In good condition.
B	9	10	1874	In good condition.
C	10	8	1888	In good condition.
D	11	8	1888	In good condition.
B	12	8	1888	In good condition.
B	13	8	1889	In good condition.
G	14	8	1889	In good condition.
E	15	8	1889	In good condition.
F	16	8	1889	In good condition.
B	17	8	1880	New fire box and shell plate and tubes fitted. In good condition.
A	18	8	1880	In good condition. New boiler in 1896.
D	19	8	1874	Much worn.
G	20	8	1880	New fire-box being fitted.
A	21	6	1894	In good condition.
D	22	6	1891	In good condition.

Footpaths.

381. During the year under report, 26,740 square yards of footpaths were paved with blue-stone, at a total cost of Rs. 13,550-6-3, as shown below :—

Localities.	Area.	Amount.
	Square yards.	Rs. a. p.
Mint Road, between the Commissariat Main Entrance and Barrack Street	2,032·25	868 15 8
Corner of Mint Road and Ballard Road		
Calicut Street	4,599·75	2,314 13 0
Argyle Road, portion of	8,139·63	3,868 0 11
Babula Tank Road „	3,428·85	1,614 2 3

Clive Road „	2,426·88	1,155 8 7
Ripon Road „	5,371·63	2,638 0 5
Contingent expenditure	.....	753 13 6
Total ...	26,740·08	13,550 6 3

TRAMWAYS.

382. During the year under review, no new tram lines were laid, but the single track, along the Girgaum Road, from the Portuguese Church, to the Money School, admeasuring 5,024 feet, was doubled. The work was completed and the new line was opened to traffic on the 17th March 1898.

383. During the year under report, the double tram lines along Frere Road and from Pydhoni to Grant Road Tram Terminus were renewed.

G.

PUBLIC LIGHTING.

	Paras.
GAS LIGHTING	384 to 388
KEROSINE OIL LIGHTING	389 to 392
THE ELECTRIC LIGHTING	393 to 399

GAS LIGHTING.

384. The conversion of all the ordinary gas lamps into incandescent ones was completed during the year at a total cost of Rs. 2,08,476-5-8 against the sanctioned grant of Rs. 2,17,842.

385. The total number of incandescent gas lamps in the City during the year under report was 3,828 as detailed in the following statement :—

Ward.	Single light		Double lights.				Triple lights.		Quadruple lights.		Quintuple lights.					Total.
	Part month.	Whole month.	Apollo Pier.	Frere Fountain.	Wellington Fountain.	Khansedji M. Shroff Statue.	Part month.	Whole month.	Apollo Pier.	Victoria Docks.	Hornby Road.	Queen's Statue.	Church Gate Street.	Mint Road.	Prince's Dock.

Total...	2,918	718	8	8	8	4	14	2	8	4	1	4	1	1	1	3,828

386. The minimum pressure of $\frac{8}{10}$ths of an inch was maintained at all the municipal pressure registers.

387. The gas supplied was free from sulphur and other impurities. The illuminating power of the gas when tested with Argand burner in the Municipal Photometer House at Arthur Road was generally up to the contract standard. The illuminating power of an incandescent gas light averaged 30 candle power as against the minimum contract illuminating power of 25 candles.

388. Four additional automatic pressure registers were fixed at Charni Road Drainage Chowkey, Prince's Dock, Musjid Bunder Police Chowkey and Mazagon Fire Brigade Station during year.

KEROSINE OIL LIGHTING.

389. As in the preceding year the kerosine oil lighting was carried out departmentally during the year under review, and kerosine oil of 150° proof test was used throughout the year.

390. The total number of kerosine oil lamps in the city at the end of the year under review was 1,777 as shown in the following statement :—

WARD.	Double Wick.		Single Wick.		Total.
	Part month.	Whole month.	Part month.	Whole month.	
A	...	...	91	16	107
B	...	...	128	47	175
C	...	2	28	98	128
D	50	...	96	46	192
E	...	...	342	125	467
F	2	...	378	2	382
G	...	...	252	74	326
Total ...	52	2	1,315	408	1,777

391. The total cost of kerosine oil lighting during the year under review was Rs. 39,130-1-4, deducting from this Rs. 2,632-12-9 the sum recovered by the sale of empty kerosine oil cases and tins, and the value Rs. 8,862-6-2 of the kerosine oil cases which were in hand on 1st March 1897, the net cost of the kerosine oil lighting of the city during the year has been Rs. 27,634-14-5.

392. The average number of lamps during the year under report being 1,759. The average annual lighting charge per lamp was Rs. 15-11-4.

THE ELECTRIC LIGHT INSTALLATION FOR THE CRAWFORD MARKETS AND THE MUNICIPAL OFFICE.

393. The installation worked fairly well during the year. There were five stoppages of the Market lights, due to the breakage of the armature wires of the dynamo, and one due to a short circuit, in one of the lamps.

394. The stoppages were only of short duration.

395. During the year, six earthing devices were purchased for the Municipal office installation, at a cost of Rs. 45 each, and a testing set for testing the insulation resistances of the wires and cables, at a cost of Rs. 420-12-0. These purchases were made from Mr. J. B. Foster.

396. The "earthing devices" are for the purpose of turning to earth any high tension current which might find its way into the wires in the office building in the event of any breakdown in the insulation of the transformers. It was considered advisable to purchase these devices to render the installation free from any danger.

397. The testing set was obtained to enable this department to test departmentally the condition of the wires in the electric light installations at the Office, Market, and pumping stations.

398. This work was formerly carried out at the Municipal Office by Mr. J. B. Foster in 1894-95 at a cost of Rs. 250, and in 1896-97 at a cost of Rs. 200.

399. The total cost of working the electric light plant during the year was Rs. 10,549-7-3, against the apportionment of Rs. 10,800, from the budget grant of Rs. 20,473, under section 5, Lighting Markets and Slaughter Houses, &c., Health Department Budget.

Statement showing the Monthl

| Month and Year. | Departmental Works, &c. | | |

401. From this statement it will be observed that the expenditure incurred under the different heads of the Workshop Accounts was as follows :—

	Rs. a. p.	Rs. a. p.
For Departmental Works, &c.—		
Labour	33,502 11 7	
Stores	54,017 6 7	
Piece-work, cart-hire, &c.	402 11 10	
Total ...		87,922 14 0
For Workshop Stores—		
Labour	572 0 0	
Stores	3,745 14 7	
Total ...		4,317 14 7
For Shop Charges—		
Labour	Rs. a. p. 1,586 7 10	
Stores	11,169 5 6	
Piece-work, contingencies, ground rent, water tax, &c.	6,001 4 10	
Total ...	18,757 2 3	
For Tools, Repairs to Machinery, &c.—		
Labour	225 15 0	
Stores	523 15 2	
Piece-work, repairs to buildings, &c.	1,427 4 2	
Total ...	2,177 2 4	
For Supervision Charges, Establishment, &c.—		
Establishment	8,220 15 11	
Stores	0 5 4	
Contingencies	697 5 1	
Total ...	8,918 10 4	
Total Working Expenditure ...		29,852 14 10
The Total Expenditure during 1897-98 was Rs. ...		1,22,093 11 5

	Rs. a. p.	Rs. a. p.
The total expenditure during 1897-98 on account of Departmental works, &c., and for stores job aggregated, with the percentage for supervision, shop charges, &c., to	.....	1,33,329 14 9
Add—Amount of incomplete jobs at the beginning of the year 1897-98	.....	13,568 0 3
		1,36,797 15 0
Deduct—Amount of incomplete jobs at the end of the year 1897-98	.....	6,235 14 4
Thus the total amount of bills preferred by the Workshops in 1897-98 was	.....	1,30,562 0 8
The actual charges for working the Shops, *i.e.*, for supervision (exclusive of the pay of the Assistant Engineer, Mechanical Branch in charge, which is debited to the Executive Engineer's Office Establishment) shop and repair charges, repairs to and purchase and renewal of tools and machinery, &c., amount to	.....	29,852 14 10
The amount recovered on account of the abovementioned expenses by charging the fixed percentage of 35 per cent. on the cost of labour employed and materials used for works executed at the Shops was	30,649 6 1	.....
The difference between the actual cost of working the Municipal pumping engine and the fixed charges at which it was let on hire to private parties and for departmental works was	268 7 9	.....
The percentage charged on private works executed was	11 4 4	.....
Amount realized by the sale of saw-dust	5 0 0	.....
Allowance for stationery, &c., for the Garlick's Incinerator	60 0 0	.....
The balance in favor of the Workshops was therefore	.....	1,141 3 4
Total Rs. ...	30,994 2 2	30,994 2 2

PERCENTAGE FOR SUPERVISION, SHOP, REPAIR, CHARGES, &c., GROUND RENT AND WATER SUPPLY.

402. The balance or surplus in favour of the Workshops is much less than usual, but the explanation lies in the payment to Government of a sum of Rs. 5,508-12-10 for rent of the Workshops and Stores Premises and the land occupied by Grant House for the year under review.

403. Charges amounting to Rs. 1,371 for remetalling the Workshops compound as also the purchase of a new platform weigh-bridge at a cost of Rs. 500 were met out of profit.

404. The question as to ownership of the land occupied by the Workshops premises was still unsettled at the close of the year and the payment of rent, as mentioned above, was made under protest.

405. It is unfortunate that this question should remain unsettled for so long, as it is delaying many needed improvements. The general increase of high class steam machinery and implements belonging to the Municipality, as well as further large increases in prospect in connection with the new installation of air-compressing machinery at Love Grove for the extension of the Shone System renders it imperative that the Workshops should be brought more up to date in respect of tools and mechanical appliances without further delay.

406. Many of the machine tools are upwards of thirty years old and should be replaced by others of modern and improved type. The buildings also require to be extended and properly repaired to satisfactorily execute the increase of work demanded of the Workshops.

407. Charges for water consumed at the Workshops from January to March 1897, amounting to Rs. 386-12-0, were met from the Workshops grant for stores and water supply. The charges for water supplied from April to September remained unadjusted at the close of the year, owing to a dispute as to the quantity actually consumed. The bill for the last quarter, *viz.*, from October to December has not been received.

408. Owing to several unforeseen works, the grant for stores had to be supplemented by a transfer of Rs. 5,660-8-5 from savings in the grant for establishment and labour, and also by an advance of Rs. 7,489-7-7 from Surplus Cash Balance.

NEW WORKS EXECUTED AT THE WORKSHOPS.

409. The following are the principal items of new work completed during the year :—

Description of Work.	Cost of Work.
	Rs. a. p.
For the Health Department.	
24 Wooden hand-carts	1,992 10 2
2 Bullock carts for removal of dead bodies	776 4 11
7 Hose reels for gully flushing	4,949 3 8
3 Renewing the bodies and woodwork of hearses Nos. 1, 3 and 4	987 13 7
5 Iron cylindrical dust-bins	130 1 3
For the Plague Committee.	
13 Hand ambulance carriages	3,043 1 2
1 Portable chamber and canister for disinfecting clothes with nitric acid fumes	316 7 10
Erecting an equifex disinfecting apparatus and making and erecting a corrugated iron shed for the same at Modikhana	3,790 0 0
For the Commissioner's Department.	
Erecting polling places and preparing for the Municipal Elections	1,141 1 3
For the Special Drainage Department.	
Providing an electric-light installation at the Colaba Pumping Station	1,777 10 1
Providing electric tell-tale arrangement for the 5 Ejector Stations at Colaba	311 2 6
For the Street and Building Branch of the Executive Engineer's Department.	
Constructing a flight of steps for the Falkland Road Overbridge	5,466 3 1
For the Drainage Branch of the Executive Engineer's Department.	
Fixing electrolising plant at the Carnac Bunder Depôt.	1,248 13 4
2 Tidal flaps for the double-barrel drain passing through the Miut compound...	696 3 11
For the Water Works Branch of the Executive Engineer's Department.	
7 Measuring penstocks for the Malabar Hill and Bhandarwada Reservoirs	3,712 9 7
3 W. I. frames for the strainers at Tulsi and Vehar Lakes	756 10 1
Total ...	31,096 0 5

410. The following are the principal items of new work commenced but not completed during the year :—

Description of Work.	Estimated Cost.			Expenditure up to 28th February 1898.		
	Rs.	a.	p.	Rs.	a.	p.
Fixing electrical transmissive plant for pumping sea water for electroliser...	1,622	0	0	1,248	13	4
Providing and fixing new shred-lifters at the Love Grove Pumping Station	4,746	0	0	803	3	2
Constructing a corrugated iron shed at the Sankli Tank Fire Brigade Station	4,054	8	0	802	7	3
Making and fixing iron and wood work of kutchra loading platform at Mahaluxmi ...	19,454	8	0	2,794	8	0
Making 12 wooden hand-carts	1,098	0	0	316	13	1

411. The total cost of works undertaken on account of the Plague Committee and completed during the year amounted to Rs. 11,518-0-9.

412. The total cost, up to the end of the year, of incomplete jobs for the Committee amounted to Rs. 332-7-10.

REPAIRS EXECUTED.

413. Besides the above works, the Workshops have continued to keep in repair the rolling-stock of the Health and Road Departments, as well as the numerous articles of plant and machinery used by the various departments.

414. Owing to the absence of workmen during the height of the plague epidemic last year, the repairs to Health Department dust-bin carts did not receive the usual amount of attention.

415. The consequence of this was that during the current year a very large number of carts were sent for repairs and for being fitted with new wheels. Additional wheel-wrights could not be obtained during the latter portion of the year, and many carts had to be laid up.

416. At one time there were 150 pairs of wheels required but, which could not be supplied. This deficiency has now been reduced to about 50 pairs.

417. A machine for preparing the woodwork of wheels, and an improved and modern type of steam saw-frame, for cutting up log timber, would greatly facilitate the work and reduce its cost.

418. There are now nearly 2,000 pairs of wheels in regular work, and their repairs and renewals would keep a wheel-making machine fully employed.

419. The want of these two machines, which would cost about Rs. 10,000 has been reported to the Municipal Commissioner, and he has promised to favourably consider the matter when funds are available.

420. The present Health Department dust-bin carts are made of the commonest materials and of the roughest description of workmanship, and though they are very cheap in first cost, it is questionable whether it would not be more economical in the end to manufacture them of better materials.

421. Taking the average cost of the 1,059 dust-bin carts at Rs. 100 each and 222 drain-carts at Rs. 150 each, it is found that the average cost of repairs per cart between the year 1891 to 1896 equalled the original cost of the cart.

422. The wheels and axles of the existing carts are unsatisfactory. It is intended as an experiment to try English made axles on 12 carts, with cast steel nave of special design in place of the cast-iron ones used at present.

423. The use of cast steel naves will considerably reduce the weight without decreasing the strength. These naves, which will have an internal cast-iron bush which can be renewed at a small cost whenever necessary, will, it is hoped, be practically everlasting.

424. Quotations were invited from local import firms for the supply of 12 case hardened axles and 24 cast steel naves, and Messrs. George Gahagan & Co.'s tender of Rs. 1,175, being the lowest, was accepted, but they had not been received at the close of the year.

425. The eight-ton steam roller No. 18, the repairs and renewals of which were noticed in the last year's report, was sent out of the Shops in March 1897, and is working satisfactorily.

426. The eight-ton steam roller No. 17, to which a new fire-box, shell-plate and tube-plate were fitted during the previous year, was also completed and sent out to work in the last year.

427. The construction of a new boiler for the ten-ton roller No. 7 and a new fire-box and shell-plate for the eight-ton roller No. 20, were in hand at the close of the year, but owing to the absence of workmen and press of other urgent works, progress has been slow, and the works are not completed.

ENGINES AND MACHINERY.

428. A sum of Rs. 7,000 having been sanctioned under the heading of new works in the budget for the year, for the purchase of a new engine and boiler for driving the Workshops machinery, tenders were

invited, and Messrs. John Fleming & Co.'s offer to supply a Marshall's double cylinder, high-pressure, under-type engine, with loco.-type boiler for Rs. 6,900, was accepted.

429. The engine was received on September 30th and erected on a new foundation by the Workshops staff. It was started on the 27th October 1897, and has been working very satisfactorily.

The consumption of coal by the new engine and the old one (which, it is believed was upwards of forty years old) is given below for comparison :—

The average consumption of coal in the old engine and boiler from July to October 1897 was 41 tons 12 cwt. 2 qr. per mensem against the average monthly consumption in the new engine and boiler from November 1897 to February 1898 of 22 tons 5 cwt.

The saving affected by the use of the new engine and boiler in four months, with coal at Rs. 14 per ton, thus amounted to Rs. 1,085.

ESTABLISHMENT.

430. The death roll amongst the staff from plague and other causes has been heavy, the victims from plague amongst the different castes being as follows :—

Mahomedans	3
Hindus	5
Jews	0
Portuguese	1
Parsees	0
Total ...	9

431. It is a curious coincidence that the total number of deaths was the same as in the previous year. The number of deaths in the different castes was also the same, with the exception that, in the previous year, 4 Hindus and 1 Jew succumbed to the disease against 5 Hindus only during the year under review.

432. Amongst deaths from other causes I have to record with regret the deaths of the head fitter, leading turner, and moulder, and when it is stated that the deaths from plague include the leading carpenter also, it will be seen that the Workshops have lost many of the oldest and best workmen. The turner, a Hindu, who died after a two-days' illness from peritonitis, is especially missed, as it is reported that for speed, accuracy and finish he was certainly one of the best workmen in Bombay.

HYDRAULIC LIFT.

433. The hydraulic lift in the Municipal Office worked satisfactorily during the year without any stoppage, except for repairs with an expenditure of Rs. 1,580-1-10 against the budget grant of Rs. 1,600.

PLAGUE OPERATIONS.

Inspection of Insanitary Houses.

440. During the prevalence of the plague, a large number of houses having been found to be insanitary and unfit for human habitation, it was resolved to make an inspection of such dwellings.

441. To effect this, Government issued a notification No. P-228, dated the 10th February 1897, under the authority of the Epidemic Diseases Act, empowering the Municipal Commissioner and the Plague Committee, to inspect such buildings and to have those which may be capable of improvement, to be improved, and those which may be incapable of improvement, demolished.

442. In the beginning of the year under report and during a portion of the past year also, the work of inspection was carried out by the Street and Building Branch of my Department; but it was soon found that it was not capable of coping with it, in addition to its ordinary duties, as a large number of requisitions for the inspection of houses began to come in, from the Health Department, as well as from the Plague Officers.

443. It was also thought that instead of taking action in the matter, in stray cases of insanitary and unhealthy buildings, here and there, a regular and systematic examination of all houses in the city should be made, with a view to ascertain their condition, and to cause such improvements to be made in them, as may be necessary, to render them fit for human habitation.

444. At first, a small establishment, consisting of an Assistant Engineer and two Inspectors, was sanctioned for this purpose. They were at once employed for the inspection of houses in the Kamathipura district, one of the worst districts in the city.

445. Soon afterwards I drew up under your instruction, a set of rules for the guidance of the inspecting officers, by which the fitness or otherwise of buildings for human habitation was to be determined. These rules were, after due consideration, sanctioned by you for general adoption.

446. Later on, it was considered advisable to extend the operation of inspection to other parts of the city, and an addition to the sanctioned staff was made. The entire staff at present employed on the inspection and improvement of houses is as follows :—

Designation.	No.	Pay.	Conveyance allowance.	Total.
		Rs.		Rs.
Assistant Engineer	1	400	.....	400
Divisional Superintendent	1	250	50	300
Do. do.	1	180	50	230
Inspectors on Rs. 100 each	12	1,200	.....	1,200
Clerks on Rs. 30 each	6	180	.....	180
Laskars on Rs. 10 each	27	270	.....	270
		Total per mensem ... Rs.		2,580

447. At first, Surgeon-Lieutenant-Colonel K. R. Kirtikar was deputed to examine the houses in Kamathipura in conjunction with my Department, but after a while that officer reverted to his permanent duties under Government, on 1st January 1898, since which date the inspection of the houses has been carried out entirely by my Department.

448. The following districts are under examination, namely, Lower Colaba, the Fort, Dhobi Talao, Chakla, Mandvi, Umarkhadi, Dongri, Bhuleshwar, Kamathipura, First Nagpada, Second Nagpada and portions of Byculla, known as Agripada and Guzri Bazar.

449. In addition to exercising a general supervision over the work of the whole of the Inspection Staff, I have personally inspected almost all the houses in Dhobi Talao and Chandanwadi, also a few in the Fort, with the assistance of two of the Inspectors. The supervision over the rest of the staff has been made by the Assistant Engineer and the Divisional Superintendents. In addition to the systematic inspection of houses in the above districts, the examination of some of the more urgent cases in other parts of the city, has also been made.

450. The following statement shows the number of houses, &c., inspected, those found in need of improvement, and also those which were considered fit for demolition :—

DISTRICTS.	No. of blocks inspected.	No. of flats.	No. of rooms.	No. of Blocks requiring no improvement	No. of Blocks requiring improvement	No. of blocks to be demolished.
Colaba	113	250	1,003	...	89	24

Total ...	4,886	13,669	67,816	75	4,370	441

451. Every house in the district under inspection is carefully examined, and the improvements required to be made in it, noted. In the case of a house requiring improvement, a notice is served on the owner thereof calling upon him to carry out the required improvements, and informing him that if he fail to effect the improvements within the time fixed in the notice, the house would be closed. Only a few houses have, however, been vacated up to this time, owing to the approach of the monsoon and the difficulty experienced by the people in finding house accommodation. A great deal of patience and tact has to be exercised in this matter, lest the measures should fall harshly upon the house-owners and the tenants.

452. After the houses are inspected, the defects noted and the notices for improvement issued, the establishment abovementioned is required to see that the defects are properly remedied, and the improvements carried out in accordance with the requisitions.

453. The following statement shows the number of notices issued during the year under the different sections of the Government notification above mentioned and of the City of Bombay Municipal Act 1888 :—

DISTRICTS.	No. of notices issued intimating to the owners improvements necessary in the houses.	No. of notices issued under section 1 of Government notification No. 228-P of 10th February 1897, for closing the buildings for being not improved as required by the Municipal Commissioner.	No. of notices issued under section 1 of Government notification No 228-P of 10th February 1897, for closing the buildings incapable of improvement.	No. of notices issued under section 426 of the Municipal Act for the demolition of sheds.	No. of notices issued under section 380.	No. of sheds demolished.

454. For the service of these notices, the appointment of 4 notice clerks has recently been sanctioned by you. It may be stated, that although the total number of Improvement notices issued in case of insanitary houses in the districts already examined, is 741, little actual work has been executed owing partly to the absence of some of the house owners from Bombay, partly to the paucity of skilled labour and sudden rise in their wages and in the prices of some of the building materials. It is expected, however, that after the rains, the work of improvement will be more vigorously taken up. This is evidenced by the fact of several plans and proposals having already been received for approval and sanction.

455. Of the insanitary houses in respect of which notices have been served, 55 were declared incapable of improvement and closed during the year, 90 other houses of a similar character were caused to be vacated, but their demolition was deferred owing to the appointment of an Assessor to fix the values of the structures, not having been made by Government, in succession to Sir James Campbell on his assuming the office of Chairman of the Plague Committee. The appointment has now been made and the work of demolition has been resumed.

456. The following statement gives particulars of the houses demolished under sections 6 and 9 of the Government Notification and the amounts paid to their owners under the Government Assessor's awards :—

Consecutive Nos.	Names of parties.	House Nos.	Locality.	Amount paid.
				Rs. a. p.
1	Messrs. Niazkhan Meerajkhan and Hajikhan Meerajkhan.	21-25	Piru Lane	1,408 0 0
2	Mr. Piru Mahamad ...	34	Narayan Dabholkar Road.	410 0 0

459. It is gratifying to note that the owners of some of the destroyed chawls have started the construction of new ones on approved plans. A few of these chawls have already been completed and the rest are under construction.

460. Where improvements are to be effected, ample time is given so as to give facilities to the tenants either to shift from one part of a house to another or to clear out of it altogether, and also to enable the landlords to carry out the work effectually and economically.

461. A great deal of tact, patience, and discretion has to be used by the inspecting staff in the examination of the houses, lest any step on their part should give offence to the religious feelings or interfere with the social customs of the people, and I am glad to say that no complaint has been received against any of my staff, although up to the time of drafting this report, no less than 5,000 buildings have been inspected and reported on.

462. The difficult and perhaps the more unpleasant task, however, yet remains, namely, of enforcing the improvements and of closing the houses, should the owners fail to carry out our requisitions.

463. In this connection it may be stated that one great problem to be solved is how and where the people who may be turned out of the insanitary houses are to be accommodated. The vacation of one house necessarily involves the overcrowding of another, and therefore until much more dwelling accommodation is provided, either by the owners of the numerous mills, by private individuals or by the City Improvement Trust, which is about to be created, the work of the vacation of houses will have to be done so as to inflict the least hardship upon the poor tenants.

464. The following statement shows the works executed under the supervision of the Architectural Surveyor in connection with the suppression of the Plague :—

Consecutive Nos.	Name of work.	The work entrusted to	The date of commencement.	The date of completion.	Total expenditure.

THE MUNICIPAL SERVANTS' ACT.

467. No circumstances have arisen in this Department during the year to necessitate the putting of the Municipal Servants' Act into operation.

I have the honour to be,

Sir,

Your most obedient servant,

M. C. MURZBAN, F.R.I.B.A., M.INST.C.E.,

Executive Engineer, Municipality.

J.—SPECIAL DRAINAGE WORKS.

Report of Mr. James W. Smith, Special Drainage Engineer, forwarded under his No. S.D. 468 of 21st June 1898.

SIR,—I have the honour to submit the Administration Report of my Department during the year 1897-98.

2. The Acting Deputy Executive Engineer, Drainage, Mr. C. C. James, having been placed on the Plague Committee from 9th March 1897, I carried out the duties of his appointment from that date throughout the year in addition to my own duties.

3. The unfinished works commenced in previous years, the new works commenced during the year, and the works sanctioned by the Corporation to be carried out, but not taken in hand, during the year, were as follows :—

UNFINISHED WORKS.

1. Colaba sewerage works.
2. Umarkhadi sewerage works.
3. Parel sewerage works (gravitation portion).
4. Mazagon sewerage works (gravitation portion).
5. Malabar Hill and Khamballa Hill sewerage works (gravitation portion).
6. House drainage connections in the Colaba District (street portions).
7. Fergusson Road and Chinchpokli sewerage works (gravitation portion).
8. Draining storm-water from the public roads around the Mahalakshmi Dhobiwada.
9. Laying 9″ pipe drains for the carriage of storm-water to the sea from the southern part of Wodehouse Road.
10. 12″ Stoneware pipe sewer from the emergent reservoir at the Wellington Fountain to the manhole opposite the Dockyard gate in Apollo Street.

WORKS COMMENCED DURING THE YEAR.

11. Old Race Course sewerage works (gravitation portion).

12. Improvement of roadside drains with masonry gullies in the Khetwadi District.

13. Ovoiding side drains in Girgam Road from Thakurdwar Road to Charni Road.

14. Masonry drain from Girgam Road passing through the Night-soil Depôt Lane and Mathew Road and across the B. B. & C. I. Railway to Back Bay.

15. Opening out the water-Course to the west of Messrs. Kama's property, Parel Road, and constructing a covered drain thereat.

16. Culvert with penstock in the eastern bank of the Mahalakshmi Reservoir.

17. Storm-water drain from near the Wellington Fountain *viâ* Band Circle to the sea.

18. Storm-water drain with water gullies in Rampart Row opposite the Elphinstone College.

19. Storm-water drain in Wodehouse Road near the Young Men's Christian Association Buildings.

20. Storm-water drain in Lower Colaba Road and Thomas Street.

21. Storm-water drain at the east foot of Wodehouse Bridge.

22. Ovoiding side drains in Pathan 1st Street.

23. Constructing an arched masonry drain between the poor Parsi chawls (in Gilder Lane) and the B. B. & C. I. Railway.

24. Improvement of roadside drains and water-courses in and about Dadar Road.

25. Diversion of pipe sewer from the site for the new Station Hospital, Colaba.

WORKS SANCTIONED BUT NOT COMMENCED DURING THE YEAR.

26. Machinery for Parel, &c., Sectional Districts.

27. Mazagon Sewerage Works (Sectional).

I.—COLABA SEWERAGE WORKS.

4. These works, which were divided into three parts, and let separately to three Contractors, have all been completed; but the suit filed by Messrs. Bulkley & Co. against the Municipality has not yet come to an end.

5. As stated in the previous report, certain accounts were required to be filed on before the 5th June 1897, as ordered by the Commissioner of the Court at the preliminary meeting held by him. Though these accounts have been submitted, there has been no further meeting. Mr. Cole, the partner of Mr. Bulkley in the Contract, and who was working the lawsuit on behalf of the Firm, died during the year.

6. The expenditure under this head during the year amounts to Rs. 3,848-10-2, which with the expenditure of the previous years aggregates to Rs. 8,21,010-9-5 against the total grant of Rs. 8,34,856.

II.—UMARKHADI SEWERAGE WORKS.

CONTRACTORS—MESSRS. BULKLEY & CO. & MR. SITARAM LAKSHMAN.

7. The remarks on the suit filed by Messrs. Bulkley & Co., which have been made under the head of the Colaba Sewerage Works, apply equally to the suit in respect of the Umarkhadi Sewerage Works.

8. The work under the contract of Mr. Sitaram Lakshman was completed by him four months after the contract period, *i.e.*, about the 9th January 1897, as stated in the preceding year's report; but the final bill, which was not then passed, was passed during the year in August 1897.

9. The Standing Committee accorded sanction under their Resolution No. 4800, dated 18th August 1897, to a variation of the contract, whereby the contract period for completion was extended from 6th September 1896 to 9th January 1897, and also to the maintenance period of twelve months being reckoned from the last-mentioned date, the Contractor being held liable in lieu of fines for the whole cost of the extra establishment amounting to Rs. 1,143-8-9, incurred by the Municipality on account of the non-completion of the works by the 6th of September as aforesaid.

10. Incomplete portions left by Messrs. Bulkley & Co. and small defects in the work completed by them were attended to departmentally.

11. The total expenditure during the year amounted to Rs. 61,871-9-11, which with the expenditure in previous years aggregate to Rs. 3,52,239-3-9, the total grant being Rs. 3,86,993.

III.—PAREL SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTORS—MESSRS. MISTRI, BHEDWAR, WACHAGHANDI & Co.

12. Payment of the final bill which was submitted to the Commissioner in January 1897, as stated in the preceding year's report, was made to the Contractors in July 1897.

13. The grant sanctioned for this work was Rs. 81,620, and the total expenditure incurred was Rs. 62,081-1-5, as detailed below :—

	Rs.	a.	p.
Establishment	6,695	2	0
Contingencies	2,667	7	9
Work	49,659	1	3
Road repairs	3,059	6	5
Total	Rs. 62,081	1	5

14. Sanction has been given to the utilization of the unexpended balance, which amounts to Rs. 19,538-14-7, in meeting the excess incurred on account of Messrs. Bulkley & Co. in completing departmentally their contract for the Colaba Sewerage Works.

IV.—MAZAGON SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

15. The contract time for the completion of these works, which was two years, expired on the 24th November 1897, but the works are not yet finished.

16. The attention of the Contractors was drawn to the delay, and in reply they have asked for an extension of time on the grounds (*a*) that in the early stages of the work I declined to set out as much work as they required [*Note.*—I exercised this restriction at the request of the Municipal Commissioner, because of the serious inconvenience caused to traffic] ; and (*b*) that they experienced great difficulties in obtaining labour during the virulence of the Plague in the greater part of the year.

17. I have no serious complaints to make regarding the progress of the work, though I am doing my utmost to urge the contractors to increase their rate of progress.

18. There is not very much work left to be done ; but all of it is of a difficult and tedious nature, the excavations being very deep and almost entirely in hard rock.

19. There being serious nuisances in Pirkhan Lanes (Nagpada District) for want of proper house drainage, the pipe sewers in the portion of that district which drains into Bellasis Road were taken over from the Contractors (after a final inspection thereof) as per the Commissioner's instructions received under his No. 21930, dated 19th January 1897, and were handed over to the Deputy Executive Engineer, Drainage, and he was directed under the Commissioner's No. 8215, dated 6th July 1897, to take the necessary action for enforcing the connection of houses with the sewers.

20. The total grant for the works is Rs. 3,32,661, and the total expenditure passed to the end of the financial year amounts to Rs. 2,55,568-14-11, as shown below :—

	Rs.	a.	p.
Establishment	28,363	3	5
Contingencies	4,057	12	9
Work	2,02,231	12	7
Road repairs	20,916	2	2
Total	Rs. 2,55,568	14	11

V.—MALABAR HILL AND KHAMBALLA HILL SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTOR—MR. SAYAJI NAGUJI.

21. The works were practically completed in the beginning of January 1897, and though there were some small defects at that time, these were satisfactorily remedied by the end of February 1897. The works were thus completed three months within the contract period, which expired on 31st May 1897.

22. The Contractor not having furnished his accounts until September, the passing of the final bill was delayed. It amounted in the gross to Rs. 1,08,552 as against the contract amount of Rs. 1,17,978, and was certified and passed at the end of September.

23. The total grant sanctioned for the works was Rs. 1,57,026, and the total expenditure incurred for the same amounted to Rs. 1,29,386-3-3, as under :—

	Rs.	a.	p.
Establishment	12,571	12	0
Contingencies	1,149	15	0
Work	1,08,551	14	1
Road repairs	7,112	10	2
Total	Rs. 1,29,386	3	3

24. There was thus a saving of Rs. 27,639-12-9, and sanction has been given to the utilization of the saving in helping to meet the excess incurred in completing departmentally the Colaba Sewerage Works on account of Messrs. Bulkley & Co.

VI.—HOUSE DRAINAGE CONNECTIONS (STREET PORTIONS) IN THE COLABA DISTRICT.

CONTRACTOR—MR. PALANJI EDALJI PLUMBER.

25. The street portions of the connections were carried out, as plans showing the drainage required for the various houses were furnished by the ordinary Drainage Department.

26. The total number of street connections made during the year were 189; and the bills of the contractor certified and passed for payment amounted in the gross to Rs. 6,866-8-9.

VII.—FERGUSSON ROAD AND CHINCHPOKLI SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTOR—MR. SAVAJI NAGUJI.

27. The contract period for the completion of these works was 12 months from 25th March 1897 to 25th March 1898.

28. The works were commenced on the 25th March 1897, and were practically completed within the contract time.

29. During the progress of the work it was found necessary to increase the length of the 26" C. I. pipe sewer so as to improve the connection with the main sewer at the Love Grove Pumping Station.

30. The Contractor had to cope with great difficulties in completing the portion of the pipe sewer in the road between Haines Road and the Love Grove Pumping Station.

31. It is a very narrow road, and the excavation in part was nearly 26 feet deep, but the road was at no time entirely closed against traffic. The Contractor provided strong and substantial shoring, and the work was pushed on to completion as fast as possible.

32. The total expenditure passed under this head during the year was Rs. 61,347-5-9, which with the previous expenditure amounted to Rs. 85,361-6-3, as detailed below :—

	Rs.	a.	p.
Establishment	7,088	0	10
Contingencies	1,605	6	3
Work	73,768	15	7
Road repairs	2,898	15	7
Total	Rs. 85,361	6	3

VIII.—DRAINING STORM-WATER FROM THE PUBLIC ROADS AROUND THE MAHALAKSHMI DHOBIWADA.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

33. The work was completed in February 1897, but the bill for the work was not passed till June 1897. It amounted in the gross to Rs. 1,134-8-6. The total expenditure amounted to Rs. 1,156-0-3 against the sanctioned grant of Rs. 1,415, leaving a saving of Rs. 258-15-9.

IX.—LAYING 9" PIPE DRAIN FOR THE CARRIAGE OF STORM-WATER TO THE SEA FROM SOUTHERN PART OF WODEHOUSE ROAD.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

34. This work was completed in February 1897, and the bill was passed in April 1897. It amounted in the gross to Rs. 1,883-4-4. The grant sanctioned for the work was Rs. 2,008, and the total certified expenditure amounted to Rs. 1,992-1-3, thus showing a saving of Rs. 15-14-9.

X.—12" STONEWARE PIPE SEWER FROM THE EMERGENT RESERVOIR AT THE WELLINGTON FOUNTAIN TO THE MANHOLE IN APOLLO STREET OPPOSITE THE DOCKYARD GATE.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

35. During the heavy rainfall of two or three days in June 1896, the water from the emergent reservoir did not escape freely, owing to the old sewers in the Fort and Mayo Road being obstructed with silt and with storm-water, particularly in Mayo Road.

36. Though the ejectors at Colaba cannot throw more water than can escape by the outlet sewers if clear, yet in view of the possibility of similar obstructions in the future, I recommended the immediate laying of a new 12" stoneware pipe sewer from the emergent reservoir to the manhole in Apollo Street where the 12" pipe sewer commences and runs northwards.

37. This recommendation was approved, and agreeably to the Commissioner's instructions given me on the spot, I directed Messrs. Sulemanji Mulla Abdulali & Co. to proceed at once with the work at the rates of their Mazagon contract with the Municipality.

38. The estimate of the work amounted to Rs. 3,996, including 10 per cent. for contingencies.

39. The work was completed about the end of July 1896 but the final bill, which amounted in the gross to Rs. 3,189, was not then forwarded to the Chief Accountant, as the question of grant from which the expenditure was to be met was not settled.

40. The Standing Committee having sanctioned the expenditure under their Resolution No. 3935, dated 28th July 1897, the final bill was passed on to the Chief Accountant in August 1897. Sanction was given to the amount being paid from the savings in the grant for the Colaba Sewerage Works.

XI.—OLD RACE COURSE SEWERAGE WORKS (GRAVITATION PORTION).

CONTRACTORS—MESSRS. SULEMANJI ALI MUHAMAD & CO.

41. As stated in the preceding year's report, the contract for this work was executed on the 19th June 1897, and an order to commence it was given the same day.

42. The contract time of eight months in which the Contractors agreed to complete the work expired on the 20th February 1898, and the whole of the work as far as the Contractors were responsible was completed within that period. A length of pipe sewer about 65 feet long in the line of Club Street remained to be laid under the B. B. & C. I. Railway a little to the north of Bellasis Bridge. As the Railway authorities always insist upon such work within their own limits being carried out by themselves, the Contractors could not complete this portion. The Railway Company undertook to carry out the work on payment in advance of the estimated cost which amounted to Rs. 279, and this having been paid by the Contractors the work was completed by the Railway Company.

43. Some work in three streets has to be left undone for the present on account of certain local causes. These omissions are as follows :—(*a*) a length of 375 feet of sewer in Souter Street on account of a tank, through which the line of the sewer passes, not having yet been acquired and filled up by the Municipality ; (*b*) a length of 75 feet of sewer in Sankli Street extension on account of a house, through which the road is to pass, not having yet been purchased by the Municipality ; and (*c*) a length of 375 feet of sewer in Blaney Street on account of the ground, which is now used for the deposit of old materials, not having yet been acquired by the Municipality.

44. During the progress of the works I communicated with the Executive Engineer on the subject, and enquired if these properties could not be acquired, so that all the sewerage works in the locality on the gravitation system might be carried out once for all, and without having to return to it. I was informed however that this was impracticable on account both of the want of funds and of the unlikelihood of an amicable settlement being come to with the owners.

45. The above small works, therefore, will have to be done when the properties are acquired.

46. This contract included a 9" pipe sewer with manholes, vent shafts, &c., in the western part of Bapty Road at a cost of Rs. 5,455, and this sewer was satisfactorily completed by the contractors within the contract time.

47. The total grant for the works amounts to Rs. 46,270, as follows :—

Sewerage of Old Race course	Rs.	40,815
9" Pipe sewer in Bapty Road	„	5,455
Total	Rs.	46,270

The total expenditure incurred and certified to the end of the financial year amounted to Rs. 37,492-9-11, as detailed below :—

	Rs.	a.	p.
Establishment	3,618	10	8
Contingencies	134	12	3
Work	32,123	4	1
Road repairs	1,616	14	11
Total	Rs. 37,492	9	11

48. The passing of the final bill for the work, which is under preparation, will be a matter for the next year's report.

XII.—IMPROVEMENT OF ROADSIDE DRAINS AND THE PROVISION OF WATER GULLIES IN THE KHETWADI DISTRICT.

CONTRACTORS—MESSRS. VITHAL SAYANA & Co.

49. The work was commenced on the 20th May 1897. The contract period for completion was nine months, which expired on 21st February 1898.

50. The progress of the work was very satisfactory, and it was completed within the contract period.

51. There was a collection of old worn and damaged stone ladis taken out from the bottom of the old drains and stocked at the Contractors' chauki. At the close of the works offers were received for the purchase of them. The highest offer, amounting to Rs. 525, was from Mr. Abdulali Karimbhai, and the ladis (about 9,000) were sold to him for that amount as per the Standing Committee's Resolution No. 11186, dated 16th February 1898.

52. The grant sanctioned for this work was Rs. 54,486, and the expenditure passed to the end of the financial year amounted to Rs. 45,541-13-4, as detailed below : —

		Rs.	a.	p.
Establishment		3,419	3	7
Contingencies		256	4	1
Work		40,509	7	2
Road repairs		1,356	14	6
Total	Rs.	45,541	13	4

53. The final bill for the work was in preparation at the close of the financial year.

54. A storm-water masonry drain 2'-6"× 2'-6" was constructed in Khetwadi 10th Lane north of Khetwadi Back Road in substitution for the inefficient stoneware pipe drain there.

55. This work was sanctioned by the Corporation under their Resolution No. 11738, dated 3rd March 1898, at a cost of Rs. 4,353, to be met from the saving of Rs. 4,522 in the grant for the improvement of side drains in the Khetwadi district, that being the difference between the office estimate and the amount of the accepted tender.

56. The work was entrusted to Messrs. Vithal Sayana & Co., the Contractors for the Khetwadi works as an extension of their contract.

57. The work was completed about April 1898, and the final bill when made up will be passed and will be mentioned in the next year's report.

XIII.—OVOIDING SIDE DRAINS IN GIRGAM ROAD.

CONTRACTOR—MR. SAYAJI NAGUJI.

58. These works which were commenced on the 25th March 1897, were completed on 7th August, that is within the contract period of five months, which expired on 25th August 1897.

59. The final bill amounted in the gross to Rs. 9,251-11-11 against the contract amount of Rs. 12,382, thus showing a saving of Rs. 3,130-4-1.

60. The grant sanctioned for these works was Rs. 15,588, payable from savings in different loan works and the total expenditure incurred amounted to Rs. 11,452-15-9, as detailed below :—

		Rs.	a.	p.
Establishment...		1,123	11	4
Contingencies...		814	6	7
Work		9,251	11	11
Road repairs		263	1	11
Total	Rs.	11,452	15	9

XIV.—MASONRY DRAIN FROM GIRGAM ROAD PASSING THROUGH THE NIGHT-SOIL DEPOT LANE AND MATHEW ROAD AND ACROSS THE B. B. & C. I. RAILWAY TO BACK BAY.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

61. Tenders, returnable on the 16th August 1897, were invited on the 31st July 1897. Four tenders were received, as follows :—

Mr. Sayaji Nagujee	... ...	Rs. 16,815
„ Sitaram Luxuman	... ...	„ 16,515
„ Ali Mahomed Kasam	... ..	„ 16,323
Messrs. Sulemanji Mulla Abdulali & Co.		„ 15,771

62. The lowest tender that of Messrs. Sulemanji Mulla Abdulali & Co. was accepted by the Standing Committee under their Resolution No. 4960, dated 25th August 1897, at rates aggregating to Rs. 15,771.

63. The office estimate amounted to Rs. 17,136, and the lowest accepted tender was therefore Rs. 1,365 below that estimate.

64. The contract was executed on 30th October 1897, and an order to commence the work was given on the same day.

65. The contract period for completion of the work was six months, which expired on 30th April 1898, though the works were not entirely completed by that time.

66. The Railway Company would not allow the contractors to proceed with the work within the railway limits, but proposed to undertake the work themselves on payment in advance of the estimated cost. This estimate had not been received from the Railway Company at the end of the financial year and the work therefore remained undone.

67. The grant sanctioned for the work is Rs. 23,678, and is payable from the savings in different loan works.

68. The expenditure incurred and passed to the end of the financial year amounted to Rs. 9,575-1-11, as detailed below :—

	Rs.	a.	p.
Establishment	601	9	2
Contingencies	83	4	0
Work	8,334	9	4
Road repairs	555	11	5
Total	Rs. 9,575	1	11

XV.—OPENING OUT WATER COURSE TO THE WEST OF MESSRS. KAMA'S PROPERTY, PAREL ROAD, AND CONSTRUCTING A COVERED DRAIN THEREAT.

CONTRACTOR—MR. SAYAJI NAGUJI.

69. This work consisted of—

(*a*) opening out the watercourse ;

(*b*) the construction of a covered drain.

Objection having been taken by Messrs. Kama to the execution of the work (*a*), it has been postponed under the advice of the Municipal Solicitors.

70. The work (*b*) was completed in the beginning of July 1897, the contract having been let to Mr. Sayaji Naguji. The final bill passed in favour of the Contractor amounted to Rs. 3,332-6-8 as against the contract amount of Rs. 3,408-1-7, thus showing a saving of Rs. 75-10-11.

71. The contract period for completion expired on the 15th June 1897, and the work was finished on 3rd July 1897.

72. The small delay was due to the early rains in the beginning of June, which not only retarded the completion of the work but also caused damage, which the contractor had to rectify at considerable expense.

73. The extension of the contract time to 3rd July was sanctioned under the Commissioner's No. 12102, dated 13th August 1897.

74. The grant for the whole of the work is Rs. 7,629, and the expenditure passed for the portion of the work completed, amounted to Rs. 3,362-6-7.

XVI.—CULVERT WITH PENSTOCK IN THE EASTERN BANK OF THE MAHALAKSHMI STORM-WATER RESERVOIR.

CONTRACTOR—MR. SAYAJI NAGUJI.

75. As the Mahalakshmi Race Course is always flooded during the rains on account of the water falling on that ground being cut off from the storm-water reservoir and the Love Grove Sluices by the reservoir bank, and as there was only one small opening and sluice provided by the Municipality for passing off the water to the Reservoir as occasion served, it was considered desirable that another similar opening should be made in the bank of the reservoir also fitted with a sluice.

76. A grant of Rs. 2,112 from surplus cash balance was sanctioned by the Corporation under their Resolution No. 2421, dated 3rd June 1897.

77. Quotations for the supply of the sluice or penstock were invited from Messrs. Richardson & Cruddas and Messrs. George Gahagan & Co. The former quoted Rs. 1,150 and the latter Rs. 752. The latter offer (that of Messrs. George Gahagan & Co.) was accepted, and a formal contract, dated 30th July 1897, was entered into with that firm.

78. Offers for executing the work were invited from six contractors, but only two offers were received. That of Mr. Sayaji Naguji, which was the lower of the two and was Rs. 162 below the office estimate, was accepted at rates aggregating to Rs. 1,758 minus the value of the penstock, Rs. 752, to be supplied by the Municipality.

79. The contract was executed on 29th October 1897, and an order to commence the work was given on the 30th October.

80. The contract time for the completion of the work was six weeks and the work was completed within that time.

81. The final bill amounted to Rs. 921-4-4 as against the contract amount of Rs. 1,006.

82. The total expenditure incurred under this head amounted to Rs. 1,673-4-4 against the sanctioned grant of Rs. 2,112, thus showing a saving of Rs. 438-11-8.

XVII.—STORM-WATER DRAIN FROM NEAR THE WELLINGTON FOUNTAIN VIA BAND CIRCLE TO THE SEA.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

83. The Corporation sanctioned the carrying out of this work as per their Resolution No. 245, dated 5th April 1897, at a cost of Rs. 37,355.

84. Tenders for the work were invited on 13th April 1897, and made returnable on the 21st April 1897.

85. There was only one tender, namely, from Messrs. Sulemanji Mulla Abdulali & Co., and it was Rs. 1,337 lower than the office estimate. This tender was accepted under the Standing Committee's Resolution No. 1004, dated 28th April 1897, at the amount of Rs. 29,640-9-6.

86. The contractors requested permission by a letter dated 23rd April to proceed with the work at once at their own risk in anticipation of and pending the probable acceptance of their tender, and permission under that condition was accordingly granted on the 24th April 1897.

87. The Contractors having delayed the payment of the contract deposit, the contract was not executed till the 11th June.

88. The Contractors carried on the work with vigour and despatch; but they had to stop until permission from Government could be obtained to construct the drain in the land between Mayo Road and the sea.

89. The contractors complained that the work was not set out at the commencement from the sea, as it should have been (that is, for the natural escape of water); that they were ordered instead to go on with the work from the Wellington Fountain towards the Bandstand; that when they had finished this up to Mayo Road they were not given further work for 10 days; and that it was only in the beginning of the rainy season that they were ordered or permitted to proceed from the sea.

90. They contended that they were thus kept out of work on the most difficult portion during the fair season, and were compelled to proceed with it only when the rains were commencing.

91. The consequence was, they argued, that the sides of the trench slipped during the rains, that they had to excavate three or four times over at the same place, and that they had to put in extra concrete on account of the trenches becoming wider than they were intended to be or than they were excavated.

92. On these grounds they requested to be paid for extra excavation and extra concrete.

93. It was decided that this question should be left open until the conclusion of the works, which were not completed by the end of the financial year.

94. The original proposal for a concrete arch over the drain was abandoned, and an arch in brick and mortar with the soffit plastered in cement was substituted under the Commissioner's sanction No. 4273, dated 22nd May 1898, as the time required for the setting of the concrete arch was prejudicial to rapid progress of the work.

95. A portion of the drain passed under the railway lines, and this was completed by the contractors with the permission of the Railway Company, who made arrangements, for the time being, for the traffic and for the support of the rails at the charge of the contractors, the cost amounting to Rs. 118-6-0.

96. The contractors required ground near the site of the work for storing materials and working a *ghani*, but there was no available Municipal ground sufficiently near. The contractors having expressed their willingness to hire a piece of Government ground, the Executive

Engineer, Presidency, was addressed in the matter and permission was granted, the ground-rent being fixed at 4 annas per 100 square yards per diem. The total amount charged was Rs. 276-2-5, and was paid under debit to the contractors' account.

97. A tidal flap was fixed at the mouth of the drain on the foreshore in blue cut-stone work. The flap was obtained from the Napier Foundry at a cost of Rs. 875 and supplied to the contractors.

98. The expenditure certified and passed to the end of the financial year amounted to Rs. 33,399-7-6, as detailed below :—

	Rs.	a.	p.
Establishment	3,039	3	2
Contingencies	1,528	1	1
Work	28,250	12	11
Road repairs	581	6	4
Total	Rs. 33,399	7	6

XVIII.—STORM-WATER DRAIN WITH WATER GULLIES IN RAMPART ROW, OPPOSITE THE ELPHINSTONE COLLEGE, AND

XIX.—STORM-WATER DRAIN IN WODEHOUSE ROAD, NEAR THE Y. M. C. A. BUILDINGS.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & Co.

99. Both these works were entrusted to Messrs. Sulemanji Mulla Abdulali & Co. in extension of their contract for the Wellington Fountain and Band Circle storm-water drain, and were satisfactorily completed by them.

100. The final bill was under preparation at the close of the year.

101. The total grant sanctioned for these works was Rs. 11,527, and the expenditure incurred and passed to the end of the financial year amounted to Rs. 5,717-2-11.

XX.—STORM-WATER DRAIN IN LOWER COLABA ROAD AND THOMAS STREET.

CONTRACTOR—MR. SAYAJI NAGUJI.

102. The Corporation sanctioned the carrying out of this work under their Resolution No. 12033, dated the 4th February 1897, at a cost of Rs. 13,587, to be met from savings in different loan works.

103. Tenders for the work, receivable on 2nd August 1897, were invited on 21st July 1897, and four tenders were received as follows:—

Mr. Ali Mahamad Kasam	...	Rs. 10,528
„ Sitaram Luxuman	...	„ 10,226
Messrs. Sulemanji Mulla Abdulali & Co.	...	„ 9,662
Mr. Sayaji Naguji	...	„ 9,248

104. The tender of Mr. Sayaji Naguji, which was the lowest, was accepted by the Standing Committee under their Resolution No. 4816, dated the 18th August 1897, at schedule rates aggregating to Rs. 9,248, on his agreeing to complete the work within 2½ months from the date of the order to commence.

105. Mr. Sayaji agreed to complete the work in 2½ months, and the contract was executed on 13th September 1897. An order to commence the work was given on the 4th October 1897, and the works were completed within the contract time.

106. The final bill, which amounted to Rs. 9,581-10-10, including extra items to the extent of Rs. 881, was prepared, but was not passed at the end of the financial year, as some disputed deductions were not settled.

107. The total expenditure certified and passed to the end of the financial year amounted to Rs. 7,559-6-5, as shown below :—

	Rs.	a.	p.
Establishment ...	922	7	10
Contingencies ...	163	13	4
Work ...	5,737	2	5
Road repairs ...	685	14	10
Total	Rs. 7,559	6	5

XXI.—STORM-WATER DRAIN AT THE EAST FOOT OF WODEHOUSE BRIDGE.

CONTRACTOR—MR. SAYAJI NAGUJI.

108. The carrying out of this work was sanctioned by the Corporation under their Resolution No. 12033, dated 4th February 1897, at a cost of Rs. 1,639, payable from savings in different loan works.

109. No tenders were invited for the work as it was very small, but it was entrusted to Mr. Sayaji Naguji at Rs. 1,254 in extension of his contract, dated 13th September 1897, for the storm-water drain in Lower Colaba Road and Thomas Street.

110. The work was completed satisfactorily, but the contractor's bill, which amounted to Rs. 1,123-11-6, was not passed by the end of the financial year.

111. The certified expenditure under this head to the end of the financial year was Rs. 207-12-2.

XXII.—OVOIDING SIDE DRAINS IN PATHAN 1st STREET.

CONTRACTORS—MESSRS. VITHAL SAYANNA & Co.

112. This work was sanctioned as a charge upon savings in different loan Works at a cost of Rs. 6,201 under Corporation Resolution No. 12,033, dated 4th February 1897.

113. It was entrusted to Messrs. Vithal Sayanna & Co. as an extension of their contract for the Khetwadi works. The estimate for the work, based on the rates of this contract, amounted to Rs. 4,901, or Rs. 510 lower than the original estimate based on office rates.

114. No tenders were invited for the following reasons :—

(*a*) That the work was of precisely the same nature as the work in the Khetwadi contract.

(*b*) That Pathan 1st Street was only just outside that district.

(*c*) That the rates in the Khetwadi contract were very favourable to the Municipality, and it was doubtful whether lower rates would be offered were tenders invited.

(*d*) That the contingency provision for so small a work could not well bear the charges of printing fresh contract forms and of advertising for tenders.

115. An order to commence the work was given on the 30th September, and the work was completed within the contract time for the Khetwadi works, which expired on 21st February 1898.

116. The total expenditure on the work amounted to Rs. 5,882-1-0, as detailed below :—

	Rs.	a.	p.
Establishment	1,483	1	9
Work	4,292	1	7
Road repairs	106	10	8
Total Rs.	5,882	1	0

117. The final bill was not certified and passed by the end of the financial year.

XXIII.—CONSTRUCTING AN ARCHED MASONRY DRAIN BETWEEN THE POOR PARSI CHALS (IN GILDER LANE) AND THE B. B. & C. I. RAILWAY.

CONTRACTORS—SULEMANJI MULLA ABDULALI & Co.

118. The Corporation sanctioned the carrying out of this work under their Resolution No. 12033, dated the 4th February 1897, at a cost of Rs. 4,221, payable from the savings in different loan works.

119. This work was entrusted to Messrs. Sulemanji Mulla Abdulali & Co. as an extension of their contract for the storm-water drains in Girgam Road, Mathew Road, &c., as the rates of that contract were more favourable than those of all other contracts then under execution, and the Contractors were willing to undertake the work at the rates of that contract.

120. The value of the work at those rates amounted to Rs. 3,044 against the office estimate of Rs. 3,837.

121. The work was completed before the end of the financial year, but the bill had not then been prepared.

122. The drain has been completed as originally designed ; but as the matter now stands, there would be flooding between the drain and the poor Parsi Chals, and also between the drain and the boundary wall of the Railway.

123. To prevent this flooding I proposed to fill up the ground between the drain and the Poor Parsi Chals, to continue the embankment over the drain, and finally to slope the bank at 1 to 1½ to within 5 feet of the Railway wall, leaving there a channel with a water gully for the escape of storm-water. This work has been estimated to cost Rs. 754, but the proposal was not submitted to the Commissioner until after the close of the financial year. The cost will be met from savings in the grant, and will be entrusted to Messrs. Sulemanji Mulla Abdulali & Co.

124. No expenditure was certified under this head during the financial year.

XXIV.—IMPROVEMENT OF ROADSIDE DRAINS AND WATERCOURSES IN AND ABOUT DADAR ROAD.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & CO.

125. The Corporation under their Resolution No. 1405, dated 6th May 1897, sanctioned at a cost of Rs. 30,475 the carrying out of the following works :—

(*a*) Side drains in Bhoiwada Cross Road and a portion of Bhoiwada Road.

(*b*) Side drains along portions of Dadar Road.

(*c*) Improvements to the watercourse from Dadar Road under the Railways to a point a little to the north of west platform of the Elphinstone Road Station.

126. The Corporation concurred in the opinion of the Standing Committee that these drains should be so constructed as to allow, as far as possible, of their being utilized for sullage drainage until districts in question are provided with a complete system of sewerage.

127. Tenders returnable on 22nd November 1897 were invited on 5th November 1897, and six tenders were received in response, as follows :—

	Rs.
(1) Mr. Pandurang Harichand	30,150
(2) Messrs. Deoram Keshaoji & Co.	25,786
(3) Mr. Sayaji Naguji	25,141
(4) „ Sitaram Luxuman	24,772
(5) Messrs. Alli Mahamad Kasam & Co.	23,664
(6) „ Sulemanji Mulla Abdulali & Co.	22,695

128. The lowest tender (that of Messrs. Sulemanji Mulla Abdulali & Co.) was accepted by the Standing Committee at schedule rates aggregating to Rs. 22,195 under their Resolution No. 7913, dated 1st December 1897.

129. This tender was Rs. 3,902 below the office estimate.

130. The contract was executed on 28th February 1898, and an order to commence the work was given on the same day.

131. The contract period for the completion is six months, and the progress of the work is satisfactory.

132. The expenditure certified under this head during the financial year amounted to only Rs. 124-12-0.

XXV.—DIVERSION OF PIPE SEWER FROM THE SITE FOR THE NEW STATION HOSPITAL AT COLABA.

CONTRACTORS—MESSRS. SULEMANJI MULLA ABDULALI & CO.

133. The Military Department having proposed to build a Hospital, the Executive Engineer, Military Works, requested me to prepare an estimate of the cost of so diverting a pipe sewer already laid with the approval of his predecessor as to avoid the new building. An estimate amounting to Rs. 2,089 was accordingly prepared and forwarded to him, whereupon he requested me to immediately proceed with the diversion. The matter was placed before the Commissioner, and under his No. 7991 dated 5th July 1897 he approved of the work being done on payment in advance of the estimated cost.

134. The Executive Engineer, Military Works, having paid the amount on 8th July 1897 the work was taken in hand. During its progress the originally intended position of the Hospital having been altered by the Military authorities the length of the diversion was increased, and this augmented the original estimate by Rs. 700. This amount was also paid in advance on 30th August 1897.

135. The whole of the work was completed at a cost of Rs. 2,598-14-6 (including Rs. 339 for supervision charges) against the total deposit of Rs. 2,789, thus leaving a balance of Rs. 190-1-6, which was refunded to the Executive Engineer, Military Works.

XXVI.—MACHINERY FOR THE PAREL, &c., SECTIONAL SEWERAGE DISTRICTS.

136. The general adoption of the Shone pneumatic system for the whole area of the city which cannot be sewered by gravitation to Love Grove having been recommended by the Municipal Commissioner under his No. 25613; dated 31st January 1894, the Corporation resolved, under their No. 13967, dated 14th March 1895, that the Commissioner's letter be referred to the following Committee for report:—

1. Abdalla M. Dharamsi, Esq.
2. Major Scott.
3. Thomas Blaney, Esq.
4. Bhalchandra K. Bhatwadekar, Esq.
5. T. W. Cuffe, Esq.
6. Dinsha Edulji Wachà, Esq.
7. N. N. Katrak, Esq.
8. The Hon'ble Mr. P. M. Mehta.
9. The Hon'ble Mr. Fazulbhai Visram.
10. H. I. B. Hargrave, Esq.
11. S. Rebsch, Esq.

Major Scott to be chairman. Three members to form a quorum, and the Committee to be requested to present their report in time for the June meeting of the Corporation.

137. The Committee reported on 25th March 1895 that having carefully considered the question, they were of opinion that the Shone pneumatic system was the only one suitable for adoption for the sewerage of the districts which cannot be sewered by gravitation to Love Grove. The Committee therefore recommended the Corporation to adopt the proposals contained in the Commissioner's letter No. 25613 of the 31st January 1895, embodying the scheme submitted under my No. S.D. 2426, dated the 12th January 1895.

138. The report of the Committee was considered by the Corporation at their meeting held on the 25th April 1895, and they resolved, under their No. 1207, that the Corporation, without committing themselves to the entire adoption of the Shone pneumatic system of drainage for certain districts until the result of the working of the system of Colaba has been ascertained, are prepared to authorize the preparation of plans and estimates for the sewerage of the Mazagon District on such system, together with the cost of the engines, boilers and mains, &c., that may be considered necessary, so as to be available for all the remaining districts south of Elphinstone Road.

139. In my No. S.D. 2277, dated the 5th September 1896, reporting on this I stated that plans and estimates for the sewerage of the Mazagon Sectional Sewerage District on the Shone system and an estimate of the cost of the engines, boilers, and cast-iron mains suitable for the Mazagon Sectional Districts and all other sectional districts south of Elphinstone Road had been submitted to the Commissioner under my Nos. S.D. 2315, dated 7th January 1895, and S.D. 2426, dated 12th January 1895.

140. These estimates formed accompaniments to the Commissioner's letter No. 25613, dated 31st January 1894, above referred to, and after obtaining further information, I saw no reason to make any alterations in them.

141. In that report (No. S.D. 2277, dated 5th September 1896), I stated as follows :—

> "I am not aware if the Corporation will still hesitate to commit themselves to the general adoption of the Shone pneumatic system of sewerage for the sectional sewerage districts, *i.e.*, those districts which cannot be efficiently sewered by simple gravitation into the main sewer running to Love Grove, but in view of a possible continuance of such hesitation I will endeavour to briefly point out the situation."

142. "For the sectional districts there are only three alternative methods of raising the sewage—

(*a*) Ordinary pumping stations.

(*b*) Mr. Baldwin Latham's hydraulic pumping system.

(*c*) The Shone pneumatic system.

(*a*) Ordinary pumping stations would be most objectionable on account of the number required, the difficulty of obtaining sites in the necessary positions, the cost of maintaining a separate establishment at each station, and the nuisance and the possible consequent litigation connected with such stations.

(*b*) I have never been able to find out the cost of Mr. Baldwin Latham's system and would refer to the Municipal Commissioner's letter No. 25613, dated 31st January 1895, previously alluded to. In quoting Mr. Pottinger, he says that the system is expensive, that the connection with the pumps is defective, that the valves are subject to constant leakage under the enormous pressure (500 to 700 per square inch), that the system is offensive, and that it is hardly likely to be much employed at present.

(c) The Municipal Commissioner's letter above mentioned is full of quotations of approval of the Shone system by numerous eminent authorities; and my experience of the working of the system at Colaba confirms me in the favourable opinion I had formed of it from external evidence and from a study of the method employed."

143. "It appears to me therefore that the choice of the Corporation is practically limited to the Shone system, the evidence and experience in favour of which preclude the other possible systems from serious consideration."

144. The Commissioner in his No. 11271, dated the 9th September 1896, concurred in these views, and considered that the Shone system was the only one which could possibly be applied with safety to the remaining unsewered portions of the city.

145. I again addressed the Commissioner on the subject under my No. S.D. 4006, dated the 29th March 1897, as follows :—

> In my No. S.D. 2277, dated the 5th December 1896, I pointed out that for several reasons it appeared to me that the choice of the Corporation is practically limited to the Shone system, and in your No. 11271, dated the 9th September 1896, you concurred in that view.

146. When my proposals were before the Corporation in 1895, the Committee appointed by the Corporation to consider the subject (which Committee included several eminent Engineers) reported favourably upon my proposals involving the extension of the Shone system.

147. Since then we have had the practical experience of Colaba, and I have no hesitation in affirming in the strongest possible manner that the working of the system there has been pre-eminently satisfactory.

148. There are now connected at Colaba 20 houses, besides the Tramway stables, the air compressor station, the night-soil depôt, the large Municipal latrines near the night-soil depôt and the Colaba Railway Terminus.

149. The discharge of the night-soil of the bulk of the population of Colaba from the depôt is in itself a very severe test, for to use the words of the Health Officer in one of his reports, "it must be recollected that the sewer system (by the deposit of fœces in the manner adopted) is tried as no other system in the world is tried."

150. It appears to me that no further test can be required, and that the time has now come when the Corporation should have no further hesitation in proceeding according to my proposals with the sewerage of the Mazagon Sectional District and the obtainment of machinery required for the sectional districts generally.

151. Provision for these works has been made in the current budget, at page 52 whereof they stand as follows :—

Machinery for the sewerage of the Parel, the Old Race Course, the Malabar Hill and Khamballa Hill, the Elphinstone Reclamation, and the Fergusson Road and Chinchpokli Sectional Districts (on Shone system)	Rs.	8,77,625
Mazagon District (sectional)	„	3,30,072
Total	Rs.	12,07,697

152. Numerous small projects for the temporary alleviation of nuisances in the various districts concerned are continually being taken up, and the expenditure on future projects of the kind would be obviated if the comprehensive system were adopted.

153. These proposals were submitted to the Corporation by the Commissioner under his letter No. 145, dated 2nd April 1897, as follows :—

"I have the honour to forward copy of letter No. 4006, dated 29th March 1897, from the Special Drainage Engineer and to request the sanction of the Corporation to Mr. Smith's proposals as therein contained. The Corporation decided to wait and see how the Shone system worked in Colaba before sanctioning the provision of the necessary machinery for extending it to the remaining sectional sewerage districts of the city south of Elphinstone Road. Sufficient connections have been made in Colaba, and sufficient work got out of the Shone system there, to afford a thorough test, and the Special Drainage Engineer, who has been in constant charge and supervision of this work, is thoroughly satisfied with the results. I need hardly point out to the Corporation the extreme need and urgency of continuing the drainage system, and the disastrous consequences which may at any time ensue from leaving densely inhabited districts choked with sewage and sullage, and I therefore request early sanction to the Special Drainage Engineer's proposal."

154. The Standing Committee having considered the Commissioner's letter recommended the proposal for sanction of the Corporation as per their Resolution No. 331, dated the 7th April 1897, and the Corporation resolved under their No. 523, dated the 8th April 1897, that sanction be given to the sewerage of the Mazagon Sectional District being proceeded with and to the purchase of the machinery for the sewerage of that district and of the sectional districts generally as provided in the Budget.

155. On the passing of this Resolution I proceeded with the preparation of a contract and specification for "air compressing machinery, ejectors, tubing and air mains, sealed sewage mains and

their fittings," and as soon as they were printed I obtained the Commissioner's permission to send copies to Messrs. Hughes and Lancaster in London, requesting them to submit a definite tender for the works comprised in the same.

156. Two copies were accordingly despatched on 19th August 1897 with a covering letter.

157. On the advice of Mr. Hewett, Assistant Engineer, Mechanical Branch, I stipulated in the contract for engines to compress air in *three stages*, that being the latest development in air compression.

158. Messrs. Hughes and Lancaster on receipt of the contract and specification consulted Messrs. Shone and Ault, and they being of opinion that there was no economy or advantage to be obtained from three-stage air compression in the case of the *low pressure* required in the present instance, Mr. Ault addressed me two letters on the subject, showing in a very convincing manner and by numerous formulæ that, although theoretically there would appear to be an advantage in *three-stage* compression even in the case of low pressures, yet practically there would be no advantage at all, because the greatly increased *initial* expenditure on the machinery would more than absorb the theoretical gain.

159. I consulted Mr. Simpson, of Messrs. Simpson Brothers, of Pimlico, on the subject, and he was of opinion that for so low a pressure as that required, three-stage compression would be undesirable, though he thought without going into very careful calculations that two-stage compression might possibly afford some advantage.

160. Mr. Harbury and Mr. Elsworthy, of Messrs. Richardson & Cruddas, were of opinion that single-stage compression was the most economical for the duty required.

161. I am myself convinced after hearing all the arguments for and against stage compression that single compression is the best for such low pressures as we require.

162. This question having been disposed of, Messrs. Hughes & Lancaster submitted to me on the 25th November 1897 a definite tender through their agents (Messrs. Richardson and Cruddas).

163. I showed and explained to the Commissioner personally the various points of this tender, and with his permission I had several interviews with Messrs. Richardson and Crudddas, and these resulted in a reduction of the sterling payments by 3 per cent. and in lower rates for the iron mains with slightly reduced thickness.

164. I might possibly have obtained a reduction in the whole of the rupee rates but for the unfortunate circumstance of a fall in exchange at the critical period of my negotiations.

165. Messrs. Hughes and Lancaster, by their attorneys and agents (Messrs. Richardson & Cruddas), submitted an amended tender, amounting to £21,280 sterling *plus* Rs. 3,72,980.

166. The office grant is all in rupees, and in preparing my estimates I took exchange at 1*s.* per rupee for sterling amounts in accordance with the instructions of Mr. Acworth, the Municipal Commissioner at that time.

167. A comparison of this tender with the office estimate at an exchange of 1*s.* per rupee showed that the tender was only Rs. 880 below my estimate, though if exchange were taken at 1*s.* 2*d.* the saving on my estimate would be Rs. 61,677, or if at 1*s.* 3*d.* the saving would be Rs. 86,000.

168. These differences would have been greater but for my having, subsequent to the preparation of the office estimates, substituted C. I. tubbing for brick chambers for the two ejector stations, and stipulated for *two full-size* engines and *two half-size* engines instead of *three full-size* engines as taken in the estimate.

169. These alterations unavoidably increased the amounts, but I considered after experience of the Colaba works that they were eminently desirable.

170. After taking everything into consideration, I was of opinion that the amended tender of Messrs. Hughes and Lancaster was a reasonable and favourable one, and I recommended it for acceptance for the following further reasons :—

(*a*) That Messrs. Hughes and Lancaster are the sole licensees of the Shone patents, and are special Mechanical Engineers for the Shone system of drainage.

(*b*) That their reputation is involved in the success or otherwise of work on the Shone system, and that if the work be entrusted to them, it will be a satisfaction to know that they will be solely responsible for the air-compressing machinery, ejectors, tubbing, and air and sewage mains—a consideration which weighed with the Municipal Commissioner and the Standing Committee in giving them the contract for similar work in the Colaba District.

(*c*) That they have carried out the works on the Shone system at Colaba to my entire satisfaction ; and

(*d*) That in any case most of the articles comprised in the contract *must* necessarily be obtained from them, and that in case of the other articles and work being procured from elsewhere, there would be a very undesirable and unsatisfactory division of responsibility.

171. The Standing Committee under their No. 8880, dated the 22nd December 1897, approved of the acceptance of the tender of Messrs. Hughes and Lancaster at schedule rates, aggregating to £21,280 sterling *plus* Rs. 3,72,980.

£17,581 } To be charged to the grant of Rs. 8,77,625 for
Rs. 2,54,537 } general machinery for the sectional districts.

£3,513 10*s.* } To be charged to the grant of Rs. 3,30,072 for
Rs. 1,18,443 } the Mazagon Sectional Districts, &c.

£185 10*s.* ...To be recovered from the Port Trust as arranged with the Trustees.

172. I accordingly addressed a letter to Messrs. Richardson and Cruddas, the attorneys for Messrs. Hughes and Lancaster, informing them of the acceptance of the tender, and requesting them, with a view to the early preparation and execution of the contract, to pay a deposit of Rs. 36,000, equivalent to 5 per cent. on the estimated contract amount, and the deposit was made by them in the form of Government paper.

173. After the acceptance of the tender I had numerous interviews and discussions with Messrs. Richardson and Cruddas regarding certain points of the contract for machinery, &c., and they put themselves into communication with their principals (Messrs. Hughes and Lancaster) by telegrams and letters in order to settle the points in question.

174. I was very materially assisted by Mr. Howett in these matters, and the settlements arrived at were as follows:—

(*a*) The air-condensing pumps not to be separate but driven direct from the main engines.

(*b*) The dimensions of the air and steam cylinders not to be specified, but they are to be properly proportioned for the work, and the design for the engines to be subject to my approval.

(*c*) The indicated H.-P. of the larger engines to be increased from 207 I.H.-P. to 214 I.H.-P., and a further reasonable increase to be allowed in consideration of the condenser pumps being attached and not separate.

(*d*) The option to be reserved to me (1) of requiring air-driven donkey pumps in the ejector stations instead of hand ejectors and without extra charge; (2) of having Corliss valves instead of Walker's in connection with the air-compression cylinders; (3) of substituting C. I. rings of the Ramsbottom type for gun-metal rings on to pistons of the air-compression cylinders.

(*e*) The boilers in being capable of working up to the specified pressure to be capable of doing so in accordance with the rules of the Bombay Boiler Act.

(*f*) Each boiler to have two safety valves instead of one.

(*g*) The economiser to be provided with three damper frames and dampers of the swing-door pattern for fixing in the main and by-pass flues to allow of the economiser being entirely shut off for inspection and cleaning while the boilers are under steam.

(*h*) The surplus water and relief valve branches on the delivery feed pipes to be combined into one branch.

(*i*) All pipes to be carried clear of the outer walls of the engine-house and the boiler-house respectively.

(*j*) The date of completion to be 31st March 1900.

These variations (which are for the most part additions) are comparatively unimportant, and they are not unfavourable to the Municipality.

175. The Solicitors to the Municipality were requested to prepare the contract for execution, and it was signed on 1st April 1898 by Messrs. Richardson and Cruddas, who hold a power-of-attorney from Messrs. Hughes and Lancastor in that behalf. An order to commence the work was given to them on 1st April 1898.

176. They have commenced laying air mains, and the progress is satisfactory.

177. The expenditure certified under this head to the end of the year amounted to Rs. 20,695-7-5.

XXVII.—MAZAGON SECTIONAL SEWERAGE WORKS.

178. The carrying out of this work was sanctioned by the Corporation under their Resolution No. 523, dated 8th April 1897, at a cost of Rs. 3,30,072.

179. Some portions of this work, *viz.*, ejectors, ejector stations, vent shafts and flush siphons, air mains and sealed sewage mains and their fittings, with excavation, &c., are included in the contract for the general machinery for sectional districts which has been let to Messrs. Hughes and Lancaster, as stated, under the head of " Machinery," &c.

180. The cost of the above portions at the schedule rates of the contract aggregate to £3,513 10*s.* sterling and Rs. 1,18,443.

181. The contract forms and specifications for the remaining portion, *viz.*, pipe sewers, manholes, and automatic flush tanks, are printed, and tenders will be invited in sufficient time to finish all preliminary arrangements by the end of the rains, when the works are to be started.

182. The stoneware pipes and fittings and cast-iron manhole frames and covers and steps which will be required for this work have already been obtained and are kept ready in stock.

183. The certified expenditure under this head to the end of the financial year amounted to Rs. 3,103-2-0.

184. Besides dealing with the works mentioned above, I have prepared a scheme for the drainage of the surface and sub-soil waters of Bombay.

185. The Corporation under their Resolution No. 246, dated the 5th April 1897, requested the Commissioner to direct me to draw up a scheme for facilitating the escape of flood-waters, both surface and sub-soil, and sanctioned the employment of a staff costing Rs. 1,200 for the purpose.

186. The staff was accordingly employed, and a scheme was prepared and submitted to the Municipal Commissioner under my No. S.D. 1160, dated 2nd September 1897. This scheme consists of—

(*a*) agricultural drain and low-level channel and new sluices near Worli Point ...	Rs.	11,83,726
(*b*) high-level storm-water drain from Tardeo Police Chauki to Vellard Bay ...	„	1,77,607
Total	Rs.	13,61,333

187. This was submitted to the Corporation by the Commissioner under his No. 15317, dated 16th September 1897, and in recommending it for adoption pressed upon the attention of the Corporation the urgency of the matter.

188. The Corporation accordingly at a meeting held on the 11th October 1897 appointed the following Committee to consider the scheme and to present a report by the 1st February 1898 :—

(1) The Hon'ble Mr. W. C. Hughes.
(2) Mr. Hargrave.
(3) Dr. A. G. Viegas.
(4) „ Nanabhai N. Katrak.
(5) „ K. N. Baladurji.
(6) The Hon'ble Mr. Bhalchandra Krishna.
(7) Mr. Roughton.
(8) „ Ibrahim Rahimtulla.
(9) „ Kaliandas Koshavdas.
(10) Dr. Ismail Jan Mahomed.
(11) The Hon'ble Mr. Nowroji N. Wadia, C.I.E.

189. The report of this Committee had not been presented to the Corporation at the end of the official year.

XXVIII.—SUPPLY OF STONEWARE PIPES AND FITTINGS IRON ARTICLES AND CEMENT.

190. The stoneware pipes and fittings required for the Mazagon sectional sewerage works were obtained during the year.

191. Tenders for these returnable on 27th May 1897, were invited on 4th May 1897, and two tenders were received as follows :—

(1) Messrs. Richardson & Cruddas, Rs. 37,671.

(2) „ Garlick & Co., Rs. 36,694.

192. The latter tender was Rs. 977 lower than the former, and both were below the office estimate, which amounted to Rs. 39,654.

193. The tender of Messrs. Garlick & Co. was however for the supply of Jabalpur pipes manufactured by Messrs. Burn & Co., while the specification stipulated that the "pipes shall be manufactured by one of the leading English manufacturers."

194. This tender not being in accordance with the specification, and being only about 2½ per cent. below the tender of Messrs. Richardson and Cruddas (which was for the supply of Doulton's London-made pipes), the tender of Messrs. Richardson and Cruddas was accepted under the Standing Committee's Resolution No. 2610, dated 16th June 1897, at rates aggregating to Rs. 37,671-6-7.

195. This cost was to be debited—(*a*) Rs. 2,351 to the grant for machinery, &c., for the various sectional districts, and (*b*) Rs. 35,320 to the grant for the Mazagon Sectional Sewerage District.

196. There being delay on the part of Messrs. Richardson and Cruddas in paying the contract deposit, the contract was not executed till the 29th September 1897.

197. The supply under the contract was deliverable in six equal batches. The first batch was due on the 15th of September, and was delivered about that time in anticipation of the signing of the contract. The remaining five batches were deliverable on the 15th of each succeeding month, the last batch being due on 15th January 1898.

198. The whole of the supply was not delivered within the contract time, and Messrs. Richardson and Cruddas, on being desired to explain the cause of the delay, attributed it to the Engineers' strike at home, which totally disorganised the running of the P. & O. steamers, and prevented Messrs. Doulton & Co. from obtaining freight for the pipes. They stated that they would be able to complete the supply before the 30th April 1898, and up to that time an extension was granted under the Commissioner's No. 885, dated 16th April 1898.

199. The whole of the supply was completed within the extended period, and the bills certified and passed for the same amounted to Rs. 37,671-5-0.

200. The stoneware channels (half round) required for the roadside drains in Bhoiwada Cross Road and a portion of Dadar Road were obtained from Messrs. Garlick & Co. at a cost of Rs. 3,332-5-6. The number of pipes required were 2,570 r. ft. of 9", 5,750 r. ft. of 6".

201. No tenders for these pipes were invited, but offers were called for from Messrs. Richardson and Cruddas and Messrs. Garlick & Co. The rates quoted by the former were higher than those of the latter, and the offer of the latter firm was accepted.

202. The contract was executed on the 2nd July 1897. The contract time for completing the delivery was six weeks from the date of order, which was given on the 2nd July 1897.

203. The supply was delivered within the contract time.

204. The 26" cast-iron pipes and junctions for the Fergusson Road and Chinchpokli sewerage works were deliverable by Messrs. Richardson and Cruddas under their contract, dated the 29th January 1897, in three months from the date of order, which was given on the 29th January, but they were not delivered within that period, which expired on the 29th April 1897. The supply was however completed on 26th May 1897. Messrs. Richardson and Cruddas attributed the delay to the great difficulty experienced in securing freight, as, owing to the plague and famine in India, there was no cargo offering for home ports to induce shippers to accept freight for Bombay. The Municipality was put to no loss or inconvenience on account of the short delay, and the Standing Committee accorded sanction to an extension of the contract period from 29th April to 26th May 1897 under their Resolution No. 5698, dated the 22nd September 1897.

205. The amount at which the contract was let was Rs. 28,350, and the aggregate amount of the bills certified and passed was Rs. 28,314. The difference of Rs. 36 less was due to one of the pipes supplied being of short length, *viz.*, 9 feet instead of 12 feet.

206. The length of 26" cast-iron pipe sewer having been increased, 13 more 26" cast-iron pipes were required, and they were ordered from Messrs. Richardson and Cruddas under Clause IV of their above contract and under sanction of the Commissioner's No. 4999, dated the 1st June 1897, at a cost of Rs. 1,872.

207. These were supplied in August 1897, and the bill certified and passed for them amounted to Rs. 1,872.

208. About 300 cast-iron manhole frames and covers and 1,500 steps were required for the Mazagon sectional sewerage works. I made a new design for the covers and frames for manholes, the main feature being an arrangement for excluding storm-water, which ordinarily forces its way through the space between the covers and the frames.

209. As a trial I obtained one manhole frame and cover of the new design under the Commissioner's sanction No. 7359, dated 29th June 1897, from Mr. Ardeshir K. Patel, the proprietor of the Napier Foundry, for Rs. 70, including the cost of the pattern.

210. Having made a slight modification in the design, I invited offers for all the cast-iron frames and covers and for the steps from four founders. The offers received from all the four were as follows :—

Messrs. Sorabji Shapurji & Co.	...	... Rs. 15,225
„ Richardson and Cruddas	...	... „ 14,269
„ George Gahagan & Co.	...	... „ 12,675
Mr. A. K. Patel (Napier Foundry)...		... „ 11,645

211. The lowest tender (that of Mr. A. K. Patel), which was Rs. 55 below the office estimate, was accepted under the Standing Committee's Resolution No. 5622, dated 16th September 1897, at rates aggregating to Rs. 11,645.

212. The contract was executed on the 16th October 1897, and an order to supply the frames, covers, and steps was given the same day.

213. The supply was deliverable in three equal instalments—the first on the 1st of October, the second on the 1st of November, and the third on the 1st of December 1897—and the whole of the supply was delivered within the contract time.

214. Instead of 1,500 steps as at first ordered only 700 were received, the contractor having been requested not to cast more, as it had been ascertained there was a number of steps in stock at the Bellasis Bridge Depôt.

215. Fifty additional frames and covers, costing Rs. 1,800, were ordered from Mr. Patel under clause IV of his contract, that number being required for the work to be done by this department on the Port Trust Estate at the expense of the Port Trustees as stated under the Commissioner's No. 20586, dated 12th November 1897, to the address of the Secretary, Port Trust.

216. In all 350 cast-iron frames and covers and 700 steps were obtained, and the total value as per bills certified and passed amounted to Rs. 12,993-12-0 against Rs. 13,444, the difference of Rs. 451 short being due to the short supply of 800 steps.

217. One hundred and five manhole frames and covers were obtained from time to time from Messrs. Sorabji Shapurji & Co., the standing casting contractors for the year to replace the number used from time to time for the several minor works which were carried out by this department during the year.

218. The amount paid for these was Rs. 3,201-8-7, being at the rate of Rs. 5 per cwt. *plus* 5 per cent. for the cost of patterns. The total weight of these castings was 609 cwt. 3qrs. 8lbs.

219. For the penstock required for the culvert in the eastern bank of the Mahalakshmi Storm-water Reservoir, quotations were called for from Messrs. Richardson and Cruddas and Messrs. George Gahagan & Co., the former quoting Rs. 1,150 and the latter Rs. 752.

220. The offer of Messrs. George Gahagan & Co. being the lower was accepted under sanction of the Commissioner's No. 9289, dated the 16th July 1897, and the contract was executed on 30th July 1897.

221. The penstock was deliverable in eight weeks from the date of order, which was given on 30th July 1897. It was delivered in time, and the bill for the same was certified and passed during the year.

222. A tidal flap, with the necessary gear to work it, was required for the Band Circle Storm-water Drain, and quotations for the same having been called for from three firms were received as follows :—

(1)	Messrs. Richardson and Cruddas	... Rs. 1,140
(2)	„ George Gahagan & Co.	... „ 980
(3)	Mr. A. K. Patel (Napier Foundry)	... „ 875

223. The lowest offer (that of Mr. Patel) was accepted under the Commissioner's No. 10252, dated the 26th July 1897, and the contract was executed on the 23rd August 1897.

224. The flap was deliverable within eight weeks from the date of order, which was given on the 23rd August 1897, and it was delivered in time. The bill for the same was certified and passed for payment during the year.

Cement.

225. Indents for the cement required for all the works mentioned in this report were made as before on the Deputy Executive Engineer, Drainage, during the year. Previous intimation was given to him, from time to time, as to the probable requirements of this department, to enable him to keep a sufficient stock in hand.

XXIX.—COLABA AIR COMPRESSOR STATION.

226. The machinery at the compressor station and the several ejector stations working in connection therewith worked satisfactorily during the year, and there were no serious stoppages or breakdowns of any kind.

227. Considerable progress has been made with the house connections to the system, the number of connections added during the year amounting to 189.

228. The volume of sewage to be lifted is still however much below the maximum, and the cost of lifting a given quantity is therefore greater than it would be were the engines running at a higher, and consequently more economical, speed.

229. The total number of gallons lifted by the ejector stations from March 1897 to February 1898 amounted to nearly 220 million gallons.

230. The population at present served by the Shone system is about 15,000, and the cost of working the system comes to Re. 1-4 per head per annum. The cost is necessarily great, as the system is confined to a small district, and is only partially working. The establishment and several other charges would remain very nearly the same if a much larger population were served.

231. One hundred and fifty four tons of Cardiff coal and 275 tons of Borrea A Seam anthracite coal were purchased during the year. The average rate paid for the Cardiff coal was Rs. 23-5-7 per ton and for the Borrea Rs. 14-7-0 per ton.

232. The Borrea coal has given great satisfaction. Owing to the low rates at which it could be purchased, the use of it has resulted in considerable saving, and where the boilers are not heavily fired, as at Colaba, it does not give off very much smoke.

233. The electric light installation for the station which was sanctioned by the Corporation under their Resolution No. 2272, dated 11th June 1896, at an estimated cost of Rs. 3,169, was completed in May 1897, and the light was first started on 17th of that month.

234. The plant is working smoothly at a very small cost and is quite satisfactory. The total cost of the work amounted to Rs. 3,077-10-1.

235. The electric tell-tale arrangements mentioned in last year's report for giving warning at the compressor station in the event of a stoppage of any of the ejectors have worked satisfactorily, and have not failed in a single instance to do what was required of them.

236. They are now completed to all the stations. The total cost of the work was Rs. 311-2-6 against the estimated cost of Rs. 356-0-3.

237. A small Worthington donkey pump for supplying feed-water to the boilers was purchased from Messrs. Richardson and Cruddas at a cost of Rs. 200, which was met by a transfer from the coal grant. This pump was obtained to take the place of that supplied with the plant, which was of rather too large a size.

238. Six sets of indicating gear to allow of indicator diagrams being taken from the engine cylinders were purchased from Messrs. Hughes and Lancaster at a cost of £31 10*s.* sterling, or Rs. 501-14-6. The cost was met from the special provision of Rs. 630 entered in the budget under the grant for stores and contingencies.

239. The following statement shows the grants under the several budget heads for the maintenance of the station and the actual expenditure incurred under each head:—

Sections.	Particulars.			Budget grants, including transfers and renewed grants.			Expenditure.		
		Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

I have the honour to be,

Sir,

Your most obedient Servant,

JAMES W. SMITH, M. INST.C.E.,

Special Drainage Engineer.

K.—FIRE BRIGADE.

The establishment has been upheld in a state of efficiency during the year, and all appliances are in good condition and thorough working order.

No case of loss of life by fire, where the Brigade was concerned, has occurred during the year.

Several members of the Brigade have received injuries in the execution of their duty at fires, none of which were of a serious nature. Several men were also injured during the rioting of the 9th March, all of whom, however, have since recovered, and the health of the members of the Brigade has been fairly good, notwithstanding their extra duties in connection with plague operations.

The water-supply at fires has been satisfactory in all cases, and the attendance of the Water Works staff has been prompt and of great assistance to the Brigade.

The inspection of hydrants throughout the City has been carried out by the Brigade in a systematic manner during the year.

The fire service at the Municipal Offices has been maintained in good working order, and the employés have periodically been drilled in the use of the appliances.

The fire appliances at the several Municipal markets have also been periodically inspected and cleaned.

The new station at Gowalia Tank Road is now in course of erection, and will, in all probability, be occupied during the ensuing year.

Six additional men have been employed to complete the staff at each Manual Engine Station.

The Corporation were pleased, in their Resolution, No. 11676, dated the 2nd March 1898, to grant an extra allowance of one-sixth of the salary to 120 men performing extra duty at Segregation Camps, from the 12th October 1897 to the 27th January 1898, and also in their Resolution, No. 2655, dated the 22nd June 1898, to grant an extra allowance, from the 28th January of one-fifth of the salary to 152 men on account of services rendered in flushing gullies, &c., in connection with the measures adopted for suppression of the Plague.

Two horses have been purchased during the year in place of two sent to Pinjrapol.

An order for 7,860 feet of delivery hose and other appliances was satisfactorily executed by Messrs. John Fleming & Co. during the year.

Provision has been made in the ensuing year's Budget for a supply of 3,000 feet of delivery hose, to replace other condemned and sold by public auction in the year 1896-97.

The present strength and equipment of the Brigade is as follows :—

Strength.

1 Chief Officer.	12 First Class Tindals.
1 Surgeon.	6 Second ,, ,,
1 Clerk.	108 Firemen of Grades.
1 Head Foreman.	7 Drivers.
5 Foremen.	7 Grooms.
6 Engineers.	

Making a total of 155, including all ranks.

Equipment.

8 Steam Fire Engines.	6 Telescopic Fire-escapes.
9 Manual ,,	1 Brake.
16 Hose Reels.	15 Horses.
7 Tender Carts.	

291 lengths of delivery hose, comprising about 17,460 feet, and other necessary fire-extinguishing appliances.

The distribution of engines, &c., is as under :—

The number of calls to fires, or supposed fires, received during the year has been 143 ; of this number 20 were reported by the Police, but did not require the attendance of the Brigade ; the remaining 123 involved the turning out of engines and men, and resulted in 7 false alarms and 116 fires, 74 of which were extinguished by Brigade appliances and 42 before the arrival of the Brigade. (See Tables 1 and 2.)

The estimated damage to property during the year has amounted to Rs. 19,98,464, showing an increase of Rs. 1,22,802 as compared with the preceding year. (See Table No. 3.)

The amount of damage to property at the 74 fires extinguished by the Brigade with the use of Brigade appliances is estimated at Rs. 19,97,148, whilst the property in imminent risk of becoming involved at these fires has been rated at Rs. 78,48,798. (See Tables 2 and 4.)

The estimated damage to insured property has been Rs. 18,73,600, whilst that to uninsured property has been Rs. 1,25,404.

The estimated quantity of water used for extinguishing fires during the year has been 2,311,760 gallons, or about 10,320 tons ; of this quantity, 1,041,560 gallons were taken from the street mains and 1,270,200 from wells and tanks. (See Table No. 5.)

The fires of 1897-98 show an increase of 14 above the fires of 1896-97, and compared with the average of the past ten years an increase of 27.

The most destructive fire of the year was that of March 3rd at the Mazagon Spinning and Weaving Mill, Reay Road, at which property to the estimated extent of Rs. 10,00,000 was destroyed. This fire was extinguished by the aid of all the Brigade's working steamers, six in number, and the assistance of the mill appliances.

The remaining fires worthy of note were as follows :—

April 12th, at Baroda Street, a large godown and contents was severely damaged by fire, and was extinguished by the aid of five Brigade steamers after a damage of Rs. 37,500 had been caused.

On May 17th an alarming fire occurred at Lohar Chal Street, where two dwelling-houses and contents, owned by Vassonji Khimji, Esq., were severely damaged by fire to the extent of Rs. 15,120, and was extinguished by the aid of three Brigade steamers and 2 hydrants.

On August 31st a dwelling-house and shops at Bhendy Bazaar, Parel Road, were damaged to the extent of.Rs. 9,500.

On September 20th a most destructive fire occurred at the Framji Petit Spinning and Weaving Mill, Magazine Road. A severe storm prevailed at the time, and it is presumed the mill was struck by lightning. The Brigade steamers, six in number, assisted by the mill appliances, were brought into use before the fire could be brought under control, the estimated damage being Rs. 5,00,000.

November 9th, at the Lukmidass Khimji Cloth Market, Shaik Memon Street, several shops and contents were severely damaged by fire, and was extinguished by one Brigade steamer and one hydrant, a loss of Rs. 14,400 accruing.

November 23rd, at Cotton Green, Colaba, a large number of unpressed bales of cotton were damaged by fire and water to the extent of Rs. 16,000. Two Brigade steamers and private appliances were got to work to extinguish this fire.

On December 20th a most destructive fire occurred at Worlee, nearly two-thirds of the village being destroyed. The fire was extinguished by the aid of two Brigade steamers and one manual, damages being estimated at Rs. 50,000.

On January 1st a printing press and contents at Girgaum Road were severely damaged by fire, and was extinguished after property to the value of Rs. 34,050 had been destroyed.

On January 3rd a serious fire occurred at Oak Lane, Fort, in which a dwelling-house and shops were damaged to the extent of Rs. 49,500. Three Brigade steamers were used to extinguish this fire.

February 15th, at the Jivraj Baloo Spinning and Weaving Mill, Tardeo, a large godown and contents were destroyed, the fire being extinguished by three Brigade steamers, a damage of Rs. 25,000 accruing.

On February 19th a large godown and contents at the Lukmidass Khimji Spinning and Weaving Co.'s Mill at Fergusson Road were severely damaged by fire. Three Brigade steamers and mill appliances were brought into use, and the fire was not extinguished till damages to the extent of Rs. 1,60,050 had been sustained.

On the same date the Modykhana Segregation Camp was the scene of a disastrous fire, the loss being estimated at Rs. 11,150. Six Brigade steamers were requisitioned to extinguish this fire.

The following tables are annexed :—

Table No. 1.—Attendance at fires.

Do. „ 2.—Statement showing by what means fires were extinguished.

Do. „ 3.—Summary of fires and estimated loss.

Do. „ 4.—Statement showing the estimated damage and property at risk at fires extinguished by Fire Brigade appliances.

Do. „ 5.—Estimated quantity of water delivered at fires.

Do. „ 6.—List of causes of fires.

Do. „ 7.—Hourly summary of fires.

Do. „ 8.—Monthly summary of fires and annual loss for the period 1888-89 to 1897-98.

Do. „ 9.—List of fires where property to the extent of Rs. 2,000 and upwards was destroyed.

ROYAL LIBRARY OF THE BOMBAY BRANCH SOCIETY

L.—PUBLIC GARDENS.

The following gardens were maintained during the year under report :—

(*a*) Victoria Gardens.
(*b*) Elphinstone Circle Garden.
(*c*) Northbrook Garden.
(*d*) Malabar Hill Garden.
(*e*) Bazaar Gate Garden.
(*f*) Falkland Road Garden.
(*g*) Dick's Tank Garden.
(*h*) Garden on the Flats.
(*i*) Municipal Office Garden.
(*j*) Sir Cowasji Jehangir Garden at Mahim.

2. The effect of the plague on the number of visitors to the Victoria Gardens was even more marked in the year under report than in the previous year, the total number during the year being 762,811 against 1,071,929 in the previous year, showing a further decrease of over 3 lakhs.

3. The metalling of roads was continued, and all the roads were repaired and maintained in thorough order during the year under report.

4. The work of laying water pipes was kept in abeyance in compliance with the Municipal Commissioner's circular to keep down the expenditure as much as possible to meet the heavy demands for plague expenses.

5. The work of constructing small drains to carry rain water across roads was continued, and the storm water drain in the lately added portion of the Victoria Gardens, which was sanctioned in the previous year, was constructed during the year under report by the Drainage Department. It now remains to connect the drains of the old area with this drain to somewhat prevent the continuous flooding of the Gardens during the rainy season.

6. The old and entirely dilapidated office shed was pulled down, and the new building for the office, which was sanctioned in the previous year, was completed in the year under report.

7. The Clock Tower of the Victoria Gardens was struck by lightning during a thunderstorm in the beginning of the monsoons. It fortunately escaped with comparatively slight damage. The dial glasses of the clock were smashed, the clock somewhat damaged, and a part of the stone masonry and some windows broken. The necessary repairs were executed by the Executive Engineer's Department, the machine work of the

clock being repaired and thoroughly cleaned and new dial glasses fixed. To prevent the recurrence of a similar accident in future, a lightning-conductor has been fixed to the tower.

8. The Refreshment-room in the Victoria Gardens was unoccupied during the greater part of the year under report, partly on account of the plague, and partly on account of the high rent of the room. A report on the subject, proposing a reduction in the rent, has been separately submitted to the Municipal Commissioner.

9. The improvement of the lawn by levelling, weeding, and turfing was continued throughout the year, some of the lawns being entirely dug up, raised, and newly turfed with hariali grass.

10. The digging, manuring, and renewing of shrubberies was also continued during the year under report, a large number of old worn-out plants being replaced with fresh ones and new varieties of shrubs and trees planted in suitable positions. The carpet bed bordering the lawn in front of the Clock Tower was relaid out with a new pattern.

11. The site of the old nursery being required for the construction of quarters for the mallees, the nursery was transferred to the vacant ground in the north-east corner of the Gardens near the old mallees' chawl, where also several stock fruit trees have been planted out.

12. Five hundred and eighteen plants were supplied during the year under report for roadside planting and to other departments of the Municipality.

13. An attempt was made during the year under report to add to the collection of plants in the Gardens, which is a very poor one. Sanction was obtained for the purchase of plants from Calcutta of the value of about Rs. 1,000 from the grant for the purchase of seeds and plants. A list of plants already in the garden collection and another list of plants required were sent to the Secretary of the Agri-Horticultural Society of India, Calcutta, with a request to make a selection of the best plants that could be available within the sanctioned grant. The collection of plants sent, though on the whole a good one, would have been far more satisfactory if the Superintendent had been allowed to visit Calcutta and select the plants personally from the different nurseries. Some new plants were also obtained from Bangalore. A list of all the plants added to the collection during the year under report is given in Appendix **A** attached to this report.

14. Plague cases again occurred in the mallees' quarters in the Victoria Gardens in January 1898. The quarters were entirely vacated and thoroughly disinfected. As they are however very old and in a very insanitary condition, temporary sheds were erected for the mallees in another part of the Gardens, which will be occupied by them until the new quarters already sanctioned are constructed.

15. The work of the Gardens has still to be carried on under great difficulties, as suitable mallees are not available, and the work has to be carried on mostly with the aid of ordinary coolies who have had no training at all in any of the garden operations. In spite however of this difficulty and the retrenchments in the expenditure, the Gardens were maintained in a satisfactory condition.

16. All the other municipal gardens were kept up in their usual good condition, except the Northbrook and the Mahim Gardens, which were occupied throughout the year by plague hospitals and camps.

17. The Zoo was maintained in its usual condition, and slight improvements, especially in the matter of cages and enclosures, are continued to be carried on.

18. New quarters for the animal keepers, which were sanctioned in the previous year, were completed and occupied during the year under report, and two of the large wooden cages, which were almost entirely gone bad, were thoroughly repaired.

19. Amongst the animals added to the collection during the year by purchase were the following :—

1 King parrot.	2 Slow loris.
1 Arabian gazelle.	1 Pig-tailed monkey.
1 Rat kangaroo	1 Male ostrich.
1 Vulpine phalanger.	1 Pair brush-tailed rock wallaby.
2 Mouse deer.	

20. The following animals were presented to the collection during the year under report :—

1 Flying squirrel.	By the Bombay Natural History Society.
1 Bateleur eagle.	
1 Panther cub.	
1 Civet cat.	
2 Black partridges.	
1 Hunting leopard cub.	By Commander Baugh.
3 Chukor partridges.	By F. A. Owen, Esq.
2 Male nilgais.	By Col. F. H. Jackson.
1 Sambur deer.	By Hon. Mr. A. T. Shuttleworth.
1 Spotted deer.	
1 Four-horned deer.	By—McLeggan, Esq.
2 Giant tortoises.	By Dattubhai Jetha, Esq.
1 Arabian gazelle.	By Purshotum Shamji, Esq.
1 Spotted deer.	By C. Vears, Esq.
1 Arabian gazelle.	By—O'Callaghan, Esq.
1 Common goose.	By Dr. Bhalchandra.
1 Indian fox.	By Subedar Roshan Ali.
1 Arabian gazelle.	By—Klingelohfer, Esq.
1 Chukor partridge.	By H. H. Aga Khan.
1 Turtle.	By—Chevalier, Esq.
1 Leopard cub.	By Mrs. F. L. G. Simpson.
1 Leopard.	By the Thakor Saheb Jalamsingji of Ambaliara.

21. The casualties during the year were:—

Indian antelope,	Four-horned antelopes,
Hunting leopard (cub),	Mouse deer,
Persian gazelle,	Nilgai,
Hornbill,	Vulpine phalanger,
Wild sheep,	Hunting leopard,
Waller's gazelles,	Dog-faced baboon,
Arabian gazelles,	Black swan (missing),
Spotted deer,	

and some birds and smaller animals.

22. The budgetted and actual expenditure for the year of the several gardens is shown below, from which it will be seen that the expenditure was kept down to the lowest possible limit:—

	Names of Gardens.	Total amount sanctioned.			Expenditure.		
		Rs.	a.	p.	Rs.	a.	p.
(a)	Victoria Gardens	58,867	0	9	49,019	0	9
(b)	Elphinstone Circle Garden	2,260	0	0	1,601	2	10
(c)	Falkland Road Garden	520	0	0	418	1	5
(d)	Northbrook Garden	1,876	0	0	1,431	8	8
(e)	Sir Cowasjee Jehangeer Garden	748	0	0	505	4	11
(f)	Bazaar Gate Garden	792	0	0	663	7	6
(g)	Garden on the Flats	1,052	0	0	816	6	3
(h)	Dick's Tank Garden	430	0	0	303	7	7
(i)	Malabar Hill Garden	1,430	0	0	1,141	0	7
	Total... Rs.	67,975	0	9	55,898	8	6

APPENDIX A.

List of plants added to the Victoria Gardens collection during the year 1897-98.:—

Aberia caffra
Abroma augusta
Acacia boustoni
„ saligna
„ baileyana
Acalypha glabrata
Acanthus ilicifolius
Achania malvaviscus
Adiantums of sorts
Agapanthus umbellatus
Aglaonema commutatum
„ marantæfolium
„ versicolor
Allamanda schottii
„ williamsii
Alocasias of sorts
Alpinia allughas
„ vittata
Anona reticulata
„ squamosa
Anthuriums of sorts
Aralia charbrierii
„ digitata
Ardisia umbellata
Argyreia cuneata
Aristolochia bonplandii
„ glauca
„ leuconeura
„ picturata
Artocarpus lacucha
Arum sanctum
Aspidistra lurida
„ punctata
Atalantia monophylla

Bambusa scemonei
Barleria dichotoma
„ rosea
Begonias of sorts
Bignonia albo-lutea
„ diversifolia
„ incarnata
„ labrosa-picta
„ magnifica
„ picta
Billbergia melanthera
„ undulata
„ vittata
Boehmeria lancifolia
Browneа ariza
„ coccinea
„ erecta
Butter fruit

Caladiums of sorts
Camellia thea
Cananga odorata
Cannas of sorts
Canthium odoratum
Cardamoms
Carguata cardinalis
Casuarina quadrangularis
Cerbera fruiticosa
Cereus grandiflorus
Ceropegia gardneri
Cestrum hirsutum.
Chrysophyllum glabrum
Cinnamomum camphora
„ zeylanicum
Cissus amazonica
Citron tourney
Clematis flammula
„ integrifolia
Clerodendron aculeatum
„ kalbreyeri
Cocoloba platyclada
„ uvifera
Coffea arabica
„ bengalensis
Cola acuminata
Combretum comosum
„ macrophyllum
Congea azurea
Cooking pear
Crinums of sorts
Crotons of sorts
Cyclamen persicum
Soymida febrifuga
Cyrtodeira metallica
Cyrtomium falcatum

Dieffenbachias of sorts
Diospyros discolor
Diospyros kaki
Dracænas of sorts

Erythrina tomentosa
Eucalyptus citriodora
„ globulus
Eucharis pumila

Ficus benjaminia var comosa.
„ magnifolia
Filicium dicipiens
Flacourtia cartaphracta
Franciscea confertiflora
„ lindeniana

Galphimia nutans
Garcinia cowa
Gardenia florida fortunei
„ latifolia
Gardenia thunbergia

Gerbera jamesoni
Gesnera zebrina discolor
Goldfussia anisophylla

Hæmanthus kalbreyeri
Hardwickia binata
Hedera helix
Hedychium augustifolium
" coccineum
" spicatum
Heliconia aureo-striata
Hibiscus of sorts
Hoya pottsii

Ilex paraguensis
Ixora of sorts

Jacaranda filicifolia
" mimosifolia fl albo
Jatropha manihot
" podagrica
Justicia gendarussa
" ventricosa

Lafœnsia vandelliana
Lambertia formosa
Lastrea lepida
" richardsii multifida
Lemons of sorts
Limes of sorts
Liliums of sorts
Linum monogynum
Litchies of sorts
Loquat
Lucuma mammosa

Magnolia fuscata
" grandiflora
" mutabilis
" pterocarpa
" pumila
" sphenocarpa
Malpighia urens
Mangoes of sorts
Marantas of sorts
Memecylon tinctorium
Mesua ferrea
Morus, large, white (mulberry)

Napoleana imperialis
Nephrodium molle
Nephrolepis duffi
" tuberosa
Noronhia emarginata

Olea europea
Ophiopogan variegatus
" japonicus
Oranges of sorts
Orchids of sorts

Palms of sorts
Pancratium longifolium
Passiflora edulis (mammoth, purple)
" pfordtii
" quadrangularis
" serratifolia
" trifisciata

" nidens

Quassia amara

Raspberry
Roses of 27 sorts
Roupellia grata
Ruellia ciliatiflora

Schinus molle
Sechium edule
Selaginellas of sorts
Smilax macrophylla
Solanum jasminoides
" marginatum
" robustum
" seafortheanum
" wendlandii
Solidago canadensis
Stachytarpheta mutabilis
Sterculia gutata
Stigmaphyllon aristatum
Strychnos nux vomica

Tecoma chrysantha
Thunbergia hawtayneana
Tillandsia acaulis
Tree ferns
Tree tomato

Urania speciosa
Uvaria adorata
Vitex himalayensis

Wistaria chinensis
Wrightia antidysenterica

Xylophylla augustifolia

Zephyranthes citrina
" robusta

A—THE VICTORIA AND ALBERT MUSEUM.

1. In the Natural History division the department of Mammals received no addition during the year.

2. To the department of Birds numerous specimens were added. Those deserving of special mention were as follows :—

Two skins of Mandarin ducks (*Æx galericulata*), two skins of Chinese pheasants (*Phasianus sp.*), one Demoiselle crane (*Anthropoides virgo*), two orioles (*Oriolus kundoo*), four Indian rollers (*Coracias indica*), two crow-pheasants (*Centropus sinensis*), one large stone plover (*Esacus recurvirostris*), two red-whiskered bulbuls (*Otocompsa fuscicaudata*), two blue rock-thrushes (*Petrophila cyanus*), one white-breasted kingfisher (*Halcyon smyrnensis*), three Indian pittas (*Pitta brachyura*), two common kingfishers (*Alcedo ispida*), and three Indian bee-eaters (*Merops viridis*).

The dried skins of the Mandarin ducks and Chinese pheasants, after being moistened and treated with preservatives, were stuffed and mounted for exhibition purposes. The demoiselle crane and all other birds mentioned above were skinned, cured, stuffed, and mounted at the Museum. Also 40 specimens of birds' eggs were added to the department by purchase.

3. The department of Reptiles received the following additions :—

Two cobras (*Naia tripudians*), two tree-snakes (*Trimesurus anamallensis*), one Russell's viper (*Vipera russellii*), one viper (*Echis carinata*), three sand-snakes (*Gongylophis conicus*), two eryx (*Eryx johnii*), one rat-snake (*Zamenis mucosus*), two tree-snakes (*Dryophis mycterizans*), one sea-snake (*Enhydrina valakadien*), two grazing-lizards (*Uromastix hardwickii*), two tree-lizards (*Sitana ponteceriana*), and one chameleon (*Chamæleon calcaratus*).

These reptiles were all cured and preserved in spirits of wine.

4. The department of Fishes and Crustaceans received several minor specimens but none of them was so important as to deserve special mention.

5. To the department of Entomology were added 190 specimens of butterflies, moths, beetles, and other insects. The species of butterflies added to the collection were as follows :—

Danais grammica, *Curetis thetis*, *Curetis phœdrus*, *Charaxes imna*, *Charaxes fabius*, *Euthalia garuda*, *Euthalia lubentina*, *Zizera ossa*, *Lethe neelgheriensis*, *Mycalesis mineus*, *Junonia hierta*, *Junonia orithyia*, *Megisba malaya*, and *Cyaniris puspa*.

Also a caterpillar of the butterfly (*Euthalia garuda*) from Burma was received by presentation from the Deputy Commissioner, Seoni, Central Provinces. The butterflies, moths, beetles, and other insects added to the collection were all cured, preserved, and mounted for exhibition at the Museum.

6. To the department of Geology no addition was made during the year.

7. In the division of Anthropology the additions made were very few and none of them was valuable. To the department of Artware was added a full set of Indian cooking pots, plain Moradabad work, by presentation from Mahomed Hussain Mukba, Esq., of Nabob's Buildings, Byculla.

8. The department of Ethnology received no addition.

9. To the department of Numismatology were added two copper coins of Ahmed Shah, King of Guzerat, found in the Kaira district, and ten *gadhia* coins of mixed metal, copper and brass, by presentation from the Honorary Secretary, Bombay Branch, Royal Asiatic Society.

10. In the Natural History division the specimens in the various departments were now and then examined and were freely supplied with preservatives. In the department of Mammals, though no important addition was made to the collection, a good deal of overhauling work was done during the year. The Osteological collection also was overhauled and re-arranged. The huge vertebral and other massive bones of the great Indian fin-whale (*Balaenoptera indica*), exhibited in the central hall, were removed and re-arranged in the right wing of the Museum on the ground-floor. In the department of Birds 78 birds were skinned, and their skins were cured, stuffed, and mounted. Also constant attention was paid to the collections of Reptiles, Fishes, and Crustaceans, and the several additions made were cured and preserved in spirits of wine. The Entomological collection was examined from time to time, and the specimens added during the year were cured, preserved, and mounted for exhibition purposes.

11. In the division of Anthropology the bulk of the work consisted in the overhauling and re-arrangement of specimens. The show-cases also were removed and located in places where the collections were made more attractive and convenient for purposes of study as well as for general inspection. The specimens of valuable cloths and other textile fabrics were constantly examined and were freely supplied with preservatives. As far as was known, the specimens in the various departments were all in good order and preservation.

12. The Museum Library received several important additions during the year.

13. A statement showing how the annual and special grants were utilized will be found in Appendix **A** at the end of the report.

14. During the year under review the Museum was open to the public for 314 days, and the total number of visitors was 641,500, showing a daily average attendance of a little over 2,042. Last year, the Museum was open to the public for 312 days, and the total number of visitors was 584,865, showing a daily average attendance of a little over 1,874. Though the plague in its recrudescent stage raged more severely than it did last year, the increase in the number of visitors this year is probably due to the imposition of quarantine against Bombay.

APPENDIX A.

Statement showing how the annual and special grants were utilized :—

Natural History Grant.

		Rs.	a.	p.
1.	Spirits of wine	446	0	0
2.	Sundry preservatives	329	0	0
3.	Natural History specimens	176	0	0
4.	Miscellaneous charges	249	0	0
	Total ... Rs.	1,200	0	0

Grant for Cases.

		Rs.	a.	p.
1.	Materials and labour for repairing and polishing old cases	271	0	0
2.	Minor cases	29	0	0
	Total ...Rs.	300	0	0

Artware Grant.

		Rs.	a.	p.
1.	Artware show-case	313	6	2

Special Grant.

	Rs.	a.	p.
Reference books	393	8	0

PUBLIC HEALTH.

1. REPORT of Brigade-Surgeon-Lieutenant-Colonel T. S. WEIR, Municipal Health Officer.
2. REPORT of the SUPERINTENDENT OF LICENSES.
3. REPORT of the SUPERINTENDENT OF MARKETS.
4. RETURN OF STREET ACCIDENTS, forwarded by the COMMISSIONER OF POLICE.
5. REPORT of the MEDICAL OFFICER IN CHARGE, Infectious Diseases Hospital, Arthur Road.

1.—REPORT OF THE HEALTH OFFICER.

I have the honour to forward herewith my Annual Report for 1897. Bombay.

2. Before examining the mortality, it is well to consider the position of Bombay.

3. The portion of Bombay in which most of the population live in closely built houses and densely populated habitations lies in a valley between rocky ridges, the centre of the valley in places lying below mean sea level; on the south side most open to the sea, and raised above the sea level by sand and alluvial deposits.

4. Up the valley, in between hillocks, at one time flowed creeks. These creeks and the hollows have been largely filled with vegetable matters which have not at depths yet decomposed.

5. There is still underground an ooze, where these creeks flowed, and the ground waters of the valley are influenced by the pressure of the sea currents around.

6. The valley of Bombay is most unfavourably situated. Into it flows the rain water from higher lands, the escape of which is obstructed by roadways and buildings, and to the north by a dense clay formation. But happily the soil has a marvellous power of purification, even greater than the air. In the centre of the valley to which most of the drainage flows, the soil is a stiff clay.

7. The area of Bombay is about 22 square miles, and on a portion of this area there is the most densely crowded population in the British Empire, the six sections of greatest density of population having 227,021 people on an area of 403·28 acres.

8. The following table shows the sections of the greatest density and their populations:—

	Population.	Area.	Persons to an acre.
Khara Talao	27,035	40·33	670·39
Chukla	32,197	51·23	628·47
Kumbharwada	32,209	52·23	616·67
Market	44,751	83·63	535·10
Bhuleshwar	38,363	71·73	534·82
Umarkhadi	52,466	104·13	503·85
	227,021	403·28	

Health of Bombay before 1895 and growth of City.

9. In 1895, before the appearance of Plague, Bombay was more healthy than any large city in India, and the chances of life were better than in many European towns. I need not do more than refer to the high mortality in Bombay one hundred years ago, when residence in it was regarded with apprehension.

10. It is forgotten that this City has grown so rapidly that all the improvements that other cities have had centuries to complete are not to be accomplished in Bombay in a few years.

Improvements.

11. Few people realise the enormous improvements that have been effected in the last twenty years, whether it is in the highways, or in the habitations of the people, or in the reclamation and improvement of the surface ground.

Course of the epidemic.

12. The course of the epidemic of Plague is marked out in the diagram of the mortality from day to day, and it may be divided into five periods or five epidemics, so to speak—

I. Commencing on the 19th September 1896 and ending about the 15th of October.

II. Commencing after the 15th of October and ending about the 4th of November.

III. Commencing after the 4th of November and after a series of repressions, developing into the great epidemic which culminated in a high mortality on the 28th of December, and reached its greatest intensity and virulence about the 15th of January 1897.

IV. Commencing in the second week of July 1897, and reaching its maximum in the second week of August, and declining till it reached its minimum in the middle of November.

V. Commencing in the second week of December 1897 and gradually developing into the great epidemic of 1897, with slighter repressions than in the previous year, till, on the 9th of February 1898, a mortality of 347 was reached, followed by a series of repressions and fluctuations, till on the 16th of March the mortality rose to 358 and again on the 18th to the same number, from which period the mortality commenced to decline in irregular curves.

13. Such has been the progress of the pestilence since 1896.

14. There are good reasons for thinking that the epidemic might have reached its fastigium on the 9th of February 1898 if the measures, as was found advisable a month later, had been relaxed. If the concealment of cases had been less, the epidemic would have decreased sooner was the belief I expressed.

15. An epidemic can be irritated as well as a local sore, and the period between the 9th of February and the 15th of March may be

described as the period of panic and irritation. The measures were followed by the concealment of cases, and concealment led to the intensification of the type. The conditions existed which it would have been necessary to create had it been desired to intensify the disease.

Health Officer's views on the Plague Epidemic, 1897.

16. In the Report for 1896, I have referred to the grave view I took of the future—even in May of 1897 I objected to the removal of officials who had become acquainted with the City and with the measures for the suppression of the disease, and who were most useful to this City, when their services were transferred elsewhere.

Type of disease in the monsoon.

17. The type of the disease, as the monsoon proceeded, was either pneumonic or abdominal—a type that might assume a virulently and destructively epidemic character. The curve of mortality followed the same curve as in 1896, but was higher as the monsoon proceeded.

Diagrams of mortality for September and October 1896 and 1897 and Health Officer's remarks.

18. The diagrams showed that the mortality in 1897, in September and October, was very much higher than in the same months in 1896, notwithstanding the appearance of Plague and the epidemic in that year, and that the curve of mortality followed the same lines in a very remarkable manner.

19. My opinion was scoffed at by some, while others contrasted my optimism, when I was responsible, with my pessimism, when I was not in charge of the operations against Plague ; while some called me an alarmist. If the calamity were not so terrible, if it were possible for any one to utter reproaches, I might now reproach those who took the opposite view.

20. It was strange the apathy of the public to the high mortality throughout the rains of 1897.

21. While in 1896 there was the greatest excitement, in 1897 a very much higher mortality did not even excite comment. It is true the disease was new to the people in 1896, and the measures seemed to them not necessary, but in 1897 they would not believe that another epidemic could occur.

Plague mortality 1896-97—cont'd.

22. In October the outlook was grave, the mortality following the same curve as in 1896, but higher. Though the number of deaths was not large, the type was grave, being pneumonic or abdominal.

23. I looked to the future even before this with the greatest anxiety—for here was the plain fact that, during October 1897 the mortality had been on an average 82 a week *higher* than in the same month of 1896, when it should have been much lower than in 1896—notwithstanding the epidemic of Plague that began in the latter year, the panic that it caused, and the much greater number of susceptible people when the epidemic commenced. The danger, notwithstanding my warnings, was not realized. Vain hopes were formed as to the effect of measures, and, when those hopes were disappointed, irritation and dismay followed.

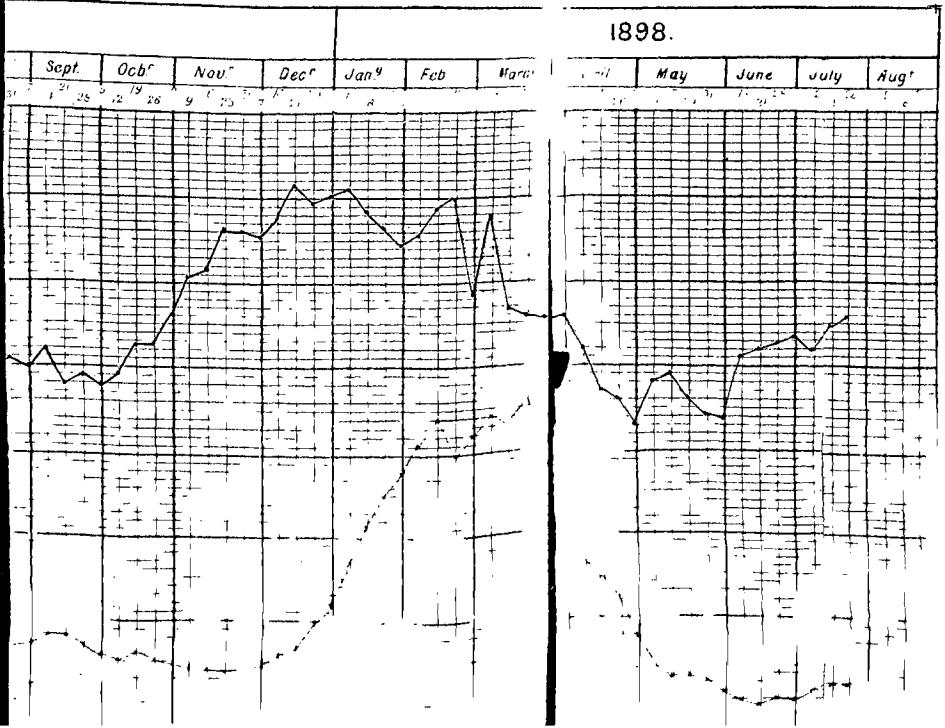
ality and Clima . Conditions.



24. Though the number of Plague cases was less than in 1896, the *total* mortality was *higher*. This implied concealment of the disease and intensification of the type through concealment. There is no better tribute to the work of the Health Department in 1896 than that in 1897, with a higher mortality, with an enormously greater expenditure, and with a vast organization—*fewer* cases of Plague were at that period detected by the Plague Committee than by the Health Department in 1896.

25. I admit the difficulties of the Plague Committee. The population was against them, and they had lost the assistance of the medical profession. It was difficult for them to obtain information, for the people did not call in medical men.

The future.

26. The view I took was this, that the future depended on—

(*a*) the multiplication of the rat population ;

(*b*) the disappearance of the disease from amongst rats ;

(*c*) the susceptibility of the human population.

Till the rats become immune, the disease must continue to occur amongst human beings wherever it has been epidemic.

Mortality in Bombay lower than elsewhere.

27. In my last report I pointed out that all who came to study the disease in this City were surprised that the mortality was so low. The mortality in Bombay, having been much lower than in any place outside Bombay, deceived no doubt a great many people, and gave them an utterly wrong idea of the value of the measures being taken. They were buoyed up with a hope that it was only necessary to carry out certain measures and display various activities and the epidemic would be stayed. The pest would not be called Plague if it was so easily to be defeated. This disease is concurrently epidemic amongst human beings and animals. The importance of this fact even those who came here to advise us did not comprehend—that from the earliest times far more drastic measures than have been adopted or suggested in India have been applied against the pest and have always failed to stop its progress. Until recently there was the most extraordinary ignorance as to the measures taken in ancient times to prevent the development and spread of Plague.

28. Even in 1897, with the second recrudescence or epidemic of Plague, followed by a third recrudescence, the total mortality from all causes in Bombay was not as high as the mortality from Plague alone in many places in India. In 1896 the total mortality (including Plague and all other diseases) was only 40·71 per 1,000, and in 1897 it was not higher than 58 per 1,000.

29. In places where Plague has been epidemic, the mortality from this one cause has not infrequently been higher than the mortality from all causes in Bombay.

TABLE SHOWING THE HIGHEST INCIDENCE OF MORTALITY BY SECTIONS FROM THE CHIEF DEATH CAUSES.

Causes of high mortality during the monsoon of 1897 and difficulty of recognition of types of Plague.

31. *Cholera* was but *one* of the disease causes contributing to the high mortality after June. The recognition of the types of diseases at that period was, in the opinion of experienced medical men, often attended with great difficulty. If the recognition of the type was difficult, correct registration could not be hoped for in this City, where only a small proportion of those who succumb to disease are attended in this last illness by medical men. The people—the mass of the population—had almost ceased to call in medical men when they suffered from Fever. This was the most serious aspect of the effect of the measures being adopted to detect cases of Plague.

Immigration of famine-stricken into the City in 1896.

32. Earlier in the year, I had viewed with great apprehension the stream of famished immigrants coming into the City.

33. Even as far back as August 1896, previous to the appearance of a great number of famine-stricken people coming into the City by land over the Causeways, and by sea in coasting craft, I recommended that arrangements should be made to form as had been done in 1877 large camps for the detention of famished people.

To deal with Cholera or Fever in normal and abnormal seasons.

34. The Health Department has never had any difficulty in dealing with outbreaks of Cholera amongst the permanent population. But outbreaks of Cholera or Relapsing Fever amongst the famine-stricken immigrants are much more difficult to control than amongst the ordinary population, and require a totally different treatment. The measures applicable to the disease in one class are not applicable in the other. In the case of the ordinary resident population the disease is dealt with; in the case of the famine-stricken, the people have to be taken care of first, and the disease to be attended to afterwards. It has always to be remembered that, amongst the ill-fed, choleraic forms of disease assume a very fatal form.

35. There is only *one* way of preventing the spread of epidemic diseases amongst the famished, and that is by placing them in camps and feeding them. It is not sufficient to isolate the sick. Camps for the famished, and food.

36. Amongst the ill-fed in Bombay, famine types of diseases may always be expected in famine years. In this period there was also a large number of people in Bombay who, although they were *not* suffering from starvation, were ill and not in good health from poor food and wretched lodging. Famine years and types of disease.

37. In the middle of July, I asked Mr. Haffkine to examine bacteriologically cases of Cholera which I suspected to be cases of Plague. I also asked him to examine the water of tanks, and the mud from wet places in Byculla, where cases of Cholera were occurring. In July a serious increase in the mortality from Phthisis and Fevers, and diseases of the respiratory system was observed, and if the reports of the Plague Committee are accepted there was an extraordinary epidemic of Phthisis in which deaths occurred in two or three days. The disease was, I contended, Plague, and it indicates the difficulty of recognizing the types of Plague. I believed that an epidemic of Plague was coming, and that a great crisis was approaching. I had already expressed an opinion to this effect to the Commissioner, who had recognised the grave state of the public health, and brought it to the notice of the Standing Committee in July. The course of mortality from the middle of July indicates that Plague was epidemic, and that the disease was either not discovered or not recognized, and that deaths from Plague were concealed under other diseases. Examination of Cholera cases by Mr. Haffkine. High mortality in July from Phthisis and Fevers, &c. Course of mortality in July, August and September.

38. Although I did *not* think the water-supply had any influence on the prevalence of choleraic diseases at that season, in the Byculla district and other localities—for the cases were not concentrated, nor had the disease followed the distribution of the water-supply, nor the line of incidence which would have been expected, had the source of contagion been in the water-supply—yet, later in July, I asked Mr. Haffkine to examine the water-supply and the water of tanks and other places in the district; as at a time previously, the existence of a microbe in the water-supply—similar to the cholera bacillus, but in an attenuated form—had been known and had been under observation. The prevalence of Cholera and the water-supply. Mr. Haffkine's examination of the water.

39. Medical officers in Byculla were deputed to take instructions from Mr. Haffkine in the use of the prophylactic serum, and inoculators were appointed at the same period.

40. In the end of July, as Mr. Hankin had returned to Bombay, he was asked to make examinations of the water-supply. Mr. Hankin found a microbe which I had an opportunity of seeing in the Vehar supply—similar to the cholera bacillus of Koch. As it re-acted to the usual tests, it was decided to stop the water-supply from Examination of the water-supply by Mr. Hankin and results.

Vehar, and accordingly this measure was carried out. This precaution was absolutely necessary, considering the results of the bacteriological examination of the water I have just now referred to. Further examination demonstrated that the microbe possessed very little virulence, and it was considered safe to restore after a week the water-supply. Mr. Hankin gave me great assistance at this period, and he was always ready to help. In August microbes, similar to Koch's bacillus, but of a more virulent type than bacilli from any other locality, were detected by Mr. Hankin in the mud collected in Colaba. It was suggested to me that the mud of all the wet places in the Island should be disinfected; but, studying the seasonal incidence of Cholera in this Island, I came to the conclusion that the measure would not be necessary, and that the disease would follow the regular curve of mortality of former years and would disappear before disinfection could even be carried out. The incidence of the mortality falling heaviest on *one* area of the City, supplied with the same water as other areas, little or not affected and on the poorest in this area, seemed to me to indicate that the prevalence of cholera was not due to the disease in the water-supply. The high mortality occurred chiefly in the districts north of Kamathipura—in the wet districts.

Cholera mortality in certain areas not due to the water-supply.

41. By the end of July only one death from cholera had been recorded in Walkeshwar, 6 in Chuckla, and 8 in the Fort, North. The mortality followed the seasonal course of former years. It rose in July, and in the first week of August acquired its greatest incidence.

Cholera mortality by months and localities.

42. The mortality at this period fell heaviest on the poorest classes in the undrained districts of Byculla, Parel, and Mahim.

Cholera mortality by classes, districts and races.

43. If the mortality is arranged by classes, it will be observed that during the whole year, up to July, only—

1 death	occurred	amongst	Bhatias,
3 deaths	,,	,,	Europeans,
3 ,,	,,	,,	Jews,
14 ,,	,,	,,	Parsees, and
14 ,,	,,	,,	Brahmins.

44. The small number of deaths in these classes indicates the immunity from cholera of certain classes in this City, and it also indicates that the source of the disease could not have been in a water-supply used by all classes.

45. The large classes of the population amongst whom the highest mortality occurred were Hindu low-caste and Native Christians.

46. During the epidemic of cholera, diseases of choleraic type, as in the famine periods, were prevalent, not only in this Island, but all over this side of India. Choleraic types prevalent.

47. I would draw particular attention to the observation that, synchronous with the prevalence of cholera in this City, the disease was epidemic in the country around.

48. I have been asked, "What was the cause of the prevalence of cholera?" I replied, "The development of a specific microbe in the mud and wet places of the Island was the immediate cause. The remote causes were those conditions of which famine and high prices are the indications." The causes.

49. The high mortality in the monsoon and the unfavourable state of the public health were influenced by the destitution and high prices due to the prevalence of Plague. The mortality in the monsoon influenced by high prices of food.

50. A high mortality may be expected in any year in which famine and the abnormal phenomena, of which it is the indication, occur. Famine, high prices and general causes.

51. A portion of the local mortality was due to the imperfect sanitary conditions in one portion of the City in Byculla, and the districts East, West, and North; but the greater portion was due to Plague and the conditions inseparable from destitution. Local causes.

52. In the Report for 1896, I pointed out that the momentous event in that year, which overshadowed all other phenomena, was the appearance of Famine.

53. The City may give water and keep the public ways of the City clean, and do much else that is beneficial and sanitary, but the City cannot give food nor clothes to all the destitute, nor can the City give to each one—100,000 or more—who sleep on the damp ground, a bed to lie on.

54. In August the number of destitute people in the City attracted much attention and caused anxiety. On the 23rd of August, I organized a census of six chawls occupied by the poor, but not the poorest, in Byculla. An examination was made, and as many as 24·7 per cent. of the people living in these chawls were found to be unemployed. This indicated an immense amount of privation. The destitution at this period, and the diseased states that existed were indicated by the wage of 3 annas a day, eagerly accepted by the people who struggled here by road from a famine area as far off as Central A census of the poor in Byculla.

India. Even previous to the monsoon, some 40 per cent. of the people arriving by sea were classed by an observer as destitute and sickly.

Susceptibility of the famished and sick and poor to disease.

55. A year of famine provides helpless subjects for epidemics. If it were decided to select persons susceptible to epidemic diseases, no groups more susceptible or less resistant than the large number of people who trudged all the way from Central India by road, and who arrived here either ill or very weak, could be found.

56. Such was the state of many of the people, even before the rains, pinched in their resources and enfeebled in health, and their number swelled, as the year advanced, by destitute countrymen seeking employment and food.

Types of Plague. Difficulty of recognition.

57. The type of disease was frequently difficult of recognition. Cases were admitted into hospitals with symptoms like cholera, and after a time the choleraic symptoms disappeared and Plague developed. Other cases began with the symptoms of cholera, and afterwards fever of a relapsing type supervened, followed by Plague; and cases have occurred in which the type of disease could not be recognised.

Multiplicity of types.

58. The multiplicity of types in an epidemic of Plague has been commented upon from the earliest times.

59. Undoubtedly the prevalence of cholera contributed to the enhancement of the general mortality from the middle of July. The curve of seasonal mortality, which is very uniform, indicated this.

Wet districts and damp floors, the cause of many deaths.

60. Many deaths in the wet and ill-drained districts, and more especially in Byculla, were, I was informed, due to syncope, through people in ill-health sleeping on the wet ground. In the low-lying districts, the floors of the buildings are nearly as damp as the ground outside.

Kamathipura, Byculla and Parel described.

61. The localities most affected were Kamathipura and the districts immediately to the north—Byculla and Parel. These are the districts that are low-lying or undrained, and portions of them may be described as bogs, after heavy rain, when the sewage overflows from the open drains or ditches. In these districts the new roads, the new buildings, and the reclamation of the swamps or flats in Byculla, elevating the land across the natural line of drainage, have obstructed the flow of ground

water, and so raised in the low-lying localities the level of the subsoil waters which had flowed on to the swamp.

62. Few observe how easily the flow of the ground water may be obstructed, and how dangerous the results may be. I have known the raising of ground a *few* inches on *one* side of a dwelling house, which had been always dry, to render that side damp.

State of the low land, east and west of the railway at Mahalakshmi.

63. At this season any one who wishes to understand the influence of embankments and road-ways on the current of ground water, cannot do better than observe the state of the ground on the west and east of the line at Mahalakshmi. The state of the low-lying undrained districts may be seen by any one travelling in the train to the north of the island. Buildings in the low-lying districts where water overflows into pools in the monsoon must be surrounded with water. The low-lying ground in other portions of these districts is ankle-deep, or even deeper in sewage and water in the rains. Where there are open drains or open ditches, they overflow after rain on to the low-lying ground near them.

The Elphinstone Road drains.

64. At Elphinstone Road, excellent open drains have been constructed, and the abominable nuisances between groups of buildings in that locality have been removed. But the open drains only carry sewage a little further away to a hole, not far from a large mill. And yet, for the present, it is not practicable to do anything better.

Nuisance from want of drainage owing to rapid extension of the City.

65. Nearer the City, nuisances from imperfect drainage remain to pollute the soil and the air, and they must continue and be endured till the drainage of these districts is carried out.

66. The City has grown so rapidly that it has not been practicable to carry out works for the removal of the sewage and rain-water as quickly as buildings have been constructed, and allowance must be made for this. It has to be remembered that in the suburbs it has been impracticable to construct drains near new buildings as quickly as buildings have been erected.

Impracticability of constructing drains in the suburbs as quickly as buildings are erected.

67. Where but a few years ago there were solitary buildings in swamps, there are now towns or densely populated habitations, amidst which there are serious nuisances caused by pools of water or sewage in the rains. In some localities these nuisances cannot be removed through the system of drainage, for the reason that the buildings and the nuisance in the midst of them are on ground lower than the sewers.

68. To drain these localities the ground must be raised and the buildings demolished.

The nuisances in the Byculla district.

69. The conditions that existed at that period in the locality (Byculla) most affected were :—

(*a*) Flooded ground between buildings.

(*b*) Nuisances from the overflow of sewage and water on to the ground.

(*c*) Overcrowding and crowding of the destitute in insanitary positions.

And to these should be added the high prices of food ruling.

70. The local conditions were chiefly nuisances causing pollution of the soil and air.

Drainage, the only remedy for the nuisances described.

71. There is only one remedy to remove these conditions and to prevent the pollution therefrom, *viz.*, drainage, or the construction of sewers connected to the drainage system to carry away the sewage, and the construction of storm and subsoil drains to remove or pass away the ground or surface water.

The remedy. Drainage.

72. There is absolutely neither mystery nor doubt about the remedy to be applied. Wet land can only be made dry by drainage, either on the surface or under the ground.

73. It has been noticed that there has been more flooding in the north of the Island in the last 2 years than during any former period.

Increase in the flooding in the north of the Island.

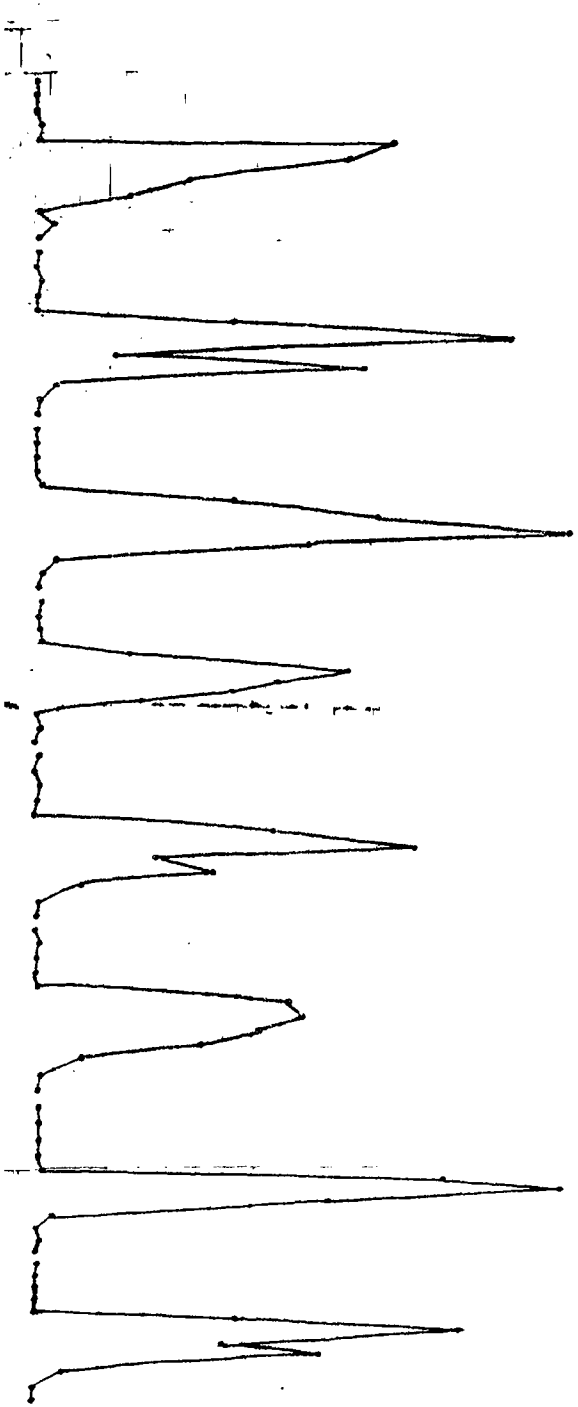
74. I ascribe it to (1) the increased obstruction to the flow of the ground water, caused by roads and the reclamations arising from new buildings ; (2) the increased water-supply and the abnormal distribution of the rainfall.

75. The rainfall during the last two years has been most unfavourable to health conditions, having been distributed over a shorter period than usual, and in consequence of the rain continuously falling the ground became saturated and sodden for a long time after the rains.

Treatment of Plague after appointment of the Plague Committee.

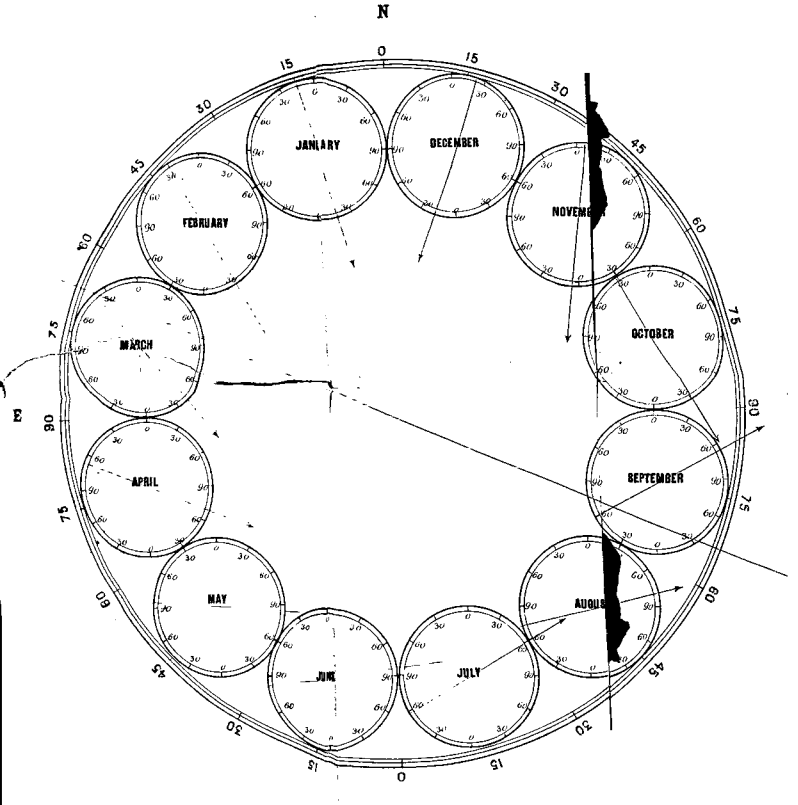
76. Practically, up to June, the same treatment of Plague as was followed by the Health Department was continued after the appointment of the Plague Committee. I have described this in the last Report, and reference is not now necessary to it.

77. Perhaps more attention was given to the removal of the patient to hospital, but less to the place infected and less to animals suffering from the disease ; more hospitals were opened in the City ; while the inspection of localities, building by building, was carried out. The inspection was supported by troops, but troops were not employed in inspection. I see that a statement has been made that troops were employed, but it is not correct.



MONTHLY AND YEARLY MEAN DIRECTION OF WIND.

1897.



78. The measures that are of value continued to be taken, *i.e.*, the individual was dealt with and the place where he resided.

Health Officer's recommendations as to converting rain water channels and ditches into open drains.

79. I attach great importance to a recommendation I have made before as to the necessity of converting all the open side drains, ditches and gullies throughout the Island into open drains provided with flushing tanks. This measure would effect a great improvement and remove numerous causes of soil and air pollution and drive rats away.

Registration of deaths.

80. It is not necessary for me to make many remarks on the importance of improvement in the system established by law for the registration of deaths in this City. That the law should be altered, if there is to be any improvement, there can be no doubt. There seemed to be an impression that information of the cause of death could be obtained by some alteration in the organisation of the system of registration, amongst a population, not 10 per cent. of whom are at any time attended professionally, at a time above all others, when *not one* per cent. of the people who died were attended by medical men—when the population had ceased to call in medical aid.

First steps towards correct registration.

81. People who discuss the registration of deaths do not seem to consider that the first steps towards correct registration are: —

(1) The notification of disease.

(2) The attendance of medical men on the sick.

(3) The diagnosis of disease during life or the recognition of it after death.

Popular ideas about death registration.

82. There has been a popular idea that by some mysterious system of registration the cause of death of people, who had never been attended by medical men during life, could be ascertained *after* death, without even an external medical examination of the dead body. The sooner this delusion is dispelled, the better; and it cannot be too soon understood that only by either the treatment of the living while sick or the examination of bodies after death can the registration of deaths be improved. Registration is but the concluding act in the record of death causes.

Amendment of the Law.

83. The Commissioner submitted a scheme which, I think, undoubtedly would effect a very great improvement in the registration of deaths in this City, in which at all times only a small proportion of the population is attended in illness by medical men; and during this epidemic when, as I have already stated, the people almost ceased to call in medical aid.

Further steps towards correct registration.

84. I would state briefly the steps towards correct registration of deaths that ought to be adopted :—

(1) Registration of Medical Practitioners.

(2) Medical dispensaries for the treatment of the poor in each section.

(3) The alteration of the law in respect of the registration of deaths on the lines suggested.

85. The first two steps to be taken are :—

(1) Registration of medical men.

(2) Medical relief.

Unless these two steps are taken there can be no real advance in registration of death causes.

Mortality from Plague by class.

86. In estimating the distribution of the mortality from Plague by class, it has to be remembered that the mortality in some classes cannot be accepted as correct. Not only has concealment of cases to be calculated on, but imperfect recognition of the disease.

87. The lowest mortality occurred amongst *Europeans*—20 deaths were registered. As far as the European mortality is concerned, it may be taken as correct. The mortality from *Plague* amongst Europeans raised slightly the total death-rate in the community.

88. The next lowest mortality occurred amongst *Musalman*—5·4 per 1,000. This cannot be accepted as correct, though the Musalman population suffered *less* than many other classes. Apart altogether from concealment, there is a margin that must be left for imperfect recognition of the disease, as only a small proportion of the Musalman sick were attended by medical men.

89. The mortality amongst *Jews* was as low as 5·9 per 1,000.

90. *Bhattias* had a registered mortality of only 7 per 1,000, but this cannot be considered as correct, though Bhattias did not suffer so much as other allied communities.

91. The mortality of *Brahmins* is also low, but the total mortality in the Brahmin population is only 38 per 1,000; evidently a large number of cases of Plague amongst Brahmins did not escape detection. It is remarkable this low mortality amongst Brahmins.

92. Amongst *Eurasians*, allowance has also to be made for imperfect recognition of the disease.

93. The highest mortality occurred in the *Hindu low-caste* population, and also probably the least recognition of cases.

94. If we take the *Parsee* community, the Plague mortality was 7·52 per 1,000. If this is deducted from the total mortality, it gives a mortality of 25, so that the increase in the mortality of the Parsee

community is very nearly accounted for by the mortality from Plague. There could not, as would be expected, have been any great concealment of cases.

95. Up to the commencement of the work of the Plague Committee on the 1st of April, the difficulty, I would again repeat, was to obtain recognition of the disease, to secure correct diagnosis.

Low mortality amongst Europeans.

96. If we take the principal classes, in only one, namely, Europeans, is the mortality from all causes less than in 1896. The enhancement varies from 4·51 amongst Parsees to 19·76 amongst Musalmans.

Mortality from Plague by classes, habitations, and districts.

97. Notwithstanding the high mortality of the year, the European mortality is lower than in many previous years, as will be seen from a table following. This is remarkable. The low mortality in the European population is very remarkable, for Europeans not only did not flee the City at any time, but many of them approached the disease, and exposed themselves to contagion in aid of the sick.

TABLE SHOWING THE TOTAL NUMBER OF DEATHS AND THE RATE OF MORTALITY IN THE FOLLOWING CLASSES SINCE 1877 :—

Years.	Total No. of Deaths in the City.	Brahmins.	Parsees.	Europeans.	Musalman.	REMARKS.
1877...	33,511	29·93	23·04	30·33	45·26	
1878...	26,999	31·83	24·99	31·98	49·12

1897	32·61	18·77	

Mortality from Plague by class.

98. The mortality by *class* has fluctuated between 23·9 per 1,000 amongst Hindu low-caste, 5·4 amongst Musalman, and 1·7 per 1,000 amongst Europeans.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY CLASSES IN 1897.

Classes.	Population by Census of 1891.	Number of Deaths.	Death rate per 1,000 of Population.
Jains	25,225	373	14·78
Brahmins	37,982	397	10·45
Lingaets	784	26	33·16
Bhatias	7,891	59	7·47
Hindus of other castes	451,465	7,172	15·88
Hindus, low-caste	45,169	1,084	23·99
Musalman	155,101	846	5·45
Parsees	47,458	357	7·52
Jews	5,021	30	5·97
Native Christians	29,712	580	19·52
Eurasians	4,330	42	9·69
Europeans	11,290	20	1·77
Negro-Africans	146	4	27·39
Buddhists	190	.....	.....
Other and unknown castes	.....	13	.....
Total ...	821,764	11,003	13·39

99. The mortality by *habitations* indicates the influence of ventilation in giving protection against the disease, for it has generally been lowest in the highest rooms of the highest buildings. Mortality influenced by room ventilation.

100. The distribution of mortality by *districts* discloses an extraordinarily low mortality in one district—the Fort, South. In this district in 1896 the total mortality from all causes did not exceed 5·31, and in 1897 it was not more than 8·85; and yet round this district a cordon was not placed, nor were any measures taken that were not carried out in other districts.

101. The recurrence of the disease by *houses* is most interesting. In those buildings from which the downtake pipes were removed and disinfected, and, if they were imperfect, replaced, and open drains constructed in the house gullies properly connected to the sewers, the disease has not greatly revived. Mortality from Plague by buildings. Recurrence in buildings.

102. I take two buildings, both on Mandvi Bunder. In one building in 1896, 19 cases occurred, in the following year 7 cases, and in 1898 2 cases.

103. I take another building on the other side of the bridge. In 1896 as many as 17 cases occurred, in 1897 only 2, and in 1898 but 1.

104. The mortality from Plague by sex and age indicates that the disease has been *most* fatal to *males*, and most fatal *after* adolescence had been reached. In both sexes there is a remarkable ascent in the mortality about the 10th year of age. Mortality from Plague by age, sex and class.

105. Amongst males the most fatal period was between 35 and 40 years of age, and amongst females in the early years of puberty and later life.

106. It may be said that under five years of age the recognition of the disease is more difficult and the malady more rapidly fatal than at advanced periods. Hence the *true* mortality in childhood is *not* known, nor the incidence of the disease at different periods of life indicated by the statistics.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE AT DIFFERENT PERIODS OF LIFE IN 1897.

Ages.	Males.			Females.			Persons.		
	Population.	No. of Deaths.	Death-rate per 1,000 of Population.	Population.	No. of Deaths.	Death-rate per 1,000 of Population.	Population.	No. of Deaths.	Death-rate per 1,000 of Population.

November	378	254	67·1
December	924	643	69·5
Total ...	13,314	11,003	2·6

108. It will be observed that the virulence of the disease varied with the number of cases.

109. The mortality was highest with the greatest intensity of the disease towards the end of January and the beginning of February.

110. The number of cases decreased through March, April, May and June, till the minimum of 42 was reached in July.

111. From the middle of July the mortality commenced to increase, and continued with fluctuations to increase till the end of the year, rapidly rising in December into an epidemic fatality.

112. The proportion of deaths to cases by dwellings is most interesting. Proportion of deaths to cases by dwellings and floors.

TABLE SHOWING THE PROPORTION OF DEATHS TO ATTACKS FROM PLAGUE IN ALL WARDS AND THE WATER DIVISION, FROM JANUARY TO DECEMBER 1897.

Wards.	Ground Floor.	First Floor	Second Floor.	Third Floor.	Fourth Floor.	Fifth Floor.	Harbour.	Road side.	Unknown.	Total.

Total ..	84·7	75·5	67·8	59·7	48·1	45·4	84·6	62·2	100·0	82·6
Total last year ...	74·7	79·0	76·5	66·1	59·0	66·6	.....	96·3 / 85·1		76·1

This mortality in dwellings illustrates the influence of ventilation on the disease.

113. The chances of recovery progressively increased from the *first* floor upwards; from 84 per cent. on the ground floor to 45 per cent. on the fifth floor the mortality decreased; and even the people picked up on the road side, destitute though they may have been, had a better chance of recovery than those living on the ground floor.

114. The proportion of mortality to the height of residence indicates the great influence of exposure to the air in preventing the spread of the disease.

115. It will be observed that in *all* the wards there is the same progressive decrease in the fatality with the height of buildings. Progressive and general decrease in Plague fatality with the height of building.

A WARD.

Parel	200·83	9th February.
Sewri	274·45	12th January.
Sion	214·88	30th March.
Mahim	354·06	2nd Do.
Worli	173·38	19th January.

116. It is an interesting fact that the number of persons found on the road-sides decreased progressively from January up to December, in which month, with the development of the epidemic, the number commenced to increase. Cases on the road-sides.

117. In another portion of this report I have referred to the influence of house-drainage in preventing the recrudescence of Plague. At first I thought the effect of drainage was due to the improvement of the general sanitary condition of buildings, but I have now come to the conclusion that it is dependent on the closing of rat-holes and the demolition of the homes of the rats. Where Plague recurs frequently, it is, I believe, due to there being favourable hiding and feeding places for the animals. Influence of house drainage on Plague not due to the improvement of the general sanitary condition of buildings but to the closing of rat-holes, &c.

118. If it were practicable through any public agency to carry out house-drainage, to remove and clean all down-take pipes, to construct and repair all house drains and gullies, it would have a great influence on the recrudescence of Plague.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM PLAGUE BY SECTIONS IN 1978.

Sections of highest and lowest *Plague* mortality, with explanations thereof.

119. It is a remarkable fact that the highest mortality from Plague occurred in the sections to the north and south of the Island.

120. To the north the highest mortality occurred in the sections north of a line running through Grant Road, and to the south in the suburbs of Colaba.

A higher mortality in Suburbs than in City.

121. A lower mortality occurred from Plague in the surface crowded portions of the City than in the suburbs. The explanation, I believe, is ventilation : the chawls in which the poor classes live have often a gully on one side, and into this gully windows open. In consequence of this there is more air circulation in the rooms in which they live even in chawls than in the central and dark rooms in the old-shaped buildings in the suburbs, although these buildings may be in the fields or surrounded by open spaces.

Rats and their Agency in spreading Plague.

122. The knowledge that *rats* are carriers of the disease is widespread, and is now being practically made use of by people who never had cats before, but who now keep and feed *cats*. (In the houses of people who never kept cats before, cats may now be seen, and even people who had a dislike to the animals may now be seen putting out food for them).

123. The experience of last year has been repeated. Cases have generally been preceded by the disease among rats. In a building in Matharpacady, in which dead rats were found, 7 cases of Plague occurred.

124. In Khetwady several cases of Plague happened in February after dead cats and rats had been found. We had in one office an interesting instance of *cats* suffering : 2 were affected and 1 died.

125. At Chikalpada chawl, Byculla, mostly inhabited by Musalman weavers, a number of rats were found dead and dying in the first week of February, and on the 4th of the same month a fatal case of Plague occurred in the compound of the Government Medical Stores followed by others in the locality.

126. Dead or dying rats were also found at Bhoiwada, in one of the Assessment Ward Offices, in the Government Telegraph Office, on Nowrojee Hill, and in the stables adjoining Messrs. Sassoon & Co.'s premises, Fort.

127. In a chawl at the junction of Falkland Road and Pathan Street, 4 cases of Plague occurred in August. Before these cases occurred, some 30 dead rats had been found.

128. Dr. Gimi, in a note on the mortality amongst rats preceding cases of Plague, states that about the middle of January 1898, in Popatwadi, Girgaum Road, and Marine Street, dead and dying rats were found, and that cases of Plague occurred a few days afterwards. He also noticed that up to the above date the mortality in Dhobi Talao

Section ranged from 3 to 5 deaths a day (including 1 or 2 deaths from Plague), but within a *week* after the appearance of sick rats, the cases of Plague increased from 8 to 13 a day for a week.

129. Dr. Godinho also submitted a note on the infection from rats, their routes of migration, and the mortality following on their appearance in houses in Dukargally, chiefly Burrow's Lane and Khoja Street, during January, February and March 1898. His observations showed that the rats travelled from south to north and from east to west, seldom or ever the contrary points, and that they infected one side of a street first, and then the other, before departure.

Treatment of Plague—Segregation.

130. In the report on Plague in 1896 I held that the treatment of the sick might be modified according to (*a*) the type of the disease, and (*b*) the ventilation of buildings. I believe the correctness of this view has been established by experience. I can see no reason why patients ill from Plague should not be treated inside the verandahs of buildings when the verandahs are wide and look on to open spaces ; *or why in the fair weather, when there is open space outside buildings, awnings should not be put up and patients allowed to be placed under them.* There is no use in evading the fact that the patients would be better placed for themselves and of no more danger to others under these conditions than in many private hospitals.

Inoculation.

131. I have contended since 1896 that every effort should be made to encourage the people to submit to inoculation with Mr. Haffkine's prophylactic serum, and that measures should be taken to make use of inoculation against Plague in the same way as measures are adopted to carry out vaccination against small-pox.

A weapon to be used.

132. There was before the end of the year serum ready for 100,000 people, and I was strongly of opinion that while all the sanitary measures, adopted from the beginning, should continue to be enforced, inoculation should be used as an additional weapon to protect the population. It is a weapon ready to hand and should be used with every other weapon at hand to resist the pest. Such was my opinion. The sole encouragement of inoculation has from the first come from the Municipality—the credit of supporting it when it was discouraged is due to us.

Mortality from Plague in the Grant Road, Arthur Road and E. G. Hospitals.

133. It will be observed that the mortality in the two Municipal Hospitals was almost the same.

134. In Grant Road Hospital the percentage of deaths to cases was 67·4, and in Arthur Road Hospital the mortality was 67·87 per cent. The average mortality to be expected amongst the Hindu population generally, under the most favourable conditions of treatment, may be taken at about these results.

Mortality by classes.

135. Amongst some classes, as Europeans, the mortality may be lower : for instance, in the European General Hospital the mortality was 35·2.

Mortality from all causes.

136. When the mortality from all causes is examined in the large and important classes of population, living more or less together, it will be observed that it is highest amongst Hindoo low-class, as this group of communities is classified ; being as much as 103 per 1,000. In one class, namely Europeans, it is normal. After Europeans the mortality ascends through the Parsee and Brahmin communities, and reaches 42 per 1,000 amongst Eurasians and 44 per 1,000 amongst Jews. Jews are therefore in this city more susceptible to this and other diseases than Europeans. The cause is simply this—there is a large number of very poor Jews in Bombay and a large immigration of destitute Jews every year.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM ALL CAUSES BY CLASSES IN 1897.

Total mortality by months.

137. The mortality by *months* shows that the Plague epidemic had commenced to *wane* in January. In that month 7,518 deaths were registered; in February the mortality fell to 6,860, and continued to fall till the minimum mortality was reached in June. In July the

mortality rose to 2,989, and in August it ascended still higher, for 3,924 deaths were registered. Through September, October and November the mortality decreased, till in November 2,840 deaths were registered; but in December, when the recrudescence assumed an epidemic character, there was a great rise in the mortality, and as many as 3,615 deaths were registered in this month.

138. There were, therefore, *three* distinct periods of epidemic intensity during the year :—

1. In January.
2. „ August.
3. „ December.

STATEMENT SHOWING THE NUMBER OF DEATHS FROM ALL CAUSES BY MONTHS IN 1896 AND 1897.

Months.	No. of Deaths from all causes, exclusive of still-born, in 1896.	No. of Deaths from all causes, exclusive of still-born, in 1897.
January	2,171	7,518
February	2,253	6,360
March	2,534	5,336
April	2,565	3,528
May	2,427	2,353
June	2,029	2,208
July	2,299	2,989
August	2,669	3,924
September	2,616	3,476
October	2,868	3,249
November	2,889	2,840
December	6,131	3,615
Total	33,451	47,896

139. The incidence of the mortality by place of birth shows that during this year of pestilence the people born *in* Bombay suffered much *less* than strangers. While the deaths amongst people born in Bombay were only 2,554 more than in 1896, the mortality among strangers was as much as 10,997 higher than in that year. Mortality by place of birth.

140. The average number of deaths among people born in Bombay is 12,607, and amongst strangers 12,924. It will therefore be seen that the mortality in this year, if classified according to place of birth,

is in *excess* of the average by 3,584 deaths among persons born in Bombay, and 17,655 *deaths among strangers.*

141. In short, the mortality among strangers has been more than *double.* The reason of the lower mortality amongst the population born in Bombay is, as in the case of Europeans, better dwellings.

TABLE SHOWING THE NUMBER OF DEATHS, EXCLUSIVE OF STILL-BORN, ACCORDING TO PLACE OF BIRTH IN 1897.

Months.	Bombay.	Elsewhere.	Unknown.	Total.
January	2,497	4,963	58	7,518
February	2,239	4,522	99	6,860
March	1,769	3,455	112	5,336

September	1,059	2,325	92	3,476
October	1,059	2,110	80	3,249
November	936	1,815	89	2,840
December...	1,082	2,384	149	3,615
Total ...	16,191	30,579	1,126	47,896

Mortality amongst people born in Bombay.

142. The influence of the Plague epidemic on the health of people born in Bombay is well shown in the incidence of the mortality by months. The mortality among people born in Bombay rose in January to 2,497, and fell in May and June to the normal level. The recrudescence in July and August is shown in the higher mortality amongst people born in Bombay in these months; but after August the mortality till December did *not* rise much amongst them.

The three chief death causes.

143. The highest mortality from any one death cause is referred to Plague, being 13·3 per 1,000. The three chief death causes that contributed to the high mortality are:—

1. Plague.
2. Diseases of the Respiratory System.
3. Fevers.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM THE PRINCIPAL CAUSES DURING 1897.

Cause of Death.	No. of Deaths.	Death-rate per 1,000 of population.
Small-pox	57	·07
Measles	359	·44
Fevers...	6,951	8·46
Cholera	1,265	1·54
Phthisis	5,927	7·21
Plague...	11,003	13·39
Diseases of the Nervous System	2,141	2·60
Do. do. Respiratory System	7,857	9·56
Diarrhœa	1,869	2·27
Dysentery	1,682	2·05
Accidents	520	·63
Other and unknown causes...	8,265	10·06
Total ...	47,896	58·28

144. Amongst death causes that contributed to increase the mortality, it will be observed, are deaths from old age or debility; 3,206 deaths were referred to these causes, being as many as 782 above the average. *Death causes*

145. In a year when the calamity of pestilence fell on a population already tried by famine, and the thoughts of the people were to escape the dread scourge, it might have been hoped that fewer human beings would give thought to destroying one another, or to injuring themselves; and it might have been expected that fewer persons would have endangered their own lives or undertaken enterprises of risk. And it was so in one respect, for the deaths due to poisoning are 23 *below* the average; but the deaths due to injuries are 107 *above* the average.

146. It is a suggestive fact that, if a line is drawn along Grant Road, the highest mortality occurred to the *north* of this line, commencing on the east; the sections of the highest mortality being immediately to the north of the line, *i.e.*, 2nd Nagpada and Kamathipura. While the third section of the line is Tardeo, in which the mortality was 79·71. Further north still, to the immediate north of Nagpada, is Byculla, with a mortality of 80·71; and further on Parel, with the fourth highest mortality. *Highest and lowest general mortality by sections.*

147. And the sections to the south of the line are localities of very high mortality—Khara Talao with a mortality of 64 and Kumbharwada with a mortality of 58.

148. To the south of these sections and the south of this line the mortality declines; for immediately further south is the Market, with a mortality as low as 27; and further south, the Esplanade, a section in which the mortality fell to 16. But further south still, the mortality in the Fort North rises to 34; and further south still, in Middle Colaba, to 48.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM ALL CAUSES BY SECTIONS IN 1897.

The mortality of crowded districts *less* than that of the suburbs.

149. It is a most interesting fact that in some of the *most crowded* portions of the central portions of the City the mortality in this year of Plague and of panic was comparatively *low*.

150. In the *sparsely* populated districts in the suburbs, the mortality has been *higher* than in densely populated localities, such as the Market and the Fort North.

151. This may partly be explained by the *migration* of the people in 1896-97 *from* the City to the suburbs in the north of the Island.

1897

152. A very great movement of population did take place to the northern suburbs, and the disease did not follow that migration as I pointed out in the Report for 1896.

153. It is also interesting to observe that the mortality in Chaupati for the *whole* year is *lower* than on the favourite hills of Walkeshwar and Mahalakshmi ; and Chaupati extends to the bottom of these hills !

Comparison between chawls in the City and buildings in the suburbs.

154. The old-fashioned building of the suburbs, though it may be in a field, has a number of dark rooms with *less* ventilation than the rooms in the *immense* chawls in the City. Even in the *military* lines on the Esplanade we saw done what the people are doing in the suburbs—verandahs carried out far and so low that the inner rooms were left *without* wholesome light and air. And so it is, although there may be open space around the old-fashioned buildings in the suburbs, there are *inner* rooms in darkness, into which the light from outside *cannot* enter, nor the air freely pass.

Mortality from small-pox.

155. During this year the mortality from small-pox has been very small. 57 deaths were registered, being 644 less than in 1896 and 392 less than the average.

Mortality from small-pox in classes.

156. The mortality was distributed among classes as follows :—

25 deaths in the mass of the Hindoo population.
17 deaths amongst low-caste Hindoos.
14 deaths amongst Mussalman.
1 death amongst Brahmins.

There were *no* deaths from small-pox in *other* classes.

Mortality from Small-pox by sections, age and sex.

157. Small as the mortality from small-pox was, the incidence was distributed by sections, as in 1896, when the disease was epidemic. It fell heaviest on the most insanitary and most undrained districts. The greatest number of deaths were registered in the Nagpadas.

158. The mortality from small-pox fell heaviest on females, as in previous years, and in the earliest periods of life.

Mortality from Fevers.

165. As the mortality from Plague decreased, the mortality from fevers generally declined.

166. All through this monsoon, in July, August and September, there was a serious increase in the mortality from fevers, concurrently with the prevalence of cholera. In July the mortality from fevers rose to 457, in August to 593, and in September to 567. Through October and November the fever mortality declined to 422 and 324, to again increase in December.

167. The mortality from fevers generally decreased greatly in February. In January, 1,836 deaths were registered from fevers, while in February the number fell to 1,006.

Conjectures as to high Fever mortality in January, etc.

168. It was conjectured that the high mortality in January from fevers was due to deaths from Plague, being included in the general fever mortality. If this occurred in January, it must also have occurred in February.

169. Against this belief is the fact that, after the operations of the Plague Committee commenced, and when concealment of plague cases became more general, the mortality from fevers did not rise.

TABLE SHOWING THE NUMBER OF DEATHS IN 1897 FROM FEVERS BY MONTHS.

Months.	Number of Deaths from Fevers.
January	1,836
February	1,006
March	572
April	283
May	225
June	293
July	457
August	593
September	567
October	422
November	324
December	373
Total	6,951

Mortality from Fevers by classes.

170. The decrease in February in the mortality from fevers occurred amongst all classes except Parsees; and in this class the mortality slightly rose, to be followed by a great decline in March. Again in July the number of deaths from fevers commenced to increase with the rise in the general mortality. The mortality from fevers registered amongst Parsees was exceptionally low, being 2·7. It seems to me that this clearly shows that in the Parsee community deaths from Plague could not have been largely referred to fevers generally. Throughout the monsoon the mortality from fevers amongst Europeans was higher than in the epidemic period of Plague.

Mortality from Fevers less than in 1896.

171. Compared with 1896 the mortality from Fevers was lower in all classes.

172. It is a curious fact that the mortality from fevers amongst Brahmins was below the average.

173. Amongst the Hindu population generally the mortality in 1897 was less than in 1896, and very nearly normal.

174. 6,951 deaths were registered from Fevers, being 1,825 less than in the last year and 95 less than the average. Of the deaths from Fevers, 5,904 were referred to Remittent Fever, being 1,389 less than in the last year but 155 more than the average. 789 were ascribed to simple continued Fever, being 378 less than in the last year and 178 less than the average. 225 were due to Ague, being 55 less than in the last year and 78 less than the average. 33 were referred to Enteric Fever, being 3 less than in the last year but 6 more than the average.

Mortality from Fevers in certain districts and causes thereof.

175. The highest mortality from fevers occurred in Parel, Sewri, Kamathipura, 2nd Nagpada, Byculla and Tardeo. The high mortality from fevers in these districts may be ascribed to imperfect recognition of Plague. Yet in suburbs, such as Parel, Sewri and Mahim, the discovery of concealed cases was comparatively easy. I ascribe it rather to difficulty of recognition of the disease during life, and neglect of medical assistance.

176. It will be observed that in some of the most crowded localities, as the Market, where concealment of cases is very easy, the mortality from fevers was lower than in the suburbs.

TABLE SHOWING THE NUMBER OF DEATHS AND THE DEATH-RATE FROM FEVERS BY SECTIONS IN 1897.

178. During the rainy season a serious recrudescence of cholera, which has been already described, occurred. 1,265 deaths were registered, being 775 more than in 1896 and 1,001 above the average. Mortality from Cholera in the rains and other seasons.

179. From April to August the mortality progressively increased.

180. Arranged by months, the incidence of the mortality takes the same line as in 1896. There is a marked increase in July, rising to a maximum in the beginning of August.

7,231	13,314	879	1,480

182. The explanation I believe, is, that;—which I offered last year: the development of cholera germs in the muddy or damp ground around or in dwellings, and the greater exposure of people sleeping on the ground floor to them.

183. In all 1,480 cases were reported, 1,265 of which proved fatal.

Mortality from Cholera in the suburbs.

184. I have already drawn attention to the fact that the mortality from cholera has been highest in the suburbs to the north and south.

Unknown...	8	8	100·00

TABLE SHOWING THE NUMBER OF ATTACKS AND DEATHS FROM CHOLERA ACCORDING TO PLACE OF BIRTH IN 1897.

Birth-place.	Cases.		
	Attacks.	Deaths.	Percentage of Deaths to Attacks.
Bombay	248	196	79·03
Elsewhere	1,232	1,069	86·77

Mortality from Cholera by place of birth.

192. The mortality amongst the permanent population was over 7 per cent. lower than amongst immigrants. The mortality according to place of birth, both last year and this year, shows that a permanent population live under conditions much more favourable than the masses who come here to sojourn and labour can hope for.

Phthisis.

193. 5,927 deaths were registered from phthisis, being 1,118 more than in 1896 and 2,153 over the average. The mortality from phthisis follows nearly the same incidence as in former years. It has in each year pointed to the great loss of life caused through seclusion in crowded and ill-ventilated dwellings. The female mortality has been more than double the male, and this loss of life falls on Musalman and high class Hindus. Even amongst poor Hindus, notwithstanding the laborious lives the women live and the privations they have to endure, the mortality is relatively low—under 6 per 1,000.

High mortality amongst women.

194. The *sections* of highest mortality from phthisis are the most overcrowded and ill-ventilated sections of the City. The sections of ill-repute are 2nd Nagpada, Umarkhadi, Chakla, Bhuleshwar, Khara Talao and Kamathipura ; and they have always been sections of the highest mortality, and not one of them has any open space for ventilation and recreation. The mortality from phthisis also indicates that the death registration in 1896 was not so defective as in 1897, exactly the same sections are sections of high mortality in 1897 as in 1896. It was contended in 1896 that, under the mortality from phthisis were registered a number of deaths from Plague. But judging from the statistics of 1897, it does not seem to have occurred to any large extent, nor does the error from this cause appear to have been so serious as was apprehended.

Mortality from Phthisis.

195. The mortality from *phthisis* in 1897 must be viewed with considerable suspicion, as there is little doubt that the enhancement of the phthisical mortality was due to either cases of Plague being mistaken for *phthisis*, or to the concealment of Plague, under this cause. The total mortality—5,927,—is 1,118 higher than in 1896. The distribution of the mortality by *sex* shows that it is 1·39 higher amongst males and 1·31 higher amongst females than in that year.

196. The highest mortality by ages is recorded as life advanced, being highest in the later periods.

197. 7,857 deaths from diseases of the respiratory system, being 2,523 more than in 1896 and 2,970 more than the average, were registered.

198. Of these deaths from diseases of the respiratory system, 4,830 were referred to bronchitis, being 1,809 more than in the last year and 1,893 more than the average, and 1,332 were referred to pneumonia, being 258 less than in the last year but 41 more than the average. The mortality from diseases of the respiratory system was *highest* in 2nd Nagpada, Kharatalao, Kamathipura, Umarkhadi, Chukla and Dongri. These are also the sections of highest mortality from phthisis All these sections have great density of buildings and an overcrowded population.

Mortality from diseases of the Respiratory system.

Mortality from diseases of the Digestive System.

199. The mortality from diseases of the digestive system has been 1,563 more than in 1896 and 1,985 more than the average.

200. The mortality from diseases of the digestive system has been in excess of the last year and of the average. The high mortality from diseases of the digestive system was due to the prevalence of Plague in the monsoon, and to deaths from that disease not being recognised, or referred to choleraic affections. 4,668 deaths were referred to diseases of the digestive system. Of this mortality 1,869 were ascribed to diarrhœa, being 256 more than in 1896 and 520 above the average. 1,682 deaths were registered from dysentery, being as many as 945 more than in 1896 and 1,025 in excess of the average. To all other diseases of the digestive system 1,117 deaths were referred, being 362 more than in 1896, and 440 more than the average.

Mortality from different causes.

201. From diseases of the *nervous system* 2,141 deaths were registered, being 131 less than in 1896 and 85 less than the average.

202. To diseases of the *circulatory system* 233 deaths were referred, being 56 more than in 1896 and 57 above the average.

203. From diseases of the *urinary system* 135 deaths were registered, being 51 more than in 1896 and 51 more than the average.

204. To the *generative system* 530 deaths were referred, being 160 more than in 1896 and 255 more than the average.

205. To diseases of the organs of *locomotion and cellular tissue* 161 deaths were registered, being 33 more than in 1896 and 65 more than the average.

206. From affections of the *cutaneous system* 64 deaths were registered, being 37 more than in 1896 and 34 more than the average.

207. To *dropsy* 195 deaths were referred, being 93 more than in 1896 and 66 more than the average.

208. From *leprosy* 63 deaths were registered, being 9 more than in 1896 and 14 more than the average.

209. To *whooping cough* 231 deaths were referred, being 57 more than in 1896.

210. From diseases of the *eye*, *ear* and *nose* 15 deaths were registered.

211. To *old age or debility* 3,206 deaths were ascribed. We might

expect at this time, when famine and pestilence prevailed, a great increase in the deaths referred to old age or debility ; and, as will be observed, the mortality referred to these causes is 442 more than in 1896.

212. The number of *premature births* is 10 less than in 1896 and 9 less than the average.

213. There is an increase in the mortality from *accidents* and *violence*. 520 were registered, being 33 more than in 1896 and 78 more than the average.

214. The class of general injuries account for 253 deaths, and local injuries for 137.

Removal of kutchra or refuse.

215. The works on the ' Flats ' for the removal of the refuse outside the Island have been commenced. I recommended a position at some distance from the Railway line for the *tipping* station, or the point at which the refuse will be tilted into Railway trucks from the carts conveying it from the City to the ' Flats,' as I was apprehensive that the position selected for a *tipping* station near the Railway line might be a nuisance at times. The position was changed and removed away from the Railway line. The change of position added to the expenditure, but it prevented a nuisance. The removal of the refuse outside the Island is a most important measure, and likely to have a very favourable influence on the health of the Island.

Progress in 1897.

216. One great danger to the public health will be removed with the removal of the refuse. This is one of many important works being carried out during the year. Notwithstanding the epidemic of Plague, progress has been made in the construction of open drains and house connections. Some excellent house connections have been made in Parel and other localities and during the next year great progress may be expected in the abatement of nuisances caused by absence of connections between buildings and sewers or by the absence of drains. The year has been one of distinct progress in house sanitation. Great improvements have been effected in house drainage, and great improvements in house ventilation.

217. From the table following showing the number of cart-loads of refuse incinerated, it will be observed that very large use was made of the Incinerator during this year. The Incinerator was extremely useful for the combustion of refuse from the infected localities of Mandvi. 37,057 cart-loads, or say, some 18,000 tons, were burnt. The experience of this year has shown to us how valuable an Incinerator may be.

Burning of refuse.

218. Large quantities of refuse were also burnt in the small Incinerator in Kamathipura, and on the streets and in open spaces, wherever it was possible. During the fair season dry refuse ought to be burnt either on the streets where it can be done, or on any open pieces of ground.

Births.

219. 9,336 living and 1,368 still-born births were registered, being 6,554 less than in the last year. Of the living births 4,903 were males and 4,433 females. The proportion of males to females by the census of 1891 was as 170·60 to 100, and, assuming that there were 100 females to 100 males, the birth-rate would be equal to 19·38 per 1,000 of population.

TABLE SHOWING THE NUMBER OF BIRTHS AND THE BIRTH-RATE IN EACH SECTION IN 1897.

220. The total ordinary expenditure on the Health Department came to Rs. 14,16,347-3-4, while the income amounted to Rs. 8,29,721-0-1. The actual cost of the Health Department to the Municipality was therefore Rs. 5,86,626-3-3. In addition to this an extraordinary expenditure, which amounted to Rs. 5,97,002-2-8, was incurred during the year on account of special sanitary measures necessary to deal with the outbreak of Plague.

221. On an average 4,505·9 men and women and 1,016·0 scavengering and drain carts and 208·66 night-soil and cess-pool carts were at work.

222. The collection of garbage or kutchra is more than in the previous year by 212·97 tons per day; 404,284·88 tons of garbage, equal to 1,107·63 tons a day, were collected and removed and disposed of against 326,552·20 tons in 1896. The Health Department had to remove an enormous amount of grain refuse and other materials condemned during the Plague operations.

223. 156,057·09 tons of night-soil and cesspool matter, equal to 427·55 tons a day, were collected and removed against 160,670·30 in 1896.

224. 173·6 miles of covered drains were opened and cleaned against 191·6 in 1896.

225. 5,077 notices and 2,489 summonses were issued against 5,507 notices and 2,650 summonses in 1896.

226. The amount of fines recovered amounted to Rs. 2,546 against Rs. 2,287 in 1896.

227. 637 building plans were received and disposed of against 1,028 in 1896.

228. For the use of the public Dhobiwada Rs. 16,672 were recovered against Rs. 16,985 in 1896.

1897—The work accomplished.

229. In the table following will be found a record of the most important work done during the year 1897. The work of the department proceeded with the utmost regularity during the whole of this year of pestilence and famine. Not once was it interrupted, while all other business was either interrupted or stopped. I have to bring to your notice the invaluable services rendered by the staff to save the city, and I would especially bring to your notice the Assistant Health Officer, Mr. Leask, and the medical men and inspectors. After the appointment of the Plague Committee, the Health Department had still to be called in to perform duties that were dangerous and unpleasant and that no other men would perform. Even the municipal horse ambulances, once so abused, became in favor again before the year was out, and people often preferred them; and for long distances they were always used.

TABLE SHOWING THE NUMBER OF CART-LOADS OF KUTCHRA BURNT AT THE GARLICK INCINERATOR IN 1897.

Appendix A.

Government Observatory, Colaba, Bombay.

AGGREGATE AND MEAN VELOCITIES AND RELATIVE FREQUENCY OF DIFFERENT WINDS, 1897.

TABLE showing for the year 1897 the Sums of the Velocities, and the Mean Velocities, in miles per hour, of the Winds which blew in each Month, from each of the Sixteen Principal Directions, and also the number of hourly Observations which those sums comprise; the latter numbers indicating the Relative Frequency of the same Wind (as to directions) in the several months, and of different Winds during the same Month.

1897.	N.			NNE.			NE.			ENE.			E.			ESE.			SE.			SSE.

2.—LICENSE DEPARTMENT.

1. I am happy to state that as regards revenue, I am able, this year, to present a report much more satisfactory than that of the last year, though the times through which Bombay had to pass during the period under report, were no way less critical or less disastrous than last year, owing to the recrudescence of plague in the City.

2. I annex a tabulated statement showing the amount of fees collected under each head of licensable trades for each of the months of the year under report.

3. The income from all these up to 31st March last, including Rs. 4,642 collected for 1896-97 during 1897-98, was Rs. 63,741-8-0, that is, Rs. 3,741-8-0 in excess of the budget estimate. The outstanding balance is now hardly Rs. 300, and I hope to collect it within a few days.

4. This satisfactory revenue is the result of honest hard work of my staff both indoor and outdoor, and I have every reason to be satisfied with the way in which all have discharged their respective arduous duties.

5. Five thousand seven hundred and fifty licenses for 1897-98 were issued up to 31st March last, against five thousand four hundred and sixty-five licenses issued for the previous year.

6. The number of prosecutions conducted during the year, against persons for carrying on trades, subject to licenses, without licenses, or for infringing the conditions thereof, amounted to 2,115 against 2,339 instituted during 1896-97.

7. I cannot conclude this report without expressing my great sorrow for the death of the late Sub-Inspector, Mr. Krashna Balu, whose loss will, no doubt, be felt by this department for a very long time. His service, extending over thirty years, was not only very creditable to him, but was indeed very beneficial to the Municipality.

A.

DeLisle Road Sheep Market	2,415	3,570	1,155	...	Half-yearly.
Total ...	46,734	47,205	1,187	716	

2. The total amount of market fees (exclusive of departmental squatters' fees and those recovered from the contractors) collected during the year under report from all the markets on the basis of the scale shown above amounted to Rs. 1,37,898 against Rs. 1,42,598-8-0 in the previous year, showing a decrease of Rs. 4,700-8-0, which is partly due to vacancy of stalls. The decrease would have been very large, as an abatement of one month's rent in the first quarter of the year, amounting to Rs. 9,192, was allowed in some of the markets as per Standing Committee's Resolution No. 14700 of 31st March 1897; but the financial results were greatly redeemed by the high bids for the pens at the DeLisle Road Sheep Market and the stalls in the new Bhuleshwar Market which were all put up to auction during the year under report. The following is the explanatory statement, which will show in detail the abatement of one month's rent allowed, as also the difference in stall

rents on account of the total or partial vacancy of stalls or the difference on account of the subsequent alterations in stall rents :—

Name of Markets.	Annual rent recoverable as based on the quarterly or half-yearly rents as appearing at the opening of the year.	Difference in collection of rents during the year on account of rise or fall in rents.		Difference in collection of rents during the year on account of total or partial vacancy of stalls.	Decrease on account of abatement of one month's rent.	Net Increase.	Net Decrease.	Actual amount recovered during the year (difference of columns 2, 7 and 8).	REMARKS.
		Increase.	Decrease.	Decrease.

4. The squatters' fees, scale fees, and the fair ground rent and feeding fees recovered from the contractors during the year under report amounted to Rs. 81,045 against Rs. 99,055 in the previous year, showing a deficit of Rs. 18,010. Taking into consideration the state of business in the markets, which had been very slack throughout the year on account of the plague, I consider the total amount realized fair. In the following statement is contrasted in detail the amount recovered during the year under report with those in the previous four years :—

Particulars.	1893-94.	1894-95.	1895-96.	1896-97.	1897-98.	Difference as compared with 1896-97.	
						Increase	Decrease.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Fort Market	1,500	1,650	1,650	1,650	1,500	...	150
A. C. Beef and A. C. Fish and Mutton Markets ...	7,000	7,325	7,325	7,325	5,200	...	2,125

Increase over preceding year's amount	...	2,510	3,240	7,430	...		
Decrease over preceding year's amount	1,100	...	...	...	18,010		

5. The squatters' fees collected departmentally during the year amounted to Rs. 2,423-7-6 against Rs. 2,767-13-0 in the previous year, showing a deficit of Rs. 344-5-6. The following is the detailed statement:—

Names of Markets.	1896-97.	1897-98.	Difference.	
			Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Fort Market...	1 14 0	55 12 0	53 14 0	.....
A. C. Fruit and Vegetable Market	169 3 0	227 12 6	58 9 6	.....
Erskine Road Fruit and Vegetable Market ...	933 9 9	1,169 13 9	236 4 0	...
Bhuleshwar Market ...	1,655 0 3	921 2 3	.....	733 14 0
Pedder Market	2 0 0	.....	.....	2 0 0
Foras Road Market ...	0 4 0	2 12 0	2 8 0	.....
Colaba Market	5 14 0	46 3 0	40 5 0	.....
Total ...	2,767 13 0	2,423 7 6	391 8 6	735 14 0

6. It will be observed on reference to the above statement that the large item of decrease is in the collection from the Bhuleshwar Market. This is due to many vegetable dealers, who were the daily squatters in the old Bhuleshwar Market, having taken up stalls in the new market on the quarterly rentals.

7. The revenue from other sources, comprising the following heads, was Rs. 2,384-2-6 against Rs. 5,255-12-6 in the previous year, as detailed against each head in the following statement:—

Particulars.	1896-97.	1897-98.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Verifying weights and measures	1,800 12 0	1,817 4 0	16 8 0	.....
Garden produce	68 15 9	24 1 0	.....	44 14 9
Prices current	188 7 0	156 10 6	.....	31 12 0
Sale proceeds of meat or animals seized under section 412 (2) ...	30 0 0	25 9 0	.....	4 7 0
Contributions from private market owners	3,076 0 0	258 0 0	.....	2,818 0 0
Sale proceeds of manure ...	58 0 0	77 10 0	19 10 0	... ..
Recovery of gas	15 0 0	15 0 0	.....	.....
Fee for producing office records	.....	10 0 0	10 0 0	.....
For attending courts, inspection fees, &c. ...	15 0 0	.....	.....	15 0 0
Miscellaneous	3 9 9	.....	.....	3 9 9
Total ...	5,255 12 6	2,384 2 6	46 2 0	2,917 12 0

8. The decrease of Rs. 2,818 in contribution from private market owners is due to all the private markets having been licensed for the first time during the year under report, and the license fees for the whole year in advance recovered from each of them as per the scale fixed by the Corporation in lieu of the monthly contribution. These fees, amounting to Rs. 4,691, have been credited under the head of "License fees."

Slaughter Fees, Butchers' License Fees, &c.

9. The total collection under these heads amounted to Rs. 1,50,251-8-0 against Rs. 1,45,763-12-0 in the previous year, showing an increase of Rs. 4,487-12-0, as detailed below:—

Particulars.	1896-97.	1897-98.	Increase.	Decrease.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Slaughter fees	1,28,014 12 0	1,28,679 8 0	664 12 0	.....
License fees	11,779 0 0	15,909 0 0	4,130 0 0	.....
Carriage of meat for Commissariat contractor ...	48 0 0	48 0 0	.....	.....
Ground rent	66 0 0	72 0 0	6 0 0	.....
Chawl rent	2,476 0 0	2,138 0 0	.....	338 0 0
Revenue from toddy trees	.....	40 0 0	40 0 0	.....
Total ...	1,42,383 12 0	1,46,886 8 0	.....	.....
Amount paid direct into the Chief Accountant's Office	.....	.....	.....	.....
Rent from the Commissariat Department ...	3,000 0 0	3,000 0 0	.....	.....
Do. Brigadier-General	200 0 0	200 0 0	.....	.....
Proceeds of blood from the contractor K. D. Framji	180 0 0	165 0 0	.....	15 0 0
Total ...	3,380 0 0	3,365 0 0		
GRAND TOTAL ...	1,45,763 12 0	1,50,251 8 0		

10. The increase of Rs. 4,130 in license fees in the above statement is due to all the private markets having been licensed for the first time during the year under report, as explained in para. 8. The other item of increase is under the head "Slaughter fees," and it is due to a greater number of animals (sheep and goats) slaughtered for Bombay markets during the year under report than in the preceding year, as shown below. The increase would have been very large, but the greater part of the increase was absorbed by a heavy reduction in the number of cattle slaughtered. In Appendix **A** is shown in detail the number of animals slaughtered, removed for private slaughter &c., each

month during the year under report, and the amount of fees levied thereon :—

Description of Animals.	1896-97.	1897-98.	Increase.	Decrease.
	Rs.	Rs.	Rs.	Rs.
Buffaloes	2,689	2,498	...	191
Cows, bullocks, and calves ...	35,166	29,143	...	6,023
Sheep and goats	4,52,969	5,41,641	88,672	.....

11. Thus the total collection under all the heads detailed above amounted to Rs. 3,74,017-2-0 against the previous year's collection of Rs. 3,95,440-13-6 and the estimated amount of Rs. 3,88,000, which is exclusive of the probable cost of feeding charges (about Rs. 20,000) paid out of the fair ground rent and feeding fees recovered from the Bandora contractor. The following is the general abstract :—

Particulars.	1897-98.			1896-97.		
	Rs.	a.	p.	Rs.	a.	p.
Stall rents	1,37,898	0	0	1,42,598	8	0

Miscellaneous	.....			3	9	9
Revenue from toddy trees, Bandora ...	40	0	0	.....		
Total ...	3,74,002	2	0	3,95,440	13	6

12. It will be observed, on reference to the above, that the decrease under all the heads amounted to Rs. 21,438-11-6, and the cause for the same has been explained in the foregoing paras. under the respective heads. The following table will show the revenue of each of the last 10 years:—

	Rs.	a.	p.
1888-89	3,22,517	6	8
1889-90	3,29,170	3	9
1890-91	3,48,106	5	7
1891-92	3,63,781	8	3
1892-93	3,77,527	4	6
1893-94	3,80,324	13	5
1894-95	3,92,261	13	0
1895-96	4,03,356	12	8
1896-97	3,95,440	13	6
1897-98	3,74,002	2	0

13. During the year under report 2,764 buffaloes, 35,600 horned cattle, and 627,312 sheep and goats were brought on the Bandora Fair ground for examination, out of which 263 buffaloes, 3,711 horned cattle, and 49,675 sheep and goats were found unfit for slaughter on inspection, and were consequently rejected as detailed below. The remainder were either slaughtered for the markets or were otherwise disposed of, the details of which are shown in Appendix **A**:—

Month.	Animals presented for examination.			Animals rejected.		
	Buffaloes.	Horned cattle.	Sheep and goats.	Buffaloes.	Horned cattle.	Sheep and goats.
1897.						
April	150	2,779	36,439	7	224	2,675
May	167	3,478	55,067	17	596	3,917
June	281	2,214	55,365	32	425	6,115
July	298	2,252	51,443	38	371	4,742
August	337	2,433	50,768	40	320	5,919
September	262	2,548	60,477	30	287	5,989
October	260	3,108	60,967	31	141	5,966
November	211	2,740	53,268	19	236	3,413
December	240	3,317	57,311	16	382	2,084
1898.						
January	191	3,890	51,428	16	312	3,128
February	178	3,285	46,304	8	175	3,104
March	189	3,556	48,475	9	242	2,623
Total	2,764	35,600	6,27,312	263	3,711	49,675

Refunds.

14. The total amount of refunds for which certificates were granted on account of slaughter fees in respect of the animals which were removed from the slaughter-houses compound for shipping requirements was Rs. 811-8-0, the details of which are as under :—

Number of cows or bullocks removed.	Amount of refund.	Number of sheep and goats removed.	Amount of refund.	Total amount of refund.
	Rs. a. p.		Rs. a. p.	Rs. a. p.
14	70 0 0	1,483	741 8 0	811 8 0

15. A few remarks on the introduction of the refund system for the first time are here necessary. Since no slaughter fee is leviable under the Municipal Act and the Bye-laws on all those animals that are not to be slaughtered within the Bombay Harbour, the parties applying for the removal of animals from the slaughter-houses compound for shipping requirements were exempted from the payment of the usual amount of the slaughter fee in all previous years. This right was abused by several unlicensed fadkaries and other individuals who had made it their business to apply for the removal of animals under the pretence that they were to be used as sea-stock on voyage and then to dispose of them to private individuals, thus evading the slaughter fee of Rs. 5 on each head of cattle and eight annas for sheep or goat. In order to put a stop to this practice the present system has been introduced, the object of which is to allow the removal of animals on payment of the usual fees, which to be refunded on application and on the production of a written certificate from the officers commanding the vessels to the effect that the animals in question were received on board the ship to be used as sea-stock. In the year 1895-96, 89 cattle and 2,820 sheep and goats and in 1896-97, 61 cattle and 4,980 sheep and goats were allowed to different parties free of any fee against those shown in the above statement, to which may be added about 600 animals the applications for which are under inquiry. These figures speak for themselves that the new refund system is a check to a great extent over the illicit slaughter, and clearly show to what extent the Municipality was defrauded in the two previous years.

16. The quantity of unwholesome food destroyed during the year under report as unfit for human consumption, under the provisions of sections 415 and 416 of the Act, was 120,901 lbs. against 1,22,075 lbs. in the previous year, as detailed below :—

Description of articles.	Quantity in lbs. destroyed in 1897-98.	Quantity in lbs. destroyed in 1896-97.	Remarks.
Mutton	60,758	48,247	Destroyed at Bandora.
Beef	7,458	34,132	
Mutton	2,338	1,384	Destroyed in Bombay.
Beef	25,130	11,277	
Fish	14,276	19,793	
Fruit	4,163	1,980	
Vegetables	741	322	
Corn	36	...	
Sweetmeat	84	...	
Coorla beef	5,817	4,854	
Pork	100	86	
Total ..	120,901	122,075	

17. In Appendix **B** is shown in detail the convictions obtained for bringing diseased meat from Coorla in contravention of section 412 and for the infringement of the other sections of the Act and the Bye-laws during the year under report. The total amount of fines inflicted was Rs. 1,014 against Rs. 416 in the previous year.

General Remarks.

18. During the year under report the fruit and vegetable supply was plentiful and cheap. The beef and mutton supply was also fairly good. The following figures will show the quantity and varieties of fruit imported into the Bombay markets during the year under report compared with those in the previous year:—

Articles.	Number of baskets in 1897-98.	Number of baskets in 1896-97.
Pomegranates	8,668	7,231
Moosoombi	11,978	2,669
Apples	5,183	2,123
Mangoes	5,862	522
Oranges	9,602	.....
Grapes	2,355	2,626

19. The new Bhuleshwar Market was completed and occupied from 1st May 1897. It has in all 164 stalls, which were all put up to auction by the Municipal Auctioneers, Messrs. Meherji, Johnstone & Company, as is invariably done on the opening of a new market. The competition at the sale was very keen, both among the old stall-holders and the outsiders, and the bids went up very high. The total amount per quarter thus realized was Rs. 4,024 for all the stalls, being an average of about Rs. 24-8-0 per stall against the average of Rs. 13 in the old market. But in the following quarter more than half the number of stalls was vacated in consequence of their high rentals, and they were all again put up to auction departmentally, with the result that they fetched much less amount than the original rentals. Even at the close of the year many stalls remained vacant, and there were no buyers for them even at less rentals, as most of their customers in the neighbourhood of the market had left Bombay on account of the plague. Since an abatement of one month's rent was sanctioned to be allowed to the stall-holders of the old market, they were allowed to occupy their stalls free of rent for the month of April 1897 in the old market.

20. There is no occasion for me to dwell upon the difficulties with which I had to contend during the year under report in again having to keep all the stall-holders of the various markets in the city in hand on account of the plague, as the Commissioner is well aware of the same. During the trying period in question, I have to bring to the notice of the Commissioner that Messrs. Saunders and Evans, of the Bandora Abattoires, performed their duties most satisfactorily. Mr. Sullivan, the Meat Inspector, and the Sub-Inspectors have also worked well. The Head Clerk and Accountant, Mr. Burjorji Rastamji, of this office has been of great assistance to me in the performance of his duties during the year under report.

Appendix A.

STATEMENT showing the number of animals slaughtered, removed for private slaughter, &c., during the year 1897-98.

Description of Animals.	Months.												Total number of animals.	Total amount of slaughter fees.		
	April 1897	May 1897	June 1897	July 1897.	Aug. 1897	Sept. 1897	Oct. 1897	Nov. 1897	Dec. 1897	Jan. 1898	Feb. 1898	Mar. 1898		Rs.	a.	p.

5.—REPORT ON THE WORKING OF THE MUNICIPAL HOSPITAL FOR INFECTIOUS DISEASES AT ARTHUR ROAD FOR THE YEAR 1897.

I.—The present report is the fifth of a series of reports in connection with the Arthur Road Hospital since the appearance of plague in this city. The first was the annual report of the hospital for the year 1896, and covered the first *three months only* of the first epidemic of 1896-97, *viz.*, October, November, and December 1896. The second was a special report on plague, comprising a period of about five months—from the 24th September 1896 to 28th February 1897—the period during which plague administration was under the Municipality. The third dealt with the term of plague administration under General Gatacre's Committee—March to June 1897. The fourth was a report submitted to the Plague Committee under Sir James Campbell's administration, and comprised a period of nine months—from July 1897 to March 1898. Thus the various reports treat of the two epidemics in short and broken periods, and it is not possible to trace from them either the beginning, rise, and decline of the two epidemics or to collect facts and figures connected therewith for comparison. It is proposed therefore in the following pages to take a general, if brief, review of the two epidemics in so far as they bear upon the work of this hospital, to bring the statistics up to date, and to contrast their ratios of mortality. The report under the circumstances covers more than the period of twelve months, and practically extends over 18 months—from 1st January 1897 to 30th June 1898. The work of the institution has been incessant and continuous since September 1896, and what with plague, cholera, and relapsing fever there has been neither pause nor respite. In fact, no other epidemic diseases' hospital in Bombay, or for a matter of that in this presidency, has had to deal with such a large number of patients and such a variety of maladies. In order to cope with this extra work, the medical, subordinate and the ward staff had from time to time to be considerably augmented, so much so that the total staff at one period numbered over 130 persons.

The number of patients in the hospital varied from time to time. The largest number on any single day during the last epidemic was 350 ; of these, plague numbered 200 and relapsing fever 120.

II.—*Grounds and Buildings.*

The hospital provided accommodation for about 120 patients during the early part of 1897. This was repeatedly extended, so that eventually space was available for 500 beds. In February and March 1897 a large temporary ward was erected to accommodate about 70 patients. Two other wards—100′×20′ with a 6′ veranda all round—were put up in December 1897, and as relapsing fever increased, three more wards of a similar pattern were constructed on the piece of vacant land to the north of the hospital. Besides these, extensive alterations and additions were made to the permanent wards. Indian patent stone flooring was laid down in one of the permanent wards, and new wooden and mat frames with glazed windows were substituted for the old matting. The dead-house and the cook-room were enlarged temporarily; a *pucca* dhobie ghât was constructed at the back of the compound; washing platforms of blue stone and cement were put up in connection with the stand-pipes and the water-closets in the permanent wards. Additional quarters to accommodate 12 more nurses were erected, so as to provide sufficient accommodation for 21 nurses. Temporary quarters for 40 servants and 16 sweepers were also put up beyond the newly-constructed relapsing fever wards. Two new gateways were made in the north wall—one leading from the dead-house to the public road, and another connecting the main hospital with the relapsing fever wards. The height of the compound wall was increased; repairs and painting were also carried out. All the buildings were kept in a state of perfect repair and order. The front compound was laid out as a garden with flowering and foliage plants, palms, flowerbeds, &c.

III.—*Conservancy and Water-supply.*

Latrines were constructed in connection with the new temporary wards, cesspools attached to them, and all the excreta were emptied into a night-soil cart kept for the purpose and removed from time to time.

The system of water-supply was considerably altered. The old small connections were replaced by a new 4″ main, which now supplies all the flushing tanks, stand-pipes and fire hydrants, while connections were laid down in the main compound as well as alongside the new extensions.

IV.—*Medical Staff, Establishment and Nursing.*

(*a*) Since the death of Dr. Davada in May 1897, I continued to discharge the duties of the Chief Medical Officer up to December,

except for a short interval during illness, when Drs. Dadihalker and Sorab C. Hormusjee acted for me.

The work having considerably increased during the latter part of the year, Dr. D. S. Fraser was appointed Assistant Medical Officer in December. Dr. P. R. Pilgaokar soon afterwards kindly volunteered his services, and just as in the first epidemic, so in the second, he very zealously and ably assisted and relieved me of a portion of the duties. Dr. Pilgaokar's voluntary services have extended altogether over a period of about eight months—three months during the first and five during the second epidemic. No doubt the Municipal Corporation will suitably recognise Dr. Pilgaokar's philanthrophic and humane work. Drs. Treasurywalla and T. F. Pearse were added to the staff in February 1898, thus bringing up the number of Medical Officers to five.

(*b*) *Hospital Assistants.*—The number of hospital assistants was increased from three to six, two being appointed in December and one in March of the present year.

(*c*) *Nursing.*—The nursing arrangements were taken over from the Sisters of All Saints by the lady nurses sent out from England for plague work, and whenever required their number was supplemented by locally trained nurses. The largest number of nurses working at one time at this hospital exceeded 25. Accommodation for local nurses was provided in the hospital compound. Almost all the English nurses have at one time or another been attached for duty at the hospital for varying periods. Amongst those that have worked the longest may be mentioned Miss Robinson (lately Lady Superintendent), Misses Wheatley, Harris, Mill, Green, Dawson, Boyd, and the late lamented Miss MacDougall, as also Mrs. Potts, Miss Phillips, and Miss Macdonald Ritchie. All these lady nurses have displayed great zeal and efficiency, and one of them (the late Miss MacDougall) sacrificed her life in the discharge of these dangerous and onerous duties.

Amongst the local nurses may be mentioned Mrs. Baker, Mrs. Simpson, Mrs. Manning, Mrs. Moore, Mrs. Nesbitt, Miss Goulden, and Bai Thakubai. All these have worked no less efficiently, and have shown a praiseworthy devotion to their duty that reflects much credit on the training they have received in this city.

(*d*) *Ward Servants.*—The number of ward servants and other establishment had to be considerably augmented, first during the cholera epidemic, and subsequently during the second plague epidemic, so much

so that the total establishment, which numbered 33 in June 1897, was more than quadrupled in February 1898.

Establishment in June 1897—	*Establishment in Feby. 1898—*
1 Chief Medical Officer.	1 Chief Medical Officer.
3 Hospital assistants.	1 Honorary Medical Officer.
12 Ward boys.	3 Assistant Medical Officers.
3 Ayahs.	6 Hospital assistants.
3 Cooks.	1 Clerk.
1 Dispensary servant.	1 Compounder.
4 Police ramosees.	55 Ward boys.
5 Male sweepers.	14 Ayahs.
1 Female sweeper.	20 Male sweepers.
	9 Female sweepers.
33 Total.	5 Cooks.
	4 Dhobies.
	1 Dispensary servant.
	1 Mali.
	1 Bhisti.
	6 Police ramosees.
	8 Ambulance bearers.
	137 Total.

As the second plague epidemic declined and the number of patients gradually decreased, the establishment was and is being proportionately reduced.

V.—Medical History of the Year 1897-98.

In January 1897 the first epidemic of plague was steadily encroaching upon and affecting almost all the districts in the city; it attained its height during the middle of February, began to decline during March, and practically disappeared by the end of June. But just as the plague was beginning to subside, two other epidemic diseases, *viz.*, cholera and relapsing fever, appeared. The former remained more or less stationary during April, May and June, and then suddenly broke out as an epidemic early in July; it continued throughout August and September, declining towards the end of the latter month, only a few cases being admitted in October and November. The period of the cholera epidemic coincided with the interval between the first and the second plague epidemics.

Relapsing fever appearing early in April, steadily advanced up to November, and then concurrently with the second plague epidemic it assumed epidemic proportions, attacking the weakly and the underfed—in fact, practically those very classes of people that were so severely stricken with plague. The admissions from relapsing fever increased *pari passu* with those of plague, so that during the height of the

epidemic in February and early March 1898, when the largest number of plague patients came to hospital, the admissions from relapsing fever were also in large proportions. During April the admissions showed a considerable falling off. The admissions during May and June have increased considerably, and cases still continue to be admitted. Thus it appears that although the plague visitation appeared in the form of two epidemics with a clearly defined interval, and cholera appeared and disappeared within a few weeks, relapsing fever, which made itself evident in April 1897, still continues, notwithstanding that 15 months have elapsed since its first appearance. It looks as if the experience of 1878-79-80 was to be repeated in 1897-98, and possibly 1899, for the fever which was brought into the city by the famine immigrants in 1877-78 continued to show itself and its influence was felt considerably on the fever mortality of the city for nearly three years at that period. It is probable that it may similarly linger on during the present and possibly next year until the poison thoroughly wears itself out.

Turning now to plague, after the decline of the first epidemic at the end of June, it is noticed that the two following months, July and August, the months during which cholera prevailed, showed only 13 and 11 admissions respectively. Then came a period of slow but steady increase during September, October, and November, when the admissions were 33, 31, and 52 respectively, and it might therefore be reasonably assumed that the life-history of the second epidemic commenced in the early days of September 1897. These three months therefore constitute the first period of the second epidemic. Relapsing fever also showed a marked rise during the above period. The mortality rate from July to November, *i. e.*, the period of interval and the first period of the second epidemic, varied between 50 to 66 per cent., thus indicating clearly that although the number of cases was not large, the virulence of the plague poison had not abated to any material extent. The four following months—December 1897 and January, February, and March 1898—might be considered the rising period of the second epidemic. It was during these months that the admissions were highest, the type most severe, and the mortality extremely high. The worst period of the epidemic extended from the last week in January to the middle of February, then a temporary lull ensued, lasting about a week or so, to be followed by a further enhancement until the decline commenced at the end of March. During this period relapsing fever assumed grave and epidemic proportions, the number of admissions being the largest in January, February, and March. During April, May, and June the epidemic has been steadily declining, and by the end of June it may be stated that plague as an epidemic had practically ceased, a few sporadic cases here and there indicate its lurking presence from time to time. That the second plague epidemic was more virulent in its type, and consequently more fatal in its results, than the first can scarcely be denied, and it was further complicated with the presence of a relapsing fever epidemic.

a combination of double infection in the shape of relapsing fever and plague sometimes existing in the same patient. Very often it was not possible to decide whether the patient was suffering from a malignant form of relapsing fever or plague in which buboes had not sufficient time to develop. Moreover there were many more cases of pneumonic plague, with pneumonia existing as a complication, in a larger number of cases than in the first epidemic. Fatal hæmorrhages were also more common. In fact, the malignancy of the second epidemic can hardly be disputed, and that the results of hospital treatment were not on the whole more disappointing under the circumstances must be attributed to the experience gained in the medical treatment of plague cases, efficient nursing, and the constant care and vigilance exercised over the patients. The period of extreme malignancy was very distressing and the mortality very heavy. Had it not been for an improvement in the latter end of February 1898, the mortality for that month would have exceeded 85 per cent.

Hospital Mortality of the Two Epidemics.

The total number of patients treated during the first and second epidemics was 1,260 and 2,120 respectively. Of the former 868 died, giving a mortality rate of 68·88 per cent. Of the latter 1,502 died, the death-rate being 70·84 per cent. :—

	First epidemic.	Second epidemic.
Number...	1,260	2,120
Died	868	1,502
Recovered	392	618
Percentage of mortality	68·88	70·84

The following table contrasts the mortality rates for the corresponding months of the two epidemics :—

Months.	First epidemic.	Second epidemic.
September	52·23	66·66
October		51·61
November	66·57	50·00
December	74·12	68·68
January...	68·95	72·98
February	81·64	77·87
March	67·35	75·11
April	56·66	49·57
May	38·46	44·98
June	14·38	33·33

From the above it will be noted that a higher rate of mortality has continued through the decline of the second epidemic.

Comparing the mortality rate month by month, it is seen that there are no very striking differences between the two epidemics.

Periods.	First epidemic.	Second epidemic
First period	67·00	62·54
Second period	74·10	75·59
Third period	39·06	42·62

It appears that the mortality during the first period of the first epidemic was higher by nearly 5 per cent., whereas during the second period there was hardly any appreciable difference. The third period is higher by 3 per cent. in the second epidemic.

The following table shows the plague admissions, results, mortality, &c., from September-October 1896 to 30th June 1898 :—

	Number.	Died within 24 hours.	Died within 48 hours.	Total deaths	Recovered.	Percentage of mortality.	Percentage of mortality, excluding deaths within 24 hours.
September-October 1896 ...	88	17	10	46	42	52·23	40·84
November 1896	27	9	3	18	9	66·67	50·00

Total ...	1,837	517	341	1,323	514	72·01	61·06
GRAND TOTAL ...	3,404	967	614	2,384	1,020	70·03	58·15

The following table gives the admissions from the various diseases, and is intended to show their incidence during the period above mentioned; besides infectious diseases it also includes the number of observation cases, that is, patients that were sent to hospital as suspicious cases, but who were found to be suffering from general diseases :—

Months.	Plague.	Relapsing Fever.	Cholera.	Small-pox.	Chicken-pox.	Measles.	Mumps.	Whooping Cough.	Observation.
January 1897 ...	277	...	...	...	...	...	...	...	20
February " ...	365	...	...	...	...	...	...	...	21
March " ...	193	...	1	6	4	1	...	...	15

May " ...	97	101	...	...	...	...	...	...	54
June " ...	12	116	...	1	...	...	...	...	23
Total ...	1,837	741	2	20	50	12	...	1	805
Grand Total...	3,107	1,205	253	73	66	29	2	5	1,173

VI.—Plague.

The total number of plague patients treated up to date amounts to 3,404; of these, 2,384 died and 1,020 recovered, giving a mortality rate of 70·03 per cent. If the moribund cases be excluded, the mortality rate would be 58·15 per cent. The patients were divided into the following castes :—

Castes.	Number.	Died.	Recovered.	Percentage of Mortality.
Hindoos...	2,838	2,032	806	71·59
Mussalmans	236	151	85	63·98
Native Christians	289	180	109	62·28
Parsees	20	7	13	35·00
Bene-Israels	21	14	7	66·66
Total ...	3,404	2,384	1,020	70·03

The mortality amongst the Hindoos was the highest, 71·59 per cent. Mussalmans and Native Christians are about equal, and show a lower rate than the Hindoos by 7 to 8 per cent. The number of Parsee and Bene-Israel patients is too small for purposes of comparison, but the rate of 66·66 per cent. amongst Bene-Israels is striking.

The following tables give the details in each caste, their mortality rate, &c.

Hindoos.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	2,038	1,474	564	72·32
Females	591	425	166	71·90
Children	209	133	76	63·63
Total ...	2,838	2,032	806	71·59

Mussalmans.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	198	122	76	66·61
Females	31	24	7	77·41
Children	7	5	2	71·42
Total ...	236	151	85	63·98

Native Christians.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	207	126	81	60·86
Females	61	41	20	67·21
Children	21	13	8	61·90
Total ...	289	180	109	62·28

Parsees.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	15	5	10	33·33
Females	4	2	2	50·00
Children	1	...	1	.....
Total ...	20	7	13	35·00

Beni-Israels.

Sex.	Number.	Died.	Recovered.	Percentage of Mortality.
Males	10	7	3	70·00
Females	4	3	1	75·00
Children	7	4	3	57·14
Total ...	21	14	7	66·66

Comparison as regards the incidence of mortality among the sexes of the various castes must be limited to Hindoos, Mussalmans, and Christians, the number of Parsee and Beni-Israel patients being too small. The highest mortality rate is among Mussalman females, 77·41, but any deduction that can be drawn is vitiated by the fact that they numbered 31 only amongst 3,404 patients. The death rate amongst Mussalman and Native Christian males is about equal, and nearly 11 per cent. less than Hindoo males. There is hardly any disproportion between males and females amongst Hindoos, the mortality rate being about equal. The mortality rate amongst Hindoo children is 63·63 per cent., nearly 8 per cent. less than amongst males and females, showing a greater power of resistance to the disease among those under the age of 12.

VII.—Relapsing Fever.

The total number of relapsing fever patients treated up to June 30th, 1898, was 1,205; of these 979 recovered and 226 died, giving a mortality rate of 17·75 per cent. If 60 moribund cases be eli-

minated from these, the rate would be 14·49 per cent. The following table shows the admissions, deaths, and recoveries from relapsing fever from April 1897 to June 1898 :—

Months.	No.	Died.	Recovered.
April 1897	7	...	7
May "	12	1	11
June "	23	1	22
July "	15	1	14
August "	24	...	24
September "	54	6	48
October "	57	7	50
November "	82	10	72
December "	190	44	146
Total	464	70	394
January 1898	188	31	157
February "	218	36	183
March "	101	37	64
April "	17	5	12
May "	101	26	75
June "	116	21	95
Total	741	156	585
Grand Total	1,205	226	979

The patients comprised the following castes:—

Castes.	No.	Died.	Recovered.	Percentage of Mortality.
Hindoos ...	1,172	223	949	19·02
Mussalmans ...	17	1	16	5·88
Native Christian ...	16	2	14	12·50
Total ...	1,205	225	979	17·75

As Hindoos formed practically the majority of patients, 1,172 in a gross total of 1,205, their mortality rate gives practically the average of all cases, *viz.*, 19·02 per cent.

As the number of Mussalman and Native Christian patients is so small, no comparison can be instituted between the various castes or the sexes in each.

The following table gives the details of the sexes amongst Hindoos :—

Sex.	No.	Died.	Recovered.	Percentage of Mortality.
Males	884	176	708	19·90
Females	249	43	206	17·26
Children	39	4	35	10·25
Total ...	1,172	223	949	19·02

The mortality rate was highest amongst males, lower by about 3 per cent. amongst females, and lowest in children, *i.e.*, 9 per cent. less than in males.

VIII.—Cholera.

Two hundred and fifty-one patients suffering from cholera were treated during the year 1897, and of these 180 died and 77 recovered, showing a mortality rate of 71·36 per cent. Two cases only have been treated this year up to the end of June, and both of them have recovered.

The following table gives the admissions, deaths, and recoveries by months during the period :—

Months.		No.	Died.	Recovered.
January	1897	...	...	...
February	"	...	...	...
March	"	1	1	...
April	"	8	7	1
May	"	9	8	1
June	"	10	6	4
July	"	111	76	35
August	"	73	56	17
September	"	26	16	10
October	"	8	7	1
November	"	3	2	1
December	"	2	1	1
	Total ...	251	180	71
January	1898	1	...	1
February	"	...	...	...
March	"	1	...	1
April	"	...	...	...
May	"	...	...	...
June	"	...	...	...
	Total ...	2	...	2
	Grand Total ...	253	180	73

The majority of patients attacked with cholera were Hindoos—in all 222 out of a total of 253. The remainder includes other castes as follow :—

Castes.	No.	Died.	Recovered.	Percentage of Mortality.
Hindoos	222	165	57	74·32
Mussalmans	13	4	9	30·76
Native Christians	16	10	6	62·50
Parsees	1	1	...	100·00
Beni-Israels	1	...	1	00·00
Total ...	253	180	73	71·14

The mortality amongst Hindoos was 74·32 per cent. higher than amongst Native Christians and more than double that of Mussalmans.

The details of the Hindoo patients by sex are as follow :—

Sex.	No.	Died.	Recovered.	Percentage of Mortality.
Males	154	118	36	76·62
Females	64	46	18	71·87
Children...	4	1	3	25·00
Total ...	222	165	57	74·32

The mortality amongst males was the highest, 76·62 per cent.; female showed a lower rate by 5 per cent.

IX.—Small-pox.

Fifty-three patients only were admitted during 1897, and of these 46 recovered and 7 died.

Twenty have been admitted up to the end of June 1898, and of these 13 recovered and 7 died.

X.—Chicken-pox.

Sixteen patients were admitted during 1897, and all of them recovered.

Fifty were admitted up to end of June 1898, and all recovered.

XI.—Measles.

There were only 17 cases of measles admitted in 1897, out of which 16 persons recovered and 1 died.

Only 12 have been admitted up to end of June 1898, and of these 11 have recovered and 1 died.

XII.—Whooping Cough and Mumps.

Four cases of whooping cough and 2 of mumps were admitted during 1897. Of the former 2 recovered and 2 died; both of the latter recovered.

XIII.—Observation Cases.

The total number of patients kept under observation was 868 during 1897 and 305 up to the end of June 1898; most of them were transferred to other hospitals after varying periods of detention; some were discharged directly and some died. They suffered from various general diseases, such as malarial fevers, rheumatism, bronchitis, pneumonia, valvular disease of the heart, nephritis, paralysis, burns, injuries, skin diseases, guinea-worm, diarrhœa, dysentery, &c.

XIV.—Statistics for the Year 1897.

Details of the various affections having been already given, it only remains to show in tabular form the work of the hospital for the calendar year 1897 alone. The following list shows the total number of patients and the diseases they suffered from :—

Plague	1,270
Relapsing fever	464
Cholera	251
Small-pox...	53
Chicken-pox	16
Measles	17
Mumps	2
Whooping cough...	4
Observation cases	868
Total ...	2,945

XV.—Conduct of the Establishment.

The conduct of the establishment has been exemplary, and all have worked with praiseworthy zeal during the trying times of the epidemic.

I would specially commend the services of Hospital Assistants Samuel Samson and Pandharinath Bhowanrao, who have worked with me through both the epidemics, and whose zeal, energy, and intelligence have been beyond all praise. I consider them deserving of special recognition for their arduous services. Hospital Assistant Chunilal Chotalal worked at this hospital from March to December, and Hospital Assistant Liladhur Jagjivan has been working since December 1897. They have shown themselves to be thoroughly capable and intelligent hospital assistants, and deserve commendation for their work.

As Hospital Assistant Pandharinath Bhawanrao belongs to the Bombay Subordinate Medical Service, and as his services have been lent to the Municipality for plague work, I have to request the favour of his being specially commended to Government for his zealous and able work at this hospital since October 1896. No other hospital assistant has been so long and so continuously at work, not only in the midst of plague, but also of cholera and relapsing fever. Any recognition that the Government would be pleased to confer upon him will be richly deserved.

N. H. CHOKSY, KHAN BAHADUR,
Extra Assistant Health Officer,
Arthur Road Hospital.

BOMBAY, 5*th July* 1898.

EDUCATIONAL.

REPORT OF THE JOINT SCHOOLS COMMITTEE, forwarded by the Committee's Secretary under his No. 296 of 9th June 1898.

THE JOINT SCHOOLS COMMITTEE'S OFFICE,
MUNICIPAL OFFICE, FORT,
BOMBAY, 10*th May* 1898.

REPORT ON THE ADMINISTRATION OF THE JOINT SCHOOLS COMMITTEE FOR THE YEAR 1897-98.

Personnel of the Committee.

At the commencement of the year the Joint Schools Committee consisted of the following members:—

Appointed by Government.	*Appointed by the Corporation.*
PRINCIPAL J. T. HATHORNTHWAITE, M.A.	A. M. DHARAMSI, Esq., B.A., L.L.B.
NOWROSJEE N. WADIA, Esq., C.I.E.	K. N. KABRAJEE, Esq.
JAVERILAL U. YAJNIK, Esq.	PROFESSOR O. V. MULLER, M.A.
GRATTAN GEARY, Esq.	N. N. KOTHARE, Esq.

It is a matter of great regret that two members of the Committee died during the year—the Hon. Mr. Javerilal Umiashankar Yajnik and the Hon. Mr. A. M. Dharamsi. The Committee placed on record their sense of the great loss sustained by them and forwarded copies of the

resolutions to the families of the deceased, with an expression of heart-felt sympathy in their bereavement.

Mr. Javerilal, who was a Government nominee, was succeeded by Mr. Chimanlal H. Setalwad, and Mr. Ibrahim Rehimtulla was elected by the Corporation a member of the Joint Schools Committee in place of Mr. Dharamsi.

The two senior members, who retired during the year in accordance with section 39 (3) of the Bombay Municipal Act, were Principal J. T. Hathornthwaite and Mr. K. N. Kabrajee, and they were reappointed by Government and the Corporation, respectively.

Mr. Wadia, who had been Chairman of the Joint Schools Committee since the retirement of Mr. R. G. Oxenham in 1894, resigned his office on proceeding to Europe in July last, and was succeeded by Mr. Dharamsi. On the death of Mr. Dharamsi in September last, Mr. Hathornthwaite was elected Chairman in his place.

Finance.

The workable balance at the beginning of the year was Rs. 48,499-7-1. The total receipts for the year amounted to Rs. 1,27,165-9-0, as against Rs. 1,19,435-11-6 for the previous year; while the total expenditure was Rs. 1,22,542-13-1, as against Rs. 1,27,731-11-3 for the year 1896-97. The expenditure was considerably less than the estimate, because, owing to the prevalence of plague, there was no occasion to incur school and other charges to the same extent as in ordinary times.

The average cost per pupil was Rs. 33, as against Rs. 17 in 1896-97, and was distributed as under :—

Teaching	Rs.	20·6
Rent	„	8·9
Miscellaneous	„	3·5
Total Rs.		33

The increase is only apparent, and is to be accounted for by the fact that the total number of pupils in the Municipal Schools this year was about half the number that was on the rolls last year.

The Plague and its Effects.

Owing to the recrudescence of the plague this year, the actual attendance in the Municipal Schools was very considerably reduced, declining

gradually to about 25 per cent. of the normal average. The decrease was particularly noticeable in the Marathi and Guzerati Schools, the Urdoo Schools maintaining, as last year, a very fair average under the circumstances. The schools were practically closed last year for five months on account of the epidemic; but as the exodus of the population was not so extensive during the year under report, and did not commence so early as last year, it was not found necessary to close the schools for any long period, as in the preceding year. The Committee, however, from time to time, ordered the temporary closing of schools where the surroundings were found to be deeply infected, and they further extended by three weeks the usual summer vacation of one month allowed to the Marathi and Guzerati Schools.

Employment of Trained Teachers.

It is gratifying to record that the efforts of the Committee to secure the services of Trained Teachers, especially on the Guzerati side where the want of such teachers is most severely felt, were attended this year with very fair success. The Director of Public Instruction was good enough to obtain, at the Committee's request, the services of two trained females as Head Mistresses of two schools for girls, opened at Dadar and Mahim, as well as of an experienced male teacher for one of the Guzerati Schools. The Committee further observe with much satisfaction that the want of trained females for Guzerati girls' schools has been supplied, to some extent, by four of their female students, who had been sent to the Training College at Ahmedabad, having passed out with the highest certificate of qualification. Similarly one of their male students having passed the Third Year Examination at the Male Training College, has returned to Bombay and been appointed by the Committee to a suitable post. It is hoped that the example of these students will encourage others to go to the Training College and qualify in like manner. The Committee were also able to secure, on reasonable terms, the services of three more certificated Guzerati teachers, who having passed the qualifying test at the Ahmedabad Training College were available for employment in Bombay.

Teaching in Municipal Schools.

As the schools suffered considerably in attendance and regularity during the year, it was impossible that their progress should come up to the average of normal years. It appears, however, from the Annual Reports of the Inspectors that, all things considered, the examination results were not unsatisfactory; and, more than this, there were a few schools which were able to maintain their usual efficiency, in spite of most adverse circumstances. Two of the Mary Carpenter Scholarships, which are open to all the girls attending Primary or Middle Schools in Bombay, were won by pupils of the Municipal Charney Road Girls' School; and two of the Government Middle School Scho-

larships, which are also open to public competition, were obtained by pupils of the Amerchandwadi and Chandanwadi Schools.

New Schools.

The undermentioned new schools were opened during the year :—

Marathi.

1. Sion School.
2. Crawford Market Nirashrit School (for low-castes).
3. Dadar Girls' School.
4. Mahim Girls' School.

Urdoo.

1. Kassab Moholla School.
2. Khara Talao School.
3. Nacoda Mohalla School.

These schools have supplied the educational wants of the localities in which they have been established, and are doing as well as might be expected under the circumstances.

Aided Schools.

Four schools were registered under the Grant-in-aid Code, while fourteen were removed from the register, most of them having ceased to exist on account of the plague. The total number on the register has, therefore, declined from 95 in the year 1896-97 to 85 in the year under report. The total attendance was 5,912, as against 6,877 in 1896-97.

Some of these schools having been proved to have suffered to an especially serious degree from the epidemic, were given the benefit of the rule in the Grant-in-aid Code which provides for a repetition of the grant last earned, if the attendance or efficiency of any school has, through misadventure for which the Managers are not to blame, fallen greatly below the average of previous years.

School Buildings and Accommodation.

The almost insuperable difficulties attending the Committee's efforts to secure good sanitary buildings, perfectly suited for school purposes in the crowded parts of the city, have been noted in previous reports. The only remedy is to have buildings specially constructed for schools, and with that view, the Joint Schools Committee have endeavoured to

interest the Corporation in starting a Building Fund. The Corporation have expressed their readiness to contribute to the fund, from time to time, provided Government co-operate with them. It is matter for regret that the scheme has not yet proceeded beyond the initial stage; but it is hoped that before long a definite agreement will be arrived at between the Corporation and Government.

Next to having buildings of their own, the Joint Schools Committee consider that a good alternative would be to invite private owners to construct them, according to plans and specifications approved by the Committee. Accordingly, the Municipal solicitors were invited to prepare a form of lease on general lines laid down after careful consideration by the Committee. In submitting their draft, the solicitors gave it as their opinion that under the Joint Schools Committee's By-laws, as they stood at present, the Corporation, and not the Committee, had the power to enter into long leases. The Committee thereupon requested the Corporation to effect the necessary modification in the By-law, bearing on this subject, but on the question being referred by the Corporation to Counsel, he gave it as his opinion that, under the provisions of the Municipal Act, the Corporation could not delegate their power to enter into leases of school buildings to the Committee. As it is clear that unless house-owners are granted leases extending over ten or fifteen years, they can scarcely be expected to construct school buildings according to the special requirements of the Committee on moderate terms, the Committee must depend on the generous co-operation of the Corporation in all such cases.

It is, however, satisfactory that in spite of various difficulties, the Committee have been able to induce a land-owner to construct a suitable building for the schools for boys and girls at Dongri—a locality where it was particularly difficult to secure premises adapted to the purpose. The new building, to which the schools have been removed, is commodious, and well lighted and ventilated, having special accommodation for a gymnasium and a small play-ground in front.

Again, the Committee were enabled during the year to remove the Bhuleshwar Boys' School, the Bhuleshwar Girls' School and the Mumbadevi School which were quartered in more or less indifferent premises, to the spacious building erected over the Bhuleshwar Market.

There is also a prospect of having a special building before long for the Churney Road Girls' School. In pursuance of a resolution passed by the General Committee of the Sorabjee Shapurjee Bengalee Memorial Fund, the Honorary Secretaries offered to hand over the balance of the Fund, amounting to about Rs. 25,000, to the Joint Schools Committee for the purpose of providing a building for this school, on condition that it be named after Mr. Bengalee. This offer has been accepted by the Corporation with thanks on the recommendation of the Committee.

Another building in prospect is the Lord Harris School, for which Government have, at the request of the Harris Memorial Committee, agreed to give a site near St. Xavier's College, besides contributing towards the cost of the building. The Government contribution, including the value of the site, is estimated at about Rs. 35,000. It is hoped that the state of the public funds will permit of the building being commenced at an early date.

English Classes in Municipal Schools.

Government having addressed the Committee, from time to time, on the advisability of withdrawing from the maintenance of English classes, these classes have been abolished from 1st April 1897 in the Buddhivardhak, Mumbadevi and Girgaum Schools. There are, therefore, now only five English classes surviving out of eight originally in existence, and these also will be closed as soon as the want is supplied by Government or private agency.

Rehatsek Prizes.

Mr. N. V. Mandlik, Executor of the Rehatsek Estate, gave this year a donation of Rs. 800 for the purpose of giving money prizes to deserving pupils in the Municipal Schools. The gift has been accepted with thanks.

Grain Compensation to Teachers.

Owing to the dearness of food supplies, grain compensation was allowed, under the terms of article 72 of the Civil Account Code, to teachers drawing Rs. 16 per mensem or under, until the close of the year under report.

Retirement of a Teacher.

Mr. Manecklal Dhirajram, Head-Master, Chandanwadi School, after having rendered efficient service for thirty-four years, retired on pension at the end of the year.

The Death-Roll.

The Committee deeply regret that the death-roll among teachers is exceptionally heavy this year. As many as seventeen teachers, of whom four were Head-Masters and one a Head Mistress, died during the year, and four of these were reported to have succumbed to plague. Of these teachers, eight were Mahomedans, five Marathi Hindoos and four Gujerati Hindoos.

School Statistics.

The usual school statistics are given below :—

(*a*)—Classification of schools.

Class of Schools.	1896-97.				1897-98.			
	Marathi.	Gujerati.	Urdoo.	Total.	Marathi.	Gujerati.	Urdoo	Total.
Middle Schools ...	4	4	...	8	3	2	...	5
Primary for Boys...	27	13	9	49	29	12	12	53
Primary for Girls...	7	7	1	15	9	7	1	17
Night Schools	1	5	...	6	1	5	...	6
Total...	39	29	10	78	42	26	13	81

(*b*)—Number of schools and scholars.

Class of Schools.	Number of Schools in 1896-97.	Number of Schools in 1897-98.	Pupils in 1896-97.	Pupils in 1897-98.
Municipal	78	81	6,273	3,075
Aided	95	85	6,877	5,912
Total ...	173	186	13,150	8,987

As the Municipal Schools were entirely closed during the latter months of the official year 1896-97, the attendance was taken from the rolls for December 1896, and not, as would otherwise have been done, from the register for the closing month of the year, *viz.*, March 1897. This accounts for the difference existing between the totals for the last year and the present.

(*c*)—Classification according to sex.

Schools.	1896-97.		1897-98.	
	Boys.	Girls.	Boys.	Girls.
Municipal...	5,109	1,164	2,428	647
Aided	4,043	2,834	3,346	2,566
Total ...	9,152	3,998	5,774	3,213

Besides the pupils attending the Municipal and Aided schools, a large number always attend Private Schools. Being generally poor and of slender resources, many of these schools have been swept away by the plague. It may be mentioned here that the Joint Schools Committee,

having instituted a careful and searching enquiry three years ago into the state of these schools, discovered that in Bombay there were 280 such schools in all, imparting instruction to about 18,000 pupils.

(*d*)—Classification according to race.

Races.	1896-97.—Schools.			1897-98.—Schools.

NANABHAI B. MASANI,
Secretary, Joint Schools Committee.

ANNUAL REPORT

OF THE

MUNICIPAL AUDITORS,

1897-98.

To

M. N. WADIA, Esq.,

Acting Municipal Secretary,

Bombay.

We have the honor to forward herewith our reports on the Municipal Accounts and Joint Schools Committee Accounts for 1897-98 in view to their being printed and placed before the Corporation.

We are,

Sir,

Your obedient Servants,

NANABHAI RASTAMJI RANINA,

A. THOMSON,

Municipal Auditors.

BOMBAY, 30*th September* 1898.

REPORT OF THE AUDITORS OF MUNICIPAL ACCOUNTS FOR THE YEAR 1897-98.

No. 13454. For the audit of the accounts of the year under review, we were appointed Auditors by the Corporation at their ordinary monthly meeting held on the 25th February 1897, by their Resolution quoted at margin.

2. As usual all the vouchers and papers relating to the receipts and disbursements of 1897-98 have been compared by us with the day books and subsidiary ledgers; the general ledger postings have also been checked with the entries in the day books and those in the journal with the subsidiary and general ledgers.

3. The Bank receipts of investments of the different loans, also of Municipal Buildings Fire Insurance, School Building, Worn-out Mains Renewal, and Premia, &c., Funds, as well as Securities from contractors in Government, Port Trust, and Municipal Bonds, deposited with the Bank, and the Bank's pass-books have been examined by us and found correct and to be in order.

4. In accordance with the directions of the Corporation contained in their Resolution passed on the 19th November 1888, which were communicated to the Auditors under the Municipal Secretary's letter No. 5374, dated the 30th idem, all sinking fund investments pertaining to the year were examined, and we certify that they have all been duly and properly made except as explained in the following para.

5. It has been found that in 1897-98 no payment was made towards the sinking fund on account of renewals of existing water mains worn out, though we find at page 24 of the Budget Estimate the provision on this account to the extent of Rs. 25,000 had been made therein. On reference to the Budget Estimate for 1892-93 it is found from a note made therein that the intention at that time was to set aside one lakh of rupees per annum so as to form a fund for the renewal of the existing mains. The circumstances under which the amount provided for in the Budget Estimate has not been invested during 1897-98 will doubtless be explained by the responsible official.

6. In addition to the concurrent audit the weekly statements of receipts and disbursements of municipal funds were examined by us as they were prepared, and prior to their publication in the *Government Gazette*. In addition to the check exercised by us over these statements, we have continued to prepare and submit to the Secretary for the purpose of being laid before the Corporation monthly statements showing totals of receipts and disbursements under each account head as they stood in the subsidiary ledgers at the end of the last week of each month, which totals, as explained in previous reports, were agreed with the aggregate total of each head of account given in the weekly statements of the month as well as of the ledger.

7. Owing to plague charges the auditorial duties continued to be very heavy. A comparison of the account vouchers (including those appertaining to the Journal) with those of the previous year is given below :—

	1896-97. Nos.	1897-98. Nos.
Receipts	21,336	22,217
Disbursements	50,327	53,907
	71,663	76,124

At the time of writing the report the whole of the journal entries have not been audited by us as the postings therein have only recently been completed in the Chief Accountant's office, but some idea of the work yet remaining to be got through by us will be gained when we mention that the number of vouchers posted in the journal is 1,962, *plus* 5,301 which appertain to the accounts of the Plague Committee, which have been adjusted in 1897-98.

8. Following the usual procedure, comparisons will be made below of the receipts and expenditure of the year as compared with those of the previous year, explanations being given of the causes of the differences where these are large.

9. The *total receipts* of municipal revenue from all sources, including water tax and other miscellaneous water works revenue, interest and profit on investments and rebate to current revenue of plague expenses met from revenue in 1896-97 amounted to

Rs. 71,45,560- 8-5 in 1897-98,
against „ 62,08,977-11-2 in 1896-97,

being Rs. 9,36,582-13-3 in excess of the revenue of the previous year.

10. The *total disbursements* from Municipal Funds, including Water Works Account, amounted to Rs. 74,96,969-2-10. Deducting therefrom Rs. 36,478-7-5, as per particulars given at margin, the net total disbursements amounted to... Rs. 74,60,490-11-5 in 1897-98
against ... ... „ 68,62,142- 1-4 „ 1896-97

	Rs.	a.	p.
Municipal Buildings Fire Insurance Fund.	2,000	0	0
Interest realized on do. ...	1,356	0	10
Interest realized on Worn-out Mains Renewal Fund	15,768	9	8
Interest realized on Net Premia Fund ...	15,376	6	10
Do. do. on School Building Fund ...	977	6	1
	36,478	7	5

being Rs. 5,98,348-10-1 in excess of the disbursements of the previous year.

11. The *opening cash balance* on the 1st April 1897 stood at Rs. 29,76,552-15-10, which sum, *plus* the gross receipts of the year, gives Rs. 1,01,22,113-8-3 against the gross disbursements of

Rs. 74,96,969-2-10, thus leaving a credit balance of Rs. 26,25,144-5-5 on 31st March 1898, which is Rs. 3,51,408-10-5 less than in the previous year.

12. *General Tax.*—(Budget estimate Rs. 18,27,765). The total receipts under this head, comprising House, Police, Lighting and Fire Brigade rates, and including the annual contribution from Government of Rs. 98,374, and from the Port Trust of Rs. 1,52,482 amounted to Rs. 20,56,286-1-11 in 1897-98
against „ 18,54,966-5- 0 in 1896-97

being Rs. 2,01,319-12-11 greater than the receipts of the previous year, due to the recovery of outstandings of previous years, as also to expansion of revenue.

13. *Wheel Tax and Tolls.*—(Budget estimate Rs. 3,74,500). The net realizations under this head amounted
to Rs. 3,46,837-15-3 in 1897-98
against „ 2,46,681- 5-6 in 1896-97

being Rs. 1,00,156- 9-9 more than the receipts of 1896-97 due to recoveries of outstandings of previous years.

14. *Town Duties.*—(Budget Estimate Rs. 9,13,000.)
Gross collection Rs. 17,09,956- 3- 1 in 1897-98
„ „ „ 15,33,743-15- 4 in 1896-97

being Rs. 1,76,212- 3- 9 more than the gross receipts of the previous year as per particulars given below, due to larger imports of sugar and wines and spirits :—

	1897-98.			1896-97.			Difference.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
Port Trust Collections	14,50,235	9	10	12,45,672	1	1	2,04,563	8	9
B. B. & C. I. Ry. „	64,555	6	0	59,600	4	0	4,955	2	0
G. I. P. Ry. „	1,95,165	8	3	2,28,471	10	8	—33,306	7	0
	17,09,956	3	1	15,33,743	15	4	1,76,212	3	9

15. *Refund of Town Duties*—

In 1897-98 Rs. 7,58,532-2-0
„ 1896-97 „ 8,88,600-3-0

being Rs. 1,30,068-1-0 less than the refunds of the previous year. It is impossible to estimate the amount of refunds to be paid annually, the amounts being dependent primarily on the quantity of goods exported to outstations.

16. *Commission and Charges* for collecting Town Duties were paid as under :—

Budget Estimate		1897-98.	1896-97.	Difference.
Rs.		Rs. a. p.	Rs. a. p.	Rs. a. p.
39,700	Port Trust...	43,484 13 1	44,698 6 10	1,213 9 9
9,400	G. I. P. Ry.	7,223 14 11	8,924 8 3	1,700 9 4
3,400	B. B. & C. I. Ry....	1,994 1 0	2,288 0 0	293 15 0
52,500		52,702 13 0	55,910 15 1	3,208 2 1

The amount provided for in the budget estimate for 1897-98 was Rs. 500 in excess of the amount provided in 1896-97, in which year the amount in the revised estimate was put down at Rs. 60,454-5-4 while the actuals amounted to Rs. 55,910-15-1 as shown above.

17. *Summary of Town Duties*—

		1897-98.	1896-97.
Gross Collections	Rs.	17,09,956 3 1	15,33,743 15 4
Less—Refund, Commission, Audit, &c., Charges...	„	8,21,339 15 0	9,54,006 2 1
	Rs.	8,88,616 4 1	5,79,737 13 3

18. *Licenses*—

Budget Estimates.	Particulars.	Realizations.	
		1897-98.	1896-97.
Rs.		Rs. a. p.	Rs. a. p.
60,000	(*a*) Dangerous and offensive trades	64,078 8 0	56,165 8 0
3,400	(*b*) Streets and Buildings ...	3,340 0 0	3,055 0 0
25,600	(*c*) Land conveyance, music, &c.	21,344 4 0	14,864 14 0
89,000		88,662 12 0	74,085 6 0

The expenditure incurred during the year under item (*a*) amounted to Rs. 15,928-5-5, and under item (*c*) to Rs. 10,338-10-10, leaving a net revenue of Rs. 48,150-2-7 and Rs. 11,005-9-2, respectively, under those heads.

19. *Liquor Licenses.*—The usual fixed amount of Rs. 1,43,750 was paid by Government in the month of April 1897, in accordance with Section 63, Act V of 1878.

20. *Tobacco Duty.*—(Budget Estimate, Rs. 2,07,250). The net receipts under this head, collected through the Collector of Customs, amounted to Rs. 1,89,323-6-9 in 1897-98 against Rs. 1,82,867-4-3 in 1896-97, which is Rs. 6,456-2-6 more than the recoveries of the

preceding year. The increased budget provision of Rs. 17,750 over the estimate for 1896-97 was due to the increase anticipated by the Collector of Customs whose anticipations have not been wholly realized.

21. *Halalkhor Tax.*—(Budget Estimate Rs. 7,06,000).

Net recovery for 1897-98 ... Rs. 7,35,485- 4- 7
Do. 1896-97 ... „ 6,88,485-11-11

being Rs. 46,999- 8- 8 more than the receipts of 1896-97.

22. *Water Tax and other Miscellaneous Water Tax Revenue.*—(Budget estimate, Rs. 14,67,000).

Net realization Rs. 13,29,851-15-7 in 1897-98
against „ 13,98,410- 0-2 in 1896-97

being Rs. 68,558- 0-7 less than in the previous year.

23. In addition to the realizations above given, the sum of Rs. 15,768-9-8 has to be added on account of interest realized on the Worn-out Mains Renewal Fund, and Rs. 3,869-4-3 on account of interest on the Net Premia Fund Investment.

24. The total expenditure on account of Water Works, including New Works, Interest and Sinking Fund on Loans, &c., amounted to Rs. 16,84,069-15-8 in 1897-98
against „ 16,05,991- 1-4 in 1896-97, which shows an increase of

Rs. 78,078-14-4, as compared with the expenditure of the previous year.

25. The total expenditure on account of Water Works above given, when compared with the receipts of the year, shews an excess over the latter of Rs. 3,34,580-2-2.

Expenditure ...Rs. 16,84,069-15-8
Receipts ... „ 13,49,489-13-6
Rs. 3,34,580- 2-2

The excess over receipts in 1896-97 was Rs. 1,89,867-6-3.

26. *Markets and Slaughter-Houses*—

Budget Estimates.	Particulars.	1897-98.	1896-97.
		Rs. a. p.	Rs. a. p.
3,68,000	Receipts	3,47,537 11 9	3,76,803 5 10
1,81,325	Expenditure	1,50,745 11 6	1,40,269 8 6
	Net Income... ...	1,96,792 0 3	2,36,533 13 4

27. The net results of the year show that the receipts exceeded the expenditure by Rs. 1,96,792-0-3, as compared with the pervious year's receipts and expenditure ; the net income is less by Rs. 39,741-13-1.

28. *Public Gardens Income.*—(Budget Estimate, Rs. 8,000). The receipts as compared with those of the previous year were as under :—

1897-98	...	...	...	...	Rs. 5,589-10-1
1896-97	...	...	...	...	„ 7,740- 2-0
					Rs. 2,150-7-11

which gives a reduced revenue of Rs. 2,150-7-11 for the year as against Rs. 71-13-11 in 1896-97.

29. *Maintenance of Public Gardens.*—Victoria Garden.—(Budget Estimate, Rs. 56,449.)

Actual expenditure in 1897-98	...	Rs. 48,981-11-10
Do. in 1896-97	...	„ 48,806-14- 5
	being Rs.	174-13- 5 more

than the previous year.

30. The expenditure during 1897-98, on account of the Victoria Garden, excluding cost of new works* exceeded the receipts of that year by Rs. 43,392-1-9 against Rs. 41,066-12-5 of the previous year.

* Rs. 15,538-0-4.

31. *Maintenance of the remaining Eight Gardens.*—(Budget Estimate, Rs. 9,108.)

Expenditure in 1897-98	...	...	Rs. 6,926-15-10
Do. in 1896-97	...	...	„ 8,391-12- 4
		being Rs.	1,464-12- 6 less than

the expenditure of the previous year.

32. The aggregate expenditure on all the gardens, including new works, amounted to Rs. 71,446-12-0, which is Rs. 11,134-9-4 more than the aggregate expenditure of the previous year.

33. *Miscellaneous Fines and Penalties.*—(Budget Estimate, Rs. 11,000.)

Actual receipts in 1897-98 ...	...	Rs.	8,686- 7-3
Do. in 1896-97 ...	...	„	11,509-15-3
	i.e.,	Rs.	2,823- 8-0 less than

the receipts of the previous year.

34. *Miscellaneous Receipts.*—(Budget Estimate, Rs. 1,30,000.)

Actual receipts in 1897-98	...	Rs.	1,44,971- 3- 0
Do. in 1896-97	...	„	1,18,678- 8- 8

which is Rs. 26,292-10- 4 more than the receipts of the previous year.

35. *Miscellaneous Fees.*—(Budget Estimate, Rs. 50,000.)

Actual receipts in 1897-98	...	Rs. 31,283-11-2
Do. in 1896-97	...	„ 40,665-15-9

i.e., Rs. 9,382- 4-7 less than the receipts of the previous year.

36. *Miscellaneous Savings.*—(Budget Estimate, Rs. 3,500.)

Savings in 1897-98	...	Rs. 12,420- 7- 8
„ in 1896-97	...	„ 5,196-11-10

i.e., Rs. 7,223-11-10 more than the savings of the previous year, which is due to forfeiture of wages of labourers who had not applied for the same within the prescribed time.

37. *Tramway Rent.*—(Budget Estimate, Rs.48,500).

Receipts in 1897-98	...	Rs. 49,025-15-4
Do. in 1896-97	...	„ 47,427- 8-4
Difference...		Rs. 1,598- 7-0

The excess of receipts is due to the doubling of the tram line at Kalbadevi Road.

38. *Contribution from Municipal Servants towards Pension Fund.*—(Budget Estimate, Rs. 20,000.)

Receipts in 1897-98	...	Rs. 18,963- 3- 2
Do. in 1896-97	...	„ 19,653-12-10
Difference ...		Rs. 690- 9 -8

The difference is due to arrears of pension contribution having been received in 1896-97 from some old employés who were specially admitted to the benefit of the fund.

39. *Sale Proceeds of Unserviceable Articles of Tools and Plant, &c.*—(Budget Estimate, Rs. 5,000.) There have been no realizations under this head, against Rs. 1,811-13-9 in 1896-97 as the sales were effected late in the year and the realizations accounted for in 1898-99. It is believed that the old method under which unserviceable stores were disposed of has been replaced by a new system, by which it is probable better prices will be realized in the future.

40. *Actual Profit on Sale of Stores to Contractors, &c.*—(Budget Estimate, Rs. 5,000.) The amount realized under this head is Rs. 7,168-9-10, against Rs. 8,447-1-4 in 1896-97. The difference is trifling and hardly requires explanation.

41. *Interest and Profit on Investments of Surplus Loan and other Balances.*—(Budget Estimate, Rs. 1,50,000.)

	Rs.	a.	p.
Realizations in 1897-98	1,29,643	11	0
Do. in 1896-97	1,99,256	1	7
Decrease... Rs.	69,612	6	7

The decrease would appear to be due to investable funds not being available to the same extent as in the preceding year.

42. *Interest on Sinking and Insurance Funds Investments—*

Budget Estimate.	Particulars.	1897-98.			1896-97.		
		Rs.	a.	p.	Rs.	a.	p.
75,600	5, 4 and 3½ per cent. Municipal Loans Sinking Fund Investment	76,963	10	2	63,734	8	0
1,290	Municipal Buildings Fire Insurance Fund Investment	1,356	0	10	1,118	8	0
14,900	Worn-out Mains Renewal Fund Investment	15,768	9	8	12,957	1	6
15,580	Investment of net premia, &c., received on different Municipal Loans... ...	15,376	6	10	13,343	1	7
1,230	School Building Fund	977	6	1	.....		
1,08,600		1,10,442	1	7	91,153	3	1

43. *Net premia on the 2nd instalment of 5¾ lakhs of the 15¾ lakhs Loan.*—The sum of Rs. 20,000 was provided in the budget estimate as the amount of anticipated premia on the amount of the loan that it was intended to raise in 1897-98. But as the loan was not floated owing to financial difficulties, the amount of income of the year has been decreased by the corresponding amount.

44. *Workshops.*—The receipts and expenditure on account of work executed are as under :—

	1897-98.			1896-97.		
	Rs.	a.	p.	Rs.	a.	p.
Receipts	1,16,267	5	8	1,00,217	6	2
Add—Outstandings	6,967	9	1	14,061	3	3
	1,23,234	14	9	1,14,278	9	5
Deduct—Expenditure	1,22,083	11	5	1,05,216	13	2
Profit ...	1,151	3	4	9,061	12	3

The reduced profit is due to the sum of Rs. 5,400 having been paid to Government in excess of payment of previous years for ground rent.

45. The outstandings of the year compare favorably with those of the previous year. Out of the sum of Rs. 6,967-9-1 shewn as outstanding in 1897-98, the sum of Rs. 6,225-14-4 represents the value of *incomplete* works and comprises the following items :—

	Rs.	a.	p.
Public Health Department	5	15	11
Drainage Department	2,168	1	5
Executive Engineer's Department ...	3,689	10	7
Water Works Department	20	9	4
Public Gardens...	19	1	3
Plague Department	332	7	10
Rs.	6,235	14	4

46. *Private Works*—The amounts expended and those recovered on account of private works are as under :—

	1897-98. Rs.	a.	p.	1896-97. Rs.	a.	p.
Receipts	73,156	1	7	30,882	9	7
Deduct—Outstandings of previous year	48,359	7	5	2,540	2	6
Actual receipts for the year...	24,796	10	2	28,342	7	1
Add—Outstandings	1,13,314	10	6	48,359	7	5
Total Receipts for the year ...	1,38,111	4	8	76,701	14	6
Deduct—Expenditure	1,34,462	5	1	73,113	12	10
	3,648	15	7	3,588	1	8
Excess recoveries	242	0	5	593	9	6
Total profit during the year ...	3,891	0	0	4,181	11	2

47. *Departmental Works*—

	1897-98. Rs.	a.	p.	896-97. Rs.	a.	p.
Receipts	1,27,316	1	8	1,33.792	4	4
Deduct—Outstandings of previous year	2,095	15	1	19,187	8	2
	1,25,220	2	7	1,14,604	12	2
Add—Outstandings	3,764	13	8	2,095	15	1
Total receipts for the year... ...	1,28,985	0	3	1,16,700	11	3
Total expenditure for the year ...	1,28,985	0	3	1,16.700	11	3

48. From the figures given in the preceding two paras it will be observed that the unadjusted outstandings aggregate Rs. 1,17,079-8-2, and it would seem that the sum of Rs. 1,13,314-10-6 is more than should be allowed to remain unrecovered.

49. *General Superintendence—*

Budget Estimates.	Sub-heads.	1897-98.			1896-97.		
Rs.		Rs.	a.	p.	Rs.	a.	p.
58,682	Corporation and Standing Committee Establishment	54,825	14	9	54,624	2	11
54,116	Municipal Commissioner's Personal Office Establishment	73,270	13	2	54,903	1	0
35,625	General Office Establishment	30,271	9	6	33,871	8	11
64,614	Accounts and Expenditure Audit Establishment	56,423	8	0	57,142	2	0
2,13,037		2,14,791	13	5	1,99,640	14	10

The excess over the expenditure of 1896-97 is Rs. 15,150-14-7, due principally to increase under the head "Municipal Commissioner's Personal Office Establishment," which was caused principally by the payment to the Deputy Commissioner from 3rd March 1897.

50. *Assessment and Collection Department—*

Budget Estimates.	Sub-heads.	1897-98.			1896-97.		
Rs.		Rs.	a.	p.	Rs.	a.	p.
1,50,704	Property and Wheel Tax Establishment.	1,44,000	14	2	1,40,734	13	5
52,500	Port Trust and Railway (Town Duty Departments)	52,702	13	0	55,910	15	1
2,016	Tolls Collection	1,988	0	0	1,680	0	0
30,778	Licensing Establishment	26,367	0	3	24,071	7	1
25,944	Revenue and Refund Audit Office Establishment	25,528	13	1	25,761	13	10
2,61,942		2,50,487	8	6	2,48,159	1	5

The expenditure of the year exceeded that of the preceding year by Rs. 2,328-7-1 only, due in a measure to increase in cost of "Licensing Establishment" and "Property and Wheel Tax Establishment."

51. *Fire Brigade.*— (Budget Estimate, Rs. 1,20,898.)

Expenditure in 1897-98	Rs.	1,18,507-12-0
Do. in 1896-97	„	1,07,653-13-0
Difference ...	Rs.	10,853-15-0

The expenditure incurred in 1897-98, it will be observed, was Rs. 10,853-15-0 more than in the previous year.

52. The additional ½ per cent. tax on account of Fire Brigade charges realized the sum of Rs. 1,20,960-14-1 during the year.

53. The total revenue from the tax levied on this account has, as has been shown in previous reports, exceeded the expenditure, and in the year under report the revenue has again exceeded expenditure by Rs. 2,453-2-1.

54. *Engineer's Department—*

Budget Estimate.	Sub-heads.	1897-98.	1896-97.	Difference.
Rs.		Rs. a. p.	Rs. a. p.	Rs. a. p.
49,340	General Supervision and Miscellaneous Duties	48,996 8 11	49,736 8 5	—739 15 6
1,29,371	Drainage—Miscellaneous Drainage	1,13,229 0 7	1,20,546 13 6	—7,317 12 11
94,823	„ Maintenance of Love Grove Pumping Station	96,646 1 5	89,953 4 3	6,692 13 2
4,200	„ Sluices	4,019 0 8	3,832 7 2	186 9 6
32,608	„ Colaba Pumping Station	21,332 2 1	23,133 13 6	—1,801 11 5
2,42,013	Water Works Maintenance	2,48,285 3 8	2,16,042 2 8	32,243 1 0
85,652	Streets and Buildings—Inspection and Supervision	76,136 5 4	82,358 3 6	—6,221 14 2
2,84,031	„ „ Public Lighting	2,63,812 1 11	2,59,274 13 2	4,537 4 9
80,400	„ „ Road Watering	72,987 8 2	91,352 0 2	—18,364 8 0
3,71,900	„ „ Roads, Foot-paths, &c.	3,70,183 4 7	3,29,779 3 10	40,404 0 9
1,02,500	„ „ Street Improvements	1,16,540 2 1	1,03,994 0 10	12,546 1 3
38,642	Cleaning, Lighting, and Repairing Port Trust Wharves, Roads, &c.	38,642 0 0	38,642 0 0	Nil.
15,75,570	3	14,70,809 7 5	14,08,645 7 0	62,164 0 5

The most noticeable increases, as compared with the expenditure of the previous year, were under the following heads:—

(*a*) Water Works Maintenance.
(*b*) Roads, Footpaths, &c.
(*c*) Street Improvements.

Under (*a*) the increase was due principally to the cost of strengthening the Kasheli Embankment on the Tansa Duct. Under (*b*), due to less expenditure incurred in 1896-97 on road repairs, owing to scarcity of labour in that year caused by plague. Under (*c*) the amount of amended budget grant amounted to Rs. 1,20,388-5-8, which includes Rs. 12,500, additional grant sanctioned by the Corporation, and Rs 5,388-5-8, the amount of lapsed grant for 1896-97 renewed by the Standing Committee. The actual expenditure of the year has therefore fallen below the budget grant by Rs. 3,848-3-7.

55. *Hospitals.*—

Budget Estimates.	Sub-heads.	1897-98.	1896-97.
Rs.		Rs. a. p.	Rs. a. p.
36,000	Goculdas Tejpal	33,426 9 10	32,101 0 7
3,000	Jaffer Sulleman	3,000 0 0	3,000 0 0
18,000	Matunga Leper Asylum	17,806 14 4	18,000 0 0
57,000		54,233 8 2	53,101 0 7

Though, as compared with the expenditure of 1896-97, there has been a slight increase, the actuals are well within the budgetted amount. The slight increase calls for no comment.

56. *Mahaluxmi Dhobiwada*—(Budget Estimate, Rs. 34,653.)

	1897-98.	1896-97.
Receipts	Rs. 16,779 0 0	17,021 10 0
Expenditure	„ 19,186 4 2	31,263 13 6
Difference	Rs. 2,407 4 2	14,242 3 6

From the figures above given it will be observed that the expenditure yet remains greater than the receipts. As compared with the previous year there has been a decrease in expenditure amounting to Rs. 12,077-9-4, due to a change in the system of charging for departmental water supply, under which the bills of only nine months have been adjusted in the accounts for 1897-98.

57. *Milch Cattle Stables and Rooms*—(Budget Estimate, Rs. 10,933.)

	1897-98.	1896-97.
Receipts	Rs. 15,671 0 5	15,345 7 2
Expenditure	„ 7,768 2 9	9,724 8 5
Actual Profit	Rs. 7,902 13 8	5,620 14 9

The expenditure of the year has been less than that of the preceding year, while the receipts have exceeded those of the same period. The net profit has been Rs. 7,902-13-8.

58. *Police charges.*—The amount provided on this account in the budget estimate was Rs. 5 lakhs, which sum was paid to Government. The actuals of 1896-97 amounted to Rs. 5,51,589.

59. *Health Department*—

Budget Estimates.	Sub-heads.	1897-98.	1896-97.	Difference.
Rs. a. p.		Rs. a. p.	Rs. a. p.	Rs. a. p.
13,34,380 0 0	General Supervision and Conservancy	12,82,906 13 5	11,63,036 8 10	1,19,869 4 7
1,81,826 0 0	Markets and Slaughter Houses	1,50,745 11 6	1,40,269 8 6	10,476 3 0
20,958 0 0	Registration of Births and Deaths	20,513 5 0	18,768 1 4	1,745 3 8
8,559 0 0	Cemeteries	22,609 11 7	7,511 13 9	15,097 13 10
660 0 0	Laboratory	327 7 9	342 12 3	— 15 4 6
34,653 0 0	Mahaluxmi Dhobivada	19,186 4 2	31,263 13 6	—12,077 9 4
2,483 0 0	Infectious Diseases	68,339 6 0	16,513 14 1	41,825 7 11
10,933 0 0	Milch Cattle Stables and Rooms	7,768 2 9	9,724 8 5	—1,956 5 8
6,180 0 0	Tank Conservancy	5,989 7 6	5,955 8 10	33 14 8
877 0 0	Rastamji Jamsedji Dharmsala	184 4 3	177 11 6	6 8 9
17,284 0 0	Vaccination Contribution to Government	17,084 13 7	16,302 11 2	782 2 5
16,24,742 0 0		15,85,654 7 6	14,09,367 0 2	1,76,787 7 4
20,000 0 0	*Less* anticipated savings.			
16,04,742 0 0				

In addition to the expenditure under the above heads the following items were expended under the undermentioned heads :—

(*a*) Erecting temporary stables for the segregation of cattle suffering from foot and mouth disease, Rs. 503-10-2.

(*b*) Inspecting milch cattle and stables in the City during the prevalence of foot and mouth disease, Rs. 474-13-5.

It is noteworthy that in the estimate for 1897-98 the sum of Rs. 1,05,000 was specially provided to meet the excess cost of feeding bullocks, &c., which has been distributed proportionately under the heads " General Supervision and Conservancy, Markets and Slaughter-Houses and Cemeteries."

The preceding remark explains the great difference under the three heads indicated as compared with the expenditure of 1896-97.

The excess of Rs. 41,825-7-11 under the head " Infectious Diseases" was due to extra establishment and medical comforts entertained at, and supplied to, the Arthur Road Hospital, consequent on the large number of plague patients treated there.

60. *Cost of Special Sanitary Measures for the suppression of Plague.*—Out of the several grants sanctioned by the Corporation in 1897-98 to meet the extraordinary charges in connection with the plague, the sum of only Rs. 5,00,000 has been debited to that head owing to provision to that extent having been made in the budget for 1898-99, *vide* Introductory remarks therein. The difference between this sum and the actual expenditure has been shown in statement No. 3 with Chief Accountant's Report under the head " Loan Works Plague Charges." The sum thus shown *plus* the 5 lakhs shown under " Plague Charges" in 1896-97 and 1897-98 will make up the total expenditure adjusted against that head up to 31st March 1898.

61. *Miscellaneous—*

Budget Estimates.	Sub-heads	1897-98.			1896-97.		
Rs.		Rs.	a.	p	Rs.	a.	p.
50,000	Pensions, Gratuities, &c.	70,096	0	7	58,600	12	0
7,000	Discretional Contingencies	5,686	5	3	3,982	10	6

					146	1	9
33.	Grain compensation to Police Ramoseo employed by the Health Department in December 1897... ...				7	8	0
	Total... Rs.				5,686	5	3

The additional grant sanctioned by the Corporation on account of grain compensation is Rs. 83,940, and the lapsed grant renewed by the Standing Committee Rs. 607-1-3, making a total of Rs. 84,547-1-3; the actual expenditure has therefore been covered by the sanctioned grants.

62. *Education*—

Budget Estimates.	Sub-heads.	1897-98. Rs.	a.	p.	1896-97. Rs.	a.	p.
Rs.							
72,478	Primary Education...	72,478	0	0	59,135	0	0
1,800	School for Deaf and Dumb Mutes ...	1,800	0	0	1,800	0	0
2,500	Veterinary College	2,500	0	0	2,500	0	0
11,594	Victoria and Albert Museum	10,130	8	9	10,287	8	4
10,000	Victoria Jubilee Technical Institute ...	10,000	0	0	10,000	0	0
6,036	Joint Schools Committee's Establishment.	5,715	1	11	5,166	0	8
.....	School Building Fund	.....			50,000	0	0
1,04,408	Total ... Rs.	1,03,623	10	8	1,38,888	8	7

No provision on account of School Building Fund was made in the budget estimate for 1897-98. The total amount including interest standing to the credit of the School Building Fund on 31st March 1898 was Rs. 50,977-6-1.

The usual report on the audit of the accounts of the Municipal School Funds is appended.

63. *Special and Extraordinary Works—*

Budget estimate, Rs. 99,841. Amended estimate Rs. 2,86,022

Expended in 1896-97	Rs.	1,47,003-5-9
„ 1897-98	„	1,39,577-4-7

The new works executed during the year and their cost under major heads are given below :—

	Rs.	a.	p.
Drainage Miscellaneous Works	64,509	14	5
Water Works	27,281	10	7
Streets and Buildings	1,942	9	8
Sanitary and other Miscellaneous Works ...	45,843	1	11
Rs.	1,39,577	4	7

The noticeable items of expenditure under the above heads are :—

	Rs.	a.	p.
(*a*) Purchase of electrolisers and working of the same at Carnac Bunder	29,796	3	11
(*b*) Cost of the old boiler-house, portable engine-house, the shred-lifter room, &c.... ...	15,600	0	0
(*c*) Plastering and pointing the walls at Bhundarwada Reservoir	22,066	2	3
(*d*) Making improvements to the chawls occupied by Butchers' peons at Bandora Slaughter-Houses	9,080	10	4

The sum of Rs. 7,426-1-2 has been less expended in 1897-98 than in 1896-97 ; the reduction was however not so noticeable as in 1896-97 when compared with the expenditure of 1895-96.

64. *Loan Works—*

		Rs.	a.	p.
Expended in 1896-97		9,24,927	13	5
„ 1897-98		29,57,603	5	7
	Difference... Rs.	20,32,675	8	2

Loan works summarised :—

	Rs.	a.	p.
Drainage	5,02,935	1	0
Water Works	73,242	8	11
Markets...	41,916	6	0
Fire Brigade	20,896	11	8
Miscellaneous Works	4,06,323	5	0
Roads and Streets	1,49,450	9	5
Plague Charges	17,62,838	11	7
Total...	Rs. 29,57,603	5	7

Against the expenditure above given, the following sums should be deducted, being amounts credited to those heads:—

	Rs.	a.	p.
Drainage	15,600	0	0
Roads and Streets	28,810	12	9

65. *Municipal Debt.*—Particulars in regard to the payments made under this head are given in the Municipal Commissioner's report and do not need to be repeated here.

66. *Personal Accounts of Municipal Officers, &c.*—The amount of permanent advances made to Municipal officers to meet contingent expenditure, also such sums as have been carried to this head pending adjustment, and advances to the Chairman Plague Committee amounted on 31st March 1898 to Rs. 2,27,227-4-3 against Rs. 1,28,814-3-8 on the same date in 1896-97.

67. *Reserve Stock.*—The value of stock on hand on 31st March 1898 was as under:—

	1897-98.	1896-97.
	Rs. a. p.	Rs. a. p.
Executive Engineer	22,418 3 3	8,862 6 2
Drainage "	3,92,659 4 11	3,81,452 13 9
Water "	4,22,005 10 3	4,43,965 5 4
General Stock	66,503 9 4	67,560 3 3
Total... Rs.	9,03,586 11 9	9,01,840 12 6

68. *Income Tax.*—During the year under review the amount of Income Tax recovered by the Chief Accountant from the fees paid to the members of the Standing Committee, and the salaries and wages of Municipal officers and servants from whom the tax is recoverable, also on Wheel Tax, amounted to Rs. 27,839-0-1, of which sum Rs. 27,033-13-4 were paid to the Income Tax Collector, leaving a balance of Rs. 205-2-9 due to Government, which was paid during the current year.

69. *Assets and Liabilities.*—The following figures shew the Assets and Liabilities of the year, as compared with those of the preceding year :—

	1897-98.			1896-97.		
	Rs.	a.	p.	Rs.	a.	p.
Assets	5,66,61,883	12	10	5,56,70,448	8	1
Liabilities ...	4,16,54,268	11	4	3,89,81,231	9	4
Difference ...Rs.	1,50,07,615	1	6	Rs. 1,66,89,216	14	9

70. *Scrutiny of Collectoins and of Outstanding Bills of Rates and Taxes for the year* 1897-98 *and of previous years.*

71. *Collections.*—During the year under report there were issued by the Assessor and Collector 84,291 net demand assessment bills for Property and Wheel Tax of the value of Rs. 38,69,537-6-5, and 2,291 bills for meter hire for the same year of the value of Rs. 13,979-14-2.

The following figures give the particulars of the bills and collection :—

	Rs.	a.	p.	Rs.	a.	p.
84,570 bills for Property and Wheel Tax were issued for 1897-98 of the value of				38,29,398	5	1
2,291 bills for meter hire for 1897-98				13,979	14	2

Total number of bills for 1897-98...				38,83,517	4	7
Add—Government and Port Trust contribution ..	2,50,856	0	0			
Outstandings for 1896-97...	3,12,747	14	6			
				5,63,603	14	6
Total amount to be collected in 1897-98...				44,47,121	3	1
Less—Collection made by the Assessor and Collector	40,38,420	10	8			
Paid by Government and Port Trust	2,50,856	0	0			
				42,89,276	10	8
				1,57,844	8	5
Deduct—Amount of bills recalled, amended, and cancelled for all years from 1888-89 to 1896-97				49,219	3	3
Total outstandings on the 31st day of March 1898 ... ... Rs.				1,08,625	5	2

NANABHAI RASTAMJI RANINA,

A. THOMSON,

Municipal Auditors.

BOMBAY, 30*th September* 1898.

To

M. N. WADIA, Esq.,

Acting Municipal Secretary,

BOMBAY.

SIR,

In accordance with the 137th Section of the Bombay Municipal Act of 1888, we have the honor to forward three Appendices marked A, B, and C, containing the result of our scrutiny of the Outstanding Bills of Rates and Taxes, which were in the hands of Ward Clerks and in the Office of the Assessor and Collector on the 31st day of March 1898.

These Appendices form a part of our Annual Report on Municipal Accounts for the year 1897-98 now under preparation.

We have the honor to be,
Sir,
Your obedient servants,
NANABHAI RASTAMJI RANINA,
A. THOMSON,

Municipal Auditors.

[redacted], *28th July* 1898.

NANABHAI RASTAMJI RANINA,
A. THOMSON,
Municipal Auditors.

BOMBAY, *28th July* 1898.

REPORT ON THE ACCOUNTS OF THE JOINT SCHOOLS COMMITTEE.

In accordance with Bye-law No. 15 of the Joint Schools Committee, we beg to report that we have audited the accounts and examined all the vouchers and papers relating to the receipts and disbursements of the School funds in charge of the Joint Schools Committee from 1st April 1897 to 31st March 1898.

The opening balance on 1st April 1897 (including recoverable advances and excluding deposits) was Rs. 48,499-7-1.

The total receipts of the Joint Schools Committee for the year 1897-98 amounted to Rs. 1,27,165-9-0, against Rs. 1,19,435-11-6 in 1896-97, being Rs. 7,729-13-6 more than in the previous year, due to the Municipal contribution having increased from Rs. 59,135 to Rs. 72,478.

The total expenditure incurred was Rs. 1,22,542-13-1, against Rs. 1,27,731-11-3 in 1896-97, being Rs. 5,188-14-2 less than in the previous year, the reduction being apparently due to absence of teachers and other members of the Staff. The credit balance was Rs. 53,122-3-0, being Rs. 4,622-11-11 in excess of the preceding year.

Certain suggestions which have been made to the Secretary in the matter of the accounts will be acted on in future.

We have found the accounts to be neatly and correctly kept, which reflects credit on the book-keeper.
